The words and expressions used but not defined in this Draft Red Herring Prospectus will have the same meaning as assigned to such terms under the Companies Act, 2013, the Securities and Exchange Board of India Act, 1992 (the “SEBI Act”), the SCRA, SEBI (Issue of Capital and Disclosure Requirements) Regulations, 2018 the Depositories Act and the rules and regulations made thereunder.

Notwithstanding the foregoing, terms in “*Main Provisions of the Articles of Association*”, “*Statement of Special Tax Benefits*”, “*Industry Overview*”, “*Regulations and Policies in India*”, “*Financial Information of the Company*”, “*Outstanding Litigations and Material Developments*” and “*Offer Procedure*”, will have the meaning ascribed to such terms in these respective sections.

CERTAIN CONVENTIONS, USE OF FINANCIAL INFORMATION AND MARKET DATA AND CURRENCY OF FINANCIAL PRESENTATION

In this Draft Red Herring Prospectus, the terms “we”, “us”, “our”, “the Company”, “our Company”, “Munish Forge”, “Munish”, “MFL” unless the context otherwise indicates or implies, refers to **Munish Forge Limited**.

CERTAIN CONVENTION

All references in this Draft Red Herring Prospectus to “India” are to the Republic of India. In this Draft Red Herring Prospectus, our Company has presented numerical information in “lakhs” units. One lakh represents 1,00,000.

FINANCIAL DATA

Unless stated otherwise, the financial data in this Draft Red Herring Prospectus is derived from our Restated Financial Statements of our Company for Financial Year ended March 31, 2024, March 31, 2023, March 31, 2022 and for the period ended December 31, 2024, prepared in accordance with IndAS, the Companies Act and restated in accordance with the SEBI (ICDR) Regulations, Guidance Note on “Reports in Company Prospectus (Revised 2019)” issued by ICAI and the IndAS which are included in this Draft Red Herring Prospectus, and set out in “**Financial Statements as Restated**” on page 241 of this Draft Red Herring Prospectus.

In this Draft Red Herring Prospectus, any discrepancies in any table between the total and the sum of the amounts listed are due to rounding off. All figures in decimals have been rounded off to the two decimal places and all percentage figures have been rounded off to two decimal places and accordingly there may be consequential changes in this Draft Red Herring Prospectus.

Our Company’s financial year commences on April 1 of the immediately preceding calendar year and ends on March 31 of that calendar year, so all references to a particular financial year are to the 12-month period commencing on April 1 of the immediately preceding calendar year and ending on March 31 of that calendar year.

There are significant differences between Indian GAAP and Ind AS. Accordingly, the degree to which the Restated Financial Statements included in this Draft Red Herring Prospectus will provide meaningful information is entirely dependent on the reader’s level of familiarity with Indian accounting practices. Any reliance by persons not familiar with Indian accounting practices, Indian GAAP, IndAS, the Companies Act and the SEBI (ICDR) Regulations, on the Restated Financial Statements presented in this Draft Red Herring Prospectus should accordingly be limited. Although we have included a summary of qualitative and quantitative differences between Indian GAAP and IndAS, our financial statements reported under IndAS in future accounting periods may not be directly comparable with our financial statements historically prepared in accordance with Indian GAAP, including disclosed in this Draft Red Herring Prospectus. You should consult your own advisors regarding such differences and their impact on our financial data.

Any percentage amounts, as set forth in “**Risk Factors**”, “**Our Business**”, “**Management’s Discussion and Analysis of Financial Position and Results of Operations**” on page 35, 151 and 242 and elsewhere in this Draft Red Herring Prospectus unless otherwise indicated, have been calculated on the basis of the Company’s restated financial statements prepared in accordance with the applicable provisions of the Companies Act, IndAS and restated in accordance with SEBI (ICDR) Regulations, as stated in the report of our Statutory Auditor, set out in the section titled ‘**Financial Statements as Restated**’ beginning on page 241 of this Draft Red Herring Prospectus.

For additional definitions used in this Draft Red Herring Prospectus, see the section “**Definitions and Abbreviations**” on page 5 of this Draft Red Herring Prospectus. In the section titled “**Main Provisions of the Articles of Association**”, on page 351 of the Draft Red Herring Prospectus defined terms have the meaning given to such terms in the Articles of Association of our Company.

All statements contained in this Draft Red Herring Prospectus that are not statements of historical fact constitute forward-looking statements. All statements regarding our expected financial condition and results of operations, business, plans and prospects are forward-looking statements. These forward-looking statements include statements with respect to our business strategy, our revenue and profitability, our projects and other matters discussed in this Draft Red Herring Prospectus regarding matters that are not historical facts. Investors can generally identify forward-looking statements by the use of terminology such as “aim”, “anticipate”, “believe”, “expect”, “estimate”, “intend”, “objective”, “plan”, “project”, “may”, “will”, “will continue”, “will pursue”, “contemplate”, “future”, “goal”, “propose”, “will likely result”, “will seek to” or other words or phrases of similar import. All forward looking statements (whether made by us or any third party) are predictions and are subject to risks, uncertainties and assumptions about us that could cause actual results to differ materially from those contemplated by the relevant forward-looking statement.

Forward-looking statements reflect our current views with respect to future events and are not a guarantee of future performance. These statements are based on our management’s beliefs and assumptions, which in turn are based on currently available information. Although we believe the assumptions upon which these forward-looking statements are based are reasonable, any of these assumptions could prove to be inaccurate, and the forward-looking statements based on these assumptions could be incorrect.

Further, the actual results may differ materially from those suggested by the forward-looking statements due to risks or uncertainties associated with our expectations with respect to, but not limited to, regulatory changes pertaining to the our Sector in India where we have our businesses and our ability to respond to them, our ability to successfully implement our strategy, our growth and expansion, technological changes, our exposure to market risks, general economic and political conditions in India and overseas which have an impact on our business activities or investments, the monetary and fiscal policies of India and other jurisdictions in which we operate, inflation, deflation, unanticipated volatility in interest rates, foreign exchange rates, equity prices or other rates or prices, the performance of the financial markets in India and globally, changes in domestic laws, regulations and taxes, changes in competition in our industry and incidence of any natural calamities and / or acts of violence. Other important factors that could cause actual results to differ materially from our expectations include, but are not limited to, the following:

1. General economic and business conditions in the markets in which we operate and in the local, regional, national and international economies;
2. Changes in focus toward the forging industries and Government Policies on forging industry and automobile industry;
3. Any change in government policies resulting in increase in taxes payable by us;
4. Our ability to retain our key managements persons and other employees;
5. Changes in laws and regulations that apply to the forging industry in which we operate.
6. Our failure to keep pace with rapid changes in technology;
7. Our ability to grow our business;
8. Our ability to make interest and principal payments on our existing debt obligations and satisfy the other covenants contained in our existing debt agreements;
9. General economic, political and other risks that are out of our control;
10. Inflation, deflation, unanticipated turbulence in interest rates, equity prices or other rates or prices;
11. Company’s ability to successfully implement its growth strategy and expansion plans;
12. Failure to comply with regulations prescribed by authorities of the jurisdictions in which we operate;
13. Inability to successfully obtain registrations in a timely manner or at all;
14. Occurrence of Environmental Problems & Uninsured Losses;
15. Conflicts of interest with affiliated companies, the promoter group and other related parties;
16. Exchange rate fluctuations that may adversely affect our results of operations, since our sales from exports are denominated in foreign currencies;
17. Any adverse legal proceedings initiated against our company or its promoters, directors and KMP’s;
18. Concentration of ownership among our Promoters; and
19. The performance of the financial markets in India and globally.
20. Our ability to allocate sufficient resources towards research and development activities may impact our capacity to innovate and remain competitive.
21. Any disruption in our manufacturing facilities due to natural disasters, labor strikes, supply chain disruptions, equipment failures, or unforeseen technical issues could significantly impact our production capabilities and, consequently, our revenue and profitability.
22. Changes in customer preferences, demand fluctuations, and evolving market trends may impact our sales and growth. Any downturn in the industries we serve, including the automobile and forging industries, could adversely affect our financial condition.
23. Our business operations require significant capital investment in infrastructure, machinery, technology, and

- skilled labor. Any inability to secure adequate funding or efficiently manage capital expenditure could impact our production capacity, operational efficiency, and long-term growth prospects.
24. As we operate in international markets, our business may be affected by currency exchange rate fluctuations. Adverse movements in foreign exchange rates could impact our revenues, profitability, and overall financial stability.
 25. Our inability to protect our proprietary technologies, processes, and other intellectual property rights could result in unauthorized use or duplication by competitors, potentially affecting our market position and profitability.
 26. Inefficiencies, disruptions, or inadequacies in India and Export logistics & transport infrastructure may impact our ability to procure raw materials and deliver finished products on time, affecting our overall supply chain management and business operations.
 27. Volatility in financial markets, fluctuations in interest rates, equity prices, or investor sentiment may impact our access to capital, borrowing costs, and overall business sustainability.
 28. Our inability to continuously innovate and enhance our product portfolio in response to changing industry standards and customer needs may lead to a loss of market competitiveness and adversely affect our business growth.

For further discussion of factors that could cause our actual results to differ, please see the Section titled “Risk Factors”, “Our Business” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” beginning on pages 35, 151 and 242 of this Draft Red Herring Prospectus. By their nature, certain market risk disclosures are only estimates and could be materially different from what actually occurs in the future. As a result, actual future gains or losses could materially differ from those that have been estimated.

There can be no assurance to investors that the expectations reflected in these forward-looking statements will prove to be correct. Given these uncertainties, investors are cautioned not to place undue reliance on such forward-looking statements and not to regard such statements to be a guarantee of our future performance.

Forward looking statements reflects views as of the date of the Draft Red Herring Prospectus and not a guarantee of future performance. By their nature, certain market risk disclosures are only estimates and could be materially different from what occurs in the future. As a result, actual future gains or losses could materially differ from those that have been estimated. Neither our Company / our directors nor the Book Running Lead Manager, nor any of its affiliates have any obligation to update or otherwise revise any statements reflecting circumstances arising after the date hereof or to reflect the occurrence of underlying events, even if the underlying assumptions do not come to fruition. In accordance with SEBI requirements, our Company and the Book Running Lead Manager will ensure that investors in India are informed of material developments until the listing and trading permission is granted by the Stock Exchange(s).

K. RISK FACTORS

Investors should read chapter titled “**Risk Factors**” beginning on page 35 of this Draft Red Herring Prospectus before taking an investment decision in the Offer. Details of our top 10 risk factors are set forth below:

1. Our existing international operations and our plans to expand into additional overseas markets are subject to various business, economic, political, regulatory and legal risks.
2. The Company is dependent on few numbers of customers for sales. The loss of any of these large customers may affect our revenues and profitability.
3. Our Promoter and Directors play a key role in our functioning and we heavily rely on their knowledge and experience in operating our business and therefore, it is critical for our business that our Promoter and Directors remain associated with us.
4. There are certain discrepancies / errors noticed in some of our corporate records relating to forms filed with the Registrar of Companies and other provisions of Companies Act, 2013. Any penalty or action taken by any regulatory authorities in future for non-compliance with provisions of corporate and other law could impact the financial position of the Company to that extent.
5. Unforeseen natural disasters or man-made incidents could disrupt operations, damage infrastructure, or result in data loss, potentially leading to downtime, increased costs, regulatory penalties, or a loss of investor confidence.
6. We have provided bank guarantees to third parties for business operations and statutory compliance. While these guarantees support business activities, they also expose the Company to financial, operational, and regulatory risks. If materialized, could adversely affect our financial condition.
7. Our company maintains high inventory levels, and any changes in the business model may lead to the scrapping of this inventory.
8. Our Company has a negative cash flow in its operating activities for the nine months period ended December 31, 2024, investing activities for the nine months period ended December 31, 2024, for the financial year ended on March 31, 2024 and March 31, 2023, and Financing activities for the financial years ended March 31, 2024, March 31, 2023 and March 31, 2022, details of which are given below. Sustained negative cash flow could impact our growth and business.
9. Our business depends on our manufacturing facility and the loss of or shutdown of operations of the manufacturing facility on any grounds could adversely affect our business or results of operations. Further, our business involves usage of manpower and any unavailability of our employees or any strikes, work stoppages may have an adverse impact on our cash flows and results of operations.
10. We are exposed to counterparty credit risk and any delay in receiving payments or non-receipt of payments may adversely impact our business, financial condition, cash flows and results of operations.

SECTION III: RISK FACTORS

An investment in Equity Shares involves a high degree of risk. You should carefully consider all the information in this Draft Red Herring Prospectus, including the risks and uncertainties described below, before making an investment in our Equity Shares. In making an investment decision, prospective investors must rely on their own examination of our Company and the terms of this Offer including the merits and risks involved. Any potential investor in, and subscriber of, the Equity Shares should also pay attention to the fact that we are governed in India by a legal and regulatory environment in which some material respects may be different from that which prevails in other countries. The risks and uncertainties described in this section are not the only risks and uncertainties we currently face. Additional risks and uncertainties not known to us or that we currently deem immaterial may also have an adverse effect on our business. If any of the following risks, or other risks that are not currently known or are now deemed immaterial, occur, our business, results of operations and financial condition could suffer, the price of our Equity Shares could decline, and you may lose all or part of your investment. Additionally, our business operations could also be affected by additional factors that are not presently known to us or that we currently consider as immaterial to our operations.

Unless otherwise stated in the relevant risk factors set forth below, we are not in a position to specify or quantify the financial or other implications of any of the risks mentioned herein. Unless otherwise stated, the financial information of our Company used in this section is derived from our restated financial statements prepared in accordance with IndAS and the Companies Act and restated in accordance with the SEBI ICDR Regulations. To obtain a better understanding, you should read this section in conjunction with the chapters titled “**Our Business**” beginning on page 151, “**Our Industry**” beginning on page 118 and “**Management’s Discussion and Analysis of Financial Condition and Results of Operations**” beginning on page 242 respectively, of this Draft Red Herring Prospectus as well as other financial information contained herein.

The following factors have been considered for determining the materiality of Risk Factors:

1. Some events may not be material individually but may be found material collectively.
2. Some events may have material impact qualitatively instead of quantitatively.
3. Some events may not be material at present but may have material impact in future.

The financial and other related implications of risks concerned, wherever quantifiable, have been disclosed in the risk factors mentioned below. However, there are risk factors where the impact may not be quantifiable and hence the same has not been disclosed in such risk factors. Unless otherwise stated, the financial information of the Company used in this section is derived from our financial statements under IndAS, as restated in this Draft Red Herring Prospectus. Unless otherwise stated, we are not in a position to specify or quantify the financial or other risks mentioned herein. For capitalized terms used but not defined in this chapter, refer to the chapter titled “**Definitions and Abbreviations**” beginning on page 4 of this Draft Red Herring Prospectus. The numbering of the risk factors has been done to facilitate ease of reading and reference and does not in any manner indicate the importance of one risk factor over another.

The risk factors are classified as Internal and External for clarity and better understanding.

Foreign Market fluctuations are not a regular occurrence, there is no guarantee that similar downturns will not happen in the future. Any future fluctuations could adversely affect our profitability, operational results, and financial condition.

We intend to continue expanding our presence in international markets by targeting specific countries worldwide. The markets we currently operate in, and those we plan to enter, are diverse and fragmented, featuring varying degrees of economic and infrastructure development, as well as distinct legal and regulatory frameworks. These markets do not function seamlessly across borders as a unified or common market. Managing our growing business across these international markets may demand significant management focus and financial resources. Our multinational operations are exposed to inherent risks, including, but not limited to:

- Entry barriers and challenges in establishing brand recognition.
- Uncertainties in collaborating with new local business partners, including distributors, logistics, and transportation partners.
- Increased costs associated with raw materials and marketing our products in new regions.
- Longer accounts receivable collection periods and greater challenges in collection due to reduced bargaining power in unfamiliar markets.
- Potential foreign exchange and repatriation controls on earnings, exchange rate fluctuations, and currency conversion restrictions.
- The burden of complying with various foreign laws, including delays or difficulties in obtaining government approvals and permits, import and export licenses, and unexpected changes in the legal and regulatory environment.
- Increased distribution and transportation costs.
- Uncertainty regarding product liability.
- Actions that may be taken by foreign governments under applicable trade or other restrictions.
- Difficulties and costs associated with staffing and managing multiple multinational operations.
- Reduced protection for intellectual property rights in some jurisdictions, at reasonable costs or at all.
- Potentially adverse tax consequences, including those related to intercompany pricing for transactions between entities in different tax jurisdictions.
- Credit risk and higher levels of payment fraud.
- Inability to obtain adequate insurance.
- Challenges related to distance, language, and cultural differences, and in establishing business relationships with foreign partners and agencies.
- Political and economic instability, including the risk of political unrest, war, or acts of terrorism in the countries where we operate.

We may face challenges in developing and implementing policies and strategies that effectively manage the risks in each country where we currently do business or plan to expand. If we fail to manage these risks successfully, it could negatively impact our business, operating results, and financial condition. Additionally, we may encounter competition in other countries from companies with more experience in those regions or with international operations in general. If we cannot offer competitive products at attractive price points that resonate with consumers in these markets, we may struggle to compete.

Furthermore, if we are unable to establish a strong brand reputation in international markets, our ability to grow our business may be limited. Expanding into new regions and markets may also expose us to significant liabilities, and there is a risk that we could lose some or all of our investment in these areas. Consequently, this could adversely affect our business, financial condition, and operational results.

2. The Company is dependent on few numbers of customers for sales. The loss of any of these large customers may affect

our revenues and profitability.

Our top ten customers contribute 79.39 %, 80.36 %, 86.81 %, and 88.34 % of our total revenue from operations for the nine months period and financial year ended on December 31, 2024, March 31, 2024, 2023 and 2022, respectively. The details of this concentration are provided in the following table:

**Note: Names of our top 10 Customers have not been disclosed due to lack of receipt of consent and confidentiality reasons*

Our business operations are highly dependent on our customers and the loss of any of our customers may adversely affect our sales and consequently on our business and results of operations. The loss of one or more of these significant or key customers or a reduction in the amount of business we obtain from them could have an adverse effect on our business, results of operations, financial condition and cash flows. We cannot assure you that we will be able to maintain historic levels of business and/or negotiate and execute long-term contracts on terms that are commercially viable with our significant customers or that we will be able to significantly reduce customer concentration in the future. Any decline in our quality standards, growing competition and any change in demand may adversely affect our ability to retain them. We cannot assure that we shall generate the same quantum of business, or any business at all, and the loss of business from one or more of them may adversely affect our revenues and results of operations.

3. Our Promoter and Directors play a key role in our functioning and we heavily rely on their knowledge and experience in operating our business and therefore, it is critical for our business that our Promoter and Directors remain associated with us.

Our success is significantly influenced by the expertise and services of our key managerial personnel. We benefit from the longstanding involvement of our Promoter and Directors, who have played a pivotal role in the growth and strategic direction of our business. Since the inception of the Company, our Promoter and Directors have been actively engaged in day-to-day operations and management. Consequently, our performance is heavily reliant on their continued involvement. If our Promoter and Directors were to become unable or unwilling to continue in their roles, it may be challenging to find suitable replacements within the stipulated time. We also depend on the ongoing contributions of our key executives and senior management for the effective operation and growth of the Company. The loss of any key managerial personnel could lead to difficulties in finding qualified replacements and may result in additional costs related to recruitment and training, which could adversely impact our business operations and expansion efforts.

Furthermore, we do not have key person insurance to mitigate the risk associated with the loss of crucial personnel. Over the years, our Promoter and key managerial personnel have established important relationships with manufacturers, customers, and other stakeholders. The loss of their services could hinder our ability to execute our business strategy, potentially leading to material adverse effects on our business, financial condition, results of operations, and future prospects.

4. There are certain discrepancies / errors noticed in some of our corporate records relating to forms filed with the Registrar of Companies and other provisions of Companies Act, 2013. Any penalty or action taken by any regulatory authorities in future for non-compliance with provisions of corporate and other law could impact the financial position of the Company to that extent.

We monitor compliances with applicable laws and regulations by implementing stringent internal checks and controls. Although we have generally been in compliance with applicable laws, there have been certain instances of discrepancies/errors in statutory filings. Although no regulatory action has been taken against us with respect to the aforesaid non-compliances/errors, there can be no assurance that regulatory action shall not be taken by the relevant authorities against us in the future. In an event such an action is taken, we may be subject to penalties and other consequences that may adversely impact our business, reputation, and results of operation and there can be no assurance that we shall be able to successfully defend any action/allegation raised by such regulatory authorities. Our team meticulously follows a detailed compliance calendar providing for compliances under various applicable laws, including but not limited to the Companies

Act. As we continue to grow, there can be no assurance that deficiencies in our internal controls shall not arise, or that we shall be able to implement, and continue to maintain, adequate measures to rectify or mitigate any such deficiencies in our internal controls, in a timely manner or at all. There may be recurrences of similar discrepancies/errors in the future that could subject our Company to penal consequences under applicable laws. Any such action could adversely impact our business, reputation, and results of operation. The details of non-compliances or delayed filings is given as follows:

- Form CHG-1 have not been filed for following loans reflecting in the financial statements of the Company:
 - Auto Loan taken on July 20, 2018 for Rs. 31.9 Lakhs from ICICI Bank Ltd.
 - Loan taken on February 17, 2023 for Rs. 490.00 Lakhs from IDFC First Bank Ltd.
 - Working Capital Loan taken on June 22, 2023 for Rs. 180.00 Lakhs from IndusInd Bank Ltd.

Post the commencement of Companies (Amendment) Ordinance Act, 2019, the provision for condonation of delay in filing of Form for creation of charge has been done away with. However, company has made due disclosure in the financial statements of the Company wherein secured loan's as stated above has been highlighted in the notes to accounts of Balance sheet.

- Extra Ordinary General Meeting held on March 21, 2016, April 01, 2022, August 17, 2022 and November 15, 2022 are not mentioned in the Annual Return Form MGT-7 filed with the Registrar of Companies. However, the Company has regularized the aforesaid events of Extra Ordinary General meeting that were missed from disclosure in Form MGT-7 of the relevant financial years by inserting the same in the minutes of the meeting.
- Form CHG-4 for satisfaction of one loan amounting to Rs. 22,400/- dated 21/02/1991 having charge ID 90170533 has not been filed by the Company. Since, the Charge is very old the Company does not possess. No-Objection certificate to file the form. However, our Company took various steps to obtain the NOC from the concerned authority, however, we are not able to get any document. The Company is in process of removal of charge from the Index of charge by submission of affidavit, bank statement for closure of loan account physically at Registrar of Companies, Chandigarh. The company is also evaluating submitting documents through Form CRF (Change request form). However, the aforesaid risk of not filing CHG-4 for satisfaction of charge contains no operational or financial risk as the said loan no longer appears in the Financial Statements of the Company.

We acknowledge these oversights and are taking steps to ensure that all future submissions are accurate, complete, and properly authenticated.

Further, Following are the Measures which have been taken to correct such non-compliances:

1. We have now adopted a policy of maker-checker to ensure timely and correct filing of forms and documents.
2. We have developed a detailed calendar with deadlines for each form and key milestones to ensure timely submission.
3. We have prepared checklists to ensure that all necessary forms are filed before deadline and Senior executives are regularly monitoring the timely compliance.

We shall attempt to comply in spirit and in law with all the laws applicable to the issuer company.

5. Unforeseen natural disasters or man-made incidents could disrupt operations, damage infrastructure, or result in data loss, potentially leading to downtime, increased costs, regulatory penalties, or a loss of investor confidence.

Our business operations, financial condition, cash flows, and results of operations are exposed to significant risks arising from natural disasters (such as floods, earthquakes, cyclones, or pandemics) thereby adversely affecting our ability to conduct business efficiently and comply with applicable laws.

A notable instance of such a risk materializing occurred in FY 2014, when widespread flooding across the state of Punjab severely impacted our company's registered office and operational facilities. This natural disaster led to the submersion, mutilation, or complete destruction of key statutory records, including but not limited to:

- Historical financial statements, such as old balance sheets and profit and loss accounts;
- Service tax and Value Added Tax (VAT) returns;
- Minutes of board meetings and general meetings.
- Statutory registers (e.g., register of members, directors, and share transfers other registers); and
- share transfer forms
- Other mandatory documents required to be maintained under the Companies Act, 2013, and other applicable regulations.

In response to this event, the company undertook significant efforts to mitigate the damage by retrieving available documents from public sources, such as the Ministry of Corporate Affairs portal (MCA.gov.in), and other accessible repositories. Despite these efforts, certain records could not be fully recovered, exposing us to potential regulatory scrutiny, delays in compliance processes, or challenges in substantiating past transactions during due diligence, audits or

inspections.

To prevent recurrence of such incidents and strengthen resilience against future disruptions, the company has implemented proactive measures, including:

- Adoption of Regulation 9 of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 (“Listing Regulations”), which mandates the preservation of documents and records in a systematic manner.
- Transition to digitized record-keeping systems with off-site backups to safeguard against physical damage; and
- Establishment of internal protocols to ensure regular updates and secure storage of critical data.

However, the occurrence of similar natural disasters (such as floods, earthquakes, or fires) or man-made incidents (such as cyberattacks, industrial accidents, or acts of terrorism) in the future could disrupt our operations, destroy critical infrastructure, or result in the loss of essential data and records. Such events may involve a higher degree of risk, potentially leading to operational downtime, increased costs for recovery, regulatory penalties, or loss of investor confidence. Consequently, these incidents could adversely impact our business, financial performance, and the future market price of our Equity Shares.

6. We have provided bank guarantees to third parties for business operations and statutory compliance. While these guarantees support business activities, they also expose the Company to financial, operational, and regulatory risks. If materialized, could adversely affect our financial condition.

The Company has provided bank guarantees to third parties, including business partners, government authorities, and other entities, to fulfill business obligations and statutory requirements. While such guarantees are a common business practice, they expose the Company to certain financial and operational risks. If a beneficiary invokes a bank guarantee due to non-performance or other reasons, the Company may be required to make immediate payments, potentially leading to financial strain and liquidity challenges. Additionally, the requirement to maintain margin money or fixed deposits with banks for these guarantees can impact the Company’s working capital and financial flexibility. The Company anticipates that additional guarantees may be required in the future to support business expansion and operational needs. In the event any such guarantees were to materialize or if our guarantees were to increase in the future, our financial condition could be adversely affected. For further information, please see “**Financial Information**” beginning on page 216 of this Draft Red Herring Prospectus.

7. Our company maintains high inventory levels, and any changes in the business model may lead to the scrapping of this inventory.

Company currently maintains a high level of inventory to support its operations. However, if there is a significant shift in the business model or a change in market demand, there is a risk that the existing inventory may become obsolete or unsellable. This could result in the need to scrap or write off a substantial portion of the inventory, leading to financial losses. Additionally, carrying high levels of inventory ties up working capital, reducing liquidity and potentially increasing storage costs. The potential for inventory obsolescence and associated costs could have a negative impact on the company’s profitability and operational efficiency, requiring careful management and flexibility to adapt to market or strategic changes.

8. Our Company has a negative cash flow in its operating activities for the nine months period ended December 31, 2024, investing activities for the nine months period ended December 31, 2024, for the financial year ended on March 31, 2024 and March 31, 2023, and Financing activities for the financial years ended March 31, 2024, March 31, 2023 and March 31, 2022, details of which are given below. Sustained negative cash flow could impact our growth and business.

Our Company had negative cash flows from our operating activities, investing activities as well as financing activities in the previous year(s) as per the Restated Financial Statements and the same are summarized as under:

(Rs. In Lakhs)

Particulars	For the nine months period ended December 31, 2024	For the year ended March 31,		
		2024	2023	2022
Net cash (used in)/ generated from operating Activities	(261.65)	429.63	1,975.79	569.83
Net cash (used in)/ generated from investing Activities	(399.14)	(465.97)	(43.37)	133.35
Net cash (used in)/ generated from financing Activities	983.42	(764.93)	(1,364.26)	(498.71)
Net increase/ (decrease) in cash and cash Equivalents	322.64	(801.26)	568.17	204.48
Cash and Cash Equivalents at the beginning of the period	320.24	1,121.52	553.35	348.36
Cash and Cash Equivalents at the end of the Period	642.88	320.24	1,121.52	552.85

Cash flow of a company is a key indicator to show the extent of cash generated from operations to meet capital expenditure, pay dividends, repay loans, and make new investments without raising finance from external resources. If

we are not able to generate sufficient cash flows in future, it may adversely affect our business and financial operations.

For further details and explanations, please refer to “Management’s Discussion and Analysis of Financial Condition and Result of Operations” beginning on page 242 of this Draft Red Herring Prospectus.

9. Our business depends on our manufacturing facility and the loss of or shutdown of operations of the manufacturing facility on any grounds could adversely affect our business or results of operations. Further, our business involves usage of manpower and any unavailability of our employees or any strikes, work stoppages may have an adverse impact on our cash flows and results of operations.

Our manufacturing facility is exposed to various operational risks, including equipment breakdowns, power supply interruptions, raw material shortages, performance issues, and natural disasters. Other risks include technological obsolescence, labour disputes such as strikes and lockouts, severe weather events, industrial accidents, and the need to adhere to evolving industry standards and government directives. Although the above-mentioned loss or shutdown of operations have not occurred in past but may occur in future which could significantly impact our operational performance, affect our business, financial condition, and overall results.

Additionally, our operations rely heavily on manpower, and we are dependent on the availability and productivity of our employees. Any shortages of employees or work stoppages could adversely affect our cash flows and operational outcomes. We may also face challenges in securing sufficient staff to meet order demands promptly.

We are subject to various laws and regulations related to employee welfare, including minimum wage, working conditions, insurance, and other benefits. Changes in these regulations could impact our operations. Furthermore, disruptions such as strikes, work stoppages, or disputes could negatively affect our business, cash flows, and operational results.

For further details kindly refer to chapter titled “Business Overview” beginning on pages 138, of this Draft Red Herring Prospectus.

10. We are exposed to counterparty credit risk and any delay in receiving payments or non-receipt of payments may adversely impact our business, financial condition, cash flows and results of operations.

We are subject to counterparty credit risk and a significant delay in receiving payments or non-receipt of large payments from our customers may adversely impact our business, financial condition, cash flows and results of operations. Our operations involve extending credit to our customers in respect of sale of our products and consequently, we face the risk of the uncertainty regarding the receipt of these outstanding amounts. There is no assurance that we will accurately assess the creditworthiness of our customers. During the nine months period ended on December 31, 2024 and the Financial Year ended on March 31, 2024, March 31, 2023 and March 31, 2022 our trade receivables were ₹ 3,687.95 lakhs, ₹ 2,087.00 lakhs, ₹ 2,158.21 lakhs and ₹ 2,357.95 lakhs respectively. Further, macroeconomic conditions, such as a potential credit crisis in the global financial system, could also result in financial difficulties for our customers, including limited access to the credit markets, insolvency or bankruptcy. Such conditions could cause our customers to delay payment, request modifications of their payment terms, or default on their payment obligations to us, all of which could increase our receivables.

We are also dependent upon the market for financing, and the inability for us, our customers or our suppliers to obtain and maintain sufficient capital financing, including working capital lines, and credit insurance may adversely affect our, our customers’ and our suppliers’ liquidity and financial condition. If our customers delay or default in making these payments, our profits margins and cash flows could be adversely affected.

11. A high employee attrition rate can significantly disrupt our business operations and hinder overall performance.

Employee turnover can disrupt operations, hinder our ability to scale effectively, and undermine investor confidence. The departure of key personnel may result in the loss of critical knowledge, experience, and relationships that are integral to the company's success. This could lead to delays in product development, operational inefficiencies, and diminished performance, which may negatively affect our financial results and growth prospects. Additionally, a high turnover rate can elevate recruitment and training costs, diverting resources that could otherwise be invested in enhancing business operations. As we move forward with our IPO, ensuring stability within our workforce is crucial to maintaining strong market perception, meeting strategic goals, and driving long-term growth. The attrition rate of employees for the period of nine months ended December 31, 2024 and For the Financial Year ended on March 31, 2024, March 31, 2023 and March 31, 2022 is as follows:

Particulars	For the period ended December 31, 2024	For the Financial Year ended on March 31, 2024	For the Financial Year ended on March 31, 2023	For the Financial Year ended on March 31, 2022

Total Employees at start	536	657	578	741
Employees Left	280	310	217	228
Attrition Rate (%)	52.24%	47.18%	37.54%	30.77%

12. Our manufacturing capacity may not correspond precisely to our customers' demands. An inability to effectively utilize our manufacturing capacities may affect our business, results of operations, cash flows and financial condition.

We believe that our industry knowledge, expertise, and production capabilities position us well to meet our customers' demands, and our manufacturing capacity allows us to expand our potential customer base. However, some customers may require us to maintain a certain percentage of excess capacity to accommodate unexpected increases in supply orders. The volume and timing of sales to our customers can vary due to several factors, including manufacturing strategies, growth plans, and macroeconomic conditions that affect the overall economy and our customers specifically.

If we are unable to procure sufficient raw materials, our current manufacturing capacities may not be fully utilized, leading to operational inefficiencies that could materially impact our business and financial condition. Additionally, if customers place orders below anticipated volumes, cancel existing orders, or change policies in ways that reduce the quantities we supply, our manufacturing capacities could be underutilized.

The following table sets forth annual installed production capacity and annual utilized capacity in respect of different products is tabulated as below:

Particulars	Total 85% Production capacity of 9 months in Tons	Capacity Utilized as of 31- 12-2024		Yearly Installe d Capacit y	Capacity Utilized as of 31st March, 2024		Capacity Utilized as of 31st March, 2023		Capacity Utilized as of 31st March, 2022

We make significant decisions regarding business levels, production schedules, personnel needs, and other resources based on internal estimates and targets, always striving to optimize our production capacity. To achieve optimal utilization, we aim to maintain a tied-up order book for at least six months. While we have generally maintained optimum capacity levels in the past, there is no guarantee that this will continue.

There is also no assurance that our marketing team will successfully persuade existing and potential customers to purchase our products promptly or at all due to reasons such as (i) order cancellations, (ii) customers' financial constraints, (iii) more efficient manufacturing and delivery by competitors, or (iv) our inability to deliver products meeting specific specifications. Occasionally, customers may demand rapid increases in order quantities that exceed our available capacity, and we may not always be able to meet these sharp increases.

Although we strive to achieve and maintain optimal capacity levels, challenges in forecasting customer demand, scheduling raw material purchases, managing production, and controlling inventory could prevent us from consistently achieving these levels. Any resulting underutilization of our manufacturing facilities could negatively impact our business, operational results, cash flows, and financial condition.

13. We have had certain inaccuracy in relation to regulatory filings and our company has made non-compliances of certain provision under applicable law.

In the past, there have been certain instances of delays in filing statutory & regulatory dues **with respect to GST and TDS**. Details of such delays including period of delay, range of delays as per payment dates is tabulated as below:

Financial Year	Number of Times of Delay	Range of Delay (in Days)	Interest/Penalty (In ₹)
GST			
December 2024	Nil	Nil	Nil
2023-24	1	17 days	Nil
2022-23	2	1-5 days	Nil
2021-22	1	4 days	Nil
TDS			
December 2024	Nil	Nil	Nil
2023-24	Nil	Nil	Nil
2022-23	2	3 – 30 days	6,600
2021-22	Nil	Nil	Nil

As a result, the Company has filed returns and payments with delay penalty. However, the Board of Directors of our Company has taken note of these delays in fulfilling our statutory and regulatory obligations. There can be no assurance that delays or defaults with respect to payment of statutory and regulatory dues will not occur in the future, which in turn may affect our reputation and financial results.

14. Our funding requirements and proposed deployment of the Net Proceeds are based primarily on management estimates and assumptions and have not been appraised by any bank or financial institution or any other independent agency. The utilization of the Net Proceeds may be subject to change based on various factors, some of which are beyond our control and such utilisation may not generate expected future revenues or profits after utilisation. Further, any change or variation in the utilization of Net Proceeds from the terms and conditions stated in this Draft Red Herring Prospectus shall be subject to compliance requirements, including among other things, prior Shareholders' approval.

We intend to use the Net Proceeds of the Fresh Issue as indicated in “**Objects of the Offer**” on page 93. We cannot predict whether our planned initiatives will result in increase in efficiency of operations, revenue from operations or an overall increase in profits. Our deployment of the Net Proceeds has been determined primarily on the basis of management estimates, historic expenses and funding patterns for our business, current circumstances of our business and prevailing market conditions, and has not been appraised by any bank or financial institution. Our internal management estimates may exceed fair market value or the value that would have been determined by third-party appraisals. We may have to revise our funding requirements and deployment from time to time on account of various factors beyond our control, such as a change in requirements of business pursuant to a change in consumer behavior, consumer confidence, or consumer preferences, increasing compliance cost due to increasing regulations, change in technological requirements pursuant to changes in technologies, our Board's analysis of business requirements, competitive landscape, economic trends, regulatory landscape as well as general factors that affect our business, results of operations, financial conditions, access to capital such as credit availability, interest rate levels, wars, pandemics and epidemics or any other force majeure events. However, the deployment of the Net Proceeds will be monitored by a monitoring agency appointed pursuant to the SEBI ICDR Regulations. In accordance with Sections 13(8) and 27 of the Companies Act, 2013, we cannot undertake any variation in the utilization of the Net Proceeds without obtaining the shareholders' approval through a special resolution. In the event of any such circumstances that require us to undertake variation in the disclosed utilization of the Net Proceeds, we may not be able to obtain the shareholders' approval in a timely manner, or at all. Any delay or inability in obtaining such shareholders' approval may adversely affect our business or operations. In light of these factors, we may not be able to undertake variation of objects of the Offer to use any unutilized proceeds of the Offer, if any, or vary the terms of any contract referred to in this Draft Red Herring Prospectus, even if such variation is in the interest of our Company. This may restrict our Company's ability to respond to any change in our business or financial condition by re-

deploying the unutilized portion of Net Proceeds, if any, or varying the terms of contract, which may adversely affect our business and results of operations.

Further, our Company may not apply the Net Proceeds of the Fresh Issue in ways that increase the value of your investment. Various risks and uncertainties, including those set forth in this “**Risk Factors**” section, may limit or delay our efforts to use the Net Proceeds of the Fresh Issue in the manner indicated in “**Objects of the Offer**” on page 93.

15. Exchange rate fluctuations may adversely affect our business, financial conditions, cash flows and results of operations.

Our financial statements are presented in Indian Rupees. However, our revenue are influenced by the currencies that we export in as well as by currencies of countries from where we procure our plant and machinery. Our foreign currency exposures, exchange rate fluctuations between the Indian Rupee and foreign currencies, especially the USD, Euro, and GBP, may have a material impact on our results of operations, cash flows and financial condition

While we hedge our foreign currency exchange risk by entering into forward exchange contracts, we cannot assure you that our measures will adequately protect our business operations, financial conditions, results of operations and cash flows from the full effects of exchange rate fluctuations. Failure to hedge effectively against exchange rate fluctuations may adversely affect our business operations, financial conditions, results of operations and cash flows.

16. Our insurance coverage may not be adequate or we may incur uninsured losses or losses in excess of our insurance coverage which may impact on our financial condition, cash flows and results in operations.

We maintain insurance cover for our properties, including protection from fire, burglary and theft. In addition, we maintain marine export import insurance open policy, marine open inland declaration policy and marine open import declaration policy to cover various risks during the transit of goods across India and overseas, respectively, a public liability act policy to cover product liability risk, group accident guard insurance policy for our employees, group health (floater) insurance mediclaim policies for our employees and insurance policies covering directors’ and officers’ liability.

We could face liabilities or otherwise suffer losses should any unforeseen incident such as fire, flood, and accidents affect our manufacturing facilities or corporate offices or in the regions or areas where our manufacturing facilities or corporate offices are located. Notwithstanding the insurance coverage that we carry, we may not be fully insured against certain types of risks. There are many events, other than the ones covered in the insurance policies specified above, that could significantly impact our operations, or expose us to third-party liabilities, for which we may not be adequately insured. There can be no assurance that any claim under the insurance policies maintained by us will be honoured fully, in part, on time, or at all. To the extent that we suffer any loss or damage that is not covered by insurance or exceeds our insurance coverage, our business, cash flows, financial condition and results of operations could be adversely affected. Any damage suffered by us in excess of such limited coverage amounts, or in respect of uninsured events, not covered by such insurance policies will have to be borne by us. While there has been no instance in the last three Fiscals where any event occurred where we experienced losses exceeding our insurance coverage, there is no assurance that such instance will not arise in the future.

For further details kindly refer to chapter titled “Business Overview” beginning on pages 138, of this Draft Red Herring Prospectus

17. We have certain contingent liabilities as on date of this Draft Red Herring Prospectus that have not been provided in our Company’s financials which if materialized, could adversely affect our financial condition.

As on December 31, 2024, our contingent liabilities stood at ₹509.79 Lakhs. If any of these contingent liabilities materialize, either fully or partially, they could have an adverse impact on our Company’s financial condition.

18. Orders placed by customers may be delayed, modified, cancelled or not fully paid for by our customers, which may have an adverse effect on our business, financial condition and results of operations.

We may encounter problems in executing the orders in relation to our products or executing it on a timely basis. Moreover, factors beyond our control or the control of our customers, including delays or failure to obtain necessary permits, authorizations, permissions and other types of difficulties or obstructions, may result in the postponement of the delivery of products or cause its cancellation. Further, the order could be rejected or sometimes we need to do some modification as per requirement of the customers. Accordingly, it is difficult to predict with certainty if, when, and to what extent we may be able to deliver the orders placed. Failure to deliver products on time could lead to customers delaying or refusing to pay the amount, in part or full, which may adversely affect our business. In addition, even where a delivery proceeds as scheduled, it is possible that the contracting parties may default or otherwise fail to pay amounts owed. Any such adverse event in the future could materially harm our cash flow position and income.

19. We are dependent on third parties for the transportation and timely delivery of our products to customers. Any failure by or loss of a third party transport service provider could result in delays and increased costs, which may adversely

affect our business.

We rely on third parties for the transportation services for the timely delivery of our products to our customers located in India and other countries.

We use different modes of transportation, including road, air, rail and sea for our domestic and overseas operations. We engage third-party logistic service providers to provide support our transportation requirements. In the event that these third party logistic service providers are unable to provide services for our operations for reasons which are beyond our control and we are unable to secure alternate transport arrangements in a timely manner and at an acceptable cost, or at all, our business, cash flows, financial condition, results of operations and reputation may be adversely affected.

Disruptions of transportation services because of natural disasters, pandemics, mass protests, civil unrest, strikes, lockouts or other events may affect our delivery schedules and impair our supply to our customers. For instance, there was mass protest by farmers in several parts of the country like Delhi, Haryana and Punjab, against three farm acts which were passed by the Parliament of India in September 2020.

While delivery of products to customers within India is generally shipped by road, the majority of our shipments to the foreign markets are by sea and subject to associated risks, including damage or loss of containers due to shipwreck, mishandling of our shipment at port or at sea, damage during transportation and loading and unloading. While we maintain marine open inland declaration policy to cover various risks during the transit of goods overseas, any damage suffered by us in excess of coverage amounts, or in respect of uninsured events, not covered by such insurance policies will have to be borne by us. We may also be affected by an increase in fuel costs, as it will have a corresponding impact on freight charges levied by our third party transportation providers. Further, the unavailability of adequate port and shipping infrastructure for transportation of our products to our foreign markets may have an adverse effect on our business, financial condition, cash flows and results of operations.

20. We have in the past entered into related party transactions and may continue to do so in the future.

We have entered into transactions with related parties in the past and from, time to time, we may enter into related party transactions in the future. These transactions include, among other things, sale of finished goods, purchase of raw materials, sale of scrap, loans taken from Directors and interest on such loans, short term employee benefits and directors sitting fees. While all such transactions have been conducted on an arm's length basis, in accordance with the Companies Act and other applicable regulations pertaining to the evaluation and approval of such transactions and all related party transactions that we may enter into post-listing, will be subject to Board or Shareholder approval, as necessary under the Companies Act, the SEBI Listing Regulations and other application laws. Further, it is likely that we may enter into additional related party transactions in the future. Such future related party transactions may potentially involve conflicts of interest. Commercial General Liability For further information on our related party transactions, see "***Summary of the Offer Document*** – Summary of Related Party Transactions" and "Other Financial Information – Related Party Transactions" on pages 27 and 240.

21. We are subject to strict performance requirements, including, but not limited to, quality and delivery, by our customers, and any failure by us to comply with these performance requirements may lead to the cancellation of existing and future orders, recalls or warranty and liability claims.

We are engaged in the manufacturing and supply of critical and complex products which are required to meet precise and specific requirements including in terms of quality, measurements and tolerances. Failure by us to achieve or maintain compliance with these requirements or quality standards may disrupt our ability to supply products sufficient to meet our customers' demands, lead to the cancellation of existing and future orders, result in us incurring costs for repairing or replacing defective products as well as conducting product recalls and paying warranty and liability claims, any of which could have a material adverse effect on our business, financial condition, results of operations and cash flows.

Our agreements with customers or purchase orders issued by them, have standard liability clauses in relation to quality and delivery of our products, which ordinarily do not have any limits. Accordingly, we are required to provide warranty for such quality and delivery related obligations, which may or may not be capped in terms of time or monetary value. Further, the supply of defective products may result in our customers initiating litigation against us, which could materially harm our reputation, business, financial condition, cash flows and results of operations.

Furthermore, we may be subject to liability claims by third parties in the event that the use of any of our products results in personal injury or property damage, which could adversely affect our reputation and business and, to the extent not covered by insurance, our results of operations, financial condition and cash flows. Although we have obtained product liability insurance, we may not be covered for all situations that may arise with regard to any defects in our products. While there have been no instances where we were subject to any product liability claims in the last three Fiscals, we cannot guarantee that we can continue to comply with all regulatory requirements or the quality standards required by our customers and there can be no assurance that no product liability claim will arise in the future. Further, while there have been no instances where we had to recall our products in the last three Fiscals, we cannot assure you that such instance will not arise in the future.

22. Absence of Registration of Secured Loan Charges on the MCA Portal

Our Company has secured certain loans, but the charges associated with these loans have not been created or registered on the Ministry of Corporate Affairs (MCA) portal as required under the Companies Act, 2013. The failure to register these charges could expose the Company and its stakeholders to various legal, financial, and operational risks. The MCA portal is a key mechanism for ensuring the transparency, enforceability, and legal protection of creditors' rights over the assets pledged as collateral, and the absence of such registrations can lead to uncertainties regarding the Company's obligations and the priority of claims in case of default or liquidation.

23. Any failure to compete effectively in the highly competitive forged and machined components industry could have a material adverse effect on our business, financial condition, results of operations and cash flows.

We face competition in India and overseas in our business, which is based on many factors, including product quality and reliability, breadth of product range, product design and innovation, technology, manufacturing capabilities, scope and quality of service, price and brand recognition. We compete with global competitors to retain our existing business as well as to acquire new business. Some of our competitors may have certain advantages, including greater financial, technical and/ or marketing resources, which could enhance their ability to finance acquisitions, fund international growth, respond more quickly to technological changes and/ or operate in more diversified geographies and product portfolios.

Some of our competitors may be able to produce similar or equivalent products at lower costs than we can produce them. Accordingly, we may not be able to compete effectively with our competitors or may be required to reduce prices to remain competitive, which may have an adverse effect on our business, profitability margins, financial condition, results of operations and cash flows.

Further, manufacturers that do not currently compete with us could expand their product portfolios to include products that would compete directly with ours. Changes in the product focus of larger manufacturers who may have an existing relationship with our customers that may reduce or entirely replace our business with those customers.

24. Our Company, our Promoters, Directors and Group Companies are involved in certain legal proceedings. Any adverse decision in such proceedings may render us/them liable to liabilities/penalties and may adversely affect our business and results of operations.

These legal proceedings are pending at different levels of adjudication before various courts, tribunals and forums. Mentioned below are the details of the proceedings involving our Company, our Promoters, Directors and our Group Companies as on the date of this Draft Red Herring Prospectus along with the amount involved, to the extent quantifiable, based on the materiality policy for litigations, as approved by the Company in its Board meeting held on January 14, 2025.

**The amount may be subject to additional interest/other charges being levied by the concerned authorities which are unascertainable as on date of this Draft Red Herring Prospectus.*

There can be no assurance that these litigations will be decided in favour of our Company, our Promoters/Director and/or our Group Companies, respectively, and consequently it may divert the attention of our management and Promoters and waste our corporate resources and we may incur significant expenses in such proceedings and may have to make provisions in our financial statements, which could increase our expenses and liabilities. As on the date of this Draft Red Herring Prospectus, our Company has not created any provisions related to the above litigations filed against the Company.

If such claims are determined against us, there could be a material adverse effect on our reputation, business, financial condition and results of operations, which could adversely affect the trading price of our Equity Shares.

For further details, please refer to the chapter titled “**Outstanding Litigations and Material Developments**” on page 271 of this Draft Red Herring Prospectus.

25. Introduction of alternative technology in manufacturing by our competitors may reduce demand for our existing products and may adversely affect our profitability and business prospects.

Our competitors may decide to seek alternative technology coupled with the development of more alternatives, which may adversely affect our business and profitability if we are not able to respond to these changes. Our ability to anticipate changes in technology, to develop & introduce new and enhanced products successfully on a timely basis will be a significant factor in our ability to grow and remain competitive. We cannot assure you that we will be able to achieve the technological advances that may be necessary for us to remain competitive or that certain of our products will not become obsolete. We are also subject to the risks generally associated with new product introductions and applications, including lack of market acceptance and delays in product development. Any failure on our part to forecast and / or meet the changing demands will have an adverse effect on our business, profitability and growth prospects.

26. Compliance with and changes in safety, health and environment laws and regulations may adversely affect our business, prospects, financial condition and results of operations

Due to the nature of our business, we anticipate being subject to extensive and increasingly stringent environmental, health, and safety laws and regulations, as well as various labour and workplace regulations. Specifically, we are governed by some environmental laws and regulations and state specific laws including, but not limited to:

- Environment (Protection) Act, 1986
- Air (Prevention and Control of Pollution) Act, 1981
- Water (Prevention and Control of Pollution) Act, 1974
- Factories Act 1948

These laws regulate the discharge, emission, storage, handling, and disposal of various substances that may be used in or generated by our operations. The scope and impact of new environmental regulations, along with their effects on our operations, are difficult to predict. Consequently, the costs and management resources required to comply with these regulations could be significant.

Amendments to existing statutes may introduce additional compliance obligations for our Company, potentially leading to expenses related to clean-up and remediation, as well as damages, fines, penalties, and the possible closure of production facilities for non-compliance. Such liabilities and related litigation could adversely affect our business, prospects, financial condition, and operational results.

27. We are exposed to the risk of increase in the price of our raw materials and dependence on suppliers for supply of the raw materials. Further, if we are unable to source quality raw materials required for our business at competitive prices, our business, results of operations and profitability may be adversely affected.

The primary raw materials used by our Company for manufacturing our products are Round, Strips, Billet, Pipe, Wire, Coil etc. In past, the prices of these products have fluctuated with the change in their supply and demand, which has impacted our cost of procurement of these raw materials. In the event that the price of our raw materials further increases, we may not be able to pass the price increase to our customers on our existing fixed contracts and our business, financial condition and results of operations may be adversely affected. Further, we are significantly dependent on our key suppliers and sub-contractors to provide us with critical components and raw materials, parts and assemblies that we need to manufacture

our products. Our business is affected by the price, quality, availability and the timely delivery of the component parts that we use to manufacture our products. Our business, therefore, could be adversely impacted by factors affecting our suppliers, by increased costs of such components. It may be difficult for us to find a replacement for certain suppliers without significant delay, thereby impacting on our ability to complete our customer obligations in a satisfactory and timely manner.

Our top ten suppliers contribute 59.44, 80.48, 77.89, and 68.06 of our total purchase for the nine months period ended on December 31, 2024 and for the financial year ended on March 31, 2024, March 31, 2023, March 31, 2022 respectively based on restated financial statement. The details of this concentration are provided in the following table:

28. Our business is operating under various laws which require us to obtain approvals from the concerned statutory/regulatory authorities in the ordinary course of business and our inability to obtain, maintain or renew requisite statutory and regulatory permits and approvals for our business operations could materially and adversely affect our business, prospects, results of operations and financial condition.

Our business operations are subject to numerous regulatory requirements, and from time to time, we must obtain, renew, or maintain approvals, licenses, registrations, and permits from various governmental and regulatory authorities. We have already applied for certain necessary approvals. Specifically, our Company has applied for No Objection Certificates ("NOCs") from ICICI Bank, IDFC Bank, and IndusInd Bank, as secured lenders, in connection with our proposed initial public offering.

These approvals and permits may be subject to specific conditions, some of which may be onerous. Failure to obtain or renew these in a timely manner, or at all, may lead to interruptions in our operations and could have a material adverse effect on our business, financial condition, and results of operations. Additionally, we cannot assure you that the approvals, licenses, registrations, or permits granted to us will not be suspended, revoked, or cancelled due to non-compliance or alleged non-compliance with their terms and conditions, or as a result of any regulatory or legal action.

If any required approval, license, registration, or permit is not obtained, renewed, or maintained, or is suspended or revoked, our ability to continue operations could be impaired. For further details, see **"Government and Other Approvals"** on page 279 of this Draft Red Herring Prospectus.

Moreover, we may face environmental or other legal proceedings arising from alleged non-compliance with the terms of our regulatory approvals or authorizations, which could further impact our operations and reputation.

29. Our Company has unsecured loans which are repayable on demand. Any demand from lenders for repayment of such unsecured loans may adversely affect our cash flows.

Our Company has availed unsecured loans which may be recalled by lenders at any time with or without the existence of an event of default, on short or no notice. As of December 31, 2024, such loans amounted to ₹ 12.34 lakhs outstanding to Related Parties. In the event that any lender seeks a repayment of any such loan, our Company would need to find alternative sources of financing, which may not be available on commercially reasonable terms, or at all. As a result, any such demand may affect our business, cash flows, financial condition and results of operations. For further details, please see the section entitled **"Statement of Financial Indebtedness"** on page 233 of this Draft Red Herring Prospectus.

30. If we are unable to source business opportunities effectively, we may not achieve our financial objectives.

Our ability to achieve our financial objectives will depend on our ability to identify, evaluate and accomplish business opportunities. To grow our business, we will need to hire, train, supervise and manage new employees and to implement systems capable of effectively accommodating our growth. However, we cannot assure you that any such employees will contribute to the success of our business or that we will implement such systems effectively. Our failure to source business opportunities effectively could have a material adverse effect on our business, financial condition and results of operations. It is also possible that the strategies used by us in the future may be different from those presently in use. No assurance can be given that our analyses of market and other data or the strategies we use or plans in future to use will be successful under various market conditions.

31. Our Promoters has provided a personal guarantee for loans availed by us.

In the event of default of the debt obligations, the personal guarantees may be invoked thereby adversely affecting our Promoter's ability to manage the affairs of our Company and our Company's profitability and consequently, this may impact our business, prospects, financial condition, and results of operations. Our Company has availed loans in business. Our Promoters has provided a personal guarantee in relation to certain loans availed by our Company, for details please see "***Financial Indebtedness***" on page 233 of the Draft Red Herring Prospectus. In the event of default in repayment of the loans by the Company, the personal guarantee extended by our Promoters may be invoked by our lenders thereby adversely affecting our Promoter's ability to manage the affairs of our Company and this, in turn, could adversely affect our business, prospects, financial condition and results of operations.

32. We are heavily dependent on machinery for our operations. Any breakdown of our machinery will have a significant impact on our business, financial results and growth prospects.

Our manufacturing facility relies heavily on plant and machinery, making us vulnerable to significant repair and maintenance costs in the event of a malfunction or breakdown. Such issues could also cause operational delays. While we strive to maintain adequate supplies of spare parts and maintenance equipment, delays in procuring necessary parts or completing repairs could disrupt our manufacturing operations, adversely affecting our operational results and financial condition. Additionally, we do not carry insurance for machinery breakdowns, meaning any associated costs would be our responsibility and could negatively impact our financial condition and operational results.

33. We may not be able to realise the amounts, partly or at all, reflected in our Order Book which may materially and adversely affect our business, prospects, reputation, profitability, financial condition and results of operation.

Future earnings related to the supply of our services in the order book may not be realized and although the orders in the order book represent business that is considered firm, cancellations or scope or schedule adjustments may occur. We may also encounter problems executing the order or executing it on a timely basis. Moreover, factors beyond our control or the control of our clients may postpone the delivery or cause its cancellation, including delays or failure to obtain necessary permits, authorizations, permissions, right-of-way, and other types of difficulties or obstructions. Due to the possibility of cancellations or changes in scope and schedule of orders, resulting from our clients' discretion or problems we encounter in execution of such contracts or reasons outside our control or the control of our clients, we cannot predict with certainty when, if or to what extent an order forming part of our order book will be performed. Delays in the completion of an order can lead to clients delaying or refusing to pay the amount, in part or full, that we expect to be paid in respect of such order. Even relatively short delays or difficulties in the execution of an order could result in our failure to receive, on a timely basis or at all, all payments due to us on a project.

34. We do not have firm commitment agreements with our customers. If our customers choose not to source their requirements from us, there may be a material adverse effect on our business, financial condition, cash flows and results of operations.

We typically rely on blanket purchase orders issued by our customers from time to time that set out the price per unit of the products that are to be supplied to/ purchased by them from us. Pursuant to the purchase order, our customers provide us the quantities of units to be supplied along with the delivery schedules specifying the details of delivery.

Further, we have purchase and supply agreements with some of our customers. These agreements set forth the terms of sales but do not bind these customers to any specific products, specifications, purchase volumes or duration and can be terminated by these customers with or without cause and without compensation. Under the purchase and supply agreement, these customers provide us only with forecast volume for the product and there is no commitment on the part of the customer to purchase the quantities specified in the volume projections or to place new orders with us and as a result, our sales from period to period may fluctuate as a result of changes in our customers' supplier preference. Such volume projections are based on a number of economic and business factors, variables and assumption, some or all of which may change or may not be accurate. Further, some of the purchase and supply agreements that we have entered into with our customers are governed by foreign laws, which may create both legal and practical difficulties in the case of disputes and affect our ability to enforce our rights under these agreements or to collect damages, if awarded. While there has been no instance in the last three Fiscals where any of our customers initiated a legal proceeding against us and we could not enforce our rights on account of difficulties posed by foreign laws, there is no assurance that such instance will not arise in the future. Further, since our arrangement with our customers are not exclusive, it entitles the customers to replace us with another supplier.

35. *Misconduct or errors by manpower engaged by us could expose us to business risks or losses that could adversely affect our business prospects, results of operations and financial condition.*

Misconduct or errors by manpower engaged by us could expose us to business risks or losses, including regulatory sanctions, penalties and serious harm to our reputation. Such misconduct includes breach of security requirements, misappropriation of funds, hiding unauthorized activities, failure to observe our stringent operational standards and processes and improper use of confidential information. It is not always possible to detect or deter such misconduct, and the precautions we take to prevent and detect such misconduct may not be effective.

The risks associated with the deployment of manpower engaged by us include, among others, possible claims relating to:

- actions or inactions, including matters for which we may have to indemnify our clients;
- our failure to adequately verify personnel backgrounds and qualifications resulting in deficient services;
- failure of manpower engaged by us to adequately perform their duties or absenteeism;
- errors or malicious acts or violation of security, privacy, health and safety regulations; and
- damage to our clients' facilities or property due to negligence or criminal acts.

These claims may give rise to litigation and claims for damages, which could be time-consuming. These claims may also result in negative publicity and adversely impact our reputation and brand name. We may also be affected in our operations by the acts of third parties, including sub-contractors and service providers. Any claims and proceedings for alleged negligence as well as regulatory actions may in turn materially and adversely affect our brand and our reputation, and consequently, our business, financial condition, results of operations and prospects.

36. *Major fraud lapses of internal control, system failures, theft, employee negligence or similar incidents could adversely impact the company's business.*

Our Company is vulnerable to risk arising from the failure of employees to adhere to approved procedures, system controls, fraud, theft, system failures, information system disruptions, communication systems failure and interception during transmission through external communication channels or networks. Failure to protect fraud or breach in security may adversely affect our Company's operations and financial performance. Our reputation could also be adversely affected by significant fraud committed by our employees, agents, customers or third parties.

Despite implementing security measures and internal controls, there is no guarantee that we will completely avoid instances of fraud, theft, employee negligence, or security lapses in the future. Any such occurrence could lead to significant financial losses and affect our overall business performance.

Though, there had been no of such instances in past, we may not be able to assure such incident will not happen in the future.

37. *Our Promoters, Directors and Key Management Personnel have interest in our Company, other than reimbursement of expenses incurred or remuneration.*

Our Promoters, Directors and Key Management Personnel can be deemed to be interested to the extent of the Equity Shares held by them, or their relatives, dividend entitlement, or loans advanced and personal guarantee provided by them for the Company, and benefits deriving from the directorship in our Company. Our Promoters are interested in the transactions entered into our Company and our Promoter Group. For further information, please refer to the chapters/section titled "***Our Business***", "***Our Promoters and Promoter Group***" and "***Related Party Transactions under Financial Information of our Company***", beginning on pages 138, 206 and 240 respectively.

38. *There are no alternate arrangements for meeting our requirements for the Objects of the Offer. Any shortfall in raising / meeting the same could adversely affect our growth plans, operations and financial performance*

As on date, we have not made any alternate arrangements for meeting our capital requirements for the Objects of the Offer. We meet our working capital requirements through our owned funds and internal accruals. Any shortfall in our net owned funds, internal accruals and our inability to raise debt in future would result in us being unable to meet our capital expenditure requirements, which in turn will negatively affect our financial condition and results of operations. Further we have not yet identified any alternate source of funding and hence any failure or delay on our part to raise money from this Offer or any shortfall in the Offer Proceeds may delay the implementation schedule and could adversely affect our growth plans. For further details, please refer chapter titled "***Objects of the Offer***" on page 93 of this Draft Red Herring Prospectus.

39. *Delays or defaults in payments from our clients could result into a constraint on our cash flows. The efficiency and growth of our business depends on timely payments received from our clients.*

In the event, our client's default or delay in making payments and clearing their dues, we may not have adequate resources to fund our business and implement our growth plans. This could have an adverse effect on the results of operations and our financial condition.

40. *Our actual results could differ from the estimates and projections used to prepare our financial statements.*

The estimates and projections are based on and reflect our current expectations, assumptions and/ or projections as well as our perception of historical trends and current conditions, as well as other factors that we believe are appropriate and reasonable under the circumstances. There can be no assurance that our expectations, estimates, assumptions and/or projections, including with respect to the future earnings and performance will prove to be correct or that any of our expectations, estimates or projections will be achieved.

41. *Our ability to pay dividends in the future will depend upon our future earnings, financial condition, cash flows, working capital requirements, capital expenditure and restrictive covenants in our financing arrangements.*

We may retain all our future earnings, if any, for use in the operations and expansion of our business. As a result, we may not declare dividends in the foreseeable future. Any future determination as to the declaration and payment of dividends will be at the discretion of our Board of Directors and will depend on factors that our Board of Directors deem relevant, including among others, our results of operations, financial condition, cash requirements, business prospects and any other financing arrangements. Accordingly, realization of a gain on shareholder's investments may largely depend upon the appreciation of the price of our Equity Shares. There can be no assurance that our Equity Shares will appreciate in value. For details of our dividend history, see "*Dividend Policy*" on page 239 of this Draft Red Herring Prospectus.

42. *Our future funds requirements, in the form of fresh issue of capital or securities and/or loans taken by us, may be prejudicial to the interest of the shareholders depending upon the terms on which they are eventually raised.*

We may require additional capital from time to time depending on our business needs. Any fresh issue of shares or convertible securities would dilute the shareholding of the existing shareholders and such issuance may be done on terms and conditions, which may not be favorable to the then existing shareholders. If such funds are raised in the form of loans or debt, then it may substantially increase our interest burden and decrease our cash flows, thus prejudicially affecting our profitability and ability to pay dividends to our shareholders.

43. *There is no guarantee that our Equity Shares will be listed on the Stock Exchanges in a timely manner or at all.*

In accordance with Indian law and practice, permission to list the Equity Shares will not be granted until after the Equity Shares have been issued and allotted. Approval will require all other relevant documents authorizing the issuing of our Equity Shares to be submitted. There could be a failure or delay in listing our Equity Shares on the Stock Exchanges. Any failure or delay in obtaining the approval would restrict your ability to dispose of your Equity Shares.

44. *The requirements of being a public listed company may strain our resources and impose additional requirements.*

As we transition to being a publicly listed company, we anticipate encountering new challenges and responsibilities that were not present before. These include heightened scrutiny from shareholders, regulators, and the public, resulting in increased legal, accounting, and corporate governance expenses. Moreover, we will need to adhere to listing agreements with stock exchanges, necessitating the regular filing of unaudited financial results. Meeting these obligations will require significant resources and management oversight, potentially diverting attention from other aspects of our business. There is also the need to strengthen our management team with individuals possessing public company experience and accounting expertise. However, the timely acquisition of such talent is not guaranteed. Overall, this transition may pose obstacles to our business operations and could impact our ability to promptly report changes in our financial performance compared to other listed companies.

45. *QIBs and Non-Institutional Bidders are not permitted to withdraw or lower their Bids (in terms of quantity of Equity Shares or the Bid Amount) at any stage after submitting a Bid and Retail Individual Investors are not permitted to withdraw their Bids after Bid/Issue Closing Date.*

Pursuant to the SEBI ICDR Regulations, QIBs and Non-Institutional Bidders are not permitted to withdraw or lower their Bids (in terms of quantity of Equity Shares or the Bid Amount) at any stage after submitting a Bid. Retail Individual Bidders can revise their Bids during the Bid/Issue Period and withdraw their Bids until Bid/Issue Closing Date. While we are required to complete Allotment, listing and commencement of trading pursuant to the Offer within three (3) Working Days from the Bid/ Offer Closing Date, events affecting the Bidders' decision to invest in our Equity Shares, including adverse changes in international or national monetary policy, financial, political or economic conditions, our business, results of operations, cash flows and financial condition may arise between the date of submission of the Bid and Allotment, listing and commencement of trading. We may complete the Allotment, listing and commencement of trading of our Equity Shares even if such events occur and such events may limit the Bidders' ability to sell our Equity Shares

Allotted pursuant to the Offer or may cause the trading price of our Equity Shares to decline on listing.

Retail Individual Investors can revise their Bids during the Bid/Issue Period and withdraw their Bids until Bid/Issue Closing Date. While our Company is required to complete all necessary formalities for listing and commencement of trading of the Equity Shares on all Stock Exchanges where such Equity Shares are proposed to be listed including Allotment pursuant to the Offer within three Working Days from the Bid/Issue Closing Date, events affecting the Bidders' decision to invest in the Equity Shares, including material adverse changes in international or national monetary policy, financial, political or economic conditions, our business, results of operations or financial condition may arise between the date of submission of the Bid and Allotment. Our Company may complete the Allotment of the Equity Shares even if such events occur, and such events limit the Bidders' ability to sell the Equity Shares Allotted pursuant to the Offer or cause the trading price of the Equity Shares to decline on listing.

Issue Specific Risks:

46. There are restrictions on daily/weekly/monthly movements in the price of the Equity Shares, which may adversely affect a shareholders' ability to sell, or the price at which it can sell, Equity Shares at a point in time.

Once listed, we would be subject to circuit breakers imposed by all stock exchanges in India, which does not allow transactions beyond specified increases or decreases in the price of the Equity Shares. This circuit breaker operates independently of the index-based market-wide circuit breakers generally imposed by SEBI on Indian stock exchanges. The percentage limit on circuit breakers is set by the stock exchanges based on the historical volatility in the price and trading volume of the Equity Shares. The stock exchanges do not inform us of the percentage limit of the circuit breaker in effect from time to time and may change it without our knowledge. This circuit breaker limits the upward and downward movements in the price of the Equity Shares. As a result of this circuit breaker, no assurance may be given regarding your ability to sell your Equity Shares or the price at which you may be able to sell your Equity Shares at any time.

47. After this Issue, the price of the Equity Shares may be highly volatile, or an active trading market for the Equity Shares may not develop.

The price of the Equity Shares on the Stock Exchanges may fluctuate as a result of the factors, including:

- a. Volatility in the Indian and global capital market;
- b. Company's results of operations and financial performance;
- c. Performance of Company's competitors,
- d. Adverse media reports on Company or pertaining to the agriculture Industry;
- e. Changes in our estimates of performance or recommendations by financial analysts;
- f. Significant developments in India's economic and fiscal policies; and
- g. Significant developments in India's environmental regulations.

Current valuations may not be sustainable in the future and may also not be reflective of future valuations for our industry and our Company. There has been no public market for the Equity Shares and the prices of the Equity Shares may fluctuate after this Issue. There can be no assurance that an active trading market for the Equity Shares will develop or be sustained after this Offer or that the price at which the Equity Shares are initially traded will correspond to the price at which the Equity Shares will trade in the market subsequent to this Issue.

not independently verified data from such industry reports and other sources. Although we believe that the data may be considered to be reliable, their accuracy, completeness and underlying assumptions are not guaranteed, and their Dependability cannot be assured. While we have taken reasonable care in the reproduction of the information, the information has not been prepared or independently verified by us, or any of our respective affiliates or advisors and, therefore, we make no representation or warranty, express or implied, as to the accuracy or completeness of such facts and statistics. Due to possibly flawed or ineffective collection methods or discrepancies between published information and market practice and other problems, the statistics herein may be inaccurate or may not be comparable to statistics produced for other economies and should not be unduly relied upon. Further, there is no assurance that they are stated or compiled on the same basis or with the same degree of accuracy as may be the case elsewhere. Statements from parties that involve estimates are subject to change, and actual amounts may differ materially from those included in this Draft Red Herring Prospectus.

49. You will not be able to sell immediately on Stock Exchange any of the Equity Shares you purchase in the Offer until the Offer receives appropriate trading permissions.

The Equity Shares will be listed on the Stock Exchange. Pursuant to Indian regulations, certain actions must be completed before the Equity Shares can be listed and trading may commence. We cannot assure you that the Equity Shares will be credited to investor's demat accounts, or that trading in the Equity Shares will commence, within the time periods specified in this Draft Red Herring Prospectus. Any failure or delay in obtaining the approval would restrict your ability to dispose of the Equity Shares. In accordance with section 40 of the Companies Act, 2013, in the event that the permission of listing the Equity Shares is denied by the stock exchanges, we are required to refund all monies collected to investors.

50. The Offer price of our Equity Shares may not be indicative of the market price of our Equity shares after the Offer.

The Offer price of our equity Shares has been determined by Book Built Method. This price is based on numerous factors and may not be indicative of the market price of our Equity Shares after the Offer. The market price of our Equity Shares could be subject to significant fluctuation after the Offer and may decline below the Offer price. We cannot assure you that you will be able to sell your Equity Shares at or above the Offer price. For further details you may refer chapter titled "**Basis for Offer Price**" beginning on the page 103 of this Draft Red Herring Prospectus. Some of the factors which may affect our share price without limitations are as follows:

- Reports on research by analysts.
- Changes in revenue.
- Variations in growth rate of our financial indicators such as earning per share, income, profit etc.
- General Market Condition
- Domestic and International Economy.

51. Sale of Equity Shares by our Promoters or other significant shareholder(s) may adversely affect the Trading price of the Equity Shares.

Any instance of disinvestments of equity shares by our Promoters or by other significant shareholder(s) may significantly affect the trading price of our Equity Shares. Further, our market price may also be adversely affected even if there is a perception or belief that such sales of Equity Shares might occur.

Industry Related Risks:

52. Changes in government regulations or their implementation could disrupt our operations and adversely affect our business and results of operations.

Our business and industry are regulated by different laws, rules and regulations framed by the Central and State Government. These regulations can be amended/ changed on a short notice at the discretion of the Government. If we fail to comply with all applicable regulations or if the regulations governing our business or their implementation change adversely, we may incur increased costs or be subject to penalties, which could disrupt our operations and adversely affect our business and results of operations.

53. Changing regulations in India could lead to new compliance requirements that are uncertain. The regulatory environment in which we operate is evolving and is subject to change.

The Government of India may implement new laws or other regulations that could affect the manufacturing industry or the sectors we serve, which could lead to new compliance requirements. New compliance requirements could increase our costs or otherwise adversely affect our business, financial condition and results of operations. Further, the manner in

which new requirements will be enforced or interpreted can lead to uncertainty in our operations and could adversely affect our operations. Our business and financial performance could be adversely affected by any unexpected or onerous requirements or regulations resulting from any changes in laws or interpretation of existing laws, or the promulgation of new laws, rules and regulations. Any such changes and the related uncertainties with respect to the implementation or change in the legal framework may have a material adverse effect on our business, financial condition and results of operations.

54. *Malpractices by some players in the industry affect overall performance of emerging Companies*

The industry in which our Company operates is subject to risk associated with unethical business practices such as unethical marketing, dishonest advertising, questionable pricing practices, inaccurate claims with regards to safety and efficacy of the product etc. Consumers' attitude toward the industry today is dominated by a sense of mistrust, paving a way for regulators for stricter entry barriers and introduction of code of conducts; making the entire industry environment regulated and controlled. Malpractices by some players in the industry affects the overall performance of the emerging Companies like us as the industry norms are applicable to all at parity. Any unethical business practices by any industry player or intermediary may impact our business and results of operations.

Other Risks:

55. *You may be subject to Indian taxes arising out of capital gains on the sale of the Equity Shares.*

Under current Indian tax laws, unless specifically exempted, capital gains arising from the sale of equity shares in an Indian company is generally taxable in India. A securities transaction tax ("STT") is levied both at the time of transfer and acquisition of equity shares (unless exempted) and such STT is collected by an Indian stock exchange on which equity shares are sold. You may be subject to payment of long-term capital gains tax in India, in addition to payment of STT, on the sale of any Equity Shares held for more than 12 months. STT will be levied on and collected by a domestic stock exchange on which the Equity Shares are sold. Further, any capital gain realized on the sale of our Equity Shares held for a period of 12 months or less will be subject to short-term capital gains tax in India.

The Finance Act, 2020 had stipulated that the sale, transfer and issue of certain securities through exchanges, depositories or otherwise to be charged with stamp duty. The Finance Act, 2020 also clarified that, in the absence of a specific provision under an agreement, the liability to pay stamp duty in case of sale of certain securities through stock exchanges will be on the buyer, while in other cases of transfer for consideration through a depository, the onus will be on the transferor. The stamp duty for transfer of certain securities, other than debentures, on a delivery basis is currently specified under the Finance Act, 2020 at 0.015 and on a non-delivery basis is specified at -3 of the consideration amount. These amendments have come into effect from July 1, 2020. Earlier, distribution of dividends by a domestic company was subject to Dividend Distribution Tax ("DDT"), in the hands of the company and such dividends were generally exempt from tax in the hands of the shareholders. However, the government of India has amended the IT Act to abolish the DDT regime. Under the extant provisions, any dividend distributed by a domestic company is subject to tax in the hands of the concerned shareholder at the applicable rates. Additionally, the company distributing dividends is required to withhold tax on such payments at the applicable rate.

Further, the Government of India has announced the union budget for Fiscal 2025, pursuant to which the Finance Act, 2024, came into force on April 1, 2024 which has introduced various amendments to the IT Act. Unfavourable changes in or interpretations of existing, or the promulgation of new, laws, rules and regulations including foreign investment and stamp duty laws governing our business and operations could result in us being deemed to be in contravention of such laws and may require us to apply for additional approvals.

56. *Significant differences exist between IndAS and other accounting principles, such as U.S. GAAP and IFRS, which may be material to the financial statements, prepared and presented in accordance with SEBI ICDR Regulations contained in this Draft Red Herring Prospectus.*

As stated in the reports of the Auditor included in this Draft Red Herring Prospectus under chapter "**Financial Statements as Restated**" beginning on page 241 the financial statements included in this Draft Red Herring Prospectus are based on financial information that is based on the audited financial statements that are prepared and presented in conformity with IndAS and restated in accordance with the SEBI ICDR Regulations, and no attempt has been made to reconcile any of the information given in this Draft Red Herring Prospectus to any other principles or to base it on any other standards. IndAS differs from accounting principles and auditing standards with which prospective investors may be familiar in other countries, such as U.S. GAAP and IFRS. Significant differences exist between IndAS and U.S. GAAP and IFRS, which may be material to the financial information prepared and presented in accordance with IndAS contained in this Draft Red Herring Prospectus. Accordingly, the degree to which the financial information included in this Draft Red Herring Prospectus will provide meaningful information is dependent on familiarity with IndAS, the Companies Act and the SEBI ICDR Regulations. Any reliance by persons not familiar with IndAS on the financial disclosures presented in this Draft Red Herring Prospectus should accordingly be limited.

57. Political instability or a change in economic liberalization and deregulation policies could seriously harm business and economic conditions in India generally and our business.

The Government of India has traditionally exercised and continues to exercise influence over many aspects of the economy. Our business and the market price and liquidity of our Equity Shares may be affected by interest rates, changes in Government policy, taxation, social and civil unrest and other political, economic or other developments in or affecting India. The rate of economic liberalization could change, and specific laws and policies affecting the information technology sector, foreign investment and other matters affecting investment in our securities could change as well. Any significant change in such liberalization and deregulation policies could adversely affect business and economic conditions in India, generally, and our business, prospects, financial condition and results of operations.

58. We cannot guarantee the accuracy or completeness of facts and other statistics with respect to India, the Indian economy and our industry contained in this Draft Red Herring Prospectus.

While facts and other statistics in this Draft Red Herring Prospectus relating to India, the Indian economy and our industry has been based on various government publications and reports from government agencies that we believe are reliable, we cannot guarantee the quality or reliability of such materials. While we have taken reasonable care in the reproduction of such information, industry facts and other statistics have not been prepared or independently verified by us or any of our respective affiliates or advisors and, therefore we make no representation as to their accuracy or completeness. These facts and other statistics include the facts and statistics included in the chapter titled “*Our Industry*” beginning on page 120 of this Draft Red Herring Prospectus. Due to possibly flawed or ineffective data collection methods or discrepancies between published information and market practice and other problems, the statistics herein may be inaccurate or may not be comparable to statistics produced elsewhere and should not be unduly relied upon. Further, there is no assurance that they are stated or compiled on the same basis or with the same degree of accuracy, as the case may be, elsewhere.

59. Global economic, political and social conditions may harm our ability to do business, increase our costs and negatively affect our stock price.

Global economic and political factors that are beyond our control, influence forecasts and directly affect performance. These factors include interest rates, rates of economic growth, fiscal and monetary policies of governments, inflation, deflation, foreign exchange fluctuations, consumer credit availability, fluctuations in commodities markets, consumer debt levels, unemployment trends and other matters that influence consumer confidence, spending and tourism. Increasing volatility in financial markets may cause these factors to change with a greater degree of frequency a magnitude, which may negatively affect our stock prices.

60. Natural calamities could have a negative impact on the Indian economy and cause Our Company’s business to suffer.

India has experienced natural calamities such as earthquakes, tsunamis, floods etc. In recent years, the extent and severity of these natural disasters determine their impact on the Indian economy. Prolonged spells of abnormal rainfall or other natural calamities could have a negative impact on the Indian economy, which could adversely affect our business, prospects, financial condition and results of operations as well as the price of the Equity Shares.

61. Terrorist attacks, civil unrests and other acts of violence or war involving India or other countries could adversely affect the financial markets, our business, financial condition and the price of our Equity Shares.

Any major hostilities involving India or other acts of violence, including civil unrest or similar events that are beyond our control, could have a material adverse effect on India’s economy and our business. Incidents such as the terrorist attacks, other incidents such as those in US, Indonesia, Madrid and London, and other acts of violence may adversely affect the Indian stock markets where our Equity Shares will trade as well the global equity markets generally. Such acts could negatively impact business sentiment as well as trade between countries, which could adversely affect our Company’s business and profitability. Additionally, such events could have a material adverse effect on the market for securities of Indian companies, including the Equity Shares.

62. We may not receive final listing and trading approvals from the Stock Exchanges and you will not be able to sell immediately on an Indian Stock Exchange any of the Equity Shares you are allotted in the Offer.

Under the SEBI ICDR Regulations, we are permitted to list the Equity Shares within three working days of the Bid / Offer Closing Date. Consequently, the Equity Shares you purchase in the Offer may not be credited to your dematerialized electronic account with Depository Participants until approximately three working days after the Bid / Offer Closing Date. You can start trading in the Equity Shares only after they have been credited to your dematerialized electronic account and final listing and trading approvals are received from the Stock Exchanges.

Further, there can be no assurance that the Equity Shares allocated to you will be credited to your dematerialized electronic account, or that trading in the Equity Shares will commence within the specified time periods. In addition, pursuant to India regulations, certain actions are required to be completed before the Equity Shares can be listed and trading may commence. Investors’ book entry or dematerialized electronic accounts with Depository Participants in India are expected

Notes:

- The Offer is being made in terms of Chapter IX of the SEBI (ICDR) Regulations, 2018, as amended from time to time. This offer is being made by our company in terms of Regulation of 229 (2) of SEBI ICDR Regulations read with Rule 19(2)(b)(i) of SCRR wherein not less than 25% of the post-issue paid up equity share capital of our

company are being offered to the public for subscription.

2. The Offer has been authorized by the Board of Directors vide a resolution passed at its meeting held on March 25, 2025 and by the Shareholder of our Company, vide a special resolution passed pursuant to Section 62(1)(c) of the Companies Act, 2013 at the Extra-Ordinary General Meeting held on March 26, 2025.
3. Selling Shareholder has confirmed that the Offered Shares have been held by such Selling Shareholders for a period of at least one year immediately preceding the date of this Draft Red Herring Prospectus and are accordingly eligible for being offered for sale in the Offer in compliance with the SEBI ICDR Regulations. Further, Selling Shareholder has confirmed that their respective Offered Shares are compliant with Regulation 8 of the SEBI ICDR Regulations. For further information, see “**Capital Structure**” on page 72 of this Draft Red Herring Prospectus. Selling Shareholder has consented to the inclusion of their respective portion of the Offered Shares in the Offer for Sale as:

Name of the Selling Shareholder	Number of Equity Shares held	Number of Equity Shares Offered	Authorisation Letter dated	Consent Letter dated
Mr. Davinder Bhasin	1,23,85,330	13,44,000	April 15, 2025	April 15, 2025

4. The SEBI ICDR Regulations permit the Offer of securities to the public through the Book Building Process, which states that, not less than 15% of the Net Offer shall be available for allocation on a proportionate basis to Non-Institutional Bidders out of which (a) one third of such portion shall be reserved for applicants with application size of more than ₹200,000 and up to ₹1,000,000; and (b) two third of such portion shall be reserved for applicants with application size of more than ₹1,000,000, provided that the unsubscribed portion in either of such sub-categories may be allocated to applicants in the other sub-category of Non-Institutional Bidders and not less than 35% of the Net Offer shall be available for allocation on a proportionate basis to Retail Individual Bidders and not more than 50% of the Net Offer shall be allotted on a proportionate basis to QIBs, subject to valid Bids being received at or above the Offer Price. Accordingly, we have allocated the Net Offer i.e., not more than 50% of the Net Offer to QIB and not less than 35% of the Net Offer shall be available for allocation to Retail Individual Investors and not less than 15% of the Net Offer shall be available for allocation to Non-Institutional bidders.
5. Subject to valid Bids being received at or above the Offer Price, under-subscription, if any, in any category, except in the QIB Portion, would be allowed to be met with spill-over from any other category or combination of categories of Bidders at the discretion of our Company in consultation with the Book Running Lead Manager and the Designated Stock Exchange, subject to applicable laws. Our Company may, in consultation with the Book Running Lead Manager, allocate up to 60% of the QIB Portion to Anchor Investors on a discretionary basis in accordance with the SEBI ICDR Regulations. One-third of the Anchor Investor Portion shall be reserved for domestic Mutual Funds, subject to valid Bids being received from domestic Mutual Funds at or above the Anchor.
6. Our Company and the Selling Shareholder may, in consultation with the Book Running Lead Manager, allocate up to 60% of the QIB Portion to Anchor Investors on a discretionary basis in accordance with the SEBI ICDR Regulations. One-third of the Anchor Investor Portion shall be reserved for domestic Mutual Funds, subject to valid Bids being received from domestic Mutual Funds at or above the Anchor Investor Allocation Price. In the event of under-subscription in the Anchor Investor Portion, the remaining Equity Shares shall be added to the QIB Portion. Further, 5% of the Net QIB Portion shall be available for allocation on a proportionate basis to Mutual Funds only, and the remainder of the QIB Portion shall be available for allocation on a proportionate basis to all QIB Bidders (other than Anchor Investors), including Mutual Funds, subject to valid Bids being received at or above the Offer Price. However, if the aggregate demand from Mutual Funds is less than 5% of the Net QIB Portion, the balance Equity Shares available for allotment in the Mutual Fund Portion will be added to the Net QIB Portion and allocated proportionately to the QIB Bidders (other than Anchor Investors) in proportion to their Bids. For further details, please refer section titled “**Offer Procedure**” beginning on page 314 of this Draft Red Herring Prospectus.

The Offer Price shall be determined by our Company, Selling Shareholder, in consultation with the Book Running Lead Manager in accordance with the Book Building Process after the Bid / Offer Closing Date. Principal parties involved in the Book Building Process are:

- Our Company;
- Selling Shareholder
- The Book Running Lead Manager in this case being Gretex Corporate Services Limited,
- The Syndicate Member(s) who are intermediaries registered with SEBI / registered as brokers with Exchanges and eligible to act as Underwriters. The Syndicate Member(s) will be appointed by the Book Running Lead Manager;
- The Registrar to the Offer and;
- The Designated Intermediaries and Sponsor bank

The SEBI ICDR Regulations have permitted the Offer of securities to the public through the Book Building Process, wherein allocation to the public shall be made as per Regulation 253 of the SEBI ICDR Regulations.

The Offer is being made through the Book Building Process wherein not more than 50% of the Net Offer shall be available for allocation on a proportionate basis to QIBs, provided that our Company may in consultation with the Book Running Lead Manager allocate upto 60% of the QIB Portion to Anchor Investors on a discretionary basis in accordance with the SEBI (ICDR) Regulations (the “Anchor Investor Portion”), out of which one third shall be reserved for domestic Mutual Funds, subject to valid Bids being received from domestic Mutual Funds at or above the Anchor Investor Offer Price. 5% of the QIB Portion shall be available for allocation on a proportionate basis to Mutual Funds only, and the remainder of the QIB Portion shall be available for allocation on a proportionate basis to all QIB Bidders, including Mutual Funds, subject to valid Bids being received at or above the Offer Price. Further, not less than 15% of the Net Offer shall be available for allocation to Non-Institutional Bidders out of which (a) one third of such portion shall be reserved for applicants with application size of more than ₹200,000 and up to ₹1,000,000; and (b) two third of such portion shall be reserved for applicants with application size of more than ₹1,000,000, provided that the unsubscribed portion in either of such sub-categories may be allocated to applicants in the other sub-category of Non-Institutional Bidders and not less than 35% of the Net offer shall be available for allocation to Individual Bidders, who applies for minimum application size, in accordance with the SEBI Regulations, subject to valid Bids being received at or above the Offer Price. All potential Bidders may participate in the Offer through an ASBA process by providing details of their respective bank account which will be blocked by the SCSBs. All Bidders are mandatorily required to utilize the ASBA process to participate in the Offer. Under-subscription if any, in any category, except in the QIB Category, would be allowed to be met with spill over from any other category or a combination of categories at the discretion of our Company in consultation with the Book Running Lead Manager and the Designated Stock Exchange.

All Bidders, except Anchor Investors, are mandatorily required to use the ASBA process for participating in the Offer. In accordance with the SEBI ICDR Regulations, QIBs bidding in the QIB Portion and Non-Institutional Bidders bidding in the Non-Institutional Portion are not allowed to withdraw or lower the size of their Bids (in terms of the quantity of the Equity Shares or the Bid Amount) at any stage. Individual Bidders, who applies for minimum application size, can revise their Bids during the Bid / Offer Period and withdraw their Bids until the Bid / Offer Closing Date. Further, Anchor Investors cannot withdraw their Bids after the Anchor Investor Bid / Offer Period. Allocation to the Anchor Investors will be on a discretionary basis.

Subject to valid Bids being received at or above the Offer Price, allocation to all categories in the Net Offer, shall be made on a proportionate basis, except for Retail Portion where allotment to each Individual Bidders, who applies for minimum

application size, shall not be less than the minimum bid lot, subject to availability of Equity Shares in Retail Portion, and the remaining available Equity Shares, if any, shall be allotted on a proportionate basis. Under – subscription, if any, in any category, would be allowed to be met with spill – over from any other category or a combination of categories at the discretion of our Company in consultation with the Book Running Lead Manager and the Stock Exchange. However, under-subscription, if any, in the QIB Portion will not be allowed to be met with spill over from other categories or a combination of categories.

In terms of SEBI Circular No. CIR/CFD/POLICYCELL/11/2015 dated November 10, 2015 and the SEBI (Issue of Capital and Disclosure Requirements) Regulations, 2018, all the investors (except Anchor Investors) applying in a public offer shall use only Application Supported by Blocked Amount (ASBA) process for application providing details of the bank account which will be blocked by the Self-Certified Syndicate Banks (SCSBs) for the same. Further, pursuant to SEBI Circular No. SEBI/HO/CFD/DIL2/CIR/P/2018/138 dated November 01, 2018, Individual Investors applying in public offer may use either Application Supported by Blocked Amount (ASBA) facility for making application or also can use UPI as a payment mechanism with Application Supported by Blocked Amount for making application. *For details in this regards, specific attention is invited to the chapter titled “Offer Procedure” beginning on page 314 of the Draft Red Herring Prospectus.*

The process of Book Building under the SEBI ICDR Regulations is subject to change from time to time and the investors are advised to make their own judgment about investment through this process prior to making a Bid or application in the Offer.

For further details on the method and procedure for Bidding, please see section entitled “Offer Procedure” on page 314 of this Draft Red Herring Prospectus.

Illustration of the Book Building and Price Discovery Process: Bidders should note that this example is solely for illustrative purposes and is not specific to the Offer; it also excludes Bidding by Anchor Investors. Bidders can bid at any price within the Price Band. For instance, assume a Price Band of ₹20 to ₹24.00 per share, Offer size of 3,000 Equity Shares and receipt of five Bids from Bidders, details of which are shown in the table below. The illustrative book given below shows the demand for the Equity Shares of the Issuer at various prices and is collated from Bids received from various investors.

Bid Quantity	Amount (₹)	Cumulative Quantity	Subscription
500	24.00	500	16.67%
1000	23.00	1500	50.00%
1500	22.00	3000	100.00%
2000	21.00	5000	166.67%
2500	20.00	7500	250.00%

The price discovery is a function of demand at various prices. The highest price at which the Issuer is able to Offer the desired number of Equity Shares is the price at which the book cuts off, i.e., ₹22 in the above example. The Issuer, in consultation with the Book Running Lead Manager, may finalise the Offer Price at or below such Cut-Off Price, i.e., at or below ₹22. All Bids at or above this Offer Price and cut-off Bids are valid Bids and are considered for allocation in the respective categories.

Steps to be taken by the Bidders for Bidding:

- Check eligibility for making a Bid (see section titled “Offer Procedure” on page 314 of this Draft Red Herring Prospectus);
- Ensure that you have a demat account and the demat account details are correctly mentioned in the Bid cum Application Form;
- Ensure correctness of your PAN, DP ID and Client ID mentioned in the Bid cum Application Form. Based on these parameters, the Registrar to the Offer will obtain the Demographic Details of the Bidders from the Depositories.
- Except for Bids on behalf of the Central or State Government officials, residents of Sikkim and the officials appointed by the courts, who may be exempt from specifying their PAN for transacting in the securities market, for Bids of all values ensure that you have mentioned your PAN allotted under the Income Tax Act in the Bid cum Application Form. The exemption for Central or State Governments and officials appointed by the courts and for investors residing in Sikkim is subject to the Depository Participant’s verification of the veracity of such claims of the investors by collecting sufficient documentary evidence in support of their claims.
- Ensure that the Bid cum Application Form is duly completed as per instructions given in this Draft Red Herring Prospectus and in the Bid cum Application Form;

(IST) on the Bid / Offer Closing Date. Any time mentioned in this Draft Red Herring Prospectus is IST. Bidders are cautioned that, in the event a large number of Bid Cum Application Forms are received on the Bid / Offer Closing Date, as is typically experienced in public Issue, some Bid Cum Application Forms may not get uploaded due to the lack of sufficient time. Such Bid Cum Application Forms that cannot be uploaded will not be considered for allocation under this Issue. Applications will be accepted only on Working Days, i.e., Monday to Friday (excluding any public holidays). Neither our Company nor the Book Running Lead Manager is liable for any failure in uploading the Bid Cum Application Forms due to faults in any software / hardware system or otherwise. In accordance with SEBI ICDR Regulations, QIBs and Non-Institutional Applicants are not allowed to withdraw or lower the size of their application (in terms of the quantity of the Equity Shares or the Application amount) at any stage. Retail Individual Applicants can revise or withdraw their Bid Cum Application Forms prior to the Bid / Offer Closing Date. Allocation to Retail Individual Applicants, in this Offer will be on a proportionate basis. In case of discrepancy in the data entered in the electronic book vis-à-vis the data contained in the physical Bid Cum Application Form, for a particular Applicant, the details as per the file received from Stock Exchange may be taken as the final data for the purpose of Allotment. In case of discrepancy in the data entered in the electronic book vis-à-vis the data contained in the physical or electronic Bid Cum Application Form, for a particular ASBA Applicant, the Registrar to the Offer shall ask the relevant SCSBs / RTAs / DPs / stockbrokers, as the case may be, for the rectified data.

WITHDRAWAL OF THE OFFER

In accordance with the SEBI (ICDR) Regulations, our Company and Selling Shareholder in consultation with Book Running Lead Manager, reserves the right not to proceed with this offer at any time after the Offer Opening Date, but before our Board meeting for Allotment without assigning reasons thereof.

If our Company or Selling Shareholder withdraws the Offer after the Offer Closing Date, we will give reason thereof within two days by way of a public notice which shall be published in the same newspapers where the pre-issue advertisements were published.

Further, the Stock Exchanges shall be informed promptly in this regard and the Book Running Lead Manager, through the Registrar to the Issue, shall notify the SCSBs to unblock the Bank Accounts of the ASBA Applicants within one Working Day from the date of receipt of such notification.

In case our Company withdraws the Offer after the Offer Closing Date and subsequently decides to undertake a public offering of Equity Shares, our Company will file a fresh Offer Document with the Stock Exchange where the Equity Shares may be proposed to be listed.

Notwithstanding the foregoing, the Offer is also subject to obtaining the final Listing and Trading Approval of the Stock Exchange, which the Company shall apply for after Allotment. In terms of the SEBI Regulations, Non-Retail Applicants shall not be allowed to withdraw their Application after the Offer Closing Date.

UNDERWRITING AGREEMENT

The Underwriting Agreement has not been executed as on the date of this Draft Red Herring Prospectus. After the determination of the Offer Price but prior to the filing of the Red Herring Prospectus with the RoC, our Company will enter into an Underwriting Agreement with the Underwriters for the Equity Shares proposed to be offered through the

Offer. Pursuant to the terms of the Underwriting Agreement, the obligations of the Underwriters will be several and will be subject to certain conditions to closing, as specified therein.

The Underwriting Agreement is dated [●]. The Underwriters have indicated their intention to underwrite the following number of Equity Shares:

Details of the Underwriter*	No. of shares underwritten	Amount Underwritten (₹ in Lakh)	% of the Total Offer Size Underwritten
[●]	[●]	[●]	[●]
TOTAL	[●]	[●]	[●]

*(This portion has been intentionally left blank and will be filled in before filing of the Red Herring Prospectus with the RoC)

The above-mentioned is indicative underwriting amount and will be finalised after determination of Issue Price and actual allocation in accordance with provisions of the SEBI ICDR Regulations.

As per Regulation 260(2) of SEBI (ICDR) Regulations, 2018, the Book Running Lead Manager has agreed to underwrite to a minimum extent of 15% of the Offer out of its own account. In the opinion of the Board of Directors (based on the certificate given by the Underwriters), the resources of the above-mentioned Underwriters are sufficient to enable them to discharge their respective underwriting obligations in full. The above-mentioned Underwriters are registered with SEBI under Section 12(1) of the SEBI Act or registered as broker with the Stock Exchange.

Allocation among the Underwriters may not necessarily be in proportion to their underwriting commitments set forth in the table above. Notwithstanding the above table, the Book Running Lead Manager shall be responsible for ensuring 74 payment with respect to Equity Shares allocated to investors procured by them. In the event of any default in payment, the respective Underwriter, in addition to other obligations defined in the underwriting agreement, will also be required to procure / subscribe to Equity Shares to the extent of the defaulted amount. If the Underwriter(s) fails to fulfil its underwriting obligations as set out in the Underwriting Agreement, the Book Running Lead Manager shall fulfil the underwriting obligations in accordance with the provisions of the Underwriting Agreement.

**The shares are considered after giving the effect of the subdivision of shares

The Equity Shares that are being locked-in are not, and will not be, ineligible for computation of Promoters' Contribution under Regulation 237 of the SEBI (ICDR) Regulations, 2018. In this computation, as per Regulation 237 of the SEBI (ICDR) Regulations, our Company confirms that the Equity Shares locked-in do not, and shall not, consist of:

- The Equity Shares offered for minimum 20% Promoter's Contribution have not been acquired in the three years

preceding the date of this Draft Red Herring Prospectus for consideration other than cash and revaluation of assets or capitalization of intangible assets nor resulted from a bonus issue out of the revaluation reserves or unrealized profits of the Company or against Equity Shares which are otherwise ineligible for computation of Promoter's contribution;

- b) The minimum Promoter's contribution does not include Equity Shares acquired during the one year preceding the date of this Draft Red Herring Prospectus at a price lower than the Offer Price;
- c) The minimum Promoter's contribution does not consist of such specified securities, allotted to promoters against capital existing in such firms for a period of more than one year on a continuous basis.
- d) The Equity Shares held by the Promoters and offered for minimum Promoter's contribution are not subject to any pledge;
- e) All the Equity Shares of our Company held by the Promoters are in dematerialized form and
- f) The Equity Shares offered for Promoter's contribution do not consist of Equity Shares for which specific written consent has not been obtained from the Promoters for inclusion of its subscription in the Promoters contribution subject to lock-in.

We further confirm that our Promoter's Contribution of 20.00% of the Post Offer Equity does not include any contribution from Alternative Investment Funds or FVCI or Scheduled Commercial Banks or Public Financial Institutions or Insurance Companies.

19. Equity Shares locked-in for Two year or one years in phased manner other than Minimum Promoters' Contribution

The entire pre-offer shareholding of the Promoters, other than the Minimum Promoter's contribution which is locked in for three years, shall be locked in a phased manner from the date of allotment in this offer as below:

As per Regulation 238 (b)

“(i) fifty percent. of promoters' holding in excess of minimum promoters' contribution shall be locked in for a period of two years from the date of allotment in the initial public offer; and

(ii) remaining fifty percent. of promoters' holding in excess of minimum promoters' contribution shall be locked in for a period of one year from the date of allotment in the initial public offer.”

In addition to the Minimum Promoter's contribution which is locked in for three years, as specified above, the balance Equity Shares held by the Promoters shall be released in a phased manner i.e., lock-in for 50% of upto 57,76,660 Equity Shares shall be released after two year and remaining 50% of upto 57,76,660 Equity Shares shall be released after one years.

In terms of Regulation 239 of the SEBI ICDR Regulations, the entire pre-offer capital held by the persons other than the Promoters shall be locked in for a period of one year from the date of Allotment in this offer. Accordingly, 3 Equity Shares held by the Persons other than the Promoter shall be locked in for a period of one year from the date of Allotment in this offer.

20. Inscription or Recording of non-transferability

In terms of Regulation 241 of the SEBI (ICDR) Regulations, 2018, our Company confirms that certificates of Equity Shares which are subject to lock in shall contain the inscription “Non-Transferable” and specify the lock-in period and in case such equity shares are dematerialized, the Company shall ensure that the lock in is recorded by the Depository. The details of lock-in of the Equity Shares shall also be provided to the Designated Stock Exchange before the listing of the Equity Shares

21. Pledge of Locked in Equity Shares

Pursuant to Regulation 242 of the SEBI (ICDR) Regulations, 2018, the locked-in Equity Shares held by our Promoters can be pledged with any scheduled commercial bank or public financial institution or systematically important non-banking finance company or a housing finance company as collateral security for loans granted by them, provided that:

- if the equity shares are locked-in in terms of clause (a) of Regulation 238, the loan has been granted to the company or its subsidiary(ies) for the purpose of financing one or more of the objects of the Offer and pledge of equity shares

is one of the terms of sanction of the loan;

- if the specified securities are locked-in in terms of clause (b) of Regulation 238 and the pledge of specified securities is one of the terms of sanction of the loan.

Provided that such lock-in shall continue pursuant to the invocation of the pledge and such transferee shall not be eligible to transfer the equity shares till the lock-in period stipulated in these regulations has expired.

22. Transferability of Locked in Equity Shares

In terms of Regulation 243 of the SEBI (ICDR) Regulations, 2018 and subject to provisions of SEBI (SAST) Regulations, 2011 as applicable;

The Equity Shares held by our Promoters and locked in as per Regulation 238 of the SEBI (ICDR) Regulations, 2018 may be transferred to another Promoters or any person of the Promoter Group or to a new promoter(s) or persons in control of our Company, subject to continuation of lock-in for the remaining period with transferee and such transferee shall not be eligible to transfer them till the lock-in period stipulated has expired.

The equity shares held by persons other than promoters and locked in as per Regulation 239 of the SEBI (ICDR) Regulations, 2018 may be transferred to any other person (including Promoters and Promoter's Group) holding the equity shares which are locked-in along with the equity shares proposed to be transferred, subject to continuation of lock-in for the remaining period with transferee and such transferee shall not be eligible to transfer them till the lock-in period stipulated has expired.

23. Our Company, our Directors and the Book Running Lead Manager to this Offer have not entered into any buy-back or similar arrangements with any person for purchase of our Equity Shares issued by our Company.
24. As on date of this Draft Red Herring Prospectus, there are no partly paid-up equity shares and all the Equity Shares of our Company are fully paid up. Further, since the entire money in respect of the Offer is being called on application, all the successful applicants will be issued fully paid-up equity shares.
25. As on the date of filing of this Draft Red Herring Prospectus, there are no outstanding warrants, options or rights to convert debentures, loans or other instruments which would entitle Promoters or any shareholders or any other person any option to acquire our Equity Shares after this Initial Public Offer.
26. As on the date of this Draft Red Herring Prospectus, the Book Running Lead Manager and their respective associates (as defined under the Securities and Exchange Board of India (Merchant Bankers) Regulations, 1992) do not hold any Equity Shares of our Company. The Book Running Lead Manager and their affiliates may engage in the transactions with and perform services for our Company in the ordinary course of business or may in the future engage in commercial banking and investment banking transactions with our Company for which they may in the future receive customary compensation.
27. Investors may note that in case of over-subscription, allotment will be on proportionate basis as detailed under **"Basis of Allotment"** in the chapter titled **"Offer Procedure"** beginning on page 314 of this Draft Red Herring Prospectus. In case of over-subscription in all categories the allocation in the Offer shall be as per the requirements of Regulation 253 (2) of SEBI (ICDR) Regulations, as amended from time to time.
28. An over-subscription to the extent of 10% of the Net Offer can be retained for the purpose of rounding off to the nearest integer during finalizing the allotment, subject to minimum allotment, which is the minimum application size in this Offer. Consequently, the actual allotment may go up by a maximum of 10% of the Offer, as a result of which, the post Offer paid up capital after the Offer would also increase by the excess amount of allotment so made. In such an event, the Equity Shares held by the Promoters and subject to lock-in shall be suitably increased; so as to ensure that 20% of the post Offer paid-up capital is locked in.
29. Our Company has not raised any bridge loan against the proceeds of this Offer. However, depending on business requirements, we might consider raising bridge financing facilities, pending receipt of the Net Proceeds.
30. Our Company undertakes that at any given time, there shall be only one denomination for our Equity Shares, unless otherwise permitted by law.
31. The unsubscribed portion in any reserved category (if any) may be added to any other reserved category.

32. The unsubscribed portion if any, after such inter se adjustments among the reserved categories shall be added back to the Net Offer to the public portion.
33. Our Company shall comply with such accounting and disclosure norms as specified by SEBI from time to time.
34. There are no Equity Shares against which depository receipts have been issued.
35. As per RBI regulations, OCBs are not allowed to participate in this offer.
36. This Offer is being made through Book Built Method.
37. In terms of Rule 19(2)(b)(i) of the Securities Contracts (Regulation) Rules, 1957, as amended, (the SCRR) the Offer is being made for at least 25% of the post-offer paid-up Equity Share capital of our Company. Further, this Offer is being made in terms of Chapter IX of the SEBI (ICDR) Regulations, 2018, as amended from time to time. No payment, direct or indirect in the nature of discount, commission, allowances or otherwise shall be made either by us or our Promoters to the persons who receive allotments, if any, in this Offer.
38. No person connected with the Offer shall offer any incentive, whether direct or indirect, in the nature of discount, commission, and allowance, or otherwise, whether in cash, kind, services or otherwise, to any Applicant.
39. Our Promoters and Promoter Group will not participate in the Offer, except to the extent of the Offer for Sale by the Selling Shareholder.

Our Company shall ensure that transactions in the Equity Shares by the Promoters and the Promoter Group between the date of filing this Draft Red Herring Prospectus and the Offer Closing Date shall be reported to the Stock Exchange within twenty-four hours of such transactions.

REQUIREMENTS OF FUNDS

Our Company intends to utilize the Net Fresh Offer proceeds for the following Objects (“Objects of the Offer”):

- Capital expenditure towards Civil construction and Capital expenditure towards purchase of additional machinery.
- Repayment/Pre-payment of Certain Debt Facilities.
- Working Capital Requirements
- General Corporate Purposes

In addition to the objects mentioned above, our Company intends to strengthen its capital base and expects to receive the benefits of listing of the Equity Shares on the Stock Exchanges, including among other things, enhancing the visibility of our brand and our Company among our existing and potential customers. We believe that listing will enhance our corporate image and brand name and create a public market for Equity Share of our Company in India and will further enable us to avail future growth opportunities.

We are a manufacturer of forging and casting products specializing in precision-engineered components for diverse sectors. With around 40 years of expertise, the company produces forged products, including Pipe Flanges, Couplers, Scaffolding Clamps, Ground Engaging Tools for JCB and tractors, Battle Tank Track Chains, and Bomb Shells, adhering to international standards and customer specifications. Munish Forge Limited serves multiple industries such as Defence, Oil & Gas, Automotive, Agriculture and Infrastructure, domestically and globally.

The main object clause and the ancillary object clause of the Memorandum of Association of our Company enable us to undertake our existing activities and the activities for which we are raising funds through the Offer. The existing activities of our Company are within the object clause of our Memorandum.

UTILIZATION OF NET FRESH OFFER PROCEEDS

The Net Fresh Offer proceeds are proposed to be used in the manner set out in the following table:

(₹ in lakhs)

Sr. No.	Particulars	Total Estimated Expenditure	Amount to be financed from Internal Accruals/ Borrowings	Amount to be financed and deployed from Net IPO Proceeds by the Financial Year ended March 31, 2026

4	General Corporate Purposes*	[●]	-	[●]
	Total	[●]		[●]

**To be finalized upon determination of the Offer Price and updated in the Prospectus prior to filing with RoC. *General Corporate Purpose shall not exceed 15% of the Gross Issue Proceeds or 10 crores whichever is lesser in accordance with Regulation 230(2) of the SEBI ICDR Regulation, 2018 read along with SEBI ICDR Regulation (Amendment) Regulations, 2025*

We intend to deploy the Net Proceeds towards the Objects as disclosed in the table above, in accordance with the business needs of our Company. However, the actual funding requirements and deployment of the Net Proceeds as described herein are based on various factors, such as, our current business plan, management estimates, current circumstances of our business, quotations received from vendors, timing of completion of the Offer, market conditions, our Board's analysis of economic trends and business requirements, competitive landscape, as well as general factors affecting our results of operations and financial condition.

Depending on such factors, we may have to reduce, revise or extend the deployment period for the stated Objects, at the discretion of our management and in accordance with applicable laws. In the event that the estimated utilization of the Net Proceeds in a scheduled Fiscal is not completely met, including due to the reasons stated above, then it shall be utilized in the next Fiscal, as may be determined by our Company, in accordance with applicable laws. Our historical expenditure may not be reflective of our future expenditure plans.

The above fund requirements are based on our current business plan as approved by our Board of Directors pursuant to their resolution dated May 01, 2025, management estimates based on the prevailing market conditions, other commercial and technical factors including interest rates and other charges, quotations received from vendor, all of which are subject to change in the future. The proposed deployment of the Net Proceeds has not been appraised by any bank, financial institution or agency. These are based on current conditions and are subject to revisions in light of changes in costs, our financial condition, our business operations or growth strategy or external circumstances which may not be in our control. We may have to revise our funding requirements and deployment of the Net Proceeds from time to time on account of various factors, such as financial and market conditions, business and strategy, competitive environment and interest or exchange rate fluctuations, increase in labour costs, logistics and transport costs, incremental preoperative expenses, taxes and duties, interest and finance charges, regulatory costs, environmental factors and other external factors, which may not be within the control of our management. For further information on factors that may affect our internal management estimates, see ***“Risk Factor No 15, Our funding requirements and proposed deployment of the Net Proceeds are based primarily on management estimates and assumptions and have not been appraised by any bank or financial institution or any other independent agency. The utilization of the Net Proceeds may be subject to change based on various factors, some of which are beyond our control and such utilisation may not generate expected future revenues or profits after utilisation. Further, any change or variation in the utilization of Net Proceeds from the terms and***

conditions stated in this Draft Red Herring Prospectus shall be subject to compliance requirements, including among other things, prior Shareholders' approval.” on page 35 of this Draft Red Herring Prospectus. In case of any increase in the actual utilization of funds earmarked for the Objects, such additional funds for a particular activity will be met by way of means available to our Company, including from internal accruals or borrowings.

If the actual utilization towards any of the Objects is lower than the proposed deployment such balance will be used for future growth opportunities including funding existing objects, if required. In case of delays in raising funds from the Issue, our Company may deploy certain amounts towards any of the above-mentioned Objects through a combination of Internal Accruals or Borrowings.

Means of Finance:

The above-mentioned fund requirement will be met from the proceeds of the Offer. We intend to fund the shortfall, if any, from internal accruals or debt finance.

Since the fund requirements set out for the aforesaid Objects of the Issue are proposed to be met entirely from the Net Proceeds, internal accruals and borrowings. Accordingly, we confirm that we are in compliance with the requirement to make firm arrangements of finance under Regulation 230(1)(e) of the SEBI (ICDR) Regulations, 2018 through verifiable means towards at least 75% of the stated means of finance, excluding the amount to be raised through the Net Proceeds and existing identifiable internal accruals.

For further details on the risks involved in our business plans and executing our business strategies, please see the chapter titled “Risk Factors” beginning on page 35 of this Draft Red Herring Prospectus.

Details of the Object

1. Capital expenditure towards Civil construction and Purchase of additional Plant & Machinery.

a) Civil Construction

The company is engaged in the business of manufacturing forged and cast components which includes Flange, Scaffolding, Auto parts, Tank tracks chains, Bomb shells, Fence post and steel accessories as per customer specifications and International Standards catering to the requirements of various industries such as Defence, Oil and Gas, Automobile, Construction and Infrastructure etc. Production process involves various activities which is carried out in the processing units of the Company's Factory located at alongside our registered office at Adjoining village Gobindgarh, Focal Point, Phase 7, Ludhiana - 141010, Punjab, India covering area of about 11.5 acre. One of the unit producing Defence products (“PSU Section”) is around 300 metres away from the cutting & forging unit leading to difficulty in transition of product line of PSU section. Company proposed to utilize ₹ 35.03 lakhs from the Net Proceeds for the construction of an additional shed at PSU Section and the development of currently unused space near to PSU section within the Manufacturing facility. This expansion is expected to enhance our operational efficiency pertaining to the PSU Section.

Further, our Company proposed to utilize ₹8.52 lakhs from the Net Proceeds for the construction of an internal road within the factory premises, covering an area of 5,000 square feet (250 ft × 20 ft), near the Tube Mill within manufacturing facility connecting PSU section with other processing units. This infrastructure development will facilitate smoother internal logistics and overall operational efficiency.

Further, the company's old roofing sheets were installed covering an area of 46,856 square feet at the existing factory sheds which need replacement with new profile sheets. This upgrade will enhance structural durability, improve insulation, and provide better protection against environmental factors such as heat, rain, and dust. The new roofing will also contribute to improved working conditions within the facility, leading to increased factory building life and reduced maintenance costs over time. Our Company Proposed to utilized ₹30.45 lakhs from the Net Proceeds for the replacement of roofing sheets.

Following are the quotations for the proposed Civil Work at the manufacturing facility of the Company:

Total						74.00

b) Capital Expenditure towards purchase of additional Machinery

Our Company proposes to allocate a portion of the Net Proceeds, amounting to ₹ 553.88 lakhs, towards the acquisition of modernized machinery at our existing manufacturing facility. This strategic investment is intended to enhance our operational efficiency, increase productivity, and achieve long-term cost optimization.

The proposed machinery will be equipped with advanced Computer Numerical Control (CNC) technology, which offers superior precision, accuracy, and reliability in machining operations. CNC systems automate the control of machine tools through computer programming, enabling the efficient and repeatable production of complex and high-precision components with minimal human intervention. Operators oversee the CNC machining processes and perform adjustments as required, ensuring quality control and consistency throughout the manufacturing cycle. These modern machines significantly reduce processing time, streamline workflows, and support adherence to international standards of quality and precision. This acquisition aligns with our commitment to technological advancement and continuous improvement in manufacturing capabilities, thereby strengthening our competitive edge in both domestic and global markets.

Following is the brief about the utilisation of the proposed machineries:

Vertical Machining Centre CNC and CNC Horizontal Turning Centre, Model LR40TL15 CNC: This machines with Computer Numerical Control (CNC) mechanism will be used for Turning of heavy and big sized flanges produced by the Company, with the CNC mechanism this machine will add more accuracy leading to quality improvements.

Vertical Turning Centre, Model HAAS VF 5/40-I: Company is planning to make the Tool and Dies to be used for production of current product line of the company using the said machine this will add into the tools making capacity of the Company.

Tumble Type Shot Blasting: This Machine is used for surface cleaning, descaling, deburring, and preparation of couplers, ledgers, auto & tractor products and other steel parts produced by the Company.

Cold Forge Header Machine: To increase the size range of bolts from 12mm to 16 mm company will utilise this machine. This machine will cover up the shortage of bolts production and will enhance the quality of the final products.

Automatic Trimmer Machine: Company will utilise this machine for Trimming the Auto and fin of bolts, due to the automatic mechanism of this machine help in more precision and reduce the time to finalise the products.

Company has taken following Quotations for the Proposed acquisition of machineries:

* Quotation from Philips Machine Tools India Pvt Ltd of \$ 68,995/- dated March 20th 2025. 1\$= ₹ 86.3040 as on March 20th 2025.

Notes:

1. We have considered the above quotations for the budgetary estimate purpose and have not placed orders for them. The actual cost of procurement and actual supplier/dealer may vary as per the best possible offer available with us.
2. All quotations received from the vendors mentioned above are valid as on the date of this Draft Red Herring Prospectus. However, we have not entered into any definitive agreements with any of these vendors and there can be no assurance that the same vendors would be engaged to eventually render the services or at the same costs.
3. The construction service and quantity to be purchased are based on the present estimates of our management. The Management shall have the flexibility to revise such estimates (including but not limited to change of vendor or any modification/addition/deletion of supply or equipment) at the time of actual placement of the order. In such case, the Management can utilize the surplus of proceeds, if any, arising at the time of actual placement of the order, to meet the cost of such other service, equipment or utilities, as required. Furthermore, if any surplus from the proceeds remains after meeting the total cost of construction service, equipment and utilities for the aforesaid purpose, the same will be used for our general corporate purposes, subject to limit of 15% of the amount raised or ₹ 10 Crores whichever is lower by our Company through this Offer.
4. The quotations relied upon by us in arriving at the above cost are valid for a specific period of time and may lapse after the expiry of the said period. Consequent upon which, there could be a possible escalation in the cost of services proposed to be acquired by us at the actual time of provision of service, resulting in increase in the estimated cost. Further, cost will be escalated on account of freight expenses, installation charges, packaging & forwarding, custom duty etc. Such cost escalation would be met out of our internal accruals

Proposed Schedule of Implementation

The proposed schedule of implementation for installation of Manufacturing facilities is as follows:

Particulars	Estimated Month of Completion*	Estimated Month of Put to use*
Civil Construction	October' 2025	October' 2025
Additional Machinery	September' 2025	October' 2025

*Assuming we receive the IPO Proceeds in the month of June' 2025.

2) Repayment/Pre-payment of Certain Debt Facilities

Our Company has entered into various financing arrangements with banks and financial institutions. The loan facilities

entered into by our Company include borrowings in the form of term loans and fund-based facilities. For further details, including indicative terms and conditions of such loan facilities, see **“Statement of Financial Indebtedness”** beginning on page 267 of this Draft Red Herring Prospectus. As at February 28, 2025, the amount outstanding under the loan facilities (part of which are proposed to be repaid to the extent of ₹ 1100 Lakhs from the Objects of the Offer). Our Company proposes to utilise an aggregate amount of ₹ 1100 Lakhs from the Net Proceeds towards full / partial repayment or prepayment of certain borrowing availed by our Company from bank / financial institution. The selection and extent of loans proposed to be repaid from our Company’s borrowings mentioned below will be based on various commercial considerations including, among others, the costs, expenses and charges relating to the facility including interest rate of the relevant loan, the amount of the loan outstanding, the remaining tenure of the loan, presence of onerous terms and conditions under the facility, levy of any prepayment charges, foreclosure charges and the quantum thereof, provisions of any law, rules, regulations governing such borrowings, terms of prepayment to lenders, if any and mix of credit facilities provided by lenders. Given the nature of these borrowings and the terms of repayment, the aggregate outstanding amounts under these loans may vary from time to time and our Company may, in accordance with the relevant repayment schedule, repay or refinance some of its existing borrowings prior to Allotment. Accordingly, our Company may utilise the Net Proceeds for part prepayment of any such refinanced loans or repayment of any additional loan facilities obtained by it. However, the aggregate amount to be utilised from the Net Proceeds towards prepayment or repayment of loans (including refinanced or additional loans availed, if any), in part or full, would not exceed ₹ 1100 Lakhs. The prepayment or repayment will help reduce our outstanding indebtedness and debt servicing costs, assist us in maintaining a favourable debt to equity ratio and enable utilisation of our internal accruals for further investment in business growth and expansion. In addition, we believe that the leverage capacity of our Company will improve our ability to raise further resources in the future to fund potential business development opportunities and plans to grow and expand our business in the future. The following table provides details of loans availed by our Company as on February 28, 2025 on a standalone basis, out of which all or any of the facilities may be prepaid or repaid, in full or in part, from the Net Proceeds to the extent of an aggregate amount of ₹ 1100. As certified by M/s. Vinay & Associates, Chartered Accountants, pursuant to their certificate dated March 30, 2025 the above-mentioned loans have been deployed towards the purposes mentioned in the respective loan agreements. In due course of business, due to various operational benefits, our Company may explore possibilities of other banks participating in existing loans either in full or in part, including the loans mentioned above. Some of our financing agreements provide for the levy of prepayment penalties. In the event that there are any prepayment penalties required to be paid under the terms of the relevant financing agreements, such prepayment penalties shall be paid by our Company out of its internal accruals.

3) To Meet Working Capital Requirements

With the expansion of the business company will be in the need of additional working capital requirements. We fund a majority of our working capital requirements in the ordinary course of business from banks facilities and internal accruals. Our Company requires additional working capital for funding its incremental working capital requirements and releasing the internal accruals deployed in working capital.

Our Company proposes to utilize ₹ 3000 lakhs of the Net Proceeds in Fiscal 2026 towards our Company's working capital requirements. The balance portion of our Company working capital requirement shall be met from the working capital facilities availed and internal accruals. The incremental and proposed working capital requirements and key assumptions with respect to the determination of the same are mentioned below:

Justification for Holding Period Levels

Inventory	Inventories include raw materials, WIP and finished goods. The Inventory levels are maintained by our Company depending upon the demand and delivery schedules of that particular order. Inventory level for the F.Y. 2022-23 was decreased to 119 days as compared to 202 days in F.Y. 2021-22. This decrease was due to several factors: a rise in demand, proactive production planning to meet future orders and efficient supply chain management. Further inventory holding period increased to 148 days in F.Y. 2023-24 as compared to 119 days in F.Y. 2022-23 reason being strategic decisions driven by factors like focusing more on securing government contracts and exploring export markets. Inventory holding period of 9 months ended December 31, 2024 of 144 cannot be compared to the past financial years. Our expected inventory holding period for the years ended March 31, 2025, and March 31, 2026, are 190 days each. This higher inventory holding period is essential to maintain our competitive edge. Additionally, the sales under defence category have seen a significant increase from 0.82% in FY 2024 to 10.43% for the nine months period ended December 2024 out of total revenue of the respective periods. We anticipate further growth in this segment moving forward. This projected growth will inevitably exert pressure on our inventory holding period, as the defence sector involves lengthy manufacturing and approval processes distinct from general forging and casting which in turn will have an impact on the inventory holding days.
Trade Receivable	Trade receivable days decreased significantly, from 68 days in FY2022 to 48 days in FY2023, and stabilized around 46 days in FY2024. This reduction was achieved through policies encouraging customers to expedite payments, aimed at enhancing cash flow to support business growth. The trend persisted during the nine months period ending December 31, 2024, with receivable days further declining to 44 days. However, this stricter approach led to moderated sales, prompting the company to consider relaxing credit terms in the future to drive business expansion, the company projects an increase in trade receivable days to 56 days of total revenue for FY2025 and FY2026. This strategic decision is intended to boost sales growth by offering customers extended credit periods, providing them with greater flexibility to settle invoices.
Other Current Assets	Other current assets include advances to employees, balance with Government Authorities for GST, duty draw back receivables and other balances with revenue authorities. Our Other current assets holding period for the F.Y. 2021-22, 2022-23 and 2023-24 were 49 days, 31 days and 32 days respectively which was further reduced to 19 days in 9 months period ended on December 31, 2024. There has been decrease over the years in the holding period due to better asset utilization, more efficient financial management, and improved cash flow. Further the company is anticipating to maintain other current assets holding days on a similar level i.e. 31 days for F.Y. 2024-25 and 2025-26.
Trade Payable	Trade Payables holding period is 52 days, 24 days and 38 days for the F.Y. 2021-22, 2022-23 and 2023-24 respectively. The reason for decrease in holding period in the F.Y. 2022-23 as compared to F.Y. 2021-22 is efficient cash flow and supplier management. For the FY 2023-24 while there was increase in holding period from 24 to 38 days due to optimization of cash flows, negotiation with supplier for better terms. Due to better negotiation with the suppliers holding days were increased to 50 days in 9 month period ended December 31, 2024. For the upcoming period of the FY 2024-25 and FY 2025-26, we are expecting the holding period to be at 50 and 35 days respectively with efficient cash flow and supplier management, leverage of cash discounts from suppliers, empowerment to negotiate more favorable terms and prices, fostering stronger supplier relationship with prompt payments.
Other Current Liabilities	Other Current Liabilities mainly includes Advance from customers. Other current liability holding days for the F.Y. 2021-22, 2022-23 and 2023-24 are 6 days, 1 day and 1 day respectively. The holding level for F.Y. 2023 and F.Y. 2024 was decreased due to

	faster settlement of short-term obligations, effective cash flow and working capital management. The holding period for the 9 month period ended December 31, 2024 was maintained to similar level of 1 day which is further expected to stay at the same level of 1 day in FY 2024-25 and 1 day in 2025-26.
Other Financial Liabilities	Other Financial Liabilities mainly includes payables to employees, interest payable, statutory liabilities, payables towards other expenses. Other financial liability holding days for the F.Y. 2021-22, 2022-23 and 2023-24 are 19 days, 15 days and 12 days respectively. The holding level for F.Y. 2022-23, F.Y. 2023-24 was decreased due to faster settlement of short-term obligations, effective cash flow and working capital management. It reflects a company's commitment to maintaining financial health, minimizing costs, and reducing financial risks. The holding period for the 9 month period ended December 31, 2024 remained at 12 days which is expected to remain at 13 days in FY 2024-25 and 2025-26.

Pursuant to the certificate dated March 30, 2025, M/s. Vinay & Associates, Chartered Accountants, have verified the working capital requirements for the period ended on March 31, 2025, from the Restated Financial Information and working capital estimates for the financial year 2025 and 2026 as approved by the Board pursuant to its resolution dated March 25, 2025.

* Notes:

1) Basic and diluted earnings/ (loss) per equity share: Basic and diluted earnings per equity share are computed in accordance with

Indian Accounting Standard 33 – “Earnings per Share” issued by the Institute of Chartered Accountants of India.

2) The ratios have been computed as below:

- i) Basic EPS is calculated as Profit/(loss) for the year/period attributable to owners of parent divided by the adjusted weighted average number basic equity shares outstanding during the year/period.
- ii) Diluted EPS is calculated as Profit/(loss) for the year/period attributable to owners of parent divided by the adjusted weighted average number of adjusted diluted equity shares outstanding during the year/period.
- 3) Weighted average number of equity shares is the number of equity shares outstanding at the beginning of the year/period adjusted by the number of equity shares issued during the year/period multiplied by the time weighting factor. The time weighting factor is the number of days for which the specific shares are outstanding as a proportion of total number of days during the year/period.
- 4) Weighted average is aggregate of year-wise weighted EPS divided by the aggregate of weights i.e. $\{(EPS \times Weight) \text{ for each year}\} / \{Total \text{ of weights}\}$.

Weighted average cost of acquisition of primary issuance as per paragraph (a) above	89.00	[●] times	[●] times
Weighted average cost of acquisition for secondary transaction as per paragraph (b) above	NIL	NA	NA
Weighted average cost of acquisition for last five primary or secondary transaction as per paragraph (c) above	NA	NA	NA

Note:

[^]There were no primary / new issue of equity shares other than Equity Shares issued pursuant to a shares allotted in respect to Bonus issue and Private Placement (Preferential allotment) made on September 5, 2024 and March 15, 2024, in last 18 months and three years prior to the date of this Draft Red Herring Prospectus.

The Company in consultation with the Lead Manager believes that the Offer Price of ₹ [●] per share for the Public Issue is justified in view of the above parameters. Investor should read the above-mentioned information along with the chapter titled "Risk Factors" beginning on page 34 of this Draft Red Herring Prospectus and the financials of our Company including important profitability and return ratios, as set out in the chapter titled "Financial Statements as Restated" beginning on page 216 of this Draft Red Herring Prospectus.

STATEMENT OF POSSIBLE TAX BENEFITS

To

The Board of Directors

Munish Forge Limited

Adjoining Phase VII, Govind Garh Village,
Focal Point, Gobindgarh, Ludhiana - 141010, Punjab,
India.

Dear Sir,

Sub: Statement of Possible Special Tax Benefits (“the Statement”) available to Munish Forge Limited (“the Company”) and its shareholders prepared in accordance with the requirements in Point No. 9 (L) of Part A of Schedule VI of the Securities Exchange Board of India (Issue of Capital Disclosure Requirements) Regulations 2018, as amended (“the Regulations”)

We hereby report that this certificate along with the annexure (hereinafter referred to as “**The Statement**”) states the possible special tax benefits available to the Company and the shareholders of the Company under the Income Tax Act, 1961 (‘IT Act’) (read with Income Tax Rules, Circulars and Notifications) as amended by the Finance Act, 2025 (i.e. applicable to F.Y. 2025-26 relevant to A.Y. 2026-27) (hereinafter referred to as the “IT Regulations”) and under the Goods And Service Tax Act, 2017 (read with Goods And Service Tax [GST] Rules, Circulars and Notifications), presently in force in India. The Statement has been prepared by the management of the Company in connection with the proposed Public Issue, which we have initialed for identification purposes only.

Several of these benefits are dependent on the Company or its shareholders fulfilling the conditions prescribed under the said relevant provisions of the tax laws and regulations applicable to the Company. Hence, the ability of the Company or its shareholders to derive the special tax benefits, if any, is dependent upon fulfilling such conditions, which based on business imperatives, which the Company may or may not choose to fulfill or face in the future.

The benefits discussed in the enclosed annexure cover only special tax benefits available to the Company and its shareholders and do not cover any general tax benefits available to the Company or its shareholders. Further, the Preparation of enclosed statement and the contents stated therein is not exhaustive and is the responsibility of the Company’s management. This statement is only intended to provide general information to the investors and is neither designed nor intended to be a substitute for professional tax advice. A shareholder is advised to consult his/ her/ its own tax consultant with respect to the tax implications arising out of his/her/its participation in the proposed issue, particularly in view of ever-changing tax laws in India. Further, we give no assurance that the income tax authorities/ other indirect tax authorities/courts will concur with our views expressed herein.

We do not express any opinion or provide any assurance as to whether:

- the Company or its shareholders will continue to obtain these benefits in future; or
- the conditions prescribed for availing the benefits have been/would be met.

The contents of the annexure are based on information, explanations and representations obtained from the Company and on the basis of our understanding of the business activities and operations of the Company and the provisions of the tax laws.

The information provided below sets out the Possible Special Direct Tax & Indirect Tax benefits available to the Company, and its Shareholders in a summary manner only and is not a complete analysis or listing of all potential tax consequences of the subscription, ownership and disposal of Equity Shares, under the current tax laws presently in force in India. Several of these benefits are dependent on the Company and its Shareholders fulfilling the conditions prescribed under the relevant tax laws. Hence, the ability of the Company, and the Shareholders of the Company to derive the direct and indirect tax benefits is dependent upon their fulfilling such conditions, which is based on business imperatives the Company may face in the future and accordingly, the Company, and the Shareholders of the Company may or may not choose to fulfil. Further, certain tax benefits may be optional, and it would be at the discretion of the Company or the Shareholders of the Company to exercise the option by fulfilling the conditions prescribed under the Tax Laws.

The following overview is not exhaustive or comprehensive and is not intended to be a substitute for professional advice. Investors are advised to consult their own Tax Consultant with respect to the tax implications of an investment in the shares particularly in view of the fact that certain recently enacted legislation may not have a direct legal precedent or may have a different interpretation on the benefits, which an investor can avail.

This certificate along with the annexure is provided solely for the purpose of assisting the addressee Company in

discharging its responsibility under the Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018 for inclusion in the Draft Red Herring Prospectus/Red Herring Prospectus/Prospectus

in connection with the proposed offer of equity shares and is not to be used, referred to or distributed for any other purpose without our written consent.

ANNEXURE TO THE STATEMENT OF POSSIBLE SPECIAL TAX BENEFITS AVAILABLE TO MUNISH FORGE LIMITED (“THE COMPANY”) AND IT’S SHAREHOLDERS UNDER THE APPLICABLE TAX LAWS IN INDIA

Outlined below are the possible special tax benefits available to the Company and its shareholders as per the Income tax Act, 1961 (“IT Act” or “ITA”) as amended from time to time and applicable for financial year 2025-26 relevant to assessment year 2026-27 (AY 2026-27) and Indirect Tax Laws as amended from time to time and applicable for financial year 2025-26. It is not exhaustive or comprehensive and is not intended to be a substitute for professional advice. Investors are advised to consult their own tax consultant with respect to the tax implications of an investment in the Equity Shares particularly in view of the fact that certain recently enacted legislation may not have a direct legal precedent or may have a different interpretation on the benefits, which an investor can avail.

I. Under the IT Act

1. Special Tax Benefits to the Company

a) Lower corporate tax rate on income of domestic companies under Section 115BAA of the ITA

The Taxation Laws (Amendment) Act, 2019 introduced section 115BAA wherein domestic companies are entitled to avail a concessional tax rate of 22% (plus applicable surcharge and cess) on fulfillment of certain conditions. The option to apply this tax rate is available from Financial Year (‘FY’) 2019-20 relevant to AY 2020-21 and the option once exercised through filing of Form 10IC on the Income tax portal shall apply to subsequent assessment years. The concessional tax rate of 22% is subject to the company not availing any of the following deductions under the provisions of the ITA:

- Section 10AA: Tax holiday available to units in a Special Economic Zone.
- Section 32(1)(iia): Additional depreciation;
- Section 32AD: Investment allowance.
- Section 33AB/33ABA: Tea coffee rubber development expenses/site restoration expenses
- Section 35(1)/35(2AA)/ 35(2AB): Expenditure on scientific research.
- Section 35AD: Deduction for capital expenditure incurred on specified businesses.
- Section 35CCC/35CCD: expenditure on agricultural extension /skill development
- Chapter VI-A except for the provisions of section 80JJAA and section 80M.

The total income of a company availing the concessional rate of 25.168% (i.e., 22% along with surcharge of 10% and health and education cess of 4%) is required to be computed without set-off of any carried forward loss and depreciation attributable to any of the aforesaid deductions/incentives. A company can exercise the option to apply for the concessional tax rate by filing Form 10IC on or before the due date of filing return of income under section 139(1) of the ITA. Further, provisions of Minimum Alternate Tax (‘MAT’) under section 115JB of the ITA shall not be applicable to companies availing this reduced tax rate, thus, any carried forward MAT credit also cannot be claimed. The provisions do not specify any limitation/condition on account of turnover, nature of business or date of incorporation for opting for the concessional tax rate. Accordingly, all existing as well as new domestic companies are eligible to avail this concessional rate of tax.

Note: The Company has opted the lower rate under section 115BAA of the ITA.

b) Deductions in respect of employment of new employees under Section 80JJAA of the ITA

As per section 80JJAA of the ITA, where a company is subject to tax audit under section 44AB of the ITA and derives income from business, it shall be allowed to claim a deduction of an amount equal to 30% of additional employee cost incurred in the course of such business in a previous year, for 3 consecutive assessment years including the assessment year relevant to the previous year in which such additional employment cost is incurred.

The eligibility to claim the deduction is subject to fulfilment of prescribed conditions specified in sub-section (2) of section 80JJAA of the ITA. The company is presently not claiming deduction under section 80JJAA of the ITA.

c) Deduction with respect to inter-corporate dividends –Section 80M of the ITA

As per the provisions of section 80M of the ITA, inserted with effect from 01 April 2020 i.e., AY 2021-22, a domestic company shall be allowed to claim a deduction of dividend income earned from any other domestic company or a foreign company or a business trust. The amount of deduction so claimed should not exceed the amount of dividend distributed by it on or before the due date. In this case, due date means one month prior to the due date of furnishing return of income under sub section (1) of section 139 of the ITA.

The company has at present not invested in any other company

2. Special Tax Benefits available to Shareholders

a) Dividend Income

Dividend income earned by the shareholders would be taxable in their hands at the applicable rates. However, in the case of domestic corporate shareholder, benefit of deduction under section 80M of the ITA would be available on fulfilling the conditions. Further, Finance Act 2021 restricted surcharge to 15% in respect of dividend income.

NOTES:

- The above statement of Possible Special Tax Benefits sets out the provisions of Tax Laws in a summary manner only and is not a complete analysis or listing of all potential tax consequences of the purchase, ownership and disposal of shares.
- The above statement covers only certain Special Tax Benefits under the Act, read with the relevant rules, circulars and notifications and does not cover any benefit under any other law in force in India. This statement also does not discuss any tax consequences, in the country outside India, of an investment in the shares of an Indian company.
- The above statement of Possible Special Tax Benefits is as per the current Direct Tax Laws relevant for the assessment year 2025-26. Several of these benefits are dependent on the Company or its Shareholders fulfilling the conditions prescribed under the relevant provisions of the Tax Laws.
- In respect of non-residents, the tax rates and consequent taxation mentioned above will be further subject to any benefits available under the relevant Double Taxation Avoidance Agreement, if any, entered into between India and the country in which the non-resident has fiscal domicile.
- This statement is intended only to provide general information to the investors and is neither designed nor intended to be a substitute for professional tax advice. In view of the individual nature of tax consequences, each investor is advised to consult his or her tax advisor with respect to specific tax consequences of his/her investment in the shares of the Company.

II. Under the Indirect Tax Laws

1. Special Indirect Tax Benefits available to the Company

a) Benefits under the Central Goods and Services Act, 2017, respective State Goods and Services Tax Act, 2017, Integrated Goods and Services Tax Act, 2017 (read with relevant Rules prescribed thereunder)

- Under the GST regime, all supplies of goods and services which qualify as export of goods or services are zero-rated, that is, these transactions attract a GST rate of zero per cent.
- There are two mechanisms for claiming refund of accumulated ITC against export. Person can export under Bond/ Letter of Undertaking (LUT) as zero-rated supply and claim refund of accumulated Input Tax Credit or person may export on payment of integrated Goods and Services Tax and claim refund thereof as per the provisions of Section 54 of Central Goods and Services Tax Act, 2017.
- Thus, the GST law allows the flexibility to the exporter (which will include the supplier making supplies to SEZ) to claim refund upfront as integrated tax (by making supplies on payment of tax using ITC) or export

without payment of tax by executing a Bond/LUT and claim refund of related ITC of taxes paid on inputs and input services used in making zero rated supplies.

The Company is exporting the goods with payment of Integrated GST and is entitled to claim refund of accumulated ITC on such exports in terms of GST law.

b) Benefits of Duty Drawback scheme under the Customs Act, 1962

Duty drawback is the export benefit given to rebate the custom duties charged on imported materials which are used for manufacture of exported goods.

The Company is currently availing benefit under this scheme.

2. Special Tax Benefits available to Shareholders

Shareholders of the Company are not eligible to special tax benefits under the provisions of the Central Goods and Services Act 2017 (read with Central Goods and Services Tax Rules, circulars, notifications), respective State Goods and Services Tax Act, 2017 (read with respective State Goods and Services Tax Rules, circulars, notifications), Integrated Goods and Services Tax Act, 2017 (read with Integrated Goods and Services Tax Rules, circulars, notifications), The Foreign Trade (Development and Regulation) Act, 1992 (read with Foreign Trade Policy 2015-20), Customs Act, 1962 (read with Custom Rules, circulars, notifications), Customs Tariff Act, 1975 (read with Custom Tariff Rules, circulars, notifications)

The Shareholders of the Company are not entitled to any Special Tax Benefits under indirect tax laws.

INVESTORS ARE ADVISED TO CONSULT THEIR OWN TAX CONSULTANT WITH RESPECT TO THE TAX IMPLICATIONS OF AN INVESTMENT AND CONSEQUENCES OF PURCHASING, OWNING AND DISPOSING OF EQUITY SHARES IN THE SECURITIES, PARTICULARLY IN VIEW OF THE ACT THAT CERTAIN RECENTLY ENACTED LEGISLATION MAY NOT HAVE A DIRECT LEGAL PRECEDENT OR MAY HAVE A DIFFERENT INTERPRETATION ON THE BENEFITS, WHICH AN INVESTOR CAN AVAIL IN THEIR PARTICULAR SITUATION.

We hereby give our consent to include our above referred opinion regarding the tax benefits available to the Company and to its shareholders in the offer document.

1. Economic Outlook

1.1 Global Economy

The global economy continues to display resilience amid moderating inflation and a rebound in global trade. Easing price pressures have supported real household incomes, though consumer confidence remains below pre-pandemic levels in several regions. Labor markets are softening, yet unemployment rates remain near historic lows. While looser monetary policy is expected to support demand, tighter FY policies could present mild headwinds. Global GDP is projected to grow by 3.2% in 2024 and 3.3% in 2025 and 2026. However, geopolitical tensions in the Middle East and Eastern Europe, along with rising trade protectionism among major economies, pose significant downside risks. A further escalation in conflicts could disrupt energy and commodity supplies, fuelling inflation, particularly in import-dependent nations. Additionally, restrictive trade policies may elevate import costs, squeeze corporate margins, and erode consumer purchasing power. Structural vulnerabilities—including elevated debt levels, stretched asset valuations, weakening credit quality in segments such as commercial real estate, and the growing footprint of unregulated non-bank financial institutions—heighten the risk of financial contagion across market segments.

World Economic Outlook - Real GDP growth (in %) - International Monetary Fund

Global growth is projected to remain steady yet subdued at 3.3% in both 2025 and 2026, below the historical average of 3.7% (2000–19). Beneath the stable headline, however, lie divergent regional trends and a fragile global growth profile.

Among advanced economies, the *United States* is expected to grow by 2.7% in 2025, driven by resilient domestic demand, strong wealth effects, a less restrictive monetary policy stance, and supportive financial conditions. Growth is set to moderate toward potential in 2026.

In the *Euro area*, growth is forecast at 1.0% in 2025, hampered by weak late-2024 momentum—particularly in manufacturing—and heightened geopolitical and policy uncertainty. A gradual recovery to 1.4% is projected in 2026 as domestic demand strengthens, financial conditions ease, and confidence improves.

Emerging market and developing economies are expected to maintain steady growth through 2025 and 2026. *China's* growth is forecast at 4.6% in 2025, supported by FY stimulus and momentum from 2024, offsetting pressures from trade tensions and a sluggish property market. Growth is projected to hold at 4.5% in 2026 as policy uncertainty eases and labour force decline slows due to recent retirement age reforms.

India's economy remains a bright spot, with growth projected at a robust 6.5% in both 2025 and 2026, in line with its potential.

Growth in the *Middle East and Central Asia* is expected to improve, though less than previously anticipated, largely due to a 1.3 %age point downgrade for *Saudi Arabia* stemming from extended OPEC+ production cuts.

In *Latin America and the Caribbean*, growth is projected to edge up to 2.5% in 2025, despite slowing momentum in the region's largest economies. *Sub-Saharan Africa* is also expected to see a pickup, while *emerging and developing Europe* faces a slowdown.

Key Considerations

1. Stable Global Growth, Services Outpacing Manufacturing

Global GDP growth remains resilient, projected at 3.2% in 2024 and 3.3% in 2025-26, reflecting steady expansion despite macroeconomic headwinds. The services sector continues to outperform manufacturing, bolstered by strong consumer demand, while industrial activity faces lingering supply chain constraints.

2. Labor Market Cooling but Still Robust

Employment growth is projected to moderate, aligning with a weaker labour force expansion. Job vacancy rates have declined, yet unemployment remains at or near historic lows in most major economies, supporting household income and consumption.

3. Inflation Nears Central Bank Targets, but Risks Persist

Inflation has continued its downward trajectory, approaching central bank targets in several advanced economies. However, persistent services inflation and elevated housing costs in some regions may prolong the disinflation process, keeping interest rates elevated for longer than expected.

4. Household Finances Improve but Confidence Lags

Real household disposable income in some economies has surpassed pre-pandemic levels, while household savings rates continue to rise amid cautious consumer sentiment. A further decline in food and energy prices relative to core items could provide relief and restore confidence.

5. Global Trade Faces Headwinds Despite Recovery

Trade activity has rebounded from the 2023 slowdown, yet surveys of new export orders suggest slower growth ahead. Rising shipping costs and trade restrictions may limit further expansion, though their impact on inflation is expected to be modest.

6. Easing Financial Conditions Support Credit Expansion

Global financial conditions have continued to ease, with sovereign bond yields declining and market volatility stabilizing. Bank credit growth has stabilized, while corporate bond issuance has picked up, ensuring continued access to capital for businesses.

7. Geopolitical and Trade Risks Pose Structural Challenges

Elevated geopolitical tensions, particularly in the Middle East and Eastern Europe, alongside increasing trade policy uncertainty, present significant downside risks. Any escalation could disrupt commodity supplies, fuelling inflationary pressures, particularly in import-dependent economies.

8. Rising Private Credit and Non-Banking Risks

Non-bank financial institutions have expanded significantly, becoming more interconnected with traditional banking systems. The growth of private credit in advanced economies raises concerns over financial stability, as leveraged lending increases systemic risk exposure.

1.2 Overview of the Indian economy

As of March 2025, India's Gross Domestic Product (GDP) is estimated to be \$4.3 trillion, having doubled from \$2.1 trillion in 2015, according to the latest data published by the International Monetary Fund. Several High Frequency Indicators for the 3rd quarter of 2024-25 indicate that the Indian economy has recovered from the moderation in momentum witnessed in Q2, driven by strong festival activity and a sustained upswing in rural demand. Consumer confidence was boosted by higher optimism for the year ahead, breaking out of the sequential moderation in the current assessment of conditions. Supply chain pressures remained below historical average levels.

GDP is expected to grow 6.8% this FY, and this momentum is set to be sustained at similar rates throughout FY 2025-26 and 2026-27 positioning India as the fastest growing major economy in the world.

India's economy has continued its robust growth trajectory into FY2024–25, reflecting a resilient domestic demand environment, strong public investment, and improving external balances. According to the Second Revised Estimates from the Ministry of Statistics and Programme Implementation (MoSPI), real GDP is expected to grow by 9.9% in FY25, following a 12.0% growth in FY24. This upward momentum highlights a recovery-led expansion rather than a purely base-effect-driven spike.

Private Final Consumption Expenditure (PFCE), which accounts for over 55% of GDP, grew by 12.3% in FY25—an acceleration from 9.7% in the previous year. This uptick is underpinned by rising discretionary spending in urban India, recovery in rural consumption (helped by easing food inflation and better kharif harvests), and continued momentum in auto, FMCG, and housing sectors. High-frequency indicators like GST collections and UPI transaction volumes support this trend, both recording double-digit growth in the second half of FY24.

Government Final Consumption Expenditure (GFCE), however, saw moderated growth of 9.1% in FY25 compared to 12.6% in FY24. The moderation is likely a result of FY consolidation efforts, where the Union Government has been focusing on rationalizing revenue expenditure to meet the 5.1% FY deficit target. That said, capex remains prioritized, as reflected in increased outlays for roads, railways, and defence.

Gross Fixed Capital Formation (GFCF), which measures investment in infrastructure, machinery, and equipment. GFCF registered a healthy ₹98 lakh crore in FY25, growing at 6.9% over the previous year. While the growth rate has moderated from 9.2% in FY24, the absolute rise continues to reflect India's strong infrastructure push. Sectors like construction, power T&D, and manufacturing are driving the demand for fabricated metal inputs. The government's capital expenditure, which rose 28% YoY in FY24, continues to stimulate private investment activity via crowding-in effects.

Gross National Income (GNI) and Gross National Disposable Income (GNDI) also saw robust expansions of 9.8% and 14.8%, respectively. This surge in GNDI especially reflects improved net factor income from abroad and rising remittances, helping bolster consumption and savings. Correspondingly, Per Capita GNDI rose by an impressive 14.2%, suggesting improving income levels at the household level—a positive signal for both consumption and affordable housing-linked metal demand.

Per Capita PFCE, growing at 11.2%, supports the narrative of expanding middle-class demand, with implications for sectors like automotive, appliances, and real estate—all of which are downstream demand centres for fabricated metal components.

Sectoral Composition of GVA: Building Blocks of India's Growth Story

India's GVA at Basic Prices is estimated to rise 9.5% in FY2024–25, following an 11.2% increase in FY2023–24. While the tertiary sector continues to anchor growth, the Primary and Secondary sectors have witnessed structural shifts that hold strong relevance for the broader industrial and manufacturing ecosystem—particularly metal fabricators.

Primary Sector (↑10.1% YoY in FY25): Buoyed by Agricultural Resilience

The Primary Sector witnessed a notable pickup to 10.1% growth in FY25, led by a sharp rebound in Agriculture, Livestock, Forestry & Fishing (↑11.0%). This comes on the back of favourable monsoon distribution, enhanced MSP-led procurement, and improved horticulture output. Despite ongoing rural distress in select pockets, rising real rural wages and healthy kharif yields supported income stabilization. However, Mining & Quarrying grew marginally at 2.1% (↓from 4.2%) due to sluggish coal and mineral ore production and continued logistical constraints in transporting bulk commodities—indirectly dampening cost efficiency for heavy industries reliant on these inputs.

Secondary Sector (↑6.6% YoY in FY25): Normalization after an Infra-led Surge

The Secondary Sector's growth has moderated from 12.3% in FY24 to 6.6% in FY25—indicating a transition from post-COVID recovery highs to normalized, base-adjusted expansion.

1. Manufacturing GVA grew at 5.8%, reflecting mixed industrial momentum. High-capacity utilization and PLI scheme tailwinds supported capital goods and automotive segments, while consumer durables and textiles remained sluggish amid uneven consumption recovery. Metal fabricators would find this pertinent, as downstream demand from construction, auto, and engineering slowed relative to FY24.

2. Electricity, Gas, Water Supply & Other Utility Services, which posted a striking 25.8% growth in FY24 due to base effect and a surge in energy demand, expanded modestly at 3.9% in FY25. The deceleration signals stabilization in power demand despite India's continuing electrification drive.

3. Construction maintained a solid 6.0% growth after a 10.6% rise in FY24. Strong government-led infrastructure push in roads, railways, and affordable housing continued to drive this growth. Capex-heavy states (e.g., UP, Maharashtra, Gujarat) recorded strong project execution rates, benefiting fabricated metal components and allied sectors.

Tertiary Sector (↑10.7% YoY in FY25): Backbone of Service-led Resilience

The Tertiary Sector remained the largest contributor to GVA (55%) and grew at 10.7% in FY25, underscoring the strength of India's services economy:

1. Financial, Real Estate & Professional Services saw robust 10.2% growth on the back of rising credit offtake, continued traction in commercial real estate (especially in Tier I/II cities), and stable BFSI sector performance. Financial sector growth indirectly boosts metals through rising housing activity and infra debt funding.

2. Public Administration, Defence & Other Services maintained strong double-digit growth at 13.4%, reflecting continued government expenditure, social scheme disbursements, and capital-intensive defence procurement.

3. Trade, Transport, and Communication Services grew 9.0%, in line with improving domestic logistics, e-commerce penetration, and retail sales—factors that create auxiliary demand for fabricated warehousing, shelving, and container solutions.

Company Positioning in the Economic Landscape

The company stands at the intersection of infrastructure development, industrial manufacturing, and defence technology as an engineering-driven enterprise specializing in high-performance critical components. With an integrated

manufacturing ecosystem encompassing forging, machining, and precision finishing capabilities, the company has established strategic relevance across five complementary verticals that serve distinct yet interconnected capital expenditure cycles:

- **Scaffolding & Formwork Systems:** Providing temporary structural support solutions essential to civil construction and infrastructure projects spanning real estate development, metro rail construction, and industrial facility expansion.
- **Industrial Flanges:** Engineering critical connection components for pipeline integration and flow control applications across process-based industries and power generation facilities.
- **Earthmoving Equipment Parts:** Manufacturing forged and precision-machined components that enable construction and mining machinery deployed in both public infrastructure initiatives and private development projects.
- **Commercial Automobile Spare Parts:** Producing high-performance components for commercial vehicles that serve domestic manufacturers, aftermarket replacement channels, and international export markets, supporting the broader transportation and logistics ecosystem.
- **Defence Equipment:** Developing precision-engineered and metal-forged components for tracked vehicles and artillery platforms, aligned with the Ministry of Defence's indigenization initiatives.

Counter-Cyclical Business Model

The company's strategic diversification across these verticals creates a naturally counter-cyclical business model that captures value throughout the broader economic development cycle.

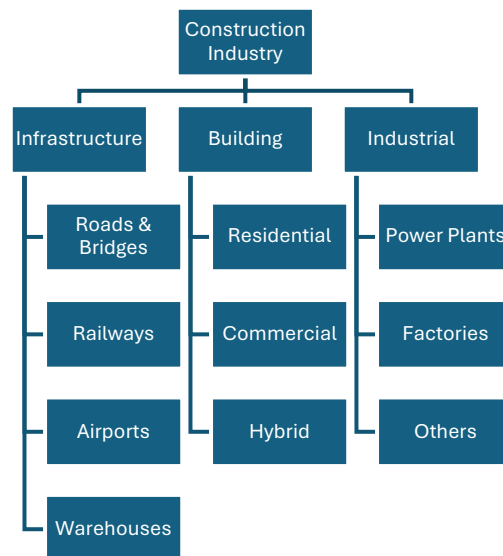

Government infrastructure investments initiate the cycle by driving demand for Scaffolding & Formwork Systems and Earthmoving Equipment Parts as major public projects break ground. This public capital deployment subsequently catalyzes private industrial capacity expansion, which generates sustained demand for Industrial Flanges and fluid control components. As these development activities accelerate, increased logistics requirements and freight movement intensify commercial vehicle utilization, creating steady demand for Commercial Automobile Spare Parts. Throughout these economic phases, defence procurement programs operate on independent multi-year capital allocation plans, providing consistent demand visibility for Defence Equipment components regardless of broader market conditions.

This strategic positioning across complementary demand cycles enables the company to maintain production stability and revenue resilience even during sector-specific downturns. By serving multiple end markets with shared manufacturing capabilities and technical expertise, the company effectively transforms potential economic headwinds in any single sector into a balanced portfolio opportunity, positioning it to capitalize on India's sustained infrastructure development trajectory, industrial capacity expansion, and strategic defence procurement initiatives.

2. Scaffolding and Formwork: Critical Components in India's Construction Ecosystem

Scaffolding and formwork represent essential temporary structural systems that enable the execution of modern construction projects across various segments. Scaffolding provides temporary elevated platforms that support workers, materials, and equipment during construction activities, ensuring safe access to heights while facilitating efficient workflow. Formwork serves as temporary moulds into which concrete is poured and shaped before it develops sufficient strength to maintain structural integrity independently. These specialized support structures are fundamental to the construction value chain, directly impacting project timelines, safety parameters, cost efficiency, and overall build quality across residential, commercial, industrial, and infrastructure segments. As India's construction sector experiences unprecedented growth driven by urbanization, infrastructure development, and industrial expansion, the demand for advanced scaffolding and formwork solutions has intensified, with innovations in these systems becoming increasingly critical to meeting the technical challenges presented by complex, large-scale projects, and tall structures.

The Construction Industry is segmented into three distinct sub-industries:

Construction Capital Expenditure Growth

Construction capital expenditure has demonstrated robust growth, increasing by 13% year-on-year in FY 2024 to reach ₹12 trillion, primarily driven by the infrastructure segment. This expansion aligns with the Government's infrastructure-focused approach, evidenced by increased central and state budgetary allocations to capital expenditure, aimed at fulfilling the infrastructure development objectives outlined in the National Infrastructure Pipeline (NIP).

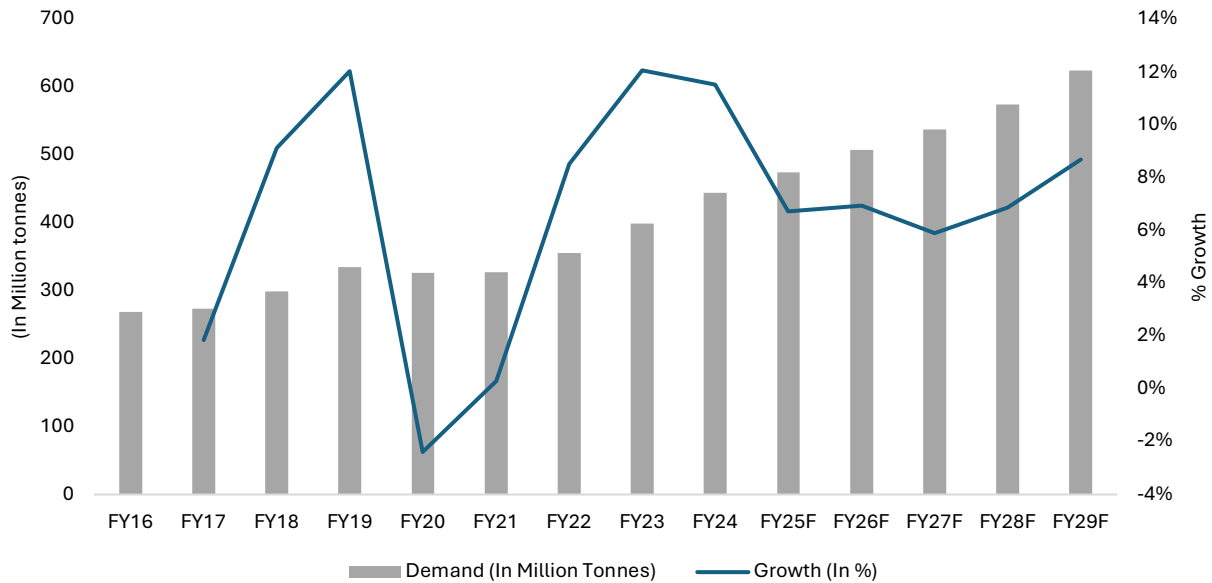

Looking ahead, the construction sector is forecast to maintain strong momentum with projected growth of 7-9% in FY 2025. The infrastructure segment is expected to be the primary growth driver, supported by increasing investments and focused capital expenditure initiatives from both central and state governments. Key policy frameworks such as the National Infrastructure Pipeline (NIP), National Monetisation Pipeline (NMP), and PM Gati Shakti initiatives continue to accelerate infrastructure development. While the infrastructure segment is anticipated to lead growth, the building construction and industrial sectors are projected to demonstrate more moderate expansion rates.

In the broader perspective, Crisil forecasts cumulative construction investments of ₹46-48 trillion for the period between FY 2020-2024, with projections indicating substantial growth to approximately ₹74-76 trillion for the FY 2025-2029 period, underscoring the sector's long-term growth trajectory and increasing capital allocation.

Rising Cement Consumption Indicative of Sustained Demand for Formwork Systems

Cement consumption in India's infrastructure projects is extensive, providing the necessary strength and durability for a wide range of applications. From roadways and waterways to renewable energy projects and high-rise buildings, cement is critical as India continues to develop horizontally and vertically. Cement contributes to ~11% of all inputs to the sector. Driven by the growth in construction activity, the demand for cement too has witnessed steady growth. The rise in cement consumption is a direct indicator of heightened concrete construction activity, translating into increased demand for formwork systems that enable efficient casting and structural integrity. As infrastructure and real estate projects intensify, the requirement for high-quality, modular formwork solutions scales in tandem.

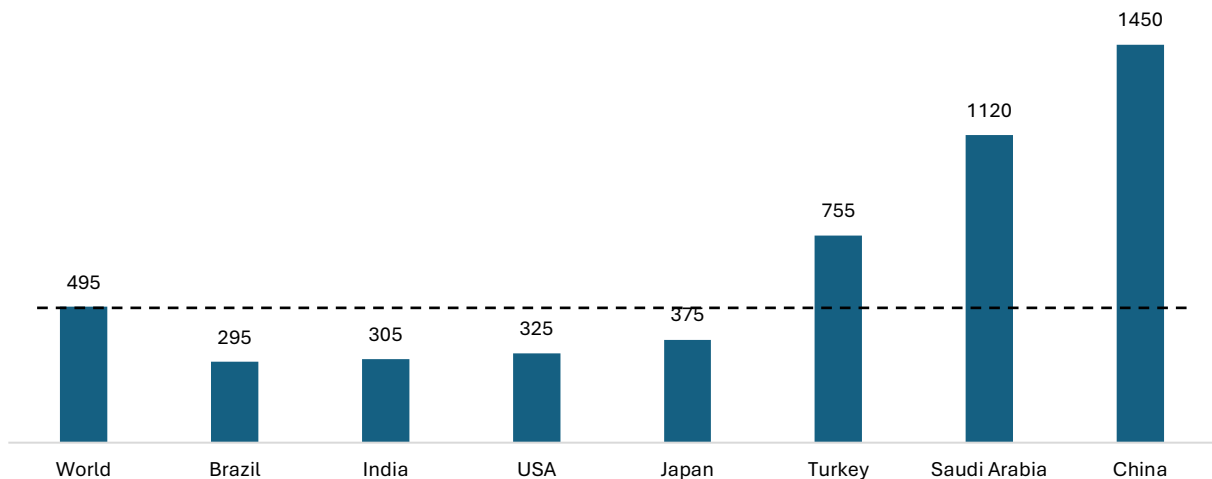

PAN India Cement demand review and outlook

F: Forecasted; Source: CRISIL MI&A Research, Industry; Report: Market Review of the Cement Sector – JSW Cement dt. August 2024

India's per capita cement consumption stands at around ~260 kg, significantly lower than the global average of 470-520 kg. This highlights a considerable headroom for growth in the Indian cement market. In comparison, developed nations such as Japan and the USA exhibit per capita cement consumption rates of 350-400 kg. For developing countries like China, Turkey and Saudi Arabia cement consumption per capita is substantially higher, with figures exceeding 700 kg per capita. China leads the global chart with a per capita consumption of 1,400 -1500 kg. This stark contrast underscores the untapped potential within the Indian market, suggesting that there is significant headroom for increased cement usage as the country's construction sector continues to expand.

The Indian construction sector has witnessed robust expansion across infrastructure, building, and industrial segments, with projections indicating continued growth momentum over the medium term. The following chart outlines the estimated segment-wise market size (in ₹ trillion) for the periods FY 2020–2024 and FY2025–2029P.

Break-up of the domestic construction sector (In ₹ Trillions)

Segment	Description
Infrastructure	Infrastructure investments are seen growing faster than the other two sectors due to the government's focus under the National Infrastructure Pipeline (NIP), National Monetization Pipeline (NMP), and the Gati Shakti initiatives. Total construction investments in this sector are expected to attract investments of ~₹51-53 trillion between FY25-29P, up from ₹29-31 trillion between FY20-24. Moving forward, the share of infrastructure projects is expected to stabilise in the ~67-70% range in the next five years (FY25-29). The Central government's focus on roads, urban infrastructure, and railways will boost infrastructure investments. Roads, railways, irrigation, and power sectors will continue to drive the bulk of these investments. FY20-24: ₹29-31 trillion Projected growth: 1.6x-1.8x FY25-29P: ₹51-53 trillion
Building	CRISIL Intelligence estimates the Building & Construction sector to grow at 4–6% in FY25, with the real estate segment showing a slowdown in demand along with rising inventory levels in key cities. The increase in execution of deferred projects and government schemes such as PMAY is expected to provide the required boost to the sector. Between FY25-29P, the sector is expected to rise to ₹18–19 trillion from an investment of ₹12.5–13.5 trillion between FY20-24.
Industrial	Construction spends across industrial investments in FY25 are seen rising 5–7%, driven by expansion in the oil and gas and metals segments. To be sure, the growth is on a high base of FY24, where the sector grew due to deferred investments from FY21 and FY22, and capex investments under the PLI scheme picking up. Based on an analysis of eight key sectors, CRISIL Intelligence estimates construction investment in the industrial sector at ₹4.5–5.5 trillion between FY25-29P, compared to ₹3–4 trillion spends seen in FY20-24. The rise in investment is projected due to the inclusion of the PLI scheme in the capex investments of the industrial sector. CRISIL has only considered three capex-intensive sectors under the PLI scheme—viz., auto and auto components, textiles, and specialty steel—for inclusion in its estimates.

Government's initiatives to boost infrastructure in India

Growth Driver	Description
National Infrastructure Pipeline (NIP)	<p>The National Infrastructure pipeline (NIP) aims to improve project preparation and attract investments in infrastructure. It is expected to positively impact the construction industry through a projected infrastructure investment of around ₹111 trillion over FY20-25, to build robust infrastructure and boost the economy by increasing employment opportunities and enhancing living standards. The sectors like energy, roads, urban infrastructure, railways have a major share in the NIP.</p> <p>NIP was launched with 6,835 projects and has expanded to capture over 9,288 projects in calendar year 2023 with a total project outlay of ₹108.9 Trillion between 2020-2025. Transport (42%), energy (25%), water & sanitation (15%) and social infrastructure</p>

	(3%) sectors amount to around 85% of the projected infrastructure investments under NIP
National Monetization Pipeline (NMP)	Union Minister for Finance and Corporate Affairs launched the asset monetisation pipeline of Central ministries and public sector entities: National Monetisation Pipeline (NMP Volumes 1 & 2). NITI Aayog has developed the pipeline, in consultation with infrastructure line ministries, based on the mandate for 'Asset Monetisation' under Union Budget 2021-22. NMP estimates aggregate monetisation potential of ₹6.0 trillion through core assets of the Central Government, over a four-year period, from FY22-25. The estimated value corresponds to ~14% of the proposed outlay for Centre under NIP (₹43 trillion). The top 5 sectors (by estimated value) capture ~83% of the aggregate pipeline value. These top 5 sectors include: Roads (27%) followed by Railways (25%), Power (15%), oil & gas pipelines (8%) and Telecom (6%).
PM Gati Shakti	PM Gati Shakti is essentially a digital platform that has brought together 16 ministries, including railways and roadways, for integrated planning and coordinated implementation of infrastructure connectivity projects. The multi-modal connectivity will provide integrated and seamless connectivity for movement of people, goods, and services from one mode of transport to another. It will facilitate last-mile connectivity of infrastructure as well as reduce travel time. PM Gati Shakti incorporates the infrastructure schemes of various ministries and state governments, such as Bharatmala, Sagarmala, inland waterways, dry/land ports, UDAN, etc. Economic zones such as textile clusters, pharmaceutical clusters, defence corridors, electronic parks, industrial corridors, fishing clusters, and Agri-zones are covered as well to make Indian businesses more competitive.
PLI Scheme	<p>The PLI scheme was introduced by the Indian government to boost domestic manufacturing, attract investments, and enhance exports by offering incentives. With an outlay of ₹1.97 trillion (over US\$24 billion), the PLI schemes focus on 14 critical sectors to enhance the country's manufacturing prowess, foster technological advancements, and elevate India's position in global markets. These sectors are aligned with the government's goal of strengthening domestic production and expanding exports, contributing to the broader vision of Atmanirbhar Bharat.</p> <p>The purpose of the PLI schemes is to attract investments in key sectors and cutting-edge technology; ensure efficiency; and bring economies of size and scale in the manufacturing sector to make Indian companies globally competitive. These schemes have the potential to significantly boost production, increase manufacturing activities, and contribute to economic growth over the next five years. As of August 2024, actual investments totalling ₹1.5 trillion have been realized. These investments have already led to a boost in production and sales amounting to ₹12.5 trillion, while directly and indirectly generating approximately 9.5 lakh jobs.</p>
Bharatmala Pariyojna	<p>Bharatmala Pariyojana is an umbrella project of the central government, launched in 2015, aimed at improving efficiency in the roads sector. It is expected to supersede the National Highways Development Project (NHDP) and envisages the construction of 65,000 km of highways under the following categories: national corridors (North-South, East-West, and Golden Quadrilateral), economic corridors, inter-corridor roads, and feeder roads. As per the ministry, Bharatmala, along with other ongoing schemes, could require a total outlay of ₹6.9 trillion.</p> <p>Phase-I of the scheme envisages the development of about 24,800 km of national highways/roads, along with the residual 10,000 km of NHDP, between FY18–22. Awarding under Bharatmala began in FY18, and Crisil expects it to continue until FY25 for Phase I.</p>

Key Trends

1. Construction Among Top 10 Sectors to Attract Foreign Direct Investment

Foreign Direct Investment (FDI) serves as a critical catalyst for India's economic growth and development, with the construction sector emerging as a significant beneficiary. The regulatory framework has evolved favourably, with 100% FDI now permitted through the automatic route for key construction development projects including townships, residential and commercial premises, roads, bridges, hotels, hospitals, educational institutions, recreational facilities, and city and regional-level infrastructure. Additionally, FDI thresholds for real estate projects within Special Economic Zones (SEZ) and industrial parks have been elevated to 100% through the automatic route for the construction sector.

The construction (infrastructure) sector has witnessed substantial FDI growth, reaching ₹351 billion in FY 2024, representing a significant increase from ₹176 billion in FY 2018. A notable surge occurred in FY 2021, when FDI

investments in construction (infrastructure) peaked at ₹582 billion, primarily driven by accelerated investments in the warehousing segment.

The government's commitment to infrastructure development is further evidenced by the capital expenditure outlay for FY 2025, which has increased by 17% over the revised estimates for FY 2024, reaching ₹11.1 trillion. This substantial allocation prioritizes roads and railways as the primary beneficiaries, underscoring the strategic importance of transportation infrastructure in India's economic development framework.

2. Government's Infrastructure Push to Boost Manufacturing Sector

The US-China trade tensions since 2018, coupled with pandemic-induced supply chain disruptions due to concentration in markets like China, have prompted Western nations to diversify their manufacturing bases toward countries including India, Vietnam, Malaysia, and Mexico. While Vietnam, Taiwan, and Malaysia have demonstrated greater success due to their established global supply chain integration, India presents compelling manufacturing advantages through its substantial domestic market, youthful workforce demographics, expanding middle-income consumer base, and competitive labour costs.

India's further integration with global supply chains, particularly with the United States, necessitates advancement in two critical domains: trade cost optimization and investment facilitation. On the logistics efficiency front, India has achieved significant progress, ascending from 54th position among 139 countries in 2014 to 38th in 2023, attributable to strategic governmental investments in trade infrastructure, both physical and procedural.

Investment facilitation encompasses measures designed to attract and stabilize foreign capital inflows. The Production Linked Incentive (PLI) schemes increased Foreign Direct Investment (FDI) thresholds, the Atmanirbhar Bharat Abhiyan, and related initiatives have established market-responsive incentive frameworks conducive to high-quality foreign investments.

India's medium-term value chain integration strategy with Western economies targets strategic sectors including renewable energy, advanced technologies such as artificial intelligence, semiconductor manufacturing, and next-generation telecommunications infrastructure. These focus areas feature prominently in bilateral frameworks like the Australia-India Free Trade Agreement (FTA) and the US-India Clean Energy Partnership. Trade patterns in these sectors have begun to materialize, as evidenced by India's exports to the US in green technology categories (including solar water heaters, waste recycling equipment, and wind turbines), which have increased by US\$1 billion since 2018. Major Western renewable energy manufacturers including First Solar, Vesta, and Scatec have established operations in India, positioning themselves to capitalize on emerging opportunities in the green energy transition landscape.

Government infrastructure initiatives supporting manufacturing sector growth directly benefit the scaffolding and formwork industry through increased demand for specialized temporary structures required in constructing manufacturing facilities, logistics infrastructure, and associated developments. The US-India partnerships in renewable energy and advanced technology sectors particularly drive demand for sophisticated formwork solutions capable of meeting precision requirements for industrial installations. As multinational manufacturers establish Indian operations, they typically require construction methodologies meeting international safety and quality standards, creating premium demand for advanced scaffolding systems. This manufacturing sector expansion represents a significant growth vector for scaffolding and formwork providers offering technologically superior solutions.

3. Warehousing and Cold Storage: Emerging Growth Frontier

Crisil forecasts construction investments in the warehousing (agricultural and industrial) and cold storage (single and multi-commodity) sectors to reach ₹460-500 billion over FY 2025-2029, driven by anticipated demand expansion. Industrial warehousing is expected to dominate this investment landscape, accounting for 85-90% of total capital deployment. The multi-purpose cold storage segment is projected to witness increased investment activity due to superior return on investment metrics compared to single-commodity storage facilities. This advantage stems from multi-purpose facilities' ability to simultaneously accommodate diverse perishable goods, ensuring optimized capacity utilization and enhanced economic viability.

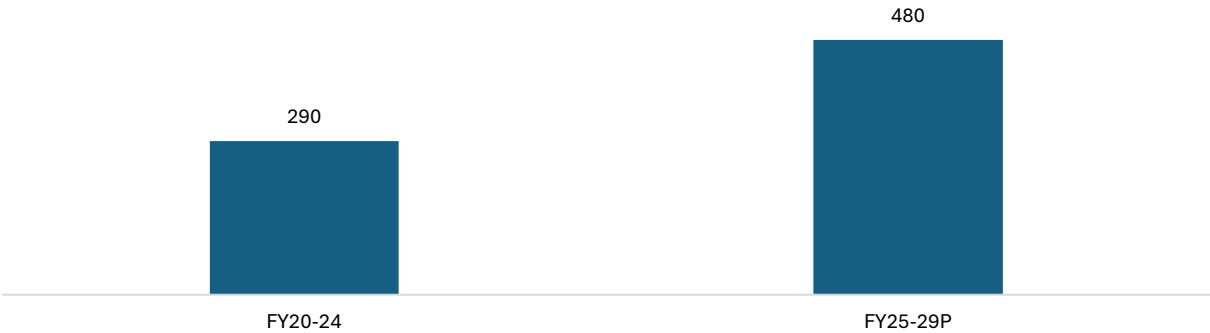

The long-term outlook indicates robust demand growth for Grade A and B warehouses across India's eight major cities, with projected CAGR of 11-16% between FY 2025-2029. Supply expansion is anticipated to maintain pace with this demand trajectory.

The transformation of India's indirect tax regime has generated substantial warehouse demand. Additionally, market entry by international retail conglomerates coupled with expanding e-commerce penetration is expected to drive demand for Grade A warehousing infrastructure and catalyse modernization of conventional warehousing facilities to Grade A standards, consequently stimulating demand for pre-engineered steel structures.

Crisil Intelligence further anticipates structural evolution of the warehousing industry over the long term, characterized by increased automation, technology integration, and reduced labour dependency. End-user industries are similarly expected to implement automated supply chain and warehouse management systems.

Warehousing project economics comprise three primary cost components: land (27%), construction (>50%), and storage solutions. Land costs demonstrate significant regional variation based on demand-supply dynamics, infrastructure quality, and multi-modal connectivity advantages. Construction costs, while representing the largest expense category, remain relatively consistent across geographic locations.

Construction Investments in Warehousing and Cold Storage (In ₹ Billions)

*Note: The numbers in this chart represent cumulative investments for the specific period

The projected Rs 460-500 billion investment in warehousing and cold storage presents significant opportunities for scaffolding and formwork providers. While PEB structures may reduce traditional formwork needs compared to RCC construction, they create demand for specialized scaffolding systems designed for steel assembly, cladding installation, and higher-elevation access solutions. Companies providing advanced construction support systems are well-positioned to capture substantial market share in this expanding vertical within India's construction landscape.

4. Tall Buildings: Emerging Catalyst for Growth in the Indian Construction Landscape

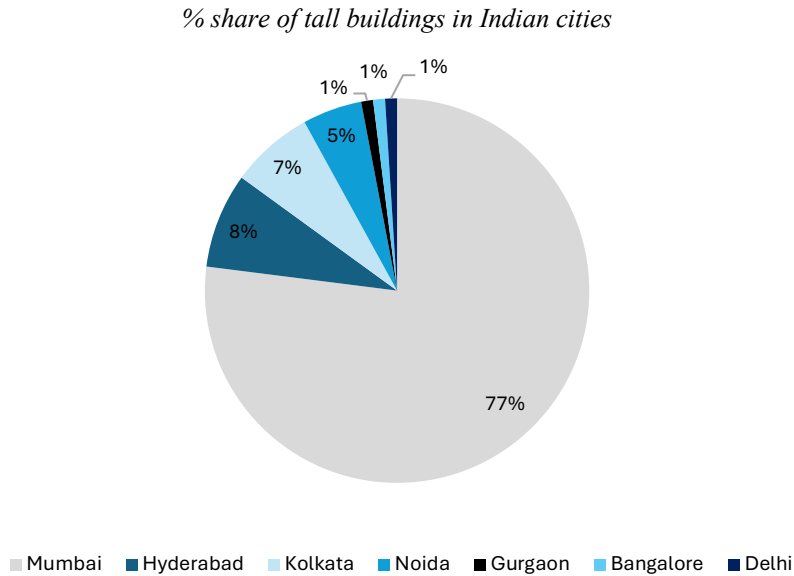

Buildings exceeding 150 meters in height qualify as tall buildings under current classification standards. India's tall building evolution began with Mumbai's Usha Kiran (80 meters) in 1961, which established the benchmark for the era. The subsequent decades witnessed limited development, with notable structures including Kolkata's Subhash Chandra Bose Tower and Mumbai's Oberoi Trident and Air India Building. However, post-2000, India experienced significant acceleration in tall building construction, coinciding with transformative economic developments.

Between 1991 and 2003, India's GDP growth achieved a 5.4% CAGR, characterized by reduced volatility and enhanced sectoral diversification across states, providing substantial impetus to real estate and infrastructure development. The liberalization reforms of the 1990s catalysed industry deregulation, trade policy relaxation, and reduced government intervention in the service sector. These measures attracted foreign investment and introduced sophisticated construction technologies and methodologies.

India's demographic trajectory has driven substantial urbanization, with urban population share increasing from 18% in the 1960s to 28% in 2000, and further to 36% in 2023. The resultant land scarcity has positioned tall buildings as an optimal solution for efficient resource utilization. Mumbai exemplifies this trend, maintaining approximately 21,000 people per square kilometre, and pioneering India's vertical development paradigm.

The Mumbai Metropolitan Region (MMR) stands as testament to India's accelerating vertical development trajectory, housing 154 high-rise towers exceeding 40 floors as of 2023. Industry forecasts project a substantial 34% expansion by 2030, with 207 additional towers scheduled for completion during 2024-2030. The regulatory environment has

increasingly accommodated vertical development, evidenced by Mumbai's approval of over 800 skyscrapers since 2008, with significant concentration in the repurposed industrial zones of Central Mumbai's former mill lands. This pronounced shift toward vertical construction represents a structural transformation in India's urban development paradigm, creating substantial market opportunities for specialized construction support services, particularly in scaffolding and formwork solutions designed for high-rise applications.

3. Flanges: Essential Connectors in Industrial Infrastructure Systems

Flanges constitute a critical component within the broader industrial piping and flow-control ecosystem and are categorized under the metal forged products sub-segment of the capital goods sector. Functionally, a flange is a mechanical interface that facilitates the joining of pipes, valves, pumps, and other equipment in a piping system, enabling ease of assembly, disassembly, inspection, and maintenance. Flanges are primarily utilized in environments involving fluid, gas, or steam transmission under variable pressure and temperature conditions.

Within the supply chain, flanges occupy a midstream component supplier role. While the upstream value chain comprises steel billet producers and forging stock suppliers, downstream value generation is driven by Original Equipment Manufacturers (OEMs), Engineering, Procurement, and Construction (EPC) contractors, and industrial end-users. Companies manufacturing flanges—such as Munish Forge—operate as Tier-2 or Tier-1 vendors, depending on whether they supply directly to end clients or to system integrators and EPC players.

Classification Basis	Variants	Description
Material Composition	Carbon Steel (ASTM A105, A105N), Low-Temperature Carbon Steel (SA350 LF2), Stainless Steel (304/316), Alloy Steel	Selection is driven by operating temperature, fluid corrosiveness, and industry compliance norms such as NACE MR0175 for sour gas environments
Pressure Rating	150#, 300#, 600#, 900#, 1500#, 2500# (ASME B16.5 standard)	Denotes the maximum pressure (in pounds per square inch) the flange can withstand. Higher ratings correspond to high-pressure or high-temperature systems
Design Type	Slip-On (SO), Weld Neck (WN), Blind (BLD), Socket Weld (SW), Lap Joint (LJ), Threaded (THD), Reducing	Differentiation is based on method of connection, strength, and suitability for cyclic stress or high temperature/pressure flow media

Technical Terminologies – Brief Clarifications

- *ASME/ANSI B16.5: An American standard governing pipe flanges and flanged fittings, covering sizes from ½" to 24" and pressure classes from 150 to 2500.*
- *NACE MR0175/ISO 15156: A compliance requirement for materials exposed to sour gas (hydrogen sulfide environments), primarily for oil and gas applications.*
- *SA350 LF2: A low-temperature carbon steel grade used where impact resistance at sub-zero temperatures is critical.*

Sector-wise application mapping

The usage of flanges varies significantly based on the pressure, temperature, and fluid characteristics prevalent in different industries:

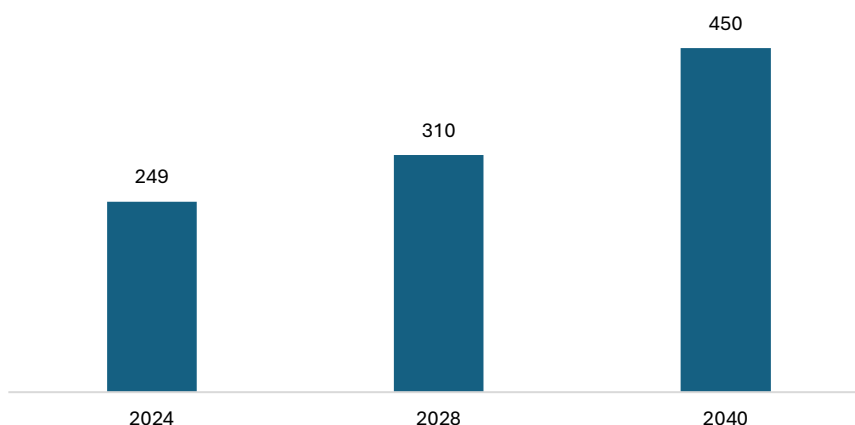

Sector	Commonly Used Flange Types	Preferred Material Grades	Pressure Ratings
Oil & Gas (Upstream)	Weld Neck (WN), Blind (BLD), Socket Weld (SW)	ASTM A105N, SA350 LF2, NACE Compliant	600#, 900#, 1500#
Midstream Pipelines	Slip-On (SO), Blind (BLD), Threaded (THD)	ASTM A105, SA350 LF2	300#, 600#
Refineries & Petrochem	Weld Neck (WN), Socket Weld (SW), Lap Joint	A105N, Stainless Steel 316	150#–600#
Thermal & Nuclear Power	Weld Neck (WN), Blind (BLD), Reducing	A105, Alloy Steel	300#–900#
HVAC & Urban Infra	Slip-On (SO), Threaded (THD), Reducing	A105, Galvanized	150#–300#
Water Treatment & Utilities	Slip-On (SO), Blind (BLD)	A105, Galvanized	150#

Note: This table is illustrative in nature and based on indicative industry inputs and internal assessments. It does not represent actual operational data or constitute a binding commitment by the Company.

3.1 Oil, Gas, and Petrochemicals

India's downstream hydrocarbons and petrochemicals sector continues to witness sustained capital expenditure across refining, processing, storage, and transportation infrastructure, supported by structural growth in domestic energy demand and import dependence. The country currently possesses a refining capacity of approximately 253 MMTPA (as of FY24), the second largest in Asia, and is projected to add over 80–90 MMTPA by FY 2030, through brownfield expansions and new greenfield units. The continued expansion of midstream pipeline networks, both cross-country and regional, as well as rapid capacity additions in petrochemicals, are collectively expected to catalyse a substantial uplift in demand for industrial-grade forged flanges and allied high-integrity components.

The Government of India, under the Hydrocarbon Vision 2040 and National Infrastructure Pipeline (NIP), continues to prioritize capacity augmentation in refining and pipeline infrastructure. A total planned outlay of over ₹3.5–₹4.0 trillion in the oil, gas, and petrochemical sectors has been announced between FY 2025 and FY 2030 by leading PSUs such as IOCL, BPCL, HPCL, GAIL, and ONGC, along with private-sector incumbents such as Reliance Industries and Nayara Energy.

The sector's capital intensity and technical sophistication inherently necessitate the usage of code-compliant forged flanges conforming to global and domestic pressure, corrosion, and temperature standards, such as ASME/ANSI B16.5, B16.47, DIN, and API 605. These flanges are deployed across high-pressure fluid transmission lines, distillation towers, heat exchangers, reactors, compressors, LNG terminals, and other critical equipment.

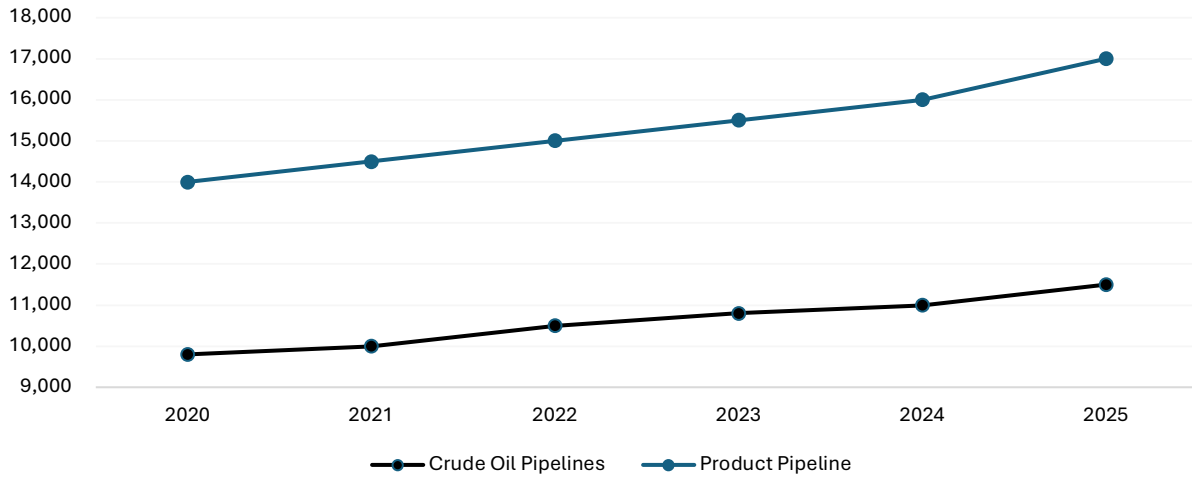

End Use Segment	Typical Flange Applications	Standards & Requirements
Refineries	Crude distillation towers, hydrocrackers, reformers, steam pipelines	High-pressure, high-temperature, ANSI/API grade
Petrochemicals	Reactor vessels, compressors, polymerisation units	Corrosion-resistant, DIN/ISO-compliant
LNG & Terminals	Cryogenic handling systems, vaporizers	Low temperature rated, SS/duplex materials

3.2 Midstream Pipelines

India's midstream hydrocarbon infrastructure, encompassing crude oil, petroleum product, and natural gas pipelines, has emerged as a pivotal area of investment aimed at augmenting energy accessibility, ensuring inter-regional connectivity, and optimizing the nation's fuel logistics network.

Pipeline Network Length in km (2020 - 2025)

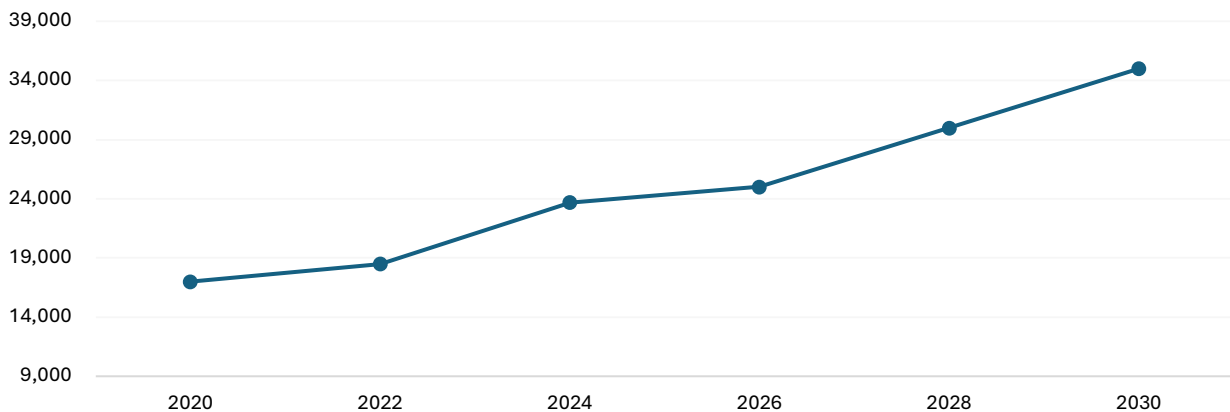

Source: PNGRB Natural Gas Pipelines – Status as on December 31, 2023, Petroleum and Natural Gas Regulatory Board (PNGRB), dt. February 21, 2024

According to data published by the Petroleum and Natural Gas Regulatory Board (PNGRB), as of March 2023, India had over 23,000 km of operational natural gas pipelines, with an additional ~12,000 km under various stages of construction. A key initiative in this domain is the Jagdishpur–Haldia–Bokaro–Dhamra Pipeline (JHBDPL), also referred to as the “Urja Ganga” project, which is being developed by GAIL (India) Limited. This project spans over 3,000 km and aims to supply natural gas to key demand centres across Eastern India, thereby facilitating industrial development and household penetration in historically underserved regions.

The progressive expansion of the National Gas Grid, combined with increased private participation in pipeline development under PNGRB authorizations, is expected to support the sustained offtake of forged and machined flanges over the medium to long term. The continuing emphasis on increasing pipeline density across states and integrating regional networks into a unified transmission system is anticipated to materially enhance the demand for high-performance flanges across specifications.

Natural Gas Pipeline Expansion Plan in km (2020 - 2025)

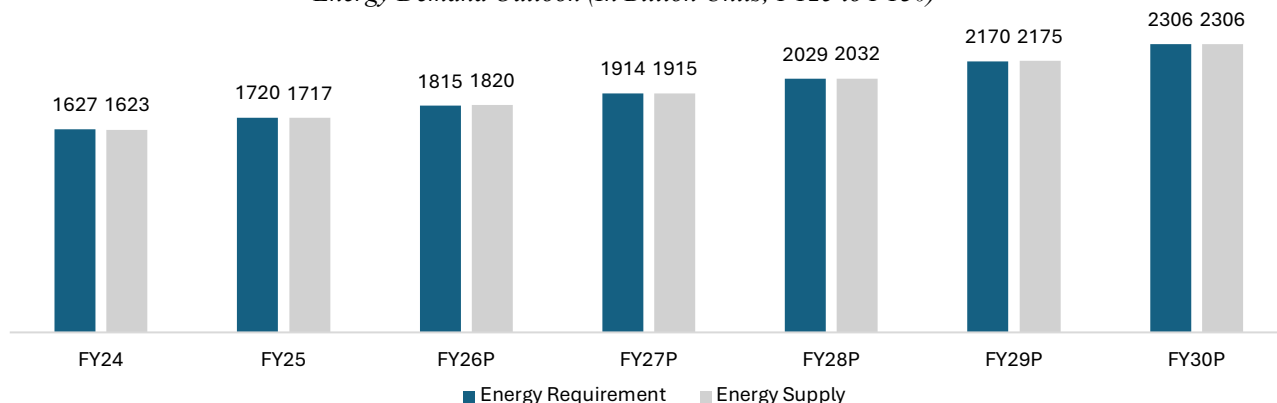

Source: PNGRB Natural Gas Pipelines – Status as on December 31, 2023, Petroleum and Natural Gas Regulatory Board (PNGRB), dt. February 21, 2024

Flanges constitute a critical component in midstream pipeline systems by enabling the secure and modular joining of pipe sections, accommodating changes in direction, and facilitating periodic inspection, cleaning, and maintenance. These components are typically employed in high-pressure zones such as compressor stations, metering stations, pigging stations, and custody transfer points, where integrity of the joint and ease of disassembly are paramount. Further, flanges are used in conjunction with valves, pumps, and instrumentation modules—components essential for flow regulation and safety assurance within the transmission network.

3.3 Power Sector

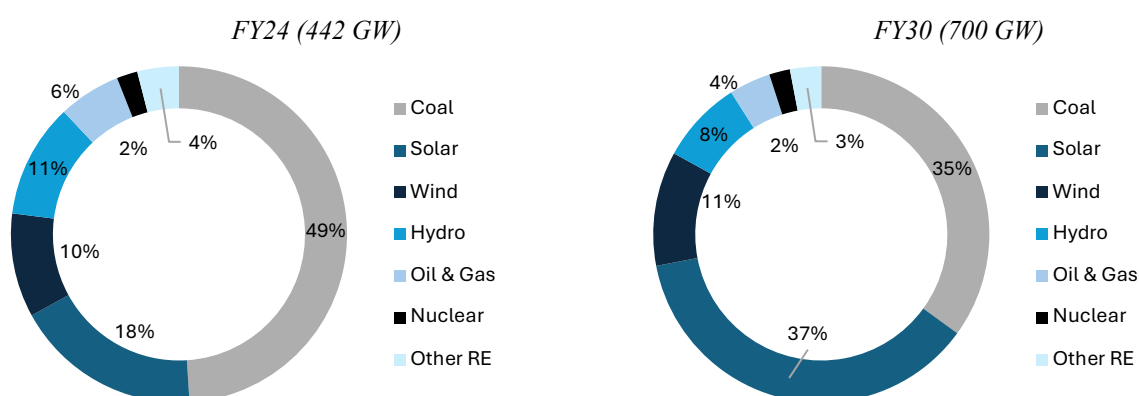

In the Indian context, electricity demand and supply have grown at a CAGR of approximately 5.0% between FY 2019 and FY 2024. Looking ahead, power demand is projected to increase at a rate of 5.5%–6.0% through FY 2030, driven by infrastructure-led capital expenditure, resilient macroeconomic fundamentals, and the ongoing expansion of the power network. Strengthening of transmission and distribution (T&D) infrastructure, coupled with policy reforms aimed at improving the financial viability of state distribution utilities, is expected to enhance supply reliability and further accelerate demand growth.

Energy Demand Outlook (In Billion Units; FY25 to FY30)

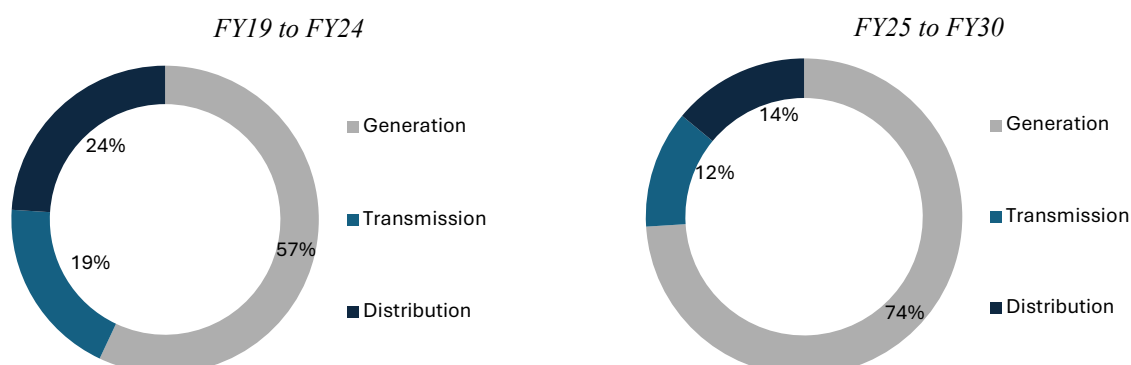

Data as of January 2025; P: Projected; Source: CEA, Crisil

Capacity additions in the conventional power sector are projected to be around 32-35 GW between FY 2025 to FY 2030, driven by higher than decadal average power demand. The renewable energy capacity addition is projected to be 200-210 GW during this period (CAGR: 21-22%) driven by various government initiatives, favourable policies, competitive tariffs, innovative tenders, development of solar parks and green energy corridors, etc. This will cause a major shift in India's power dynamics where RE capacity will account for 50% of the installed capacity of 700-710 GW by FY30.

Source: MNRE, CEA, Crisil MI&A Consulting

The total investments in the power sector between FY 2019 to FY 2024 amounted to ₹14.6 Trillion which is projected to double to ₹25.0-27.0 Trillion between FY 2025 to FY 2030.

The transition to a high capacity, decentralized and diversified energy grid brings a marked increase in demand for engineered components, including forged carbon steel flanges. These components play a critical role in ensuring high-pressure and leak-proof connectivity across pipelines, boilers, cooling systems, exhaust modules, and pressure vessels, with distinct requirements across power generation technologies:

Power Segment	Key Application Points	Flange Type Utilized	Technical Specification
Thermal (Coal & Gas)	Steam pipelines, condensers, turbines, pressure vessels	Weld Neck (WN), Blind (BLD), Socket Weld (SW), Lap Joint (LJ)	ASME/ANSI B16.5, ASTM A105 / A350 LF2
Nuclear	Coolant systems, containment vessels, steam generators	Weld Neck (WN), Socket Weld (SW), Special-grade flanges	NACE-compliant, high-strength low-temp materials
Solar Thermal	Molten salt pipelines, heat exchangers	Slip-On (SO), Blind (BLD), Threaded (THD)	High temp-resistant coatings; ASTM A105N

3.4 HVAC & Urban Infra

Urbanisation remains a foundational pillar of India's long-term economic trajectory. As per the Ministry of Housing and Urban Affairs (MoHUA), approximately 511 million individuals—constituting 36% of India's total population—resided in urban areas as of CY 2023, marking a considerable increase from ~31% in CY 2011. Notably, this urban population exceeds the entire population of the United States and represents a sustained migration trend led by the pursuit of economic opportunities, improved living standards, and access to critical services. Despite this growth, India's urbanisation ratio remains significantly below global peers—United States (85%), United Kingdom (84%), China (65%), and Indonesia (59%)—indicating material headroom for further expansion.

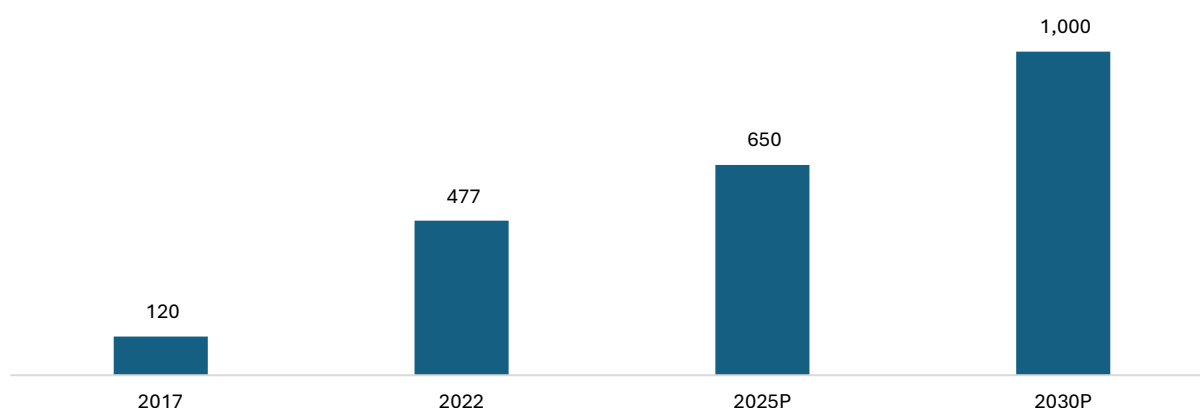

This transition is reflected in the expansion of urban households, which rose from approximately 110–120 million in CY 2018 to an estimated 120–130 million in CY 2023, underpinned by a rising middle-income demographic. This evolving spatial consumption pattern has given rise to a multitude of urban micro-markets, catalysing demand for physical infrastructure such as roads, utilities, power systems, and critically, residential and commercial real estate assets.

The urbanisation-led expansion in real estate, in turn, serves as a significant downstream demand driver for infrastructure-grade fabricated components such as steel flanges, which form an integral part of embedded systems across HVAC, plumbing, water conveyance, and fire-safety infrastructure.

3.4.1 Residential Real Estate

India's residential real estate sector has demonstrated a shift from a speculative, inventory-led cycle to one increasingly driven by end-user demand and structural affordability. Home ownership continues to be viewed as a financial and emotional asset, with a strong preference for secure housing catalysed by pandemic-induced shifts in consumer psychology and access to lower cost mortgage finance.

India's Residential Real Estate Sector Market Size (In \$ Billion)

P: Projected

Source: National Real Estate Development Council (NARECDO), Ministry of Housing and Urban Affairs, Govt. of India

Housing stock creation has accelerated due to Government-backed schemes such as the Pradhan Mantri Awas Yojana and urban rejuvenation programmes like the Smart Cities Mission.

According to JLL, in 2024, luxury apartments priced over INR 1 crore dominated residential sales, surpassing the 50% mark for the first time. Similarly, CBRE reports that the premium and luxury housing categories collectively accounted for 16% of total housing demand in 2024, up from 6% in 2019.

This trend towards premiumization is characterized by:

- **Increased Demand for High-End Amenities:** Homebuyers are seeking residences equipped with advanced HVAC systems, modern plumbing, and comprehensive fire safety mechanisms, necessitating the use of high-quality flanges and related components.
- **Larger Unit Sizes:** The preference for spacious homes has led to the development of larger residential units, which require more extensive and complex infrastructure systems.
- **Technological Integration:** Smart home features and energy-efficient systems are becoming standard in premium housing, further increasing the demand for specialized HVAC and plumbing solutions.

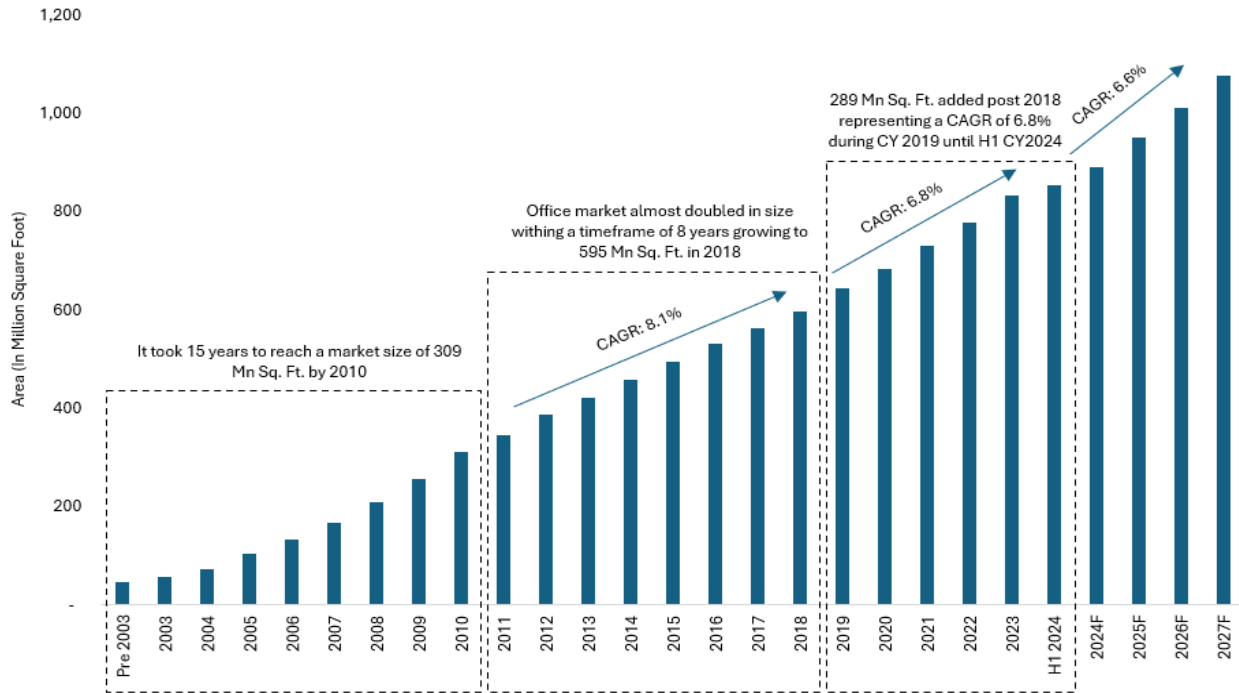

The development of multi-storey residential housing necessitates the deployment of high-performance mechanical systems including HVAC, pressurised water plumbing, and fire suppression networks. Each of these applications requires durable carbon steel or galvanised flanges, particularly slip-on and socket-weld types in Class 150 or Class 300 pressure ratings. These flanges enable the modular assembly of pipes and valves, enhancing system efficiency and maintainability. The rising verticalization in housing construction further intensifies the demand for such components.

3.4.2 Commercial Real Estate

India has emerged as one of Asia's most active office markets, driven by the proliferation of Global Capability Centres (GCCs), Shared Services, IT/ITeS, and co-working formats. According to CBRE, India's office stock has increased 18X since 2000, with total Grade-A office space touching 800 million sq. ft. as of 2023 and projected to grow at a CAGR of 6.6% through 2027. Key markets include Bengaluru, Hyderabad, Pune, Gurugram, and Chennai.

The rapid digitalisation of business services, the rise in foreign direct investment in organised retail, and the growth of India's startup ecosystem are creating sustained demand for formal commercial infrastructure.

The projections have been made considering historic trends, ongoing market activity, and certain parameters such as development pipeline that may have an impact on the upcoming supply in the commercial real estate market across Tier 1 cities i.e., Delhi, Gurgaon, Noida, Mumbai, Bengaluru, Chennai, Hyderabad, Pune, and Kolkata. Several factors like global macroeconomic uncertainty, geopolitical climate, pace of construction, and developer profile/execution capability may have a significant impact on the forecast estimates mentioned above. Considering the risk factors, forecasts are likely to change with periodic reviews given the evolving situation.

Commercial real estate developments—especially corporate office towers, retail malls, data centres, and logistics hubs—are intensive consumers of precision-engineered HVAC and fluid handling systems. Flanges used in such settings typically require higher dimensional tolerances, anti-corrosive coatings, and conformity to ASME/ANSI standards. The incorporation of fire-safety mandates under the National Building Code (NBC) and state fire norms also increases demand for certified flanges used in sprinkler and hydrant installations. Increasingly, LEED and IGBC-compliant green buildings require HVAC systems with optimised thermal performance, further expanding the use of engineered flanges.

3.5 Water Treatment and Utilities

Flanges constitute a critical component in the design, installation, and maintenance of fluid transportation systems in water and wastewater treatment plants. These mechanical connectors facilitate the modular assembly of pipelines, valves, and process equipment such as clarifiers, digesters, pumps, and membrane filtration units. Given the typically large diameter and corrosive environment of water infrastructure systems, flanges used in this segment are often manufactured using carbon steel or galvanized steel, with higher-grade stainless-steel variants deployed in desalination and effluent treatment applications. The ability to withstand variable pressure conditions, allow periodic inspection, and ensure leak-proof joint integrity makes flanges a fundamental element in the operational reliability of treatment infrastructure.

Sectoral Growth Drivers

India's water treatment and urban utility infrastructure is undergoing transformative expansion, supported by long-term public policy commitments and increasing urban water stress. According to [P&S Market Research](#), the Indian water treatment market was valued at \$12.1 billion in 2024, with projections indicating a CAGR of 16.7%, reaching \$40.9 billion by 2032. This growth is catalysed by rising urbanization, groundwater depletion, industrial effluent discharge regulations, and the need for non-potable reuse infrastructure in municipalities.

Key government-backed programmes form the core institutional drivers of sectoral growth:

- The Jal Jeevan Mission (JJM), launched by the Ministry of Jal Shakti, targets the provisioning of 55 litres per capita per day of piped water to every rural household by 2024. The initiative has been allocated a cumulative

outlay of ₹3.6 lakh crore (~\$43.2 billion), of which ₹2.08 lakh crore is centrally funded. As of 2024, over 86% of households had already been connected to functional tap water supply.

- The Atal Mission for Rejuvenation and Urban Transformation (AMRUT) aims to upgrade urban water distribution and sewerage infrastructure across 500 cities, with a combined project allocation of ₹78,910 crore (~\$9.5 billion).
- The National Mission for Clean Ganga (NMCG), under the Ministry of Jal Shakti, has sanctioned 454 projects worth ₹38,385 crore (~\$4.8 billion) as of December 2023, with a targeted addition of 6,208 MLD (million litres per day) in sewage treatment capacity.
- Simultaneously, India's push into desalination—particularly in water-stressed coastal states such as Tamil Nadu and Gujarat—is fostering large-scale capital formation. For instance, the Perur Desalination Plant near Chennai, with a capacity of 400 MLD, is scheduled for commissioning by December 2026.

Source: Ministry of Jal Shakti – JJM Dashboard; Ministry of Housing & Urban Affairs; NMCG Progress Report; The Hindu, August 2023

India generates over 72,000 MLD of wastewater annually, against a treatment capacity of ~30,000 MLD. Bridging this gap will require annual capacity additions of over 3,000 MLD, necessitating substantial investments in both new treatment plants and retrofitting of aging infrastructure.

Implications for the Flange Market

The pipeline-dense nature of water treatment plants—including rising mains, settling tanks, dosing systems, pressure break tanks, and filtration units—makes flanges an indispensable interface for equipment installation, isolation, and maintenance. With the Government of India's cumulative infrastructure pipeline for water-related projects exceeding \$50 billion over the current decade, a material uptick in demand for medium-to-large diameter flanges (typically 6" to 24" NPS), manufactured to IS, ASME, and DIN standards, is anticipated.

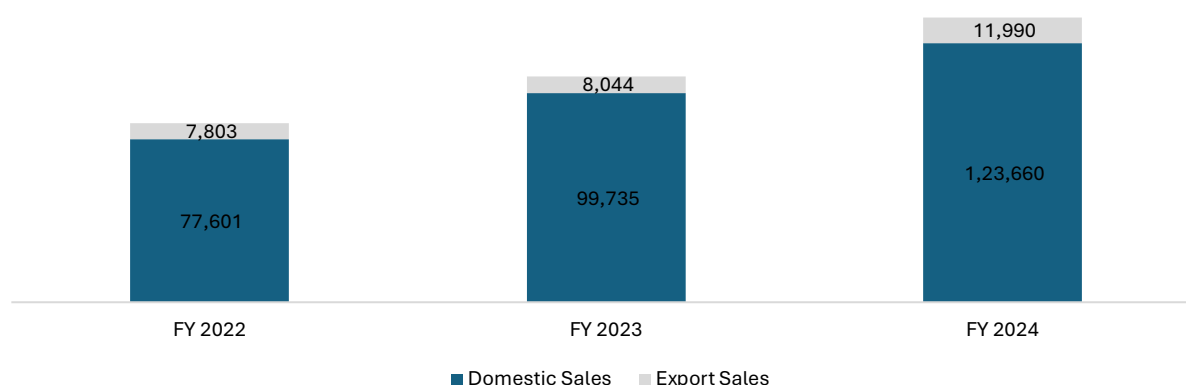

Moreover, the sector's preference for modular assembly over field-welded joints in water-logged or corrosive environments strengthens the case for bolted flange connections. The anticipated growth in wastewater treatment, urban utility upgrades, and decentralized treatment systems for tier-2 and tier-3 cities is expected to translate into consistent, long-cycle demand for standardized forged flanges, especially in galvanized and rubber-lined variants suited for long-term corrosion resistance.

4. Earthmoving Equipment: Multi-decadal growth trajectory

The Earth Moving Equipment segment represents the largest equipment category within the broader Construction Equipment (CE) industry. As of fiscal year 2024, the CE industry has achieved a market valuation of \$9.5 billion, encompassing both domestic and export markets.

The industry has demonstrated exceptional performance over the previous two fiscal years, registering an annual growth rate of 26% year-over-year. Market projections indicate continued expansion at a compound annual growth rate (CAGR) of 12% through fiscal year 2030, with anticipated market size reaching \$25 billion.

The Indian Construction Equipment (CE) industry demonstrated exceptional performance in FY 2023-24, recording a 26% increase in overall sales volume with total equipment sales surpassing projections to reach 135,000 units compared to 107,000 units in FY 2023. This impressive growth was driven by a 24% increase in domestic sales, rising from 99,735 units in FY 2023 to 123,660 units in FY 2024, complemented by a 49% expansion in exports, growing from 8,044 units to 11,990 units during the same period. All major equipment segments within the CE industry recorded growth during this period, with multiple factors contributing to this performance: enhanced implementation pace of infrastructure projects in the pipeline (particularly in the lead-up to General Elections), a record number of newly awarded projects, increased construction activity across multiple sectors including urban development initiatives, rural sector projects, airport development, and port expansion, as well as an upswing in mining activity.

The Earthmoving Equipment and the broader CE industry continues to benefit from increased budgetary outlay on key infrastructure sectors such as roads and highways, mining and quarrying, housing and urban affairs, ports and waterways, airports, and railways.

Key Trends

1. Emission Norm Transition and Product Reengineering

The industry's transition to Bharat Stage CEV-V emission norms, effective from January 2025, has necessitated comprehensive re-engineering of major sub-systems including engines, drivetrains, and exhaust assemblies. This regulatory shift has created opportunities for suppliers with capabilities in manufacturing lighter, more thermally resistant, and tighter-tolerance forged components. The anticipated pre-buying trend preceding CEV-V implementation is expected to stimulate component demand in the near term (Q3 FY25), providing a volume advantage for domestic suppliers integrated with OEM product development pipelines.

2. Strengthening of Domestic Supply Chains

Post-pandemic global supply chain disruptions, combined with government incentives promoting indigenization, have prompted CE manufacturers to strategically reassess their supplier networks with increased emphasis on local sourcing. This trend has created favourable market conditions for forging operations with integrated machining capabilities and robust in-house quality assurance systems, enhancing the competitive position of established domestic manufacturers.

3. Growing Aftermarket and Refurbishment Activity

India's rapidly expanding equipment rental and refurbishment market has emerged as a structural demand driver for replacement-grade components. As operators increasingly focus on extending equipment lifecycles to optimize capital efficiency, demand for high-wear forged parts—including track links, suspension elements, and loader arms—demonstrates sustained resilience. Manufacturers with capabilities to supply durable, field-tested components are well-positioned in this segment, particularly among equipment aggregators and maintenance contractors.

4. Rising Export Potential for Indian Component Manufacturers

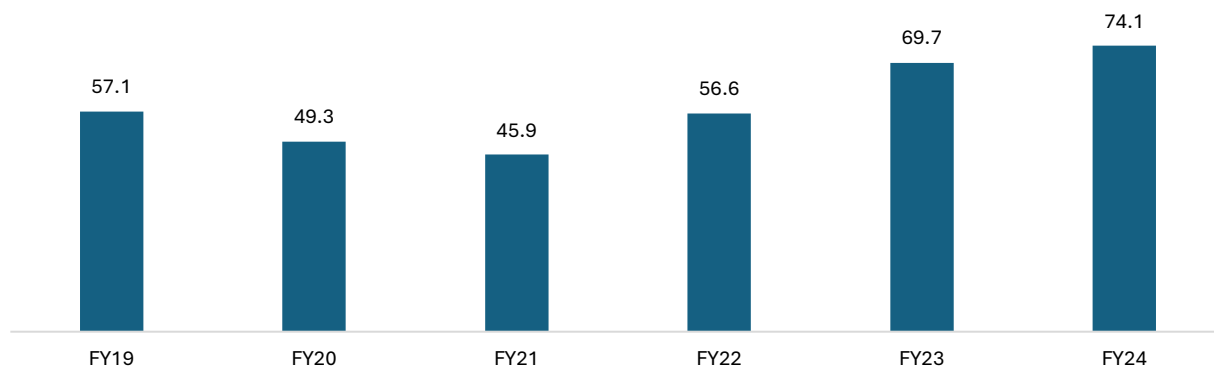

The global realignment of supply chains, driven by increasing trade barriers affecting Chinese and Southeast Asian suppliers alongside a structural shift toward diversified sourcing models, has created significant opportunities for Indian component manufacturers in the CE sector. India's forging and machining ecosystem is gaining recognition as a viable alternative due to its cost-effectiveness, expanding technical capabilities, and alignment with international delivery expectations. Government trade facilitation measures, including Free Trade Agreements and export incentive programs, have further strengthened India's position in global supply networks. While established large-scale manufacturers have developed export channels, the broader opportunity is progressively extending to mid-sized enterprises with integrated manufacturing capabilities and export compliance infrastructure. The growing international demand for replacement and refurbishment components, particularly in mature markets, positions Indian suppliers advantageously within global CE supply chains as part of broader supply diversification strategies.

5. Auto Components: Driving Manufacturing Excellence in India's Automotive Value Chain

The Indian auto component industry has witnessed sustained growth over the past decade, underpinned by the expansion of the domestic automotive sector, rising localization, and increasing integration with global supply chains. The industry

recorded a compounded annual growth rate (CAGR) of approximately 7-8% over the period from FY 2014 to FY 2024, culminating in an estimated market size of approximately \$74 billion in FY 2024. The sector accounts for nearly 25% of India's manufacturing gross domestic product (GDP) and provides direct and indirect employment to over five million individuals, thereby positioning itself as a critical pillar of India's industrial economy.

Source: PwC Research, Crisil, SLAM; Report: Auto Component Manufacturers Association of India FY24 and FY23 Performance review dt. 25th July 2024

The industry experienced a contraction of approximately 12.0% and 2.5% in FY 2020 and FY 2021, respectively, primarily on account of pandemic-induced disruptions, including supply chain breakdowns, reduced consumer demand, and curtailed manufacturing activity. However, the industry demonstrated resilience and a robust recovery in the subsequent FYs, registering growth rates of approximately 24.0% in FY2022 and 33.0% in FY2023, attributable in part to a low base effect and revival in end-user demand across both domestic and export markets.

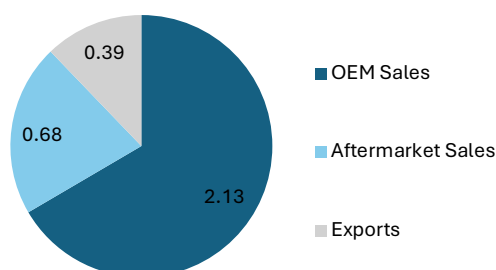

The Indian auto component industry is broadly segregated into three key segments based on end-user application and distribution channels, namely: (i) Sales to Original Equipment Manufacturers (“OEMs”), (ii) Domestic aftermarket sales, and (iii) Exports.

OEM Sales pertains to the supply of components directly to vehicle manufacturers for fitment in new vehicles during the production process. **Domestic Aftermarket Sales** includes the sale of components for vehicle maintenance and replacement purposes, distributed through independent service networks, retailers, and workshops post vehicle sale. **Exports** comprise the shipment of components manufactured in India to international markets, catering to global OEMs, Tier 1 suppliers, and independent aftermarket distributors.

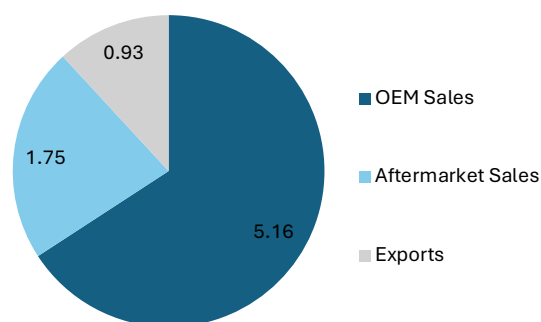

Over the period from FY 2014 to FY 2024, the three principal segments of the Indian auto component industry—Original Equipment Manufacturer (OEM) sales, domestic aftermarket sales, and exports—have exhibited robust and relatively balanced growth trajectories, recording compound annual growth rates (CAGR) of 9.26%, 9.89%, and 8.94%, respectively. As a result of the comparable growth across these segments, their relative contribution to the overall industry turnover has remained broadly stable over the past decade.

To derive the net market size of the domestic auto component industry, imports of automotive components are deducted from the gross trade value. Imports have increased from ₹0.82 lakh crore in FY 2014 to ₹1.73 lakh crore in FY 2024, reflecting a CAGR of 7.66% over the same period. Notwithstanding the increase in imports, India has maintained a trade surplus in this sector, registering a positive balance of approximately \$300 million in FY 2024.

Though the domestic market will continue to grow and be a major contributor to India's auto component industry in the coming decade, exports are expected to be the key growth driver. The industry is estimated to nearly triple its value to \$200 billion by growing at a CAGR of 16 % till 2030. While domestic OEM sales and aftermarket sales are expected to grow at a CAGR of 6%, exports are expected to grow by 30%. This growth could make component exports the largest segment by 2030. OEM sales are expected to reach \$89 billion while exports would likely reach \$100 billion.

This growth will help the industry meet key aspirations such as becoming a top automotive components exporter that is self-reliant, and a global hub for future mobility solutions like automotive software development, zonal E/E architectures, and hydrogen tanks. India's Auto Components market could reach \$200 billion driven by favourable disruption in the industry.

An analysis of component-wise sales distribution in the Indian auto component industry for FY 2024 (Refer the chart underneath) indicates that most of the industry's revenue continues to be derived from core mechanical systems such as engine parts, suspension and braking systems, drive transmission and steering assemblies, and body and chassis structures. These operational and performance-linked components collectively account for a dominant share of overall turnover, reflecting the industry's continued strength in precision manufacturing and heavy-duty applications.

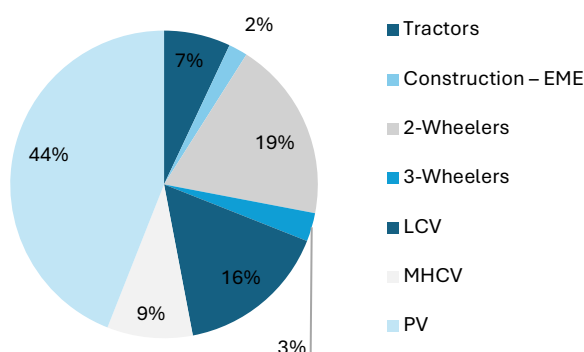

By contrast, product categories associated with comfort, convenience, and end-user interfaces—such as interior systems, electronics, and miscellaneous consumables—constitute a smaller proportion of total sales. The existing distribution profile suggests that India's auto component manufacturing capabilities remain concentrated in foundational, drivetrain-related segments, with gradual expansion into electronics and consumer-centric modules in response to evolving vehicle design trends and increasing penetration of electric and connected vehicles.

Components supply by OEM segment in FY24

Source: PwC Research, Crisil, SIAM; Report: Auto Component Manufacturers Association of India FY24 and FY23 Performance review dt. 25th July 2024

In FY 2024, demand for auto components was primarily concentrated in the passenger vehicle, two-wheeler, and light commercial vehicle segments, which together accounted for a substantial share of industry sales. These segments benefit from higher production volumes and diversified component requirements.

Specialised categories such as tractors, construction equipment, and three-wheelers contributed a smaller share, reflecting their narrower application base. The distribution corresponds to the structure of India's automotive market, with component demand

broadly aligned to vehicle category volumes and usage patterns.

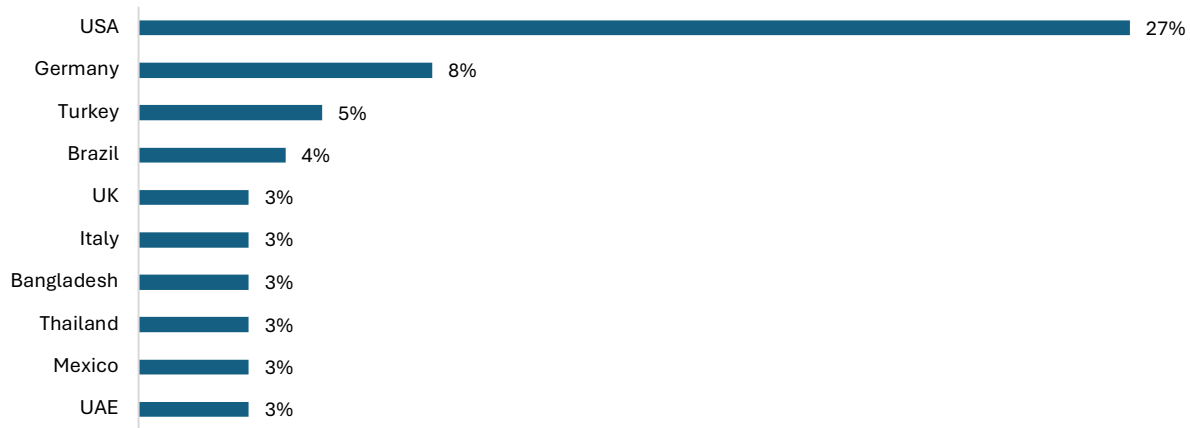

In FY 2024, India's auto component exports remained geographically broad-based, with North America and Europe contributing \$6.9 billion and \$6.89 billion, respectively. The United States continued to be the largest individual export destination, accounting for 27% of total exports. Other major European destinations included Germany, the United Kingdom, and Italy, which together contributed meaningfully to the region's 12% annual growth.

Asia contributed \$5.15 billion in export value during the year, with volumes remaining flat on a year-over-year basis. Exports to Latin America declined by 10%, primarily due to reduced demand from Brazil. Exports to Africa and the CIS & Baltic regions grew by 12% and 71%, respectively, on a low base.

Among the top ten country-wise export destinations, the composition remained stable, with developed markets accounting for a majority share. Alongside the United States and Germany, countries such as Turkey, Brazil, and the United Kingdom maintained their positions as key destinations. The inclusion of Mexico, Thailand, the UAE, and Bangladesh reflects a balanced exposure across mature and developing markets.

The composition of export demand continues to reflect India's integration into global automotive supply chains, particularly across categories aligned with OEM and Tier-I sourcing requirements. The presence of both high-volume and structurally evolving markets indicates sustained demand diversification across geographies.

Growth Drivers

The auto component sector in India is set to mirror the growth of the entire automotive industry in India with the potential to triple its current valuation of \$74 billion by 2030. Strong tailwinds like rising consumer income levels and new types of technology and software are expected to help the sector grow at a CAGR of 18% to reach an annual turnover of over \$200 billion. Component manufacturers could capitalize on disrupted global supply chains to meet increasing demand for components in foreign and domestic markets. The three segments of the auto-component industry—domestic OEM sales, aftermarket sales, and exports—are expected to provide unique opportunities for the industry participants.

1. Domestic OEM sales

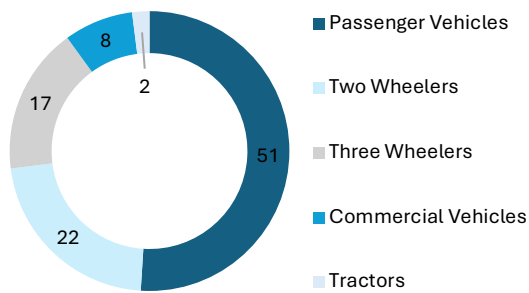

Rising consumer demand, the emergence of alternative powertrains and advancements in automotive software are a few of the major shifts affecting the domestic automotive sector and consequently domestic OEMs. Suppliers for these OEMs will need to adapt to these trends by innovating across segments and diversifying their portfolios to create new opportunities.

The number of households in India with an annual income of more than \$25,000 is expected to triple by 2030. The consequent rise in the spending power of consumers will affect automotive demand across various demographics. With urbanization expected to increase to roughly 40% by this time, demand for PVs and light commercial vehicles (LCVs) is expected to rise. Meanwhile, rural incomes are expected to grow by as much as 25%, helping drive 2W sales, particularly for entry-level ICE vehicles. Rising consumer demand across industries will also increase the volume of cargo transport, creating a pull for commercial vehicles and their components.

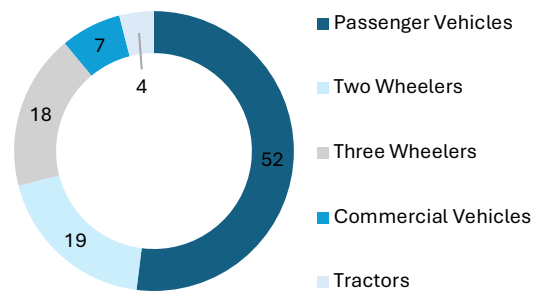

Experts predict vehicle sales in the country could grow at a CAGR of 10–11% between 2023 and 2030, increasing from roughly \$99 billion in 2023 to around \$195 billion by 2030. This is expected to translate to growth in domestic OEM component sales which are projected to rise from around \$59.3 billion in 2023 to roughly \$89 billion in 2030.

2. Domestic Aftermarket

The growth of the domestic aftermarket could play a key role in the growth of the auto component industry in the coming decade. With the vehicle parc set to increase by 4–5% per year and continuing to age, the component aftermarket would witness a significant rise in demand and growth in opportunities. Moreover, the rising number of new sales channels offering smarter, more personalized solutions and new service aggregators will bolster the creation and development of organized service marketplaces, which will in turn boost sales of genuine auto parts.

Another important factor that could aid the expansion of the Indian aftermarket is the rise in premiumization of vehicles. Consumers are already demanding more personalized and smart accessories for vehicles such as heads-up displays (HUDs) in passenger vehicles and smart helmets for two-wheelers. The industry will also see an increase in direct-to-customer sales (D2C sales) with the growing popularity of autonomous maintenance of vehicles among the customer base.

The Indian auto component aftermarket is expected to grow to \$16 billion by 2030. Each vehicle segment could witness 8–10% growth. The PV and CV segments, which were both valued at \$3 billion each in 2023, could reach \$5 billion each, growing at a CAGR of 8%. The 2W and 3W segment is estimated to have a relatively lower CAGR of 4% and reach \$4 billion by 2030. The tractor segment is expected to see the greatest growth with a CAGR of 10% as it doubles from \$1 billion in 2023 to \$2 billion by 2030.

This potential growth will be driven by a few factors, of which a key factor is an increasing vehicle parc. Parc growth will see new opportunities in the auto component aftermarket in the form of personalized, DIY auto parts like tyres and batteries. The vehicle parc is also expected to increase in average age with expectations that more Indians will opt for used vehicles. This will have a positive knock-on effect on the components aftermarket by increasing demand for maintenance parts. As of 2024, India's total vehicle parc across segments stands at roughly 333 million units and is expected to reach 430–435 million units at a CAGR of 4 to 5% by 2030.

Organization and standardization will be integral to the growth of the domestic component aftermarket. These deter the production and sale of counterfeit parts, which is detrimental for consumers and genuine aftermarket suppliers alike. There is an encouraging rise in new service aggregators and personalized maintenance providers that could help address these counterfeit and knock-off products. Another encouraging trend that needs to be optimized is the emergence of new direct-to-consumer online auto component marketplaces, which are clocking increasing auto sales every year.

3. Exports

India could capitalize on disrupted global chains by positioning itself as a leader in auto component manufacturing, emerging as the next hotspot for component sourcing for major international markets such as the US, Europe, and Latin America. The Indian auto component sector could increase exports to these markets through two different approaches.

Leveraging tailwinds arising from OEMs and other customers diversifying their supply chains: India can accelerate exports of parts where it already has a strategic advantage and high potential for growth such as bearings, rubber

components, and suspension systems.³⁵ Indian component players could also build a competitive advantage in high-value component export categories like exhaust, cabin, and load body parts.

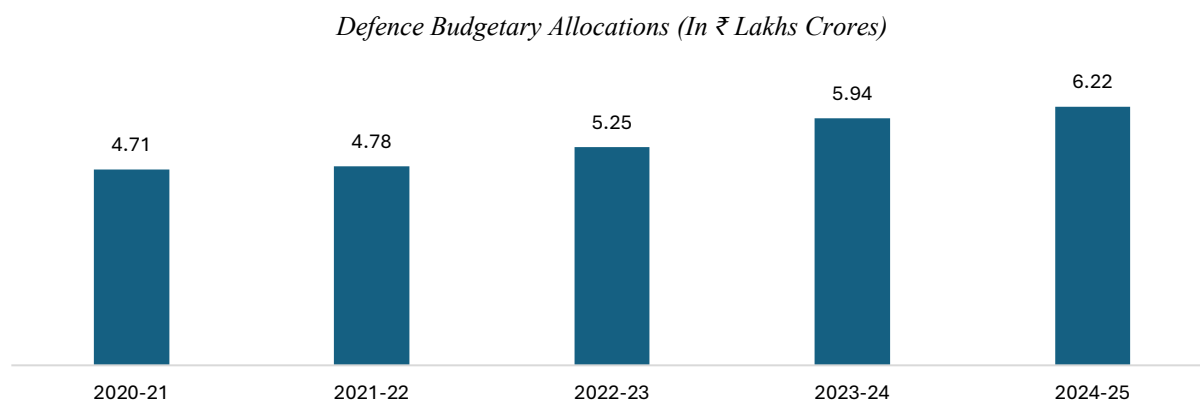

Leveraging the rebalancing of the global automotive manufacturing landscape due to adoption of alternative powertrains: With rapid electrification expected in developed markets in the coming years, multiple ICE component segments will see reduced demand, causing local suppliers to lose economies of scale. These component markets will therefore become low volume and high variety markets creating opportunities for Indian suppliers, especially small and medium enterprises (SMEs). These suppliers can leverage the country's favourable labour costs to build the scale and resources needed to become globally competitive through measures like partnerships.

Driven by growth in North American and European markets, component exports are expected to surge five times from the segment's current valuation of \$20 billion in 2023 to reach \$100 billion by 2030. In 2023, Indian exports to North America stood at the \$6 billion mark and could rise to \$40 billion by 2030. Similarly, exports to Europe are expected to increase from \$6 billion in 2023 to \$35 billion in 2030. Exports to Latin America are expected to grow from \$2 billion in 2023 to \$13 billion in 2030.

6. Defence: Strategic Manufacturing for National Security and Self-Reliance

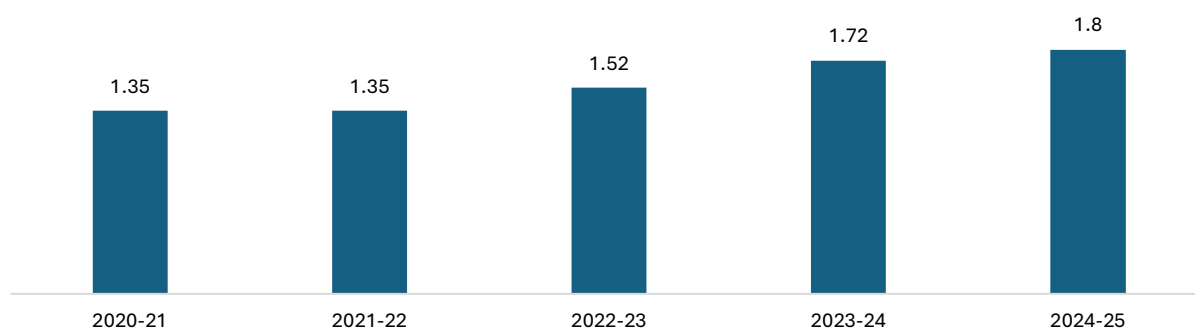

The Indian defence sector is undergoing a structural transformation driven by sustained capital expenditure, targeted policy reforms, and a strategic push for self-reliance in defence manufacturing. The Government of India has steadily increased budgetary allocations towards defence, with a sharp focus on capital procurement and indigenous production. The Union Budget for FY 2023–24 allocated ₹1.62 lakh crore towards capital outlay for the armed forces, representing approximately 30% of the total defence budget. Over the past few years, procurement categories such as Buy (Indian-IDDMM) and Buy (Indian) have gained precedence, in line with the Ministry of Defence's stated objective of enhancing domestic value addition and reducing import dependency.

The Defence Acquisition Procedure (DAP) 2020 provides a comprehensive framework to encourage indigenous design, development, and manufacturing of defence platforms and systems. Complementing this, the introduction of the Positive Indigenisation List—comprising components and subsystems earmarked for domestic procurement—has facilitated greater participation from Indian private and MSME manufacturers. Two defence industrial corridors, established in Uttar Pradesh and Tamil Nadu, are expected to create a comprehensive manufacturing ecosystem supporting critical defence platforms and assemblies.

Key Sectoral Trends

1. Indigenisation of Ammunition and Land Force Equipment

The Government of India has placed increased emphasis on achieving self-reliance in the manufacturing of ammunition and critical land force systems. Through the phased introduction of Positive Indigenisation Lists by the Department of Defence Production (DDP), over 500-line items across ammunition, fuzes, shells, and propulsion systems have been earmarked for procurement exclusively from domestic sources. The Advanced Ammunition and Explosives programme, enabled under the Make-II category—which permits development without upfront government funding—has created a framework for private players and MSMEs to undertake indigenous development of ammunition subcomponents.

The Indian Army has progressively sourced from local suppliers to produce 105MM shells, 125MM armour-piercing rounds, artillery fuzes, bi-modular charges, and propellant systems. Additionally, the indigenous manufacturing of ammunition containers, forged casings, and liner assemblies for tank rounds has gained traction under capital acquisition programmes such as the Army's Ammunition Life Cycle Management (ALCM) initiative.

2. Reduction in Ammunition Imports

India's dependence on imported ammunition has seen a marked decline over the past five years, in alignment with policy reforms promoting indigenisation and diversification of sourcing. As per data from the Ministry of Defence Annual Report 2023–24, over 75% of ammunition procurement proposals in the past two years were under the Buy (Indian) route. Consequently, the share of imported ammunition in total procurement has declined from over 40% in FY 2018–19 to approximately 25% in FY 2022–23.

This reduction is attributable to increased domestic manufacturing of 105MM and 125MM tank shells, medium-calibre artillery ammunition, and dual-purpose fuzes. The Ministry has further indicated its intent to fully substitute low-technology imports of small arms, light weapons, and their ammunition by FY 2025, thereby ensuring demand continuity for Indian forging and precision engineering vendors.

3. Growing Participation of the Private Sector in Defence Production

Private sector participation in India's defence manufacturing ecosystem has expanded substantially, aided by reforms such as the corporatisation of the Ordnance Factory Board into seven autonomous Defence Public Sector Undertakings (DPSUs), liberalisation of foreign direct investment (FDI) norms, and implementation of the Defence Acquisition Procedure (DAP) 2020. Over 500 private firms, including several MSMEs, are currently engaged with the Ministry of Defence under various procurement categories.

The Make-I and Make-II schemes under DAP 2020 have become the principal channels for private-led innovation and manufacturing. Additionally, Indian private firms are now eligible to participate in tenders for ammunition and shell supplies—previously a domain reserved largely for public sector entities. The allocation of ₹5,000 crore towards Innovation for Defence Excellence (iDEX) projects has further enabled capacity-building in domestic production of precision forgings, electronic fuzes, and metal casings.

4. Emphasis on Localised Sourcing for Strategic Platforms

The Ministry of Defence has mandated higher levels of indigenous content across all strategic platforms procured under the Buy (Indian-IDD) and Buy (Indian) categories. For tracked combat vehicles such as the T-90, T-72, and BMP series, the Indian Army has standardised the localisation of critical mobility subsystems including forged tracks, sprockets, torsion bars, road wheels, and return rollers. These components are now predominantly sourced from qualified Indian vendors adhering to specifications issued by the Directorate General of Quality Assurance (DGQA).

Furthermore, the capital acquisition roadmap of the Indian Army includes the lifecycle upgrade and replacement of tracked platform components, particularly for legacy Soviet-origin fleets. These programmes offer forward visibility for domestic manufacturers of forged assemblies and tank ammunition subcomponents, including 105MM shell bodies and undercarriage mechanisms.

5. Strategic Stockpiling of Ammunition and Components

In response to evolving geopolitical imperatives and operational contingencies along India's northern and western borders, the Ministry of Defence (MoD) has placed renewed emphasis on the creation and maintenance of forward-deployed strategic stockpiles of critical ammunition. This doctrinal shift has been particularly evident in the heightened procurement of artillery shells—including the 105MM calibre—along with associated sub-components such as metallic shell casings and base structures, which form the foundational input into final round assembly conducted at Ordnance Factories and designated filling units.

Recent deliberations of the Parliamentary Standing Committee on Defence and policy communiqués issued in the wake of the 2020 border skirmishes underscore the centrality of war readiness benchmarks such as the War Wastage Reserve (WWR), which mandates a 40-day supply of high-consumption munitions to be maintained under high-tempo combat scenarios. To fulfil this directive, procurement agencies under the Department of Defence Production (DDP) have progressively shifted sourcing strategies towards indigenously manufactured casing hardware and component-level preforms, with a view to reducing lead times, enhancing self-reliance, and ensuring consistent replenishment cycles. This has resulted in increased tendering and contracting opportunities for domestic vendors equipped to deliver forged or machined metallic inputs in accordance with defence metallurgical standards and dimensional specifications.

6. Offset Obligations and Domestic Sourcing Ecosystems

The Indian defence offset policy framework, applicable to capital acquisition contracts exceeding prescribed financial thresholds, continues to play a catalytic role in fostering domestic sourcing ecosystems, particularly in the domain of component-level manufacturing and sub-assembly integration. As per the Defence Procurement Procedure (DPP) and its successor, the Defence Acquisition Procedure (DAP) 2020, foreign original equipment manufacturers (OEMs) entering contracts with the Government of India are mandated to discharge offset obligations through direct purchase of eligible products or services from Indian industry partners, including Tier-II and Tier-III suppliers.

Within this ecosystem, forged components such as armoured vehicle mobility parts, substructures for tracked platforms, and precision-machined metallic casings for ammunition, have increasingly gained currency as permissible offset discharge categories. This is attributable to their high usage across legacy platforms—such as the T-72, T-90, and BMP—and their compatibility with cross-national design tolerances. While such inclusion does not imply direct or automatic contract flow to any specific vendor, it does position capable domestic manufacturers to be considered as viable offset partners by foreign OEMs seeking to meet compliance targets under existing and upcoming procurement agreements. The policy thus facilitates the gradual integration of Indian defence manufacturers into global value chains and enhances their long-term business visibility within the international defence contracting environment.

Product Categories and Strategic Relevance in Land-Based Defence Systems

1. Tracked Vehicle Mobility Components

Modern combat vehicles such as the T-90, T-72, Strela, and BMP infantry fighting vehicles rely on a series of mobility subsystems that enable operational manoeuvrability across diverse terrains. Among the most critical of these components are forged tank tracks, sprockets, torsion bars, and road wheels—each playing a key role in ensuring the structural integrity, weight-bearing capacity, and durability of the platform under high-load and combat conditions.

Forged track assemblies are designed to withstand continuous torsional and lateral stress encountered during cross-country deployment, especially in desert, marsh, or mountainous environments. The use of forged steel, in contrast to cast or welded alternatives, provides enhanced fatigue resistance and longer service intervals—attributes that are essential in

maintaining combat-readiness. Similarly, sprockets and torsion bars contribute to torque transmission and suspension support, ensuring platform stability over extended missions.

These components form part of the Indian Army's ongoing fleet management and lifecycle upgrade plans, particularly for its legacy fleet of T-72 and BMP vehicles, as well as for T-90 tanks that comprise the bulk of its modern armoured capability. As per publicly available defence procurement schedules, the sourcing of mobility subcomponents from domestic vendors has been progressively standardised to align with indigenisation mandates issued under the Defence Acquisition Procedure (DAP) 2020.

2. Forged Shell Casings for Artillery Ammunition

Another key product category is forged shell casings, primarily for use in 105MM artillery ammunition. These shell bodies serve as the primary containment structure for explosive payloads and form a critical element in both direct and indirect fire systems operated by the Indian Army. While the filling, fuze, and final assembly of ammunition is undertaken by specialised ordnance establishments, the shell casings themselves are precision-engineered to meet stringent ballistic and dimensional tolerances as specified by the Directorate General of Quality Assurance (DGQA).

Forged casings offer enhanced metallurgical consistency, strength, and resistance to deformation under explosive pressure. This is particularly important for high-explosive, fragmentation, and high-explosive anti-tank (HEAT) rounds, where the integrity of the casing has a direct bearing on projectile performance and safety.

With the Indian Army focusing on the phased indigenisation of key artillery calibres—such as the 105MM Indian Field Gun (IFG) and light field guns—there has been a progressive shift towards local sourcing of shell bodies and associated forgings. These components are procured under the Buy (Indian) and Make-II categories, offering a recurring demand pipeline for domestic suppliers involved in precision forging.

3. Strategic Alignment with Defence Indigenisation and Lifecycle Support

The components outlined above—namely, mobility subassemblies for tracked platforms and shell casings for artillery—are integral to India's ongoing shift towards greater self-reliance in defence manufacturing. These products not only represent foundational inputs into existing defence inventory but also qualify as lifecycle support items with high replacement frequency, given their exposure to wear, abrasion, and cyclic stress.

Under the capital acquisition programmes of the Indian Army, especially in relation to the refurbishment of legacy fleets and standardisation of supply chains, these components have been progressively brought within the purview of domestic procurement. The policy environment, bolstered by successive Positive Indigenisation Lists and increased budgetary outlay under the Capital Procurement Head, continues to offer structural impetus to Indian manufacturers operating in this segment.

Conclusion

India's engineered components and capital goods ecosystem is expected to benefit from a sustained infrastructure build-out, growing equipment mechanization, increasing indigenisation in defence and manufacturing, and a broader formalisation of supply chains. These developments are contributing to a steady rise in demand for forged and machined components used across construction equipment, transportation, industrial, and infrastructure-linked applications. In parallel, the shift towards localized sourcing—alongside early signs of export substitution driven by evolving global trade dynamics—is expanding the opportunity set for domestic forging and machining units with demonstrated scale, quality consistency, and delivery capabilities. Companies with integrated manufacturing processes, sectoral diversification, and the ability to cater to custom-engineered parts are expected to remain relevant across economic cycles.

This section should be read in conjunction with, and is qualified in its entirety by, the detailed information about our Company and its financial statements, including the notes thereto, in the section titled “**Risk Factors**”, “**Financial Statement**” beginning on page 35 and 241 respectively, of this Draft Red Herring Prospectus.

Unless otherwise stated or the context otherwise requires, in relation to business operations, in this section of this Red Herring Prospectus, all references to “we”, “us”, “our” and “our Company” are to Munish Forge Limited. Unless otherwise stated or the context otherwise requires, the financial information used in this section is derived from our Restated Consolidated Financial Statements.

OVERVIEW OF OUR BUSINESS

Our company was incorporated as “Gaisu Forge Private Limited” on July 25, 1986, as a private limited company under the provisions of the Companies Act, 1956 pursuant to Certificate of Incorporation issued by Registrar of Companies, Punjab, Himachal Pradesh and Chandigarh. Later on May 03, 1995, our company’s name was changed and it was converted into “Munish Forge Limited” pursuant to Section 23(1) of Companies Act, 1956. Further on June 06 2002, the company’s was converted to “Munish Forge Private Limited”. Later in the year 2024, our Company was converted into a public limited company pursuant to shareholders resolution passed at the extraordinary general meeting of our Company held on November 12, 2024 and the company got converted into “Munish Forge Limited” and a Fresh Certificate of Incorporation dated December 17, 2024, was issued by the Registrar of Companies, Centre Processing Centre. The Corporate Identification Number of our Company is U28910PB1986PLC006950. The company has its registered office at Village Gobindgarh, Adjoining Phase – VII, Focal point, Ludhiana-141010, Punjab, India.

Our company, Munish Forge Limited, envisioned by our founder Mr. Davinder Bhasin is a manufacturer in the forging and casting industry, specializing in manufacturing premium forged and cast components. With the vision, we have established ourselves as a trusted name in producing forged components that cater to a wide range of industries. We have continuously evolved, combining innovation with a commitment to excellence, ensuring that we deliver engineered solutions that meet the ever-growing demands of our customers across the globe.

We manufacture components like Flange, Scaffolding, Auto parts, Tank tracks chains, Bomb shells, Fence post and steel accessories as per customer specifications and International Standard catering to the requirements of Indian Army and various industries such as Defence, Oil and Gas, Automobile, Construction and Infrastructure.

With over 40 years of legacy in precision engineering, our company has established itself as a trusted supplier in the Defence sector. Starting with a single machine shop, we have grown into a powerhouse, manufacturing critical components for the Indian Army, such as Battle Tank Track Chains and Bomb Shells. Detailed testing both in-house and at NABL-certified labs ensures that our products meet the Defence-level standards. With ongoing projects and approvals from Defence authorities, we contribute significantly to India's Defense capabilities while also serving clients across developed markets like the USA, UK, Canada, and Europe.

As part of our growth strategy, our company is actively expanding into new sector like Railways, where we have recently begun registering for tenders to supply critical forged components. The Indian Railways, being one of the largest and fastest-growing rail networks, offers immense potential for growth through large-scale modernization, electrification, and expansion projects. The railway industry demands precision-engineered parts with exceptional durability, making it a natural extension of our capabilities. By participating in tenders, we aim to secure large-scale contracts that will not only enhance our business portfolio but also establish us as a reliable supplier in this sector too.

Starting from April 1, 2024, Munish achieved a significant milestone by initiating operations in its new casting division at Dev Arjuna Cast and Forge Private Limited (DACF) now known as Munish Forge Casting Division. This strategic expansion involved acquiring all plant and machinery from DACF and leasing its land to establish a casting facility. This move has enabled Munish to venture into the production of intricate components, such as specialized track chains or JCB parts that are challenging to forge. By leveraging the casting capabilities at DACF, Munish has streamlined its production process, seamlessly integrating casting with further processing at its main facility. This development not only reinforces

MFL's commitment to innovation and efficiency but also positions the company in delivering complex, high-quality products to the defence and industrial sectors.

Munish is skilled at making different forged parts that meet American and European quality standards, like ASTM and EN74-1:2022. As company exports to countries with sub-zero temperature, these standards help us to manufacture the product which can survive in that temperature. By integrating several processes under one facility, our company is in position to minimise cost and offer services of 'One Stop Shop'.

We take pride in our in-house testing facilities, covering Chemical & Physical testing, Micro to Macro testing, Hardness testing and Salt Spray testing, this ensures that raw materials, in-process products, and final components meet the quality standards. For added assurance, we employ processes like endurance testing. The strength of our products is determined by the type of material used, which is ordered based on the customer's specific requirements. Factors such as standards, configurations, and other specifications are tailored to meet their unique needs.

Our company's design centre is equipped with the 3D software, Cad/Cam etc. A skilled team of technicians enables us to continuously improve our manufacturing processes. At every stage of production, from raw material procurement to final product testing, we exercise controls to ensure compliance with international quality standards and meet customer requirements. Every step of our manufacturing process is carefully monitored, with full documentation and traceability.

The company sources its raw materials exclusively from reliable local suppliers within Punjab, fostering strong and consistent supply quality. Over the past three years, approximately 15% to 30% of the company's total raw material procurement has consistently come from the same trusted supplier, reflecting a stable and mutually beneficial business relationship. The key raw materials used in production include billets, rounds, strips, wire sleeves, RCS (Rolled and Continuous Sections), and MS (Mild Steel) pipes. This localized and dependable sourcing strategy not only supports the regional economy but also enhances operational efficiency by reducing lead times, maintaining quality consistency, and optimizing logistics across the manufacturing cycle.

Quality and safety are our top priorities, and we hold certifications like ISO 9001:2015, ISO 14001- 2015, IATF- 16949-2016, PED (Pressure Equipment Directive). Our safety standards are maintained through written down procedures, a trained workforce, and equipments.

Our forging plants are equipped to produce components ranging from 300 g to 150 kg, with its own CNC die-making capabilities. We use Hydraulic and Mechanical presses and Stamping Machines to deliver customized products that meet close tolerances. Additionally, our advanced fabrication facilities feature multi-torch welding machines and robotic arms, enabling us to manufacture a wide range of products with productivity and quality.

OUR VISION

At Munish Forge Limited, our vision is rooted in delivering "Reliability through Perfection and Excellent Services." We aim to set a benchmark for excellence by continually evolving and focusing on innovation, quality, and customer satisfaction. With a foundation built on decades of experience, our philosophy is driven by integrity and a relentless pursuit of excellence. We strive to exceed customer expectations through precision, innovation, and dedication to high standards in both products and services.

OUR MISSION

- To provide value for money to customers
- To respect integrity of employees and provide opportunities for growth
- To be fair and ethical in all our dealings
- To provide service to the society and the nation by protecting the environment and creating wealth.

OUR VALUES

Our company's values are the guiding principles that shape our actions and decisions. These values are deeply ingrained in our company culture and influence how we interact with employees, customers, and partners. They serve as a compass, directing our behaviour towards achieving our goals and maintaining a positive impact on the world. They include:

1. **Customer Focus:** Delivering high-quality products that offer value for money and meet customer needs.
2. **Integrity:** Upholding honesty, transparency, and ethical behaviour in all interactions.
3. **Employee Respect & Growth:** Supporting the development and well-being of our team.
4. **Sustainability:** Protecting the environment through responsible practices.
5. **Social Responsibility:** Contributing to society and the nation's progress by creating wealth and serving the community.

These values form the cornerstone of our pursuit of excellence.

JOURNEY OF OUR COMPANY

1986 – The Company was established by our promoter Mr. Davinder Bhasin, under the name of “Gaisu Forge Private Limited”. The primary focus was on manufacturing forged components like cycle parts, electrical insulator parts and metalwork.

1995 – The Company changed its name from Gaisu Forge Private Limited to Munish Forge Limited, transitioning from a private to a public entity. This shift marked a significant milestone in its growth, accompanied by the addition of new products like Flange, further expanding its business operations.

1996 – The Company expanded its manufacturing infrastructure by acquiring additional land alongside the current factory area, at the Focal Point, a major industrial area, to accommodate future growth and increased production capacity. The expansion supported the installation of more equipment and enhanced production efficiency.

2002 – Munish Forge Limited restructured again and change its status from limited company to a private limited company, renaming itself Munish Forge Private Limited.

2004 – The Company expanded its factory land by 5.93 acres to support increased production. This expansion enabled the company to streamline operations and improve workflow management.

2014 – Munish Forge Private Limited completed the necessary requirements to become registered with Indian Defence, allowing it to supply forged components to defence projects. This registration strengthened the company's credibility as a defence supplier.

2015 – The first Battle Tank Track Chain manufactured by the company was accepted by Indian Defence, marking its entry as an approved supplier for military projects. This approval led to new business opportunities within the defence sector.

2017 – Munish Forge Private Limited received EN 1090-2:2008 certification from SLV, Germany, demonstrating compliance with European standards for structural steel and aluminium components. The certification facilitated entry into international markets requiring strict quality standards.

2019 – The Company integrated Robotic Welding Arms into its production process, improving efficiency and precision. These automated systems ensure consistent welds, reduce human error, and improve production speed, leading to higher productivity and cost-effectiveness.

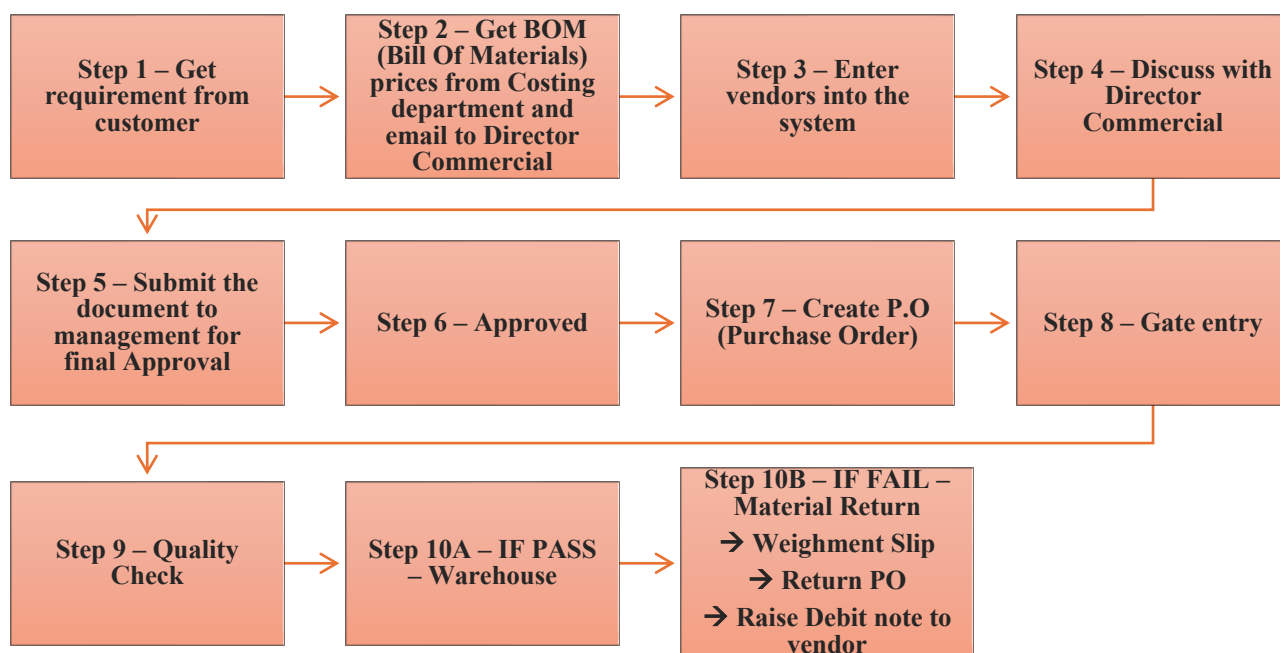

2022 – The Company added JCB-SPD as one of its OEM customers, expanding its customer base in the industrial and heavy equipment sector. This partnership reinforced the company's position as a reliable supplier in the industry.

2023 – Munish Forge Private Limited secured approval for T72 tank tracks, allowing it to manufacture and supply these critical components for defence applications. This approval contributed to the company's growing involvement in military vehicle manufacturing.

2024 – The company commenced casting operations through its new division, Dev Arjuna Cast and Forge Pvt Ltd, diversifying its product range and manufacturing capabilities. This step marked the company's expansion into casting-based production alongside forging.

December 17, 2024 – Munish Forge Private Limited transitioned into a Public Limited Company, indicating an expansion in its corporate structure and potential plans for further growth and investment opportunities. This change allowed the company to explore funding options and strengthen its market position.

RAW MATERIAL PROCUREMENT FLOWCHART

Detailed description of the raw material procurement process –

Step 1 – Get requirement: The raw material procurement process begins by the PPC (Production Planning and Control) department, where they identify the specific material and product requirements from the customers for the product which is going to be manufactured.

Step 2 – Get Bill of Materials (BOM) Prices: After the requirements are identified the Bill of Material prices is obtained from the costing department, where the prices of raw material are compared among all the vendors.

Step 3 – Enter Vendors into the System: Once the BOM is obtained and comparison of the prices is done, potential vendors are shortlisted and their details are inputted in the system for the consideration.

Step 4 – Discuss with Director Commercial: The vendor prices and details are reviewed with the Director of Commercial to make an informed decision, where a vendor is selected.

Step 5 – Submit the document to management for final approval: Once the discussion is done amongst the management, the finalized document is submitted, including the vendor analysis and recommendations to the management team.

Step 6 – Approved: Once the analysis is done, the document is approved and next step of the process is proceeded.

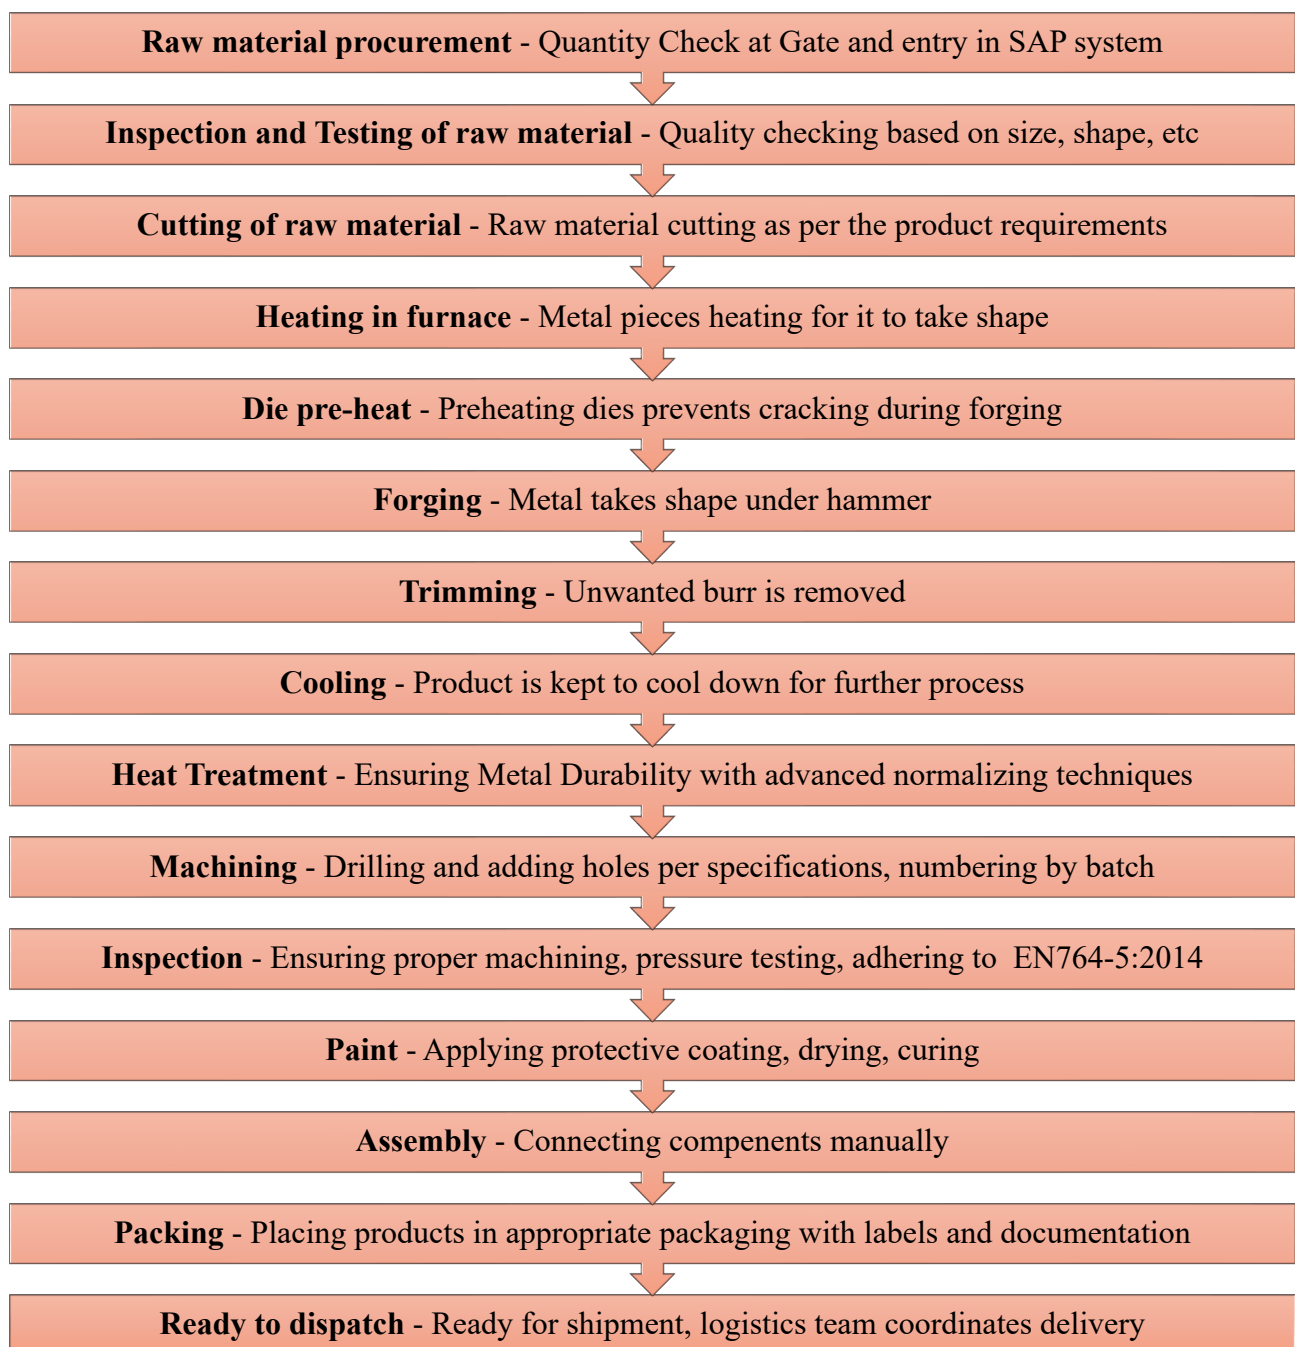

Step 7 – Create Purchase Order: A purchase order is generated, for the selected vendor to formalize the purchase and begin with the raw material procurement process.

Step 8 – Gate Entry: The arrival of the raw materials is recorded at the company’s facility at the gate, where the vehicle along with the raw material is weighed on the weighing scale situated at the gate, then the empty vehicle is again weighed to recheck the quantity of the raw materials.

Step 9 – Quality Check: After the raw materials are done checking and weighing at the gate, a quality inspection is done to ensure they meet the required standards.

Step 10A – If Pass: If the raw materials pass the quality check, they are further send for the production.

Step 10B – If Fail: If the materials fail the quality inspection, a weight slip is generated to document the weight of the materials being returned. The materials are then sent back to the vendor along with a return purchase order to formalize the return process. Additionally, a debit note is raised against the vendor to account for the value of the rejected goods, ensuring proper financial adjustments are made.

Detailed explanation of the forging process –

STEP 1: Raw material procurement – All incoming raw materials are initially inspected at the gate by weighing them and verifying the delivered quantity against the ordered quantity. After unloading, the vehicle carrying the materials is weighed again to re-confirm the actual weight of the delivered raw materials. This entire process is managed through the SAP system and must be approved before the materials are allowed to enter the factory premises. Gate inspection is conducted to ensure that the quantity ordered matches the quantity received. The raw materials typically include various types of iron, such as billets, rounds, sheets, and rods.

STEP 2: Inspection and testing of the raw material – A sample from the raw material is selected for quality checks based on size, shape, and material properties. This process is usually done with microscope to check the grain structure of the metals. However, specialized testing equipment microscope might be used to ensure the raw material meets industry standards.

STEP 3: Cutting/Shearing of Raw material – After the raw material is approved, it is cut into smaller parts. The material is processed with Precision Band Saw Machines and Shearing Press for accurate cutting based on the specific product to be made.

STEP 4: Heating in furnace – The metal pieces are heated in a furnace to a specific temperature, known as the forging temperature. Furnaces and induction heaters are used to achieve the desired malleability of the metal. Precision control is necessary to maintain the correct temperature for the required properties in the final product. To make this process quicker, we are now switching to induction furnaces.

STEP 5: Die preheat - Before forging, the dies are preheated to prevent cracking during the forging process. High-temperature die preheater furnaces are used for this purpose. The proper die preheating ensures the longevity and quality of the dies, preventing damage when the hot metal is pressed into them. Once the dies are used for a particular product it is then further shaved backed into a block and a new die is made, this is done again and again until the block is not useable anymore.

STEP 6: Forging – The heated metal is placed into a die (which is the shape of the final product). The forging process itself involves the use of Drop Forging Machine presses (1-ton to 10-ton capacity) and Hammers. These presses exert significant force on the heated metal to shape it into the desired form. Hammers (8 in total, with 4 used for flange forging and the remaining for general forging) are used to strike the heated metal, shaping it into precise forms.

STEP 7: Trimming – Once the forging is completed, the excess material (burr) around the edges is removed by trimming. This is typically done using Trimming Presses, Shearing Machines, or Grinding Machines for a clean and precise cut. Trimming ensures that the final product meets the specified dimensions and has a clean, finished appearance.

STEP 8: Cooling – After trimming, the forged parts are cooled to solidify and stabilize the material. The cooling process can be assisted by water baths or air/natural cooling, and the rate of cooling is monitored to ensure the correct properties, such as hardness and strength.

STEP 9: Heat Treatment - To enhance the durability and reliability of forged metals, especially for flanges which are exported to regions with sub-zero temperatures, our company employs advanced normalizing techniques. At the core of this process is a rectangular, box-type machine featuring a belt-driven furnace surrounded by an induction coil. Heat Treatment is essential to restore the original grain structure of the metal, which may otherwise be altered during forging. This ensures uniform grain size and prevents metal breakage in extreme conditions, guaranteeing the strength and resilience of our products in even the harshest environments.

STEP 10: Machining – Once normalised, the product is machined for additional features such as holes, threads, or surface finishes. The CNC Turning Centres are used for precise turning, and Multi-Spindle Drilling Machines are employed to add holes as per the product's specifications. CNC Press Brake are also used for bending. After machining, the burrs are removed with deburring tools, and the products are numbered based on the batch for traceability.

STEP 11: Paint - Once the product is machined, it is further sent to the painting facility. The product is then coated with a protective finish using Conveyerised Painting Plant, which ensure even and high-quality coating. The paint is then dried under fans to ensure proper adhesion and durability.

STEP 12: Assembly - Once the paint has dried, the components are assembled manually in the assembly section. Workers are seated at designated stations, following a step-by-step process to assemble the parts of the final product. Manual tools are used to connect various components, such as couplers and bolts, to create the final product. Assembly is only done for the product Coupler.

STEP 13: Inspection – Once the products are assembled, the quality checker selects a sample for further inspection which is done by various machines like cryogenic refrigerators and microscopes, depending upon the further use of the product. This is followed by the Final Accepted Quality Level (AQL) assessment, a structured and rigorous process conducted by three dedicated teams to evaluate and verify all critical parameters, ensuring the products meet the highest quality standards. The testing is categorized into:

Critical Parameter: Defects that lead to product rejection, such as improper shapes that hinder assembly or functionality, incomplete assembly, damaged nut or bolt, etc.

Major Parameter: Negligible flaws (e.g., slight rust, damaged cracked out punching washer, nut does reach end of thread length, etc. that do not affect performance.

Minor Parameter: Cosmetic issues (e.g., small burrs) that are within acceptable limits.

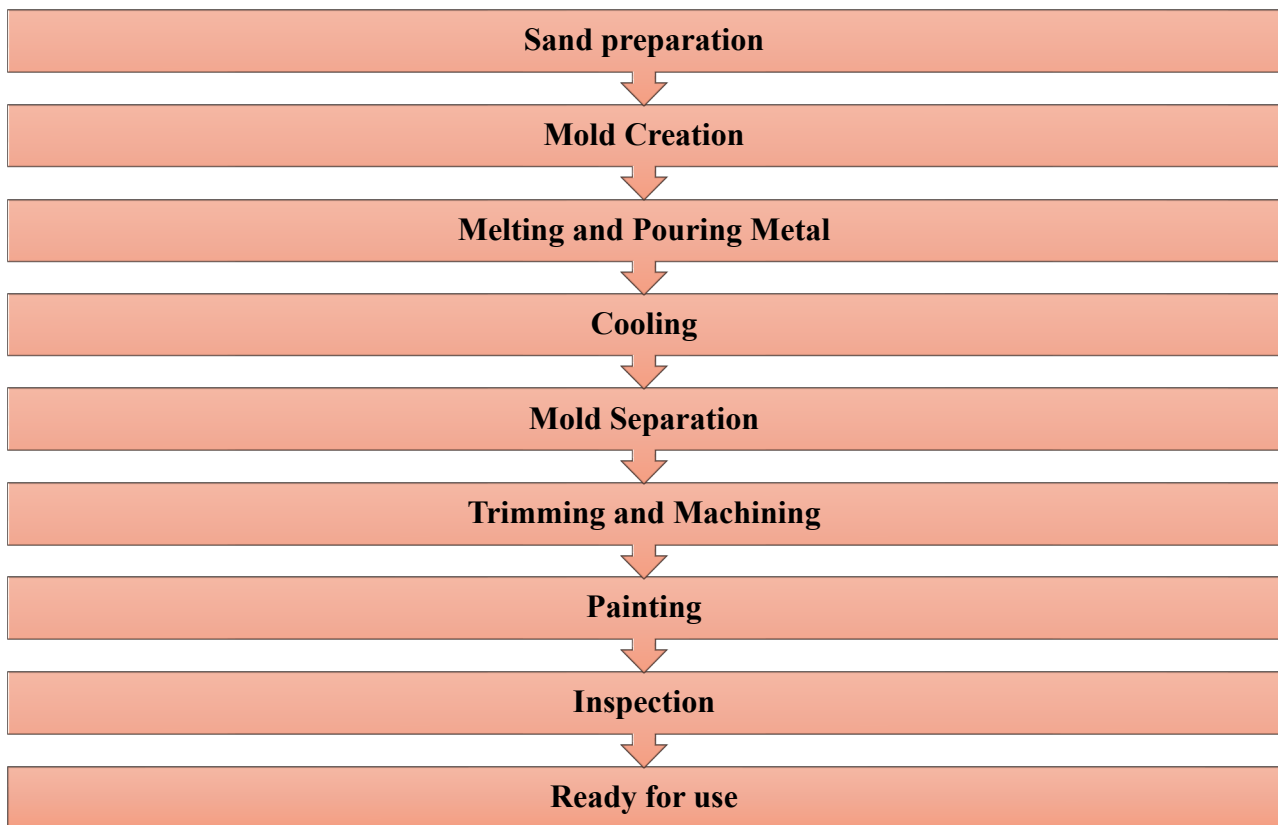

STEP 14: Packing - The assembled product is carefully packed to ensure protection during shipping. Packing Stations use foam, bubble wrap, or other materials, and the product is placed in crates or boxes. Labels and necessary documentation, including product specifications and shipping details, are attached.

STEP 15: Ready to Dispatch - After packaging, the products are ready for shipment. The logistics team coordinates the shipping process to ensure that the products are delivered to the correct destination, either domestically or internationally. This involves coordination with transport, customs authorities, and freight handling services.

The combination of these stages and specialized machinery enables the production of a wide range of forging products, from small precision components to large, structural items. The Hydraulic and Mechanical Presses, Drop Forging Machines, CNC Machines, Stamping Machines, and other advanced equipment ensure that products meet close tolerances and are of the highest quality. The integration of robotic welding and multi-torch systems in the fabrication process further boosts productivity and consistency across the product line.

MANUFACTURING PROCESS FLOWCHART OF CASTING

The casting process for complex components like battle tank track chain parts and automobile parts such as JCB components requires a specialized approach to ensure high durability, precision, and performance. Here's an overview tailored to these applications:

Detailed explanation of Casting process –

Sand Preparation – Silica sand is the primary material used for mold cavity preparation, mixed with bentonite, dextrine, and water. Bentonite acts as a binder to hold the sand together, dextrose enhances strength and surface finish, and water provides the necessary moisture for workability. This mixture ensures high-quality molds capable of withstanding the casting process.

Mold Creation - Once the sand is compacted, a mold cavity is created by pressing the shape of the desired product into the sand using a specialized tool. This process captures every intricate detail of the product design, such as the track links for tank chains or the complex contours of JCB parts. A well-formed mold is critical for producing components with accurate dimensions and high precision.

Melting and pouring metal – The raw material metal is melted in furnaces at controlled temperatures. The molten metal is then poured into the prepared molds using a controlled gating system to ensure uniform filling and prevent defects like air bubbles or cracks.

Cooling - After the molds are filled, they are left to cool naturally. The cooling phase is critical to ensure the metal solidifies with a uniform grain structure, providing the strength and durability required for demanding applications like defence track chains or JCB parts. The cooling duration is carefully monitored to avoid stresses or distortions in the casting.

Mold separation - Once the cooling process is complete, the sand mold is carefully opened, and the cast product is separated using specialized machinery. The sand is collected and often recycled for future molds, making the process more sustainable. The extracted casting is inspected to ensure it remains intact and free from major surface defects.

Trimming and Machining - The casting is trimmed to remove excess material, such as risers, and gates, which are the remnants from the metal pouring process. After trimming, the product is sent for machining to achieve precise dimensions and surface finishes.

Painting - The machined components are coated with a layer of protective paint to enhance their durability and resistance to corrosion, especially for products exposed to extreme environments. This step ensures the products maintain their performance even in harsh operational conditions.

Inspection - A thorough inspection process follows, where the components undergo quality checks, including dimensional accuracy, surface integrity, and non-destructive testing methods such as ultrasonic or radiographic testing. AQL checking that checks the critical, major, and minor parameters are evaluated to ensure the product meets customer specifications and industry standards.

Packing - The finished components are packed securely using appropriate protective materials like foam, shrink wrap, or crates to prevent damage during handling and transportation. Proper labelling and documentation are added for traceability and ease of delivery.

Ready to Dispatch - Once packed and labelled, the products are stored in the warehouse, ready for transportation. The components are shipped to customers, whether for defence applications or industrial uses, ensuring timely delivery and maintaining customer satisfaction.

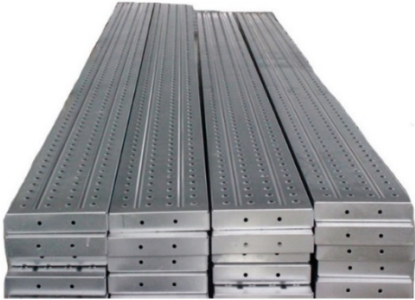

OUR PRODUCTS

Our company operates in manufacturing a wide range of products across many industries. Within each industry, we offer products in various sizes, shapes, and specifications to meet the diverse needs of our customers. Our products have 6 main heads – Flanges, Scaffolding, Auto, Defence, Fence Post and Steel Accessories. Under each head, different types and products relating to the same product type is covered. Detailed industry wise explanation of our products is as follows –

Product Category and Name	Product Image	Industry	Explanation
FLANGES - Flanges		Oil and Gas	Flanges are used to connect pipes or other components in a piping system. They are typically circular discs with holes or a raised face for bolting together. Flanges are essential for creating joints in piping systems,

	 <p>LAP JOINT FLANGE</p> <p>REDUCING</p> <p>SOCKET WELD</p> <p>THREADED</p>  <p>BLIND NECK</p> <p>WELD</p>	<p>allowing for easy assembly, disassembly, and maintenance.</p> <p>At Munish, we sell mainly 3 types of flanges – Slip on flanges, Blind flanges and Weld neck flanges. Furthermore they come in various types, each with its own specific design and application, such as blind flanges, slip-on flanges, socket weld flanges, weld neck flanges, reducing flanges, lap joint flanges, threaded flanges, and RTJ flanges. The flanges are classified based on their connection method. Blind flanges are used to terminate a pipe line. Slip-on flanges are used for joining pipes of the same size. Socket weld flanges and Reducing flanges are used for joining pipes of different sizes. Weld neck flanges have a tapered neck for welding to a pipe. Lap joint flanges are used for joining pipes with a gasket between them. Threaded flanges are used for joining pipes with threads. RTJ (Ring Joint) flanges are used for high-pressure applications.</p> <p>Flanges at our company are forged and machined, as per ASME / ANSI B 16.5 from the materials ASME / ASTM – A105/A105 N and low temperature flanges from ASTM-ASME- SA350 LF2 (V Notch Charpy Test) as per standard. Our flanges are mostly exported to countries like USA and Canada.</p>

Munish manufactures M-Lock, M-Stage, All-round Scaffolding System and accessories as per international standards and customised to requirements of the customers.</p>
<p>AUTO - Ground Engaging Tools (GET)</p>	 <p>LOADER KIT JCB 3DX</p>	<p>Earthmoving and Mining</p> <p>Backhoe Cutter Teeth and Adaptors are essential components for excavator buckets, designed to enhance digging efficiency and durability. Cutter teeth, made from wear-resistant materials like hardened steel, penetrate hard soil, rock, and compacted materials with ease. Adaptors securely attach the teeth to the bucket, allowing quick replacement and reducing downtime. Together, they improve performance, extend bucket lifespan, and ensure cost-effective operation in demanding excavation and material handling tasks.</p> <p>In 2020, MUNISH introduced and launched Excavator GET & Under Carriage Parts to the Mining & Infrastructure Industry. Under the brand</p>

<p>AUTO - Under Chassis Suspension Parts</p>	 <p>U-BOLTS</p>  <p>CENTRE BOLTS</p>  <p>SHACKLE PINS</p>  <p>COTTER PINS</p>	<p>Automotive</p>	<p>U Bolts, Centre Bolts, Shackle Pins, Cotter Pins, and Shackle Assemblies are essential for maintaining stability, alignment, and flexibility in vehicle suspension systems. They secure leaf springs, absorb shocks, and ensure proper load distribution, while Cotter Pins prevent loosening due to vibrations. The Bell Crank Lever plays a vital role in translating motion and force, ensuring proper linkage and even weight distribution across wheels. Together, these components enhance ride comfort, stability, and suspension durability.</p>

<p>AUTO - Hydraulic Jack</p>	 <p>HYDRAULIC JACK</p>	<p>The jack is designed with high-strength engineering, allowing it to lift heavy trucks efficiently. Its durable construction ensures long-term reliability and consistent performance. Built for operational efficiency, it enhances safety and smoothness during lifting, reducing effort and time. Suitable for professional and workshop applications, it provides a dependable solution for heavy-duty lifting requirements.</p>
<p>AUTO - Under-Chassis Suspension Components</p>	 <p>PINS</p> <p>PINS</p>	<p>Agriculture implements and Tractor</p> <p>Under-chassis suspension components in tractors and agricultural machinery provide crucial durability and stability by absorbing shocks, minimizing vibrations, and improving ride quality over rough terrains. These systems include leaf springs or coil springs that distribute loads evenly, shock absorbers that dampen impact, and axle beams that support weight. Additionally, stabilizer bars improve balance during turns, while mounts and bushings reduce noise and vibrations. Reinforced frames enhance strength, ensuring machinery can handle heavy loads and endure tough field conditions. Together, these components optimize performance, boost productivity, and ensure safer, more efficient operation in agricultural environments.</p>

<p>AUTO - Tractor and Agri Products</p>	 <p>GEAR CASING (CAST)</p> <p>INTEGRAL FRONT AXLE BRACKET (CAST)</p> <p>TRUMPET HOUSING (CAST)</p> <p>HOUSING FOR LEVER (CAST)</p> <p>RAM CYLINDER (CAST)</p> <p>T P CARRIER (CAST)</p> <p>BEVEL GEAR AND PINION (CAST)</p> <p>FORGED GEAR</p> <p>VARIATOR PULLEY (CAST)</p> <p>CAM HOUSING BOX (CAST)</p>		<p>The products manufactured through casting facility at Munish Forge Casting Division. These components are essential for automotive, heavy machinery, and industrial applications, ensuring durability and performance. The line-up includes gear casings, internal front axle brackets, trumpet housings, ram cylinders, TP carriers, housings for levers, bevel gears and pinions, variator pulleys, forged gears, and cam housing boxes.</p> <p>The gear casing and bevel gear and pinion enable smooth and efficient gear movement, while the internal front axle bracket and TP carrier provide structural reinforcement. The trumpet housing and cam housing box support drivetrain and engine components, ensuring stability. The gear (produced through casting) are designed for strength and durability in heavy-duty applications.</p>
<p>DEFENCE - Battle Tank Track Chains</p>		<p>Defence</p>	<p>These components are crucial for enabling tanks and other tracked vehicles to navigate various terrains, including rough and uneven surfaces. The continuous track system distributes the vehicle's weight over a larger area, providing stability, reducing ground pressure, and ensuring traction on challenging surfaces like sand, mud, or snow. Made from durable materials, these tracks withstand heavy stress and impact, ensuring reliable performance in demanding conditions. The parts of these</p>

	TRACK COMPLETE STRELA		tracks are casted in Munish Forge Casting Division.
DEFENCE - Bomb Shells	 <p>FORGED SHELL EMPTY 120MM</p>		<p>Bomb shells designed and manufactured to specifications, ensuring reliability and durability. They are built to withstand extreme conditions such as high-impact forces, temperature changes, and intense pressure. These shells undergo rigorous testing to meet stringent performance and safety standards, making them essential for effective tank weaponry.</p>
FENCE POST - Fence Post and Formwork Accessories	 <p>FENCE POST</p>  <p>FORMWORK ACCESSORIES</p>		<p>Our fence posts are engineered for durability, strength, and corrosion resistance, making them ideal for industrial fencing. Manufactured using steel, they ensure easy installation and long-lasting performance.</p> <p>Tie rods, wing nuts, anchor nuts and other parts play a crucial role in formwork systems by holding shuttering panels in place while pouring concrete, preventing displacement under pressure. U-head jacks and prop accessories support beams and slabs, providing temporary stability during construction. Additionally, miscellaneous hardware such as bolts, pins, washers, and rebar accessories are used to reinforce and fasten various elements, ensuring structural integrity in large-scale projects. These components collectively ensure safety, efficiency, and precision in scaffolding and formwork applications.</p>
STEEL ACCESSO RIES - Steel Accessories	 <p>STEEL ACCESSORIES</p>	Various industries	<p>Forged and casted steel accessories are critical components used across industries like automotive, defence, and oil & gas, valued for their strength, durability, and reliability. Forging involves shaping metal under high pressure, producing a denser and stronger structure ideal for high-stress applications. Casting, on the other hand, allows molten steel to be molded into complex shapes, offering greater design flexibility and cost efficiency for intricate parts. The choice between</p>

			forged and casted accessories depends on the specific performance, precision, and load requirements of the application.
Railway Buffers and Discs*	 <p style="text-align: center;">BUFFER</p>  <p style="text-align: center;">DISC</p>	Railway	<p>Railway buffers and brake discs are essential safety components in rail transport. Buffers, installed at the ends of rail vehicles, absorb impact forces during coupling and braking, minimizing damage and enhancing passenger safety. Made from high-strength steel with hydraulic or spring-based damping systems, they ensure smooth energy absorption in freight wagons, passenger trains, and metro systems.</p> <p>Brake discs, mounted on train axles, work with calipers and pads to create friction for controlled braking. Unlike traditional wheel tread brakes, they provide better heat dissipation, reduced wear, and enhanced performance, making them crucial for metro systems, high-speed trains, and heavy freight rail transport. Both components play a vital role in ensuring safety, reliability, and operational efficiency in modern rail networks.</p>

**We have initiated the registration process for railway sector tenders, and upon securing them, we will proceed with manufacturing the required products mentioned above.*

SALES CHANNELS AND CUSTOMER ACQUISITION STRATEGY

Our company leverages multiple sales channels to maximize market reach, enhance customer engagement, and sustain long-term growth. The three primary channels through which we acquire and maintain customers are Direct Customer Interactions, Industry Exhibitions, and participation in Tender. Each channel plays a significant role in expanding our business and solidifying our position as a trusted supplier in the forged components industry.

Direct Customer Interactions - One of our competitive advantages is our long-standing industry presence and reputation for quality and reliability. Many customers directly approach us for their forged component requirements, eliminating the need for extensive third-party involvement. This direct sales approach allows for stronger customer relationships, faster sales cycles and higher customer retention.

Industry Exhibitions - Participating in industry exhibitions is a strategic move that allows us to expand our reach beyond existing clients. These events provide multiple benefits like increasing our brand visibility, new business opportunities, getting market trends & competitor insights and networking with industry professionals. By attending these exhibitions, we not only generate new leads but also reinforce our position as a player in the industry.

Tender Registrations - As part of our expansion strategy, we actively participate in government and private-sector tenders, including recent registrations for railway projects. This sales channel will help us in securing large-scale orders, diversify our customer base, and strengthen market credibility.

By balancing direct customer engagement, strategic industry exhibition participation, and structured tender bidding, our company ensures a diversified and resilient sales strategy, enabling us to thrive in a highly competitive market.

Notes –

⁽¹⁾ Revenue from Operations means the Revenue from Operations as appearing in the Restated Financial Statements

⁽⁸⁾ EBITDA is calculated as Profit before tax + Depreciation + Finance Costs - Other Income.

⁽⁹⁾ 'EBITDA Margin' is calculated as EBITDA divided by Revenue from Operations.

⁽¹⁰⁾ 'PAT Margin' is calculated as PAT for the period/year divided by revenue from operations.

⁽¹¹⁾ Net worth as defined under Regulation 2(1)(hh) of the SEBI ICDR Regulations means the aggregate value of the paid-up share capital and all reserves created out of the profits and securities premium account and debit or credit balance of profit and loss account, after deducting the aggregate value of the accumulated losses, deferred expenditure and miscellaneous expenditure not written off, as per the audited balance sheet, but does not include reserves created out of revaluation of assets, write-back of depreciation and amalgamation

⁽¹²⁾ Return on Equity is ratio of Profit after Tax and Shareholder Equity

⁽¹³⁾ Return on Capital Employed is calculated as EBIT i.e. Profit before tax + Finance Cost - Other Income divided by capital employed, which is defined as closing shareholders equity plus total debt (total of short term borrowing and long term borrowing).

OUR COMPETITIVE STRENGTHS

Experienced Promoters

Our Promoters have been playing a key role in guiding, developing, and growing our business. Our Company is managed by a team of personnel having many years of experience in this industry. The team comprises of personnel having technical, operational, and business development experience in Forging Industry. We believe that our management team's experience and their understanding of the industry, regulatory affairs, manufacturing, quality control, sales, marketing, and finance will enable us to continue to take advantage of both current and future market opportunities within India and Abroad. We believe our Promoters and Management's overall experience and vision will enable us to manage and grow our business in the existing markets and to enter new geographies with our competitive advantage.

Integrated manufacturing facility

We continuously strive to maintain robust infrastructure and pursue technological advancements to ensure smooth manufacturing operations and adapt to dynamic market demands. Recognizing the constant evolution in technology, we stay committed to upgrading our facilities with the latest machines and innovations. Our operations are supported by a diverse range of departments and units, including CNC (Milling, Turning, PSU, Paint-Packing), Coupler Assembly (W-II), Cutting (W-I, W-III), Development, Drill (W-II), EDP, Export & Marketing, Flange (PC Turning, Other Operations), Forge (PC, Flange), Forging (General), Grinding, Header (W-II), Maintenance (Corporate, PSU, Forge, W-I, W-II, W-III), MSTAGE (Fabrication), Normalizing (W-I), Nut Bolt, Post, PPC (Corporate, W-I, W-II), Press Coining, Press Shop, Purchase, Quality Management System, QC (Corporate, PSU, W-I, W-II, W-III, Forge), Receipt & Dispatch, Store, Tool

Room (Flange-I, General-II, Press), Warehouse, Welding (PC W-III), and Work-IV (PSU). Each of these plays a vital role in ensuring operational efficiency, product quality, and timely delivery to our clients.

Quality Assurance and Control

At Munish, we follow a stringent three-tier quality assurance system—Incoming, In-Process, and Outgoing—to ensure that every product meets the highest quality standards and customer specifications prior to dispatch and installation. As an ISO 9001:2015 certified company, we are committed to delivering consistent quality and reliability. Our comprehensive testing protocols include Micro and Macro analysis, visual inspection, mechanical testing, life expectancy assessments, insulation resistance checks, operational performance tests, continuity verification, and temperature and strength evaluations. These thorough procedures reinforce our dedication to producing safe, durable, and high-performance products.

Quality Driving Global Reach

At Munish, our commitment to superior quality has enabled us to build a strong reputation in the global market. With a focus on precision engineering and rigorous quality control, we have gained the trust of international clients, resulting in over 60% of our products being exported worldwide such as countries like USA, UK, Dubai etc. Our ability to meet global standards, along with a customer-centric approach, has positioned us as a reliable and preferred supplier in the industry.

Financial Track Record

Our company has demonstrated strong financial performance, showcasing consistent revenue generation and improving profitability. As of December 31, 2024, we reported ₹12,594.99 lakhs in revenue, contributing to a stable financial growth. Despite minor fluctuations, our revenue has remained positive, with ₹15,629.96 lakhs in FY 2024, reflecting sustained business growth. We have also achieved notable improvements in profitability, with EBITDA increasing to ₹1,518.28 lakhs as of December 31, 2024, and an EBITDA margin of 132.05%, demonstrating enhanced operational efficiency. Additionally, our PAT margin has significantly improved to 7.04% as of December 31, 2024, highlighting our ability to drive higher earnings and value creation for stakeholders. These financial strengths position us as a resilient and competitive player in the industry, with a focus on sustained growth, profitability, and efficient capital management.

Relationship with our Customers

Our company has a proven track record of building and maintaining strong, long-lasting relationships with our clients and suppliers. We prioritize trust, clear communication, and collaboration in every interaction with our clients. Our dedication in providing service and support has enabled us to establish a reputation for reliability, integrity, and excellence in the industry. We believe that these strong relationships are essential for our continued success and growth.

Diversified Business Model

Our company's diversified business model provides a strong foundation for long-term success. By offering a wide range of products across various market segments, we mitigate risks and capitalize on growth opportunities. Our global footprint spans infrastructure projects, including pipes and flanges, scaffolding and clamps, and GET (Ground Engaging Tools), in the United States, Canada, India, the United Kingdom, Saudi Arabia, and the Middle East. In the defence industry, we offer tanks parts and bomb shells in India. Additionally, we serve the automotive and tractor OEM market in India. This diversification enables us to adapt to changing market conditions and pursue new growth avenues in both established and emerging markets.

OUR BUSINESS STRATEGIES

I. Enhancing Efficiency and Promoting Sustainability

Munish is taking bold steps to modernize operations and drive sustainable growth through technological advancement and responsible manufacturing practices.

Adoption of Induction Furnaces: Transitioning from oil to induction furnaces has significantly reduced burning loss to 2–2.5% which gets extra burn due to oil furnaces, resulting in higher material efficiency and minimal wastage.

Increased Productivity: Faster heating times with induction technology accelerate production cycles, improve output, and enhance overall process efficiency.

Improved Product Quality: Rejection rates have dropped from 2% to an impressive 0.5%, reflecting our focus on precision and quality control.

Energy Efficiency & Renewable Integration: The induction process supports electricity savings and aligns with our investment in solar power panels, contributing to energy-efficient operations.

Eco-Friendly Operations: Induction heating is a pollution-free method, reinforcing our commitment to environmental conservation and reducing our carbon footprint.

Advanced Tooling and Machinery: Upgraded tools, dies, and equipment contribute to smoother production and long-term operational efficiency.

II. Strategic Growth and Market Expansion

To ensure sustained growth and broaden our market presence, Munish is actively pursuing expansion initiatives.

Sectoral Diversification: Plans are underway to enter high-potential sectors such as railways while continuing to strengthen our presence in the defence sector.

Customer Base Expansion: The company is focused on targeting new customer segments and leveraging its strong relationships with existing clients to drive cross-sector growth.

Geographical Outreach: Entering new regional markets will help diversify revenue streams and mitigate risks associated with geographic concentration.

III. Corporate Governance and Sustainability Commitment

Munish integrates responsible practices into every aspect of its business to ensure long-term value creation and stakeholder trust.

Ethical Business Practices: We maintain transparency, accountability, and integrity across all operations.

Environmental & Social Risk Management: Proactive identification and mitigation of sustainability risks reduce potential legal, financial, and reputational exposure.

Stakeholder Engagement: We build strong relationships with employees, customers, investors, and communities through open dialogue and responsible action.

Sustainable Value Creation: Embedding sustainability into our core strategy not only supports societal well-being but also contributes to consistent, long-term shareholder to a more sustainable future.

SAFETY AND QUALITY CONTROL AND CERTIFICATION

At Munish Forge Limited, we are committed to safety, quality control, and environmental responsibility in our forging and casting operations. Our focus on strict compliance, process excellence, and continuous improvement ensures the reliability and durability of our products while maintaining a safe and sustainable work environment.

Safety

Safety is a top priority in our manufacturing processes. We conduct regular inspections and maintenance of our forging, machining, and casting equipment to comply with industry safety standards and government regulations. Our workforce undergoes structured training programs, and we implement strict safety protocols to prevent workplace hazards.

Quality Control

Our quality assurance framework ensures that all forged and cast components meet the highest performance and reliability standards. We have ISO 9001:2015 certification, reflecting our commitment to quality management. Our quality control processes include detailed material testing, precision machining checks, and continuous monitoring of production lines to maintain consistency and excellence in our products.

Precautionary Measures

Environmental, Health, and Safety (EHS) Compliance

We prioritize environmental sustainability and comply with environmental regulations to minimize our ecological footprint. We hold Punjab Pollution Control Board (PPCB) permissions for hazardous waste management and water usage, ensuring responsible handling of materials. Our factory operations comply with environmental laws, and we actively monitor air and water quality, manage energy usage, and reduce waste as part of our sustainability initiatives.

By integrating these safety, quality, and environmental initiatives into our business strategy, we reinforce our commitment to delivering high-quality, safe, and compliant forged and cast components to defence, automotive, and industrial sectors.

MARKETING STRATEGY

We operate in a competitive landscape with both domestic and international players. At the regional level, many of our competitors are well-established companies with strong brand recognition, extensive distribution networks, and cost advantages driven by economies of scale. Additionally, we face competition from numerous smaller manufacturers who often provide lower-cost alternatives, greater flexibility, and specialized products tailored for niche applications.

Our digital presence plays a crucial role in showcasing our full product range to potential buyers, helping them understand our manufacturing capabilities. A strong online platform enhances visibility and allows us to reach a broader customer base. Additionally, maintaining strong relationships with distributors is essential, as companies with well-established distribution networks can achieve better market coverage and customer access.

We actively participate in industry exhibitions to expand our customer base and try to keep introducing new products. One of the events of the construction industry exhibition held in Bauma, Munich. Next exhibition been held in April 2025, where we will be exhibiting for fifth time. Additionally, we take part in Auto Shows within India to strengthen our presence in the domestic market.

Our primary focus is on developing new products, with the most efficient way being collaboration with existing customers. To tap into new customers and markets, we use exhibitions as a platform to showcase our latest innovations. Our New Business Development team continuously gathers market intelligence to identify fast-moving products, high-profit opportunities, and emerging markets, ensuring that we stay ahead of industry trends and customer demands.

Our office is well equipped with requisite facilities, infrastructure facilities, computer systems, servers and other communication equipment, uninterrupted power supply, internet connectivity, and other processing facility, which are required for our business operations to function smoothly.

Power & electricity

Our Company's registered office and manufacturing facility fulfils their power requirements by purchasing electricity from the state electricity board of Punjab State Power Corporation Limited.

Company also has installed Solar Power plants to meet its requirements.

	Harnessing solar energy to reduce our carbon footprint and promote sustainability
---	---

Water

Water is a key and indispensable resource requirement in our production process. Water is often used in cooling systems for curing processes and to maintain optimal temperatures for machinery and moulds. Our Company has made adequate arrangements to meet its water requirements

Information Technology

We believe that an appropriate information technology infrastructure is important to support the growth of our business. We utilize System Applications and Products in Data Processing (SAP) software, which covers sales, purchase, inventory, and financial reporting, across our office and the manufacturing facility.

MATERIAL CONTRACTS

There are no material contracts as on date of filing this Draft Red Herring Prospectus.

HUMAN RESOURCE

Our business is highly manpower-intensive, relying on a diverse workforce spread across multiple sections. From the Forge Shop to Works focused on flange production, scaffolding, fence and post manufacturing, and defence components, each area requires significant human resources. The Corporate office, press machines, and tool room also play vital roles, all contributing to the company's reliance on its employees to drive production and maintain efficient operations. This makes it a workforce-dependent business.

As on March 31, 2025, there are total of 754 employees on payroll.

COMPETITION

In a highly competitive market with multiple players, Munish Forge Limited has consistently maintained its strong industry presence by overcoming challenges and adapting to evolving market conditions.

Customer decisions to procure our forged components, scaffolding, castings, defence products, and automotive parts are primarily influenced by two critical factors: product quality and precision engineering. Our competition extends beyond direct industry peers, including regional, national, and global manufacturers, as well as players in the unorganized sector that offer lower-cost alternatives.

The competitive landscape ranges from small-scale local manufacturers to large multinational corporations. While our strong technical expertise, advanced manufacturing capabilities, and quality-driven approach provide us with a significant advantage, the industry remains susceptible to increased competition due to low entry barriers and potential capacity expansions by existing players. However, our commitment to innovation, investment in advanced technology, and strong customer relationships ensure that we continue to thrive in this dynamic market.

For further information, please refer to the chapter titled “Our Management” beginning on the page 206 of this Draft Red Herring Prospectus.

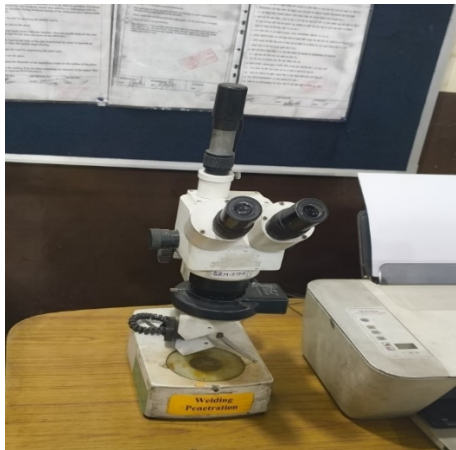

COLLABORATIONS

here are no collaborations as on date of filing this Draft Red Herring Prospectus.

MACHINERIES

To maintain the quality of our product we have installed the Plant & Machinery at our factory premises which are owned by us. The details of plant & machineries installed at our factory premises are as follows:

Sr. no.	Description	Photos	Quantity
1	<p>Drop Forging Hammer</p> <p>The machine shown in the image is a drop forging hammer, a vital piece of equipment in heavy manufacturing and metalworking industries. It operates by lifting a massive hammer and then allowing it to fall freely onto a heated metal work piece positioned on a die, shaping it through high-impact force. This forging process increases the strength and durability of the metal by refining its grain structure and eliminating internal voids. Drop forging hammers are commonly used to produce high-strength components like automotive parts, tools, and industrial machinery elements, where precision and toughness are critical.</p>		14
2	<p>Die-making machine</p> <p>The machine in the image is a CNC die-making machine, an advanced manufacturing tool used to create precision dies and molds essential for forging and casting processes. CNC stands for Computer Numerical Control, meaning the machine's movements are governed by programmed instructions, ensuring exceptional accuracy and repeatability. This system allows for intricate and complex die designs to be machined from metal blocks with minimal manual intervention. The CNC die-making process enhances production efficiency, reduces human error, and is critical for industries requiring high-quality, consistent components—such as automotive, defence, and industrial tooling.</p>		2

3	<p>Billet heating machine</p> <p>The machine shown in the image is a CNC billet heating machine, an essential system in the forging process used to uniformly heat metal billets to the desired temperature before forging. Controlled by Computer Numerical Control (CNC), the system ensures precise temperature regulation and consistent heat distribution, which is critical for maintaining the structural integrity and workability of the metal. The machine typically uses induction heating to rapidly and efficiently bring the billets to forging temperature, significantly enhancing productivity and energy efficiency. It plays a key role in modern forging operations, especially where automation and high throughput are necessary.</p>		2
4	<p>Microscope</p> <p>The device in the image is a microscope used for examining the grain structure of metals, often employed in metallurgical labs for quality control and failure analysis. By magnifying metal surfaces at a microscopic level, this microscope helps metallurgists and engineers observe grain boundaries, phases, inclusions, and welding penetration depth. These insights are critical for assessing material properties such as strength, ductility, and resistance to fatigue or corrosion. The process, known as metallography, plays a vital role in ensuring that forged components meet required mechanical and structural standards, especially in high-stakes industries like, automotive, and defence.</p>		1
5	<p>Height Gauge</p> <p>Height Gauge, a precision measuring tool commonly used in manufacturing and quality control environments for accurately determining the height of objects or marking precise vertical distances on parts. It operates by sliding a scribe or dial indicator up and down a vertical column that is finely graduated. The height gauge is often used on a surface plate for maximum accuracy and can also check flatness, straightness, and parallelism of components. It plays a critical role in dimensional inspection, ensuring that machined or forged components conform exactly to design specifications and tolerances.</p>		1
6	<p>Conveyorised Painting Plant</p> <p>The image shows a conveyorised painting plant, an automated system designed for efficiently painting large volumes of components in industrial settings. This setup utilizes a continuous overhead rail system to transport parts through various stages of surface treatment—such as cleaning, drying, painting, and curing—without manual handling. The components, like the flanges, are evenly spaced and automatically moved through spray booths and drying fans, ensuring consistent coating quality and finish. This process not only improves production speed and uniformity but also enhances worker safety and reduces paint waste, making it ideal for automotive, machinery, and heavy engineering industries.</p>		2

7	<p>Sub-zero Temperature Refrigerator</p> <p>The equipment shown in the image is a sub-zero temperature refrigerator, used to assess the performance of metal components in extremely cold environments. This simulates the harsh conditions experienced in sub-zero climates, ensuring that materials and components can maintain their structural integrity, toughness, and functionality under thermal stress. It is particularly critical in industries such as defence, oil & gas, and heavy machinery where equipment must operate reliably in freezing temperatures. By placing metal parts inside this controlled environment, manufacturers can evaluate cold brittleness, dimensional stability, and thermal contraction characteristics, thereby enhancing product reliability and safety.</p>		1
8	<p>Charpy Impact Testing Machine</p> <p>The machine shown is a Charpy Impact Testing Machine, used to determine the toughness or impact resistance of materials by measuring the energy absorbed during fracture. A notched specimen is struck by a pendulum hammer, and the energy required to break the sample is recorded on a graduated dial. This test is critical for assessing a material's behaviour under sudden shock or impact loads, making it essential in industries like automotive, construction and defence. The results help ensure that components can withstand dynamic forces without sudden failure, thereby improving overall product safety and reliability.</p>		1
9	<p>Rubber Injection Machine</p> <p>The picture shows a rubber injection machine of Desma brand. These machines are typically employed in manufacturing processes that involve injecting molten rubber compounds into a mold cavity to create various rubber products. The presence of a control panel with a display suggests a computerized system for managing the injection parameters, temperature controls, and cycle times, crucial for precise and consistent production. The robust construction evident in the image indicates the machine's capacity to withstand the high pressures and demands of rubber molding operations. Such machines play a vital role in industries ranging from automotive and medical to consumer goods, producing seals, tires, hoses, and a wide array of other rubber components.</p>		1

10	<p>Track Chain Test Rig</p> <p>This robust piece of industrial equipment is specifically engineered for the rigorous testing of tank track chains. The multiple heavy-duty wheels, with their distinctive blue rims, play a crucial role in simulating the operational environment these tracks would experience. The underlying rail or track system likely guides the movement and applies the necessary tension and stress to the chain links. This machine would be instrumental in quality control and durability testing, ensuring that tank tracks can withstand the immense pressures and varied terrains they are subjected to in real-world applications. The overall heavy-duty construction underscores its purpose in evaluating the strength and longevity of these critical components for military or heavy machinery.</p>		1
11	<p>Electrical Discharge Machines</p> <p>Electrical Discharge Machines (EDM), specifically wire-cut EDM machines. EDM machines are used for cutting metal using electrical discharges (sparks). The MAXICUT machine seems to be the main cutting unit, and the ELEKTRA unit appears to be the control panel or power supply for the EDM process.</p>		1
12	<p>Hydraulic press</p> <p>Its robust construction, featuring a massive frame, a large cylindrical ram, and a substantial bed, suggests it's capable of exerting significant force. The presence of multiple vertical support columns further reinforces this impression. A separate control panel is visible to the left, indicating that the machine's operations are controlled remotely, allowing for precise application of pressure and control over the pressing process. Typically it is used for heavy-duty forming, shaping, molding of various materials in industrial manufacturing environments.</p>		1

BUSINESS/ TRADE RELATED LAWS:

The Bureau of Indian Standards Act, 2016

The Bureau of Indian Standards Act, 2016, established the Bureau of Indian Standards (BIS) as the national standards body of India, replacing the Bureau of Indian Standards Act, 1986. The Act aims to ensure quality, safety, and reliability of products, processes, and services by providing for the harmonious development of standardization and conformity assessment. It grants BIS the authority to certify products, manage a hallmarking scheme for precious metals, and enforce standards to protect consumer interests. The Act also facilitates the promotion of standardization and quality assurance by mandating compliance with Indian Standards for various products and services, thus enhancing public health, safety, and environmental sustainability.

Legal Metrology Act, 2009 (the "Metrology Act")

The Legal Metrology Act, 2009 (referred to as the Metrology Act, as amended), was established to set and enforce standards for weights and measures. It aims to regulate trade and commerce involving goods that are sold or distributed by weight, measure, or number. The Metrology Act governs transactions and contracts related to goods or specific classes of goods, ensuring that they adhere to the weight, measurement, or number standards prescribed by the Act. The exact details regarding the denominations of weight for goods involved in transactions are determined by individual state rules and regulations.

The Micro, Small and Medium Enterprises Development Act, 2006

It consists of six chapters which are further divided into 32 sections. This Act also provides for the formation of the National Board of Micro, Small and Medium Enterprises. The head office of the Board is in Delhi. Section 3 of the Act defines the members of the board. The Central Government, by notification, can constitute an advisory committee. Registration of micro, small and medium enterprises is replaced with the filing of the memorandum. To avail the benefit of the Act, it is always recommended to register the enterprises as a micro, small or medium enterprise. The concept is important for the promotion of industrial development in rural areas, use of traditional or inherited skills, use of local resources and mobilization of resources and exportability of products. It provides maximum opportunities for employment outside the agriculture sector as well.

National Steel Policy, 2017 ("NSP 2017")

The NSP 2017 covers, inter alia, steel demand, steel capacity, raw materials, including iron ore, iron ore pellets, manganese ore, chromite ore, ferroalloys, land, water, power, infrastructure and logistics, and environmental management. The NSP 2017 seeks to enhance domestic steel production with focus on creating a technologically advanced and globally competitive steel industry in India that promotes economic growth. The NSP 2017 aims to create an environment for attaining self-sufficiency in steel production by providing policy support and guidance to private manufacturers. The intent is to strengthen the research and development of national importance in the iron and steel sector by utilizing tripartite synergy among industry, national research and development laboratories and academic institutions.

Electricity Act, 2003 and the Electricity Rules, 2005 The Electricity Act, 2003 ("Electricity Act") was enacted to regulate the generation, transmission, distribution, trading and use of electricity by authorizing a person to carry on the above acts either by availing a license or by seeking an exemption under the Electricity Act. Additionally, the Electricity Act states no person other than Central Transmission Utility or State Transmission Utility, or a licensee shall transmit or use electricity at a rate exceeding 250 watts and 100 volts in any street or place which is a factory within the meaning of the Factories Act, 1948 or a mine within the meaning of the Mines Act, 1952 or any place in which 100 or more persons are ordinarily likely to be assembled. An exception to the said rule is given by stating that the applicant shall apply by giving not less than 7 days' notice in writing of his intention to the Electrical Inspector and to the District Magistrate or the

Commissioner of Police, as the case may be, containing the particulars of electrical installation and plant, if any, the nature and purpose of supply of such electricity. The Electricity Act also lays down the requirement of mandatory use of meters to regulate the use of electricity and authorizes the Commission so formed under the Electricity Act, to determine the tariff for such usage. The Electricity Act also authorizes the State Government to grant subsidy to the consumers or class of consumers it deems fit from paying the standard tariff required to be paid

ENVIRONMENT RELATED LAWS

Environment Protection Act, 1986 and Environment (Protection) Rules, 1986

The Environmental Protection Act, 1986 is an “umbrella”; legislation designed to provide a framework for coordination of the activities of various central and state authorities established under various laws. The potential scope of the Act is broad, with “environment” defined to include water, air and land and the interrelationships which exist among water, air and land, and human beings and other living creatures, plants, micro-organisms and property.

The Environmental Impact Assessment Notification, 2006 (the “Notification”)

As per the Notification, any construction of new projects or activities or the expansion or modernisation of existing projects or activities as listed in the Schedule attached to the notification entailing capacity addition with change in process and or technology can be undertaken only after the prior environmental clearance from the Central Government or as the case may be, by the State Level Environment Impact Assessment Authority, duly constituted by the Central government under the provisions of the Environment (Protection) Act, 1986, in accordance with the procedure specified in the notification. The environmental clearance process for new projects comprises of four stages viz. screening, scoping, public consultation and appraisal. However, in 2016, MoEF issued a notification for integrating standard and objectively monitorable environmental conditions with building permissions for buildings of different sizes with rigorous monitoring mechanism for implementation of environmental concerns and obligations in building projects. This is in line with the objective of the Central Government to streamline the permissions for buildings and construction sector so that affordable housing can be provided to weaker sections in urban area under the scheme ‘Housing for All by 2022’ and is proposing to remove the requirement of seeking a separate environment clearance from the MoEF for individual buildings having a total built up area between 5,000 square metre and 150,000 square metre, apart from adhering to the relevant bylaws of the concerned State authorities.

The Water (Prevention and Control of pollution) Act, 1974 (the “Water Act”)

The Water Act aims to prevent and control water pollution as well as restore water quality by establishing and empowering the Central Pollution Control Board and the State Pollution Control Boards. Under the Water Act, any person establishing any industry, operation or process, any treatment or disposal system, use of any new or altered outlet for the discharge of sewage or new discharge of sewage, must obtain the consent of the relevant State Pollution Control Board, who is empowered to establish standards and conditions that are required to be complied with.

The Air (Prevention and Control of Pollution) Act, 1981 (the “Air Act”)

The Air (Prevention and Control of Pollution) Act, 1981 has been enacted to provide for the prevention, control and abatement of air pollution. Pursuant to the provisions of the Air Act, any person, establishing or operating any industrial plant within an air pollution control area, must obtain the consent of the relevant State Pollution Control Board prior to establishing or operating such industrial plant. No person operating any industrial plant in any air pollution control area is permitted to discharge the emission of any air pollutant in excess of the standards laid down by the State Pollution Control Board.

The Noise Pollution (Regulation & Control) Rules 2000 (“Noise Regulation Rules”)

The Noise Regulation Rules regulate noise levels in industrial, commercial and residential zones. The Noise Regulation Rules also establish zones of silence of not less than 100 meters near schools, courts, hospitals, etc. The rules also assign regulatory authority for these standards to the local district courts. Penalty for non-compliance with the Noise Regulation Rules shall be under the provisions of the Environment (Protection) Act, 1986.

The Municipal Solid Wastes (Management and Handling) Rules, 2000 (“Waste Management Rules, 2000”) as superseded by Solid Waste Management Rules, 2016 (“Waste Management Rules, 2016”)

The Waste Management Rules, 2000 applied to every municipal authority responsible for collection, segregation, storage, transportation, processing and disposal of municipal solid wastes. Any municipal solid waste generated in a city or a town, was required to be managed and handled in accordance with the compliance criteria and the procedure laid down in Schedule II of the Waste Management Rules, 2000. The Waste Management Rules, 2000 make the persons or

establishments generating municipal solid wastes responsible for ensuring delivery of wastes in accordance with the collection and segregation system as notified by the municipal authority. The Waste Management Rules, 2000 have been superseded by the Waste Management Rules, 2016 which stipulate various duties of waste generators which, inter alia, include segregation and storage of waste generated by them in the manner prescribed in the Waste Management Rules, 2016; separate storage of construction and demolition waste and payment of user fee for solid waste management as specified in the bye-laws of the local bodies.

Hazardous Wastes (Management, Handling and Transboundary Movement) Rules, 2008 (“Hazardous Wastes Rules”)

The Hazardous Wastes Rules impose an obligation on every occupier of an establishment generating hazardous waste to recycle or reprocess or reuse such wastes in a registered recycler or to dispose of such hazardous wastes in an authorized disposal facility. Every person engaged, inter alia, in the generation, processing, treatment, package, storage and destruction of hazardous waste is required to obtain an authorization from the relevant state PCB for collecting, recycling, reprocessing, disposing, storing and treating the hazardous waste.

The Factories Act, 1948

The Factories Act, 1948 requires the Occupier to ensure the health, safety and welfare of all workers. The Factories Act, 1948 defines a 'factory' to cover any premises which employs ten or more workers on any day of the preceding twelve months and in which manufacturing process is carried on with the aid of power or any premises where at least twenty workers are employed in a manufacturing process. In view of the powers conferred under the Factories Act, 1948 each State Government has enacted rules for prior approval for the establishment of factories and for registration and licensing of factories.

In addition to the Factories Act, the employment of workers, depending on the nature of activity, is regulated by a wide variety of generally applicable labour laws. The following is an indicative list of labour laws which may be applicable to our Company due to the nature of our business activities:

1. The Contract Labour (Regulation and Abolition) Act, 1970
2. The Employees' Compensation Act, 1923
3. The Employees' Provident Funds and Miscellaneous Provisions Act, 1952
4. The Employees' State Insurance Act, 1948 e) The Industrial Disputes Act, 1947
5. The Industrial Employment (Standing orders) Act, 1946
6. The Child and Adolescent Labour (Prohibition and Regulation) Act, 1986
7. The Payment of Bonus Act, 1965
8. The Minimum Wages Act, 1948
9. The Payment of Wages Act, 1936
10. The Equal Remuneration Act, 1976
11. The Maternity Benefit Act, 1961
12. The Apprentices Act, 1961
13. The Payment of Gratuity Act, 1972
14. The Trade Unions Act, 1926
15. The Sales Promotion Employees (Conditions of Service) Act, 1976
16. The Unorganised Workers Social Security Act, 2008

The Code on Wages, 2019

The Code on Wages, 2019 amalgamates, simplifies and rationalises the relevant provisions of the following four central labour enactments relating to wages, namely, (a) The Payment of Wages Act, 1936; (b) The Minimum Wages Act, 1948; (c) The Payment of Bonus Act, 1965; and (d) The Equal Remuneration Act, 1976. The Code on Wages, 2019 is an Act to amend and consolidate the laws relating to wages and bonus and matters connected therewith or incidental thereto. The Code received the assent of the President of India on August 8, 2019 and is published in the Official Gazette. The Code applies to the covered employees and allows the Central Government to set a fixed floor wage taking into account minimum living standards of a worker. The Code will come into force on the date to be notified by the Government.

The Occupational Safety, Health and Working Conditions Code, 2020

Occupational Safety, Health and Working Conditions Code, 2020 received the assent of the President of India on September 28, 2020 and was published in the Official Gazette. The Act consolidates and amends the laws regulating the occupational safety, health and working conditions of the persons employed in an establishment. The Code amalgamates, simplifies and rationalises the relevant provisions of the following thirteen Central labour enactments namely,

1. The Plantations Labour Act, 1951;
2. The Working Journalists and other Newspaper Employees (Conditions of Service and Miscellaneous Provisions) Act, 1955;
3. The Working Journalists (Fixation of Rates of Wages) Act, 1958;
4. The Motor Transport Workers Act, 1961;
5. The Beedi and Cigar Workers (Conditions of Employment) Act, 1966;

7. The Sales Promotion Employees (Condition of Service) Act, 1976;
8. The Inter-State Migrant workmen (Regulation of Employment and Conditions of Service) Act, 1979;
9. Workers and Cinema Theatre Workers Act, 1981;
10. The Dock Workers (Safety, Health and Welfare) Act, 1986;
11. The Building and Other Construction Workers (Regulation of Employment and Conditions of Service) Act, 1996.

The Code extends to the whole of India and covers all employees. The Code will come into force on the date to be notified by the Government.

The Code on Social Security, 2020

The Code on Social Security, 2020 received the assent of the President of India on September 28, 2020 and was published in the official gazette. The objective of the Code is to amend and consolidate the laws relating to social security, with the primary goal to extend social security to all employees and workers. The Code on Social Security, 2020, amalgamates, simplifies and rationalises the relevant provisions of the following nine(9) central labour enactments relating to social security, namely, (i) The Employees' Compensation Act, 1923; (ii) The Employees' State Insurance Act, 1948; (iii) The Employees' Provident Funds and Miscellaneous Provisions Act, 1952; (iv) The Employment Exchanges (Compulsory Notification of Vacancies) Act, 1959; (v) The Maternity Benefit Act, 1961; (vi) The Payment of Gratuity Act, 1972; (vii) The Cine Workers Welfare Fund Act, 1981; (viii) The Building and Other Construction Workers Welfare Cess Act, 1996; and (ix) The Unorganised Workers' Social Security Act, 2008. The Code will come into force on the date to be notified by the Government.

The Industrial Relations Code, 2020

The Industrial Relations Code, 2020 is an Act to consolidate and amend the laws relating to Trade Unions, conditions of employment in an industrial establishment or undertaking, investigation and settlement of industrial disputes. The Industrial Relation Code 2020 amalgamates, simplifies and rationalises the relevant provisions of (a) the Trade Unions Act, 1926; (b) the Industrial Employment (Standing Orders) Act, 1946; and (c) the Industrial Disputes Act, 1947. The Code will come into force on the date to be notified by the Government.

Industries (Development and Regulation) Act, 1951, as amended (“IDR Act”)

The IDR Act has been liberalized under the New Industrial Policy dated July 24, 1991 and all industrial undertakings are exempt from licensing except for certain industries, including, among others, all types of electronic aerospace, defence equipment, ships and other vessels drawn by power. The IDR Act is administered by the Ministry of Commerce and Industry, Government of India, through the Department for Promotion of Industry and Internal Trade (DPIIT). The main objectives of the IDR Act are to empower the Government to take necessary steps for the development of industries, to regulate the pattern and direction of industrial development, and to control the activities, performance and results of industrial undertakings in the public interest. The DPITT is responsible for formulation and implementation of promotional and developmental measures for growth of the industrial sector.

The Child and Adolescent Labour (Prohibition and Regulation) Act, 1986

The Child and Adolescent Labour (Prohibition and Regulation) Act, 1986 prohibits employment of children below fourteen years of age in certain occupations and processes and provides for regulation of employment of children in all other occupations and processes. The Act regulates the conditions of work of adolescents.

The Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013

The Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013 Act provides for protection to women against sexual harassment at workplace and prevention and redressal of complaints of sexual harassment. The Act defines “Sexual Harassment” to include any unwelcome sexually determined behaviour (whether directly or by implication). “Workplace” under the Act has been defined to include government bodies, private and public sector organizations, non-governmental organizations, organizations carrying on commercial, vocational, educational, entertainment, industrial, financial activities, hospitals and nursing homes, educational institutes, sports institutions and stadiums used for training individuals. The Act requires an employer to set up an “Internal Complaints Committee” at each office or branch of an organization employing at least 10 employees. The Government is required to set up a “Local

Complaints Committee” at the district level to investigate complaints regarding sexual harassment from establishments where internal complaints committee has not been constituted.

National Non-Ferrous Metal Scrap Recycling Framework, 2020

The National Non-Ferrous Metal Scrap Recycling Framework, 2020, as amended (the “Non-Ferrous Metal Recycling Framework”) issued by the Ministry of Mines, Government of India, envisages bringing both product and processing stewardship to enhance Non-Ferrous Metal recycling. Its objectives include, inter alia, promotion of a formal and well organized recycling ecosystem; adoption of data-based analysis and policy making at all stages of the recycling chain; production of high quality scrap for quality secondary production whilst minimizing the dependency on imports; achieving technological leadership in scientific methodology; bettering the quality of scrap produced; and to promote the 6Rs principles of Reduce, Reuse, Recycle, Recover, Redesign and Remanufacture through scientific handling, processing and disposal of all types of non-ferrous scrap, through authorized centres / facility. The Non-Ferrous Metal Recycling Framework aims to achieve its goal of having a sustainable non-ferrous metal recycling eco-system in the long run by, inter alia, setting up a central authority for recycling of metals which may be called as Metal Recycling Authority; placing obligations on the stakeholders involved in the process; setting up an institutional mechanism for carrying out studies and advance research in the field of recycling of metal; and by having the government encourage and provide support to research & development in metal scrap recycling. It also aims to develop specified metal recycling zones with facility for collection, segregation, dismantling etc. of metal scrap and ensure quality control by fixing minimum infrastructure requirement for recycling units with clear minimum standards and criteria for the processing of recyclables to produce consistent, high-quality streams of recyclable material.

National Electric Mobility Mission Plan

Government of India launched the National Electric Mobility Mission Plan (NEMMP) 2020 in 2013. It aims to achieve national fuel security by promoting hybrid and electric vehicles in the country. There is an ambitious target to achieve 6-7 million sales of hybrid and electric vehicles year on year from 2020 onwards.

CORPORATE AND COMMERCIAL LAWS

The Companies Act, 2013

The Companies Act primarily regulates the formation, financing, functioning and restructuring of separate legal entities as companies. The Act provides regulatory and compliance mechanisms regarding all relevant aspects including organizational, financial and managerial aspects of companies. The provisions of the Act state the eligibility, procedure and execution for various functions of the company, the relation and action of the management and that of the shareholders. The law lays down transparency, corporate governance and protection of shareholders & creditors. The Companies Act plays the balancing role between these two competing factors, namely, management autonomy and investor protection.

Competition Act, 2002

The Competition Act, 2002 came into effect on June 1, 2011 and has been enacted to “prohibit anti- competitive agreements, abuse of dominant positions by enterprises” and regulate “combinations” in India. The Competition Act also established the Competition Commission of India (the “CCI”) as the authority mandated to implement the Competition Act. The Act prohibits Combinations which are likely to cause an appreciable adverse effect on competition in a relevant market in India. The CCI may enquire into all combinations, even if taking place outside India, or between parties outside India, if such combination is likely to have an appreciable adverse effect on competition in India.

Indian Contract Act, 1872

Indian Contract Act codifies the way we enter into a contract, execute a contract, implementation of provisions of contract and effects of breach of a contract. The Act consists of limiting factors subject to which a contract may be entered into, executed and breach enforced as amended from time to time. It determines the circumstances in which a promise made by the parties to a contract shall be legally binding on them.

The Consumer Protection Act, 2019

The Consumer Protection Act provides better protection to the interests of consumers. This is enabled with the establishment of consumer councils and other authorities for the settlement of consumers’ disputes and matters connected therewith. The Consumer Protection Act protects the consumers against any unfair/restrictive trade practice that has been

adopted by any trader or service provider or if the goods purchased by him suffer from any defect or deficiency. In case of consumer disputes, the same can be referred to the redressed forums set up under the Act.

Negotiable Instruments Act, 1881

In India, any negotiable instruments such as cheques are governed by this Act, Section 138 of the Act, makes dishonour of cheques a criminal offence if the cheque is dishonoured on the ground of insufficiency of funds in the account maintained by a person who draws the Cheque which is punishable with imprisonment as well as fine.

The Registration Act, 1908 (“Registration Act”)

The Registration Act was passed to consolidate the enactments relating to the registration of documents. The main purpose for which the Registration Act was designed was to ensure information about all deals concerning land so that correct land records could be maintained. The Registration Act is used for proper recording of transactions relating to other immovable property also. The Registration Act provides for registration of other documents also, which can give these documents more authenticity. Registering authorities have been provided in all the districts for this purpose.

Indian Stamp Act, 1899 (the “Stamp Act”)

Under the Indian Stamp Act, 1899 (the “Stamp Act”) stamp duty is payable on instruments evidencing a transfer or creation or extinguishment of any right, title or interest in immovable property. Stamp duty must be paid on all instruments specified under the Stamp Act at the rates specified in the schedules to the Stamp Act. The applicable rates for stamp duty on instruments chargeable with duty vary from state to state. Instruments chargeable to duty under the Stamp Act, which are not duly stamped, are incapable of being admitted in court as evidence of the transaction contained therein and it also provides for impounding of instruments that are not sufficiently stamped or not stamped at all.

FOREIGN RELATED LAWS

The Foreign Trade (Development and Regulation) Act, 1992

The Foreign Trade (Development and Regulation) Act, 1992, is an Indian legislation aimed at facilitating and promoting foreign trade by implementing and managing export and import policies. The Act empowers the government to develop and regulate foreign trade through various measures, including the licensing of exporters and importers, controlling the quality of traded goods, and imposing restrictions or prohibitions on trade when necessary. It also provides a legal framework for the formulation of the Export and Import (EXIM) policy and establishes the Directorate General of Foreign Trade (DGFT) as the governing body to oversee and implement these regulations. The Act seeks to boost the Indian economy by ensuring smooth and regulated international trade operations.

The Foreign Exchange and Management Act, 1999

Foreign investment in India is governed by the provisions of Foreign Exchange Management Act, 1999, as amended, along with the rules, regulations and notifications made by the RBI thereunder, and the consolidated FDI Policy Circular of 2020 (No. 5(2)/2020) dated October 15, 2020, as amended, issued by the Department of Industrial Policy and Promotion, Ministry of Commerce and Industry, Government of India, and any modifications thereto or substitutions thereof, issued from time to time.

The Conservation of Foreign Exchange and Prevention of Smuggling Activities Act, 1974

COFEPOSA came into force for the reason to provide preventive detention and to protect and augment the guidelines of foreign exchange. The Act also aims to control smuggling activities and other issues in relation to these activities. COFEPOSA confers power on the Central and the State Governments to issue orders for detaining a person if it is satisfied that the person has acted detrimental to the protection and intensification of foreign exchange. The Government shall also issue order of detention on the ground that the person has engaged in the activity of smuggling goods, assists any person in smuggling goods, transports or conceals such goods, harbouring any person employed in the smuggling activities or does any other activity related with smuggling. Such an order shall be issued by the Joint Secretary to the Central Government or Secretary to the State Government or any senior officer authorized by the Government.

The Public Liability Insurance Act, 1991

The Public Liability Insurance Act places responsibility on those who own or control hazardous substances for any damage resulting from accidents involving such substances. A roster of hazardous substances falling under the scope of this law is outlined through government notifications. The owner or handler of these substances is additionally mandated to acquire an insurance policy that covers liability in connection with the act. Rules established under the Public Liability Act dictate that the employer is obligated to contribute to the environmental relief fund, an amount equivalent to the premium paid for insurance policies. This contribution is payable to the insurer.

TAXATION LAWS

Goods and Service Tax (GST)

Goods and Services Tax (GST) is levied on supply of goods or services or both jointly by the Central and State Governments. It was introduced as The Constitution (One Hundred and First Amendment) Act 2017 and is governed by the GST Council. GST provides for imposition of tax on the supply of goods or services and will be levied by Centre on intra-state supply of goods or services and by the States including Union territories with legislature/ Union Territories without legislature respectively. A destination based consumption tax GST would be a dual GST with the center and states simultaneously levying tax with a common base. The GST law is enforced by various acts viz. Central Goods and Services Tax Act, 2017 (CGST), State Goods and Services Tax Act, 2017 (SGST), Union Territory Goods and Services Tax Act, 2017 (UTGST), Integrated Goods and Services Tax Act, 2017 (IGST) and Goods and Services Tax (Compensation to States) Act, 2017 and various rules made thereunder. It replaces following indirect taxes and duties at the central and state levels:

Central Excise Duty, Duties of Excise (Medicinal and Toilet Preparations), additional duties on excise— goods of special importance, textiles and textile products, commonly known as CVD – special additional duty of customs, service tax, central and state surcharges and cesses relating to supply of goods and services, state VAT, Central Sales Tax, Luxury Tax, Entry Tax (all forms), Entertainment and Amusement Tax (except when levied by local bodies), taxes on advertisements, purchase tax, taxes on lotteries, betting and gambling.

The Company's compliance ensures cost-effective procurement of machinery and materials while meeting legal requirements.

INTELLECTUAL PROPERTY LAWS

In general the Intellectual Property Rights includes but is not limited to the following enactments:

Indian Patents Act, 1970

A patent is an intellectual property right relating to inventions and is the grant of exclusive right, for a limited period, provided by the Government to the patentee, in exchange of full disclosure of his invention, for excluding others from making, using, selling, importing the patented product or process producing that product. The term invention means a new product or process involving an inventive step capable of industrial application.

Trade Marks Act, 1999 ("TM Act")

The Trade Marks Act, 1999 provides for the application and registration of trademarks in India for granting exclusive rights to marks such as a brand, label and heading and obtaining relief in case of infringement for commercial purposes as a trade description. The TM Act prohibits any registration of deceptively similar trademarks or chemical compounds among others. It also provides for penalties for infringement, falsifying and falsely applying for trademarks.

The Designs Act, 2000

The Designs Act, 2000 is an Indian law that deals with the registration of designs, copyright in registered designs, industrial and international exhibitions, legal proceedings, powers and duties of Controller of Design, and other related matters. It came into force on May 11, 2001, and replaced the Designs Act, 1911, with some minor changes and additional provisions relating to the TRIPS Agreement. The Act defines a design as the features of shape, configuration, pattern, ornament, or composition of lines or colors applied to any article, which appeal to and are judged solely by the eye. The Act provides for the registration of designs, and by registering a design, the owner obtains certain exclusive rights over the design for a period of 15 years. The Act also prescribes an easy and clear procedure for registering one's design. However, the protection period of 15 years is seen as a disadvantage by some.

Apart from the above list of laws, which is inclusive in nature and not exhaustive, following general laws are also applicable to the Company:

- Transfer of Property Act, 1882,
- The sale of Goods Act, 1930

4.	Ms. Sukhdeep Kaur	October 17, 2023	Appointed as Company Secretary	To ensure better Corporate Governance
5.	Ms. Rajni Suresh Kumar	October 16, 2023	Resignation as Company Secretary	-

**We had intended to change the designation of Mr. Davinder Bhasin from Director to Managing Director with effect from 15th March 2025. However, due to an inadvertent clerical error during the filing process, the form was erroneously submitted as appointment of Managing Director, effective from 15th March 2025, under Challan No. AB3088271, rather than the intended change in designation. As a result of this error, both designations, Director and Managing Director, are now reflected on the MCA Master Data. To rectify this, we proceeded with the resignation from the position of Director, effective 16th March 2025 under Challan No. AB3122830. However, he will continue to serve as the Managing Director w.e.f. 15.03.2025 (Originally appointed as Director since 25.07.1986).*

MUNISH FORGE LIMITED
(FORMERLY KNOWN AS MUNISH FORGE PRIVATE LIMITED)
Notes to Restated Financial Statements

1. CORPORATE INFORMATION

a) **Munish Forge Limited** is a Public Company domiciled in India originally incorporated as “Gaisu Forge Private Limited” having Corporate Identification Number **U28910PB1986PLC006950**. Our Company was originally incorporated on July 25, 1986, as a Private Limited Company. Our registered office is **Village Gobindgarh, Adjoining Phase-VII, Focal Point, Ludhiana**. The Company is engaged in manufacture components like Flange, Scaffolding, Auto parts, tank tracks chains, bomb shells, fence post as per customer specifications and International Standard catering to the requirements of Indian Army and various industries such as Defence, Oil and Gas, Tractor, Automobile, Construction and Infrastructure.

b) The Company’s manufacturing facilities are located at Focal Point, Ludhiana, Punjab.

2. SIGNIFICANT ACCOUNTING POLICIES

2.1 BASIS OF PREPARATION:

a) The financial statements of the Company have been prepared in accordance with and in compliance, in all material aspects, with Indian Accounting Standards (IND AS) notified under section 133 of the Companies Act 2013 read with the Companies (Indian Accounting Standards) Rules, as amended and other provisions of the act. The presentation of the financial statements is based on IND AS Schedule III of the Companies Act 2013. The financial statements have been prepared on a historical cost basis, except for certain financial instruments that are measured at fair value at the end of each reporting period

b) The financial statements are presented in Indian Rupees (‘INR’) and all values are rounded to nearest lakhs (INR 00,000), except when otherwise indicated.

c) Current and non-current classification :

All assets and liabilities have been classified as current or non-current based on the Company’s normal operating cycle as per the criteria set out in the Schedule III to the Act. The company’s operating cycle is considered to be period of twelve months.

2.2 USE OF ESTIMATES

The preparation of financial statements in conformity with Indian GAAP, which requires the management to make judgements, estimates and assumptions that affect the reported amount of revenues, expenses, assets and liabilities and the disclosure of contingent liabilities , at the end of the reporting period. Although these estimates are based on the management’s best knowledge of current events and actions, uncertainty about these assumptions and estimates could not result in the outcomes requiring the material adjustments to the carrying amount of assets or liabilities in future periods.

2.3 Revenue recognition

Revenue is recognised at fair value of the consideration received or receivable. The amount disclosed as revenue is inclusive of and net of returns, trade discounts, Goods & Service Tax related taxes and amount collected on behalf of third parties.

The company recognizes revenue when the amount of revenue can be measured reliably and it is probable that the economic benefits associated with the transaction will flow to the entity.

i) Sale of goods

Revenue is recognized when there is reasonable assurance that significant risk and rewards of ownership have been transferred to the buyer, recovery of the consideration is probable, the associated cost can be reliably estimated and there is no continuing effective control or managerial involvement with the goods and the amount of revenue can be measured reliably. Revenue is recognized in respect of export sales in similar manner

ii) Export Incentives

Revenue in respect of export incentives / benefits are accounted for on accrual basis post export sales

iii) Interest

MUNISH FORGE LIMITED
(FORMERLY KNOWN AS MUNISH FORGE PRIVATE LIMITED)
Notes to Restated Financial Statements

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

iv Insurance Claim

Claims with insurance companies are accounted on accrual basis to the extent, no significant uncertainty exists and these are measurable and ultimate collection is reasonably certain.

v) Compensation Received

Keeping in view the certainty factor about the payment to be received, company has decided to consider the same as income on receipt basis.

v) Duty Drawback income is recognised on accrual basis post export sales

vi) Commission income is recognised on accrual basis

2.4 INVENTORIES

a) Basis of valuation:

- i) Inventories other than scrap materials are valued at lower of cost and net realizable value after providing cost of obsolescence, if any. The comparison of cost and net realizable value is made on an item-by-item basis.
- ii) Inventory of scrap materials have been valued at net realizable value.

b) Method of Valuation:

- i) Cost of raw materials has been determined by using First In First Out (FIFO) method comprising of all costs of purchase, duties, taxes (other than those subsequently recoverable from tax authorities) and all other costs incurred in bringing the inventories to their present location and condition.
- ii) Stores and spares are valued at lower of historical cost or net realizable value. However materials & other items held for use in the production of inventories are not written below cost if the finished products in which they will be incorporated are expected to be sold at or above cost.
- iii) Work in progress is valued at raw material cost plus conversion cost depending upon the stage of completion.
- iv) Finished goods are valued at lower of historical cost or net realizable value. Cost of inventories comprises of cost of purchase, cost of conversion and other costs incurred in bringing them to their respective present location and condition. By products are valued at net realizable value.
- v) Cost of traded goods has been determined by using First In First Out (FIFO) method and comprises all costs of purchase, duties, taxes (other than those subsequently recoverable from tax authorities) and all other costs incurred in bringing the inventories to their present location and condition.

2.5 FINANCIAL INSTRUMENTS

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

The Company classifies its financial assets in the following measurement categories:

- Those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss)
- Those measured at amortised cost

Initial recognition and measurement

MUNISH FORGE LIMITED
(FORMERLY KNOWN AS MUNISH FORGE PRIVATE LIMITED)
Notes to Restated Financial Statements

On initial recognition, all the financial assets and liabilities are recognized at their fair value plus or minus transaction costs that are directly attributable to the acquisition or issue of the financial asset or financial liability except financial asset or financial liability measured at fair value through profit or loss account. Transaction costs of financial asset and liabilities carried at fair value through profit and loss are immediately recognized in the Statement of Profit or Loss.

Subsequent Measurement (Non Derivative Financial Instrument)

(A) Current versus Non-Current Classification

The Company presents assets and liabilities in the balance sheet based on current/non-current classification.

An asset is treated as current when it is:

- Expected to be realised or intended to be sold or consumed in normal operating cycle;
- Held primarily for the purpose of trading;
- Expected to be realised within twelve months after the reporting period, or
- Cash or Cash Equivalent unless restricted from being exchanged or used to settle liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is treated as current when:

- It is expected to be settled in normal operating cycle;
 - It is held primarily for the purpose of trading;
 - It is due to be settled within twelve months after the reporting period, or
 - There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.
- All other liabilities are classified as non-current.

Deferred Tax Assets and Liabilities are classified as non-current assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The Company has identified **twelve months** as its operating cycle.

(B) Fair Value Measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data is available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

Fair value measurements are categorized into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices in active markets for identical assets or liabilities that entity can access at measurement date;

MUNISH FORGE LIMITED
(FORMERLY KNOWN AS MUNISH FORGE PRIVATE LIMITED)
Notes to Restated Financial Statements

- Level 2 inputs are inputs, other than quoted prices included in Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

(C) Foreign Currency

(i) Functional and Presentation Currency

The financial statements of the Company are presented using Indian Rupee (Rs.), which is also our functional currency i.e. currency of the primary economic environment in which the company operates.

(ii) Transactions and Balances

Foreign currency transactions are translated into the respective functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are recognised in profit or loss.

2.6 Use of Estimates and Judgments

In preparing the standalone financial statements, the Management has to make certain assumptions and estimates that may substantially impact the presentation of the Company's financial position and/ or results of operations.

The estimates and judgments used in the preparation of the standalone financial statements are continuously evaluated by the Company and are based on historical experience and various other assumptions and factors (including expectations of future events) that the Company believes to be reasonable under the existing circumstances. Although the Company regularly assesses these estimates, actual results may differ from these estimates. Changes in estimates are recorded in the periods in which they become known.

2.7 Summary of Material accounting policies

(a) Property, Plant & Equipment

Measurement at recognition:

An item of property, plant and equipment that qualifies as an asset is measured on initial recognition at cost. Following initial recognition, items of property, plant and equipment are carried at its cost less accumulated depreciation and accumulated impairment losses.

The cost of an item of property, plant and equipment comprises of its purchase price including import duties and other non-refundable purchase taxes or levies, directly attributable cost of bringing the asset to its working condition for its intended use and the initial estimate of decommissioning, restoration and similar liabilities, if any. Any trade discounts and rebates are deducted in arriving at the purchase price. Cost includes cost of replacing a part of a plant and equipment if the recognition criteria are met. Expenses directly attributable to new manufacturing facility during its construction period are capitalized if the recognition criteria are met. Expenditure related to plans, designs and drawings of buildings or plant and machinery is capitalized under relevant heads of property, plant and equipment if the recognition criteria are met.

Costs in nature of repairs and maintenance are recognized in the Statement of Profit and Loss as and when incurred

Capital work in progress and Capital advances:

Cost of assets not ready for intended use, as on the balance sheet date, is shown as capital work in progress. Advances given towards acquisition of fixed assets outstanding at each balance sheet date are disclosed as Other Non-Current Assets.

MUNISH FORGE LIMITED
(FORMERLY KNOWN AS MUNISH FORGE PRIVATE LIMITED)
Notes to Restated Financial Statements

Transition to Ind AS

On transition to Ind AS, the Company has elected to consider the carrying value of all its property, plant and equipment appearing in the financial statements prepared in accordance with Accounting Standards notified under Section 133 of the Act, read together with Rule 7 of the Companies (Accounts) Rules, 2014, and used the same as deemed cost in the Opening Ind AS Balance Sheet as at 1st April 2022.

Depreciation and Amortisation

Depreciation on each part of an item of property, plant and equipment is provided using the SLM Method based on the useful life of the assets as prescribed in Schedule II to the Act after reducing 5% salvage value. Property Plant and Equipment which have reached their useful life have been recorded at salvage value.

The Estimated useful lives of the assets are as follows

Asset Class	Useful Life (in Years)
Building	30
Building (Tubewell)	5
Furniture & Fixtures	10
Intangible Assets (Software)	6
Machinery	15
Machinery (Electric Fitting)	10
Machinery (Computer)	3
Motor Vehicles (Scooter, cycle)	10
Motor Vehicles	8
Office Equipment	5

The estimated useful life, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

Derecognition:

The carrying amount of an item of property, plant and equipment is derecognized on disposal or when no future economic benefits are expected from its use or disposal. The gain or loss arising from the Derecognition of an item of property, plant and equipment is measured as the difference between the net disposal proceeds and the carrying amount of the item and is recognized in the Statement of Profit and Loss when the item is derecognized

(b) Investment property

Properties held to earn rentals and/or capital appreciation are classified as investment property and are measured and reported at cost, including transaction costs and borrowing costs capitalised for qualifying assets. Policies with respect to depreciation, useful life and derecognition are followed on the same basis as stated for PPE above.

(c) Intangible Assets

Measurement at recognition:

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less accumulated amortisation and accumulated impairment loss, if any.

The Company had elected to consider the carrying value of all its intangible assets appearing in the financial statements prepared in accordance with Accounting Standards notified under the section 133 of the Act, read together with Rule 7 of the Companies (Accounts) Rules, 2014 and used the same as deemed cost in the opening Ind AS Balance sheet prepared on 1st April, 2022.

Amortisation:

Intangible Assets with finite lives are amortised on a written down value basis over the estimated useful economic life. The amortisation expense on intangible assets with finite lives is recognized in the Statement of Profit and Loss.

The amortisation period and the amortisation method for an intangible asset with finite useful life is reviewed at the end of each financial year. If any of these expectations differ from previous estimates, such change is accounted for as a change in an accounting estimate.

Derecognition:

MUNISH FORGE LIMITED
(FORMERLY KNOWN AS MUNISH FORGE PRIVATE LIMITED)
Notes to Restated Financial Statements

The carrying amount of an intangible asset is derecognized on disposal or when no future economic benefits are expected from its use or disposal. The gain or loss arising from the Derecognition of an intangible asset is measured as the difference between the net disposal proceeds and the carrying amount of the intangible asset and is recognized in the Statement of Profit and Loss when the asset is derecognized

2.8 Impairment of assets

i. Financial Assets

The company recognizes loss allowances using the expected credit loss (ECL) model for the financial assets which are not fair valued through profit or loss.

Loss allowance for trade receivables with no significant financing component is measured at an amount equal to lifetime ECL. For all other financial assets expected credit losses are measured at an amount equal to the 12 month ECL unless there has been a significant increase in credit risk from initial recognition in which case those are measured at lifetime ECL. The amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognised is recognized as an impairment gain or loss in statement of profit or loss.

ii) Non-Financial Assets

Intangible assets and property, plant and equipment

Intangible assets and property, plant and equipment are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for cash generating unit to which the asset belongs.

If such assets are considered to be impaired, the impairment to be recognized in the statement of profit and loss is measured by the amount by which the carrying value of the assets exceeds the estimated recoverable amount of the asset. An impairment loss is reversed in the statement of profit and loss if there has been a change in the estimates used to determine the recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net off any accumulated amortization or depreciation) had no impairment loss been recognized for the asset in prior year.

2.9 Foreign exchange transactions/translation

a) Initial recognition

Foreign currency transactions are recorded in the reporting currency, by applying to the foreign currency amount the exchange rate between the reporting currency and the foreign currency at the date of the transaction.

b) Conversion

Foreign currency monetary items are reported using the closing rate. Non-monetary items which are carried in terms of historical cost denominated in a foreign currency are reported using the exchange rate at the date of the transaction; and non-monetary items which are carried at fair value or other similar valuation denominated in a foreign currency are reported using the exchange rates that existed when the values were determined.

c) Forward exchange contracts not intended for trading or speculation purposes

The premium or discount arising at the inception of forward exchange contracts is amortized as expense or income over the life of the contract. Exchange differences on such contracts are recognized in the statement of profit and loss in the year in which the exchange rates change. Any profit or loss arising on cancellation or renewal of forward exchange contract is recognized as income or as expense for the year.

2.10 Employee benefits

i. Short Term Employee Benefits

Short Term Employee Benefits are recognized as an expense on an undiscounted basis in the statement of Profit and loss of the year in which the related service is rendered.

ii. Post Employee Benefits

a) Defined Contribution Plans

MUNISH FORGE LIMITED
(FORMERLY KNOWN AS MUNISH FORGE PRIVATE LIMITED)
Notes to Restated Financial Statements

i) **Provident Fund & ESI**

The company makes contribution to Statutory Provident Fund and Employee State Insurance in accordance with Employees Provident Fund and Miscellaneous Provisions Act, 1952 and Employee State Insurance Act, 1948 which is a defined contribution plan and contribution paid or payable is recognized as an expense in the period in which services are rendered by the employee.

b) **Defined Benefit Plans**

Gratuity

The company provides for gratuity, a defined benefit retirement plan ("The Gratuity Plan") covering eligible employees of the company. The gratuity plan provides a lump-sum payment to vested employees at retirement, death, incapacitation or termination of employment, of an amount based on the respective employee's salary and the tenure of employment with the company.

For defined benefit retirement benefit plans, the cost of providing benefits is determined using the projected unit credit method, with actuarial valuations being carried out at the end of each annual reporting period. Remeasurement, comprising actuarial gains and losses, the effect of the changes to the asset ceiling (if applicable) and the return on plan assets (excluding net interest), is reflected immediately in the balance sheet with a charge or credit recognised in other comprehensive income in the period in which they occur. Remeasurement recognised in other comprehensive income is reflected immediately in retained earnings and is not reclassified to profit or loss. Past service cost is recognised in profit or loss in the period of a plan amendment. Net interest is calculated by applying the discount rate at the beginning of the period to the net defined benefit liability or asset. Defined benefit costs are categorised as follows:

- service cost (including current service cost, past service cost, as well as gains and losses on curtailments and settlements);
- net interest expense or income; and
- Remeasurement

The Company presents the first two components of defined benefit costs in profit or loss in the line item 'Employee benefits expense'. Curtailment gains and losses are accounted for as past service costs.

The retirement benefit obligation recognised in the balance sheet represents the actual deficit or surplus in the Company's defined benefit plans. Any surplus resulting from this calculation is limited to the present value of any economic benefits available in the form of refunds from the plans or reductions in future contributions to the plans.

A liability for a termination benefit is recognised at the earlier of when the entity can no longer withdraw the offer of the termination benefit and when the entity recognises any related restructuring costs.

2.11 Taxes on income

Income tax expense comprises current tax and deferred tax. Income tax expense is recognized in net profit in the Statement of Profit and Loss except to the extent that it relates to items recognized directly in equity or other comprehensive income, in which case, it is also recognized in equity or other comprehensive income respectively.

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. It is measured using tax rates enacted or substantively enacted at the reporting date.

Deferred tax is recognized in respect of temporary differences arising between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes (including those arising from consolidation adjustments such as unrealized profit on inventory etc.). Deferred tax assets are recognized for unused tax losses, unused tax credits and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be used. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized; such reductions are reversed when the probability of future taxable profits improves.

Unrecognized deferred tax assets are reassessed at each reporting date and recognized to the extent that it has become probable that future taxable profits will be available against which they can be used.

2.12 Borrowing cost

MUNISH FORGE LIMITED
(FORMERLY KNOWN AS MUNISH FORGE PRIVATE LIMITED)
Notes to Restated Financial Statements

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective asset. All other borrowing costs are expensed in the period they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

Interest income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

2.13 Provisions, contingent liabilities and contingent assets

A provision is recognized when there is a present obligation as a result of a past event and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of obligation. A contingent liability is recognized for:

- i. a present obligation that arises from past events but is not recognized as a provision because either the possibility that an outflow of resources embodying economic benefits will be required to settle the obligation is remote or a reliable estimate of the amount of the obligation cannot be made; and
- ii. a possible obligation that arises from past events and the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the company. Contingent assets are neither accounted for nor disclosed in the financial statements. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

2.14 Earnings per share

Basic earnings per share are calculated by dividing the net profit for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. For the purpose of calculating diluted earnings per share, the net profit for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

2.15 Cash and cash equivalents

Cash and cash equivalents comprises cash at bank and in hand

2.16 Disclosure as required by Indian Accounting Standard (Ind AS '101) first time adoption of Indian Accounting Standards

These are Company's first financial statements prepared in accordance with Ind AS. The accounting policies set out in Note 2 have been applied in preparing the financial statements for the year ended March 31, 2024, the comparative information presented in these financial statements for the year ended March 31, 2023 and in the preparation of an opening Ind AS balance sheet as at April 1, 2022 the Company's date of transition).

In preparing its opening Ind AS balance sheet, the Company has adjusted the amounts reported previously in financial statements prepared in accordance with accounting standards notified under Companies (Accounting Standards) Rules, 2006 (as amended and other relevant provisions of the Act (previous GMP or Indian GAAP). An explanation of how the transition from previous GAAP to Ind AS has affected the Company's financial position, financial performance and cash flows is set out in the following tables and notes.

A. Exemptions and exceptions availed

1. Deemed cost

Ind AS 101 permits a first time adopter to elect to fair value of its property, plant and equipment as recognized in financial statements as at the date of transition to Ind AS, measured as per previous GAAP and use that as its deemed cost as at the date of transition or apply principles of Ind AS retrospectively. Ind AS 101 also permits the first time adopter to elect to continue with the carrying valued for all of its property, plant and equipment as recognized in the financial statements as at the date of transition to Ind AS. This exemption can be also used for intangible assets covered by Ind AS 38. The Company has elected to consider fair value of its property, plant and equipment as its deemed cost on the date of transition to Ind AS.

2. Ind AS mandatory exceptions

i) Estimates

MUNISH FORGE LIMITED
(FORMERLY KNOWN AS MUNISH FORGE PRIVATE LIMITED)
Notes to Restated Financial Statements

An entity estimates in accordance with Ind AS at the date of transition to Ind AS shall be consistent with estimates made for the same date in accordance with previous GAAP (after adjustments to reflect any difference in accounting policies), unless there is objective evidence that those estimates were in error. Ind AS estimates at April 1, 2022 are consistent with the estimates as at the same date made in conformity with previous GAAP.

ii) Derecognition of financial assets and financial liabilities Ind AS 101 requires a first time adopter to apply the derecognition provisions of Ind AS 109 prospectively for transactions occurring on or after the date of transition to Ind AS. Accordingly, the Company has applied the derecognition requirement for financial assets and financial liabilities in Ind AS 109 prospectively for transactions occurring on or after date of transition to Ind AS.

iii) Derecognition of financial assets and financial liabilities Ind AS 101 requires an entity to assess classification and measurement of financial assets on the basis of facts and circumstances that exist on the date of transaction to Ind AS. Accordingly, the Company has applied the above requirement prospectively.

iv) Derecognition of financial assets and financial liabilities Ind AS 101 requires an entity to assess and determine the impairment allowance on financial assets as per Ind AS 109 using the reasonable and supportable information that is available without undue cost or effort to determine the credit risk at the date that financial instruments which were initially recognized and compare that to the credit risk at the date of transition to Ind AS. The Company has applied this exception prospectively

2.17 Events after reporting date

Where events occurring after the balance sheet date provide evidence of conditions that existed at the end of the reporting period, the impact of such events is adjusted within the financial statements. Otherwise, events after the balance sheet date of material size or nature are only disclosed.

2.18 Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the Balance Sheet, if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

2.19 Use Of Critical Estimates, Judgments And Assumptions

The preparation of the Company's financial statements requires the management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

2.20 Recent Accounting Pronouncements

Ministry of Corporate Affairs ("MCA") notifies new standard or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. For the financial year beginning from 1 April 2025, MCA has not notified any new standards or amendments to the existing standards applicable to the Company.

A. Defined Contribution Plan:

The employees' Gratuity Fund Scheme, which is a defined benefit plan, is managed by the Company itself. Under the gratuity plan, every employee who has completed at least five years of service usually gets a gratuity on departure @ 15 days of last drawn salary for each completed year of service. The present value of obligation is determined based on actuarial valuation using the Projected Unit Credit Method, which recognizes each period of service as giving rise to additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation. The following table summaries the components of net benefit expense recognised in the statement of profit or loss and the funded status and amounts recognised in the balance sheet for the respective plans:

The fair value of financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. The following methods and assumptions were used to estimate the fair values:

The fair value of unquoted instruments, loans from banks and other financial liabilities, as well as other non-current financial liabilities is estimated by discounting future cash flows using rates currently available for debt on similar terms, credit risk and remaining maturities. In addition to being sensitive to a reasonably possible change in the forecast cash flows or the discount rate, the fair value of the equity instruments is also sensitive to a reasonably possible change in the growth rates. The valuation requires management to use unobservable inputs in the model, of which the significant unobservable inputs are disclosed in the tables below. Management regularly assesses a range of reasonably possible alternatives for those significant unobservable inputs and determines their impact on the total fair value.

The fair values of the Company's interest-bearing borrowings and loans are determined by using discounted cash flow method using discount rate that reflects the issuer's borrowing rate as at the end of the reporting period.

Long-term receivables/payables are evaluated by the Company based on parameters such as interest rates, risk factors, and individual creditworthiness of the counterparty and the risk characteristics of the financed project. Based on this evaluation, allowances are taken into account for the expected credit losses of these receivables.

The significant unobservable inputs used in the fair value measurement categorized within Level 3 of the fair value hierarchy together with a quantitative sensitivity analysis as at 31 December 2024, are as shown below.

Fair value hierarchy

The Company uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

Level 1: quoted (unadjusted) prices in active markets for identical assets or liabilities.

Level 2: other techniques for which all inputs that have a significant effect on the recorded fair value are observable, either directly or indirectly.

Level 3: techniques that use inputs which have a significant effect on the recorded fair value that are not based on observable market data.

41 Financial risk management objectives and policies

The Company's principal financial liabilities, other than derivatives, comprise loans and borrowings, trade and other payables. The main purpose of these financial liabilities is to finance the Company's operations. The Company's principal financial assets include loans, trade and other receivables and cash and cash equivalents that are derived directly from its operations.

The Company's financial risk management is an integral part of how to plan and execute its business strategies. The Company is exposed to market risk, credit risk and liquidity risk.

The Company's senior management oversees the management of these risks. The senior professionals working to manage the financial risks and the appropriate financial risk governance framework for the Company are accountable to the Board of Directors and Audit Committee. This process provides assurance to Company's senior management that the Company's financial risk-taking activities are governed by appropriate policies and procedures and that financial risk are identified, measured and managed in accordance with Company policies and Company risk objective.

The Board of Directors reviews and agrees policies for managing each of these risks which are summarized as below:

(a) Market Risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market prices comprise three types of risk: currency rate risk, interest rate risk and other price risks, such as equity price risk and commodity price risk. Financial instruments affected by market risks include loans and borrowings, deposits, investments and foreign currency receivables and payables. The sensitivity analyses in the following sections relate to the position as at December 31, 2024. The analyses exclude the impact of movements in market variables on; the carrying values of gratuity and other post-retirement obligations; provisions; and the non-financial assets and liabilities. The sensitivity of the relevant Profit and Loss item is the effect of the assumed changes in the respective market risks. This is based on the financial assets and financial liabilities held as of December 31, 2024

(b) Interest Rate Risk

Interest rate is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's short term debt obligation at floating interest rates. The Company's Term loan outstanding as at December 31, 2024 comprise of fixed rate loans and accordingly, are not expose to risk of fluctuation in market interest rate.

(c) Credit Risk

Credit Risk is the risk that the counter party will not meet its obligation under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including deposits with banks, foreign exchange transactions and other financial instruments.

(d) Trade Receivables

Customer credit risk is managed by the company based on its established policy, procedures and control relating to customer credit risk management. Outstanding customer receivables are regularly monitored and any shipments to major customers are generally reviewed regularly by the management of the company.

An impairment analysis is performed at each reporting date on trade receivables by lifetime expected credit loss method based on provision matrix. The maximum exposure to credit risk at the reporting date is the carrying value of each class of financial assets. The Company does not hold collateral as security. The Company evaluates the concentration of risk with respect to trade receivables as low.

(e) Financial instruments and cash deposits

Credit risk from balances with banks and financial institutions is managed by the Company in accordance with the policy.

The Company's maximum exposure to credit risk for the components of the balance sheet at December 31, 2024 is the carrying amounts. The Company's maximum exposure relating to financial instruments is noted in liquidity table below. Trade Receivables and other financial assets are written off when there is no reasonable expectation of recovery, such as debtor failing to engage in the repayment plan with the Company.

(f) Liquidity risk

Liquidity risk is defined as the risk that the Company will not be able to settle or meet its obligations on time or at reasonable price. The Company's objective is to at all times maintain optimum levels of liquidity to meet its cash and liquidity requirements. The Company closely monitors its liquidity position and deploys a robust cash management system. It maintains adequate source of financing through the use of short term bank deposits and cash credit facility. Processes and policies related to such risks are overseen by senior management. Management monitors the Company's liquidity position through rolling forecasts on the basis of expected cash flows. The Company assessed the concentration of risk with respect to its debt and concluded it to be low.

Notes to Restated Financial Statements

61 First-time adoption of Ind AS

The Company has prepared restated financial statements for the year ending 31.03.2024, in accordance with Ind AS for the first time. For the periods upto and including the year ended 31.03.23 and 31.03.2022, the Company prepared its financial statements in accordance with the accounting standards notified under Section 133 of the Companies Act, 2013, read together with paragraph 7 of the Companies (Accounts) Rules, 2014 (Previous GAAP). Accordingly, the Company has prepared its financial statements to comply with Ind AS for the year ended 31.03.2024, together with comparative information as at and for the year ended 31.03.2023, as described in the summary of Material accounting policies. In preparing these financial statements, the Company's opening Balance Sheet was prepared as at 01.04.2022 i.e. the transition date to Ind AS for the Company. This note explains the principal adjustments made by the Company in restating its Previous GAAP financial statements, including the Balance Sheet as at 01.04.2022, and the financial statements as at and for the year ended 31.03.2023.

Set out below are the applicable Ind AS 101 optional exemptions and mandatory exceptions applied in the transition from previous GAAP to Ind AS.

A. Optional Exemptions

(i) Deemed Cost

The Company has elected to continue with the carrying value of all of its property, plant and equipment, investment property and intangible assets recognised as of 01.04.2022 (transition date) measured as per the previous GAAP and use that carrying value as its deemed cost as of the transition date.

B. Applicable Mandatory Exceptions

(i) Estimates:

On assessment of the estimates made under the previous GAAP financial statements, the Company has concluded that there is no necessity to revise the estimates under Ind AS, as there is no objective evidence of an error in those estimates. However, estimates that were required under Ind AS but not required under Previous GAAP are made by the Company for the relevant reporting dates reflecting conditions existing as at that date.

(ii) Derecognition of financial assets and financial liabilities

Derecognition of financial assets and liabilities as required by Ind AS 109 is applied prospectively i.e. after the transition date.

(iii) Classification and Measurement of Financial Assets:

The Company has classified the financial assets in accordance with Ind AS 109 on the basis of facts and circumstances that exist at the date of transition to Ind AS.

(iv) Impairment of financial assets

The Company has applied exception related to impairment of financial assets given in Ind AS 101. It has used reasonable and supportable information that is available without under cost or effort to determine the credit risk at the date that financial assets were initially recognised and compared that to the credit risk at 01.04.2022.

IV On account of transition to Ind AS, there is no material adjustment to the Statement of Cash Flows for the year ended 31.03.2024, 31.03.2023 and 31.03.2022.

V Notes to reconciliations:

A Trade receivables

Under Previous GAAP, the Company had recognised provision on trade receivables based on the expectation of the Company. Under Ind AS, the Company provides loss allowance on receivables based on the Expected Credit Loss (ECL) model which is measured following the "simplified approach" at an amount equal to the lifetime ECL at each reporting date.

B Remeasurement of defined benefit liabilities

Under previous GAAP, the Company recognised remeasurement of defined benefit plans under Statement of Profit or Loss. Under Ind AS, remeasurement of defined benefit plans are recognised in Other Comprehensive Income.

C Deferred Tax

Under Previous GAAP, deferred tax accounting was done using the income statement approach, which focuses on differences between taxable profits and accounting profits for the period. Under Ind AS, accounting of deferred taxes is done using the Balance Sheet approach, which focuses on temporary differences between the carrying amount of an asset or liability in the balance sheet and its tax base.

Pursuant to Ind AS requirements, credit for Minimum Alternate Tax (MAT) is reclassified as deferred tax assets. Under I-GAAP the same was presented as part of taxes paid.

D Other Comprehensive Income

Under Ind AS, all items of income and expense recognised in the year should be included in the Statement of Profit and Loss for the year, unless a standard requires or permits otherwise. Items of income or expense that are not recognised in the Statement of Profit and Loss but are shown in statement of profit and loss as "Other Comprehensive Income" includes remeasurement of defined benefit plans and fair value through OCI. The concept of Other Comprehensive Income did not exist under previous GAAP.

E The previous year I-GAAP figures have been reclassified/regrouped to make them comparable with Ind AS presentation.

1. SIGNIFICANT ACCOUNTING POLICIES

2.1. Basis of Preparation

- a. The financial statements of the Company have been prepared in accordance with and in compliance, in all material aspects, with Indian Accounting Standards (IND AS) notified under section 133 of the Companies Act 2013 read with the Companies (Indian Accounting Standards) Rules, as amended and other provisions of the act. The presentation of the financial statements is based on IND AS Schedule III of the Companies Act 2013. The financial

statements have been prepared on a historical cost basis, except for certain financial instruments that are measured at fair value at the end of each reporting period.

- b. The financial statements are presented in Indian Rupees ('INR') and all values are rounded to nearest lacs (INR 00,000), except when otherwise indicated.
- c. Current and non-current classification :
All assets and liabilities have been classified as current or non-current based on the Company's normal operating cycle as per the criteria set out in the Schedule III to the Act. The company's operating cycle is considered to be period of twelve months.

2.2 Use of Estimates

The preparation of financial statements in conformity with Ind AS, which requires the management to make judgements, estimates and assumptions that affect the reported amount of revenues, expenses, assets and liabilities and the disclosure of contingent liabilities, at the end of the reporting period. Although these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could not result in the outcomes requiring the material adjustments to the carrying amount of assets or liabilities in future periods.

2.3 Revenue Recognition

Revenue is recognized at fair value of the consideration received or receivable. The amount disclosed as revenue is inclusive of and net of returns, trade discounts, Goods & Service Tax related taxes and amount collected on behalf of third parties.

The company recognizes revenue when the amount of revenue can be measured reliably and it is probable that the economic benefits associated with the transaction will flow to the entity.

i. Sale of Goods

Revenue is recognized when there is reasonable assurance that significant risk and rewards of ownership have been transferred to the buyer, recovery of the consideration is probable, the associated cost can be reliably estimated, there is no continuing effective control or managerial involvement with the goods, and the amount of revenue can be measured reliably. Revenue is recognized in respect of export sales in similar manner.

ii. Export Incentives

Revenue in respect of export incentives / benefits are accounted for on accrual basis post export sales

iii. Interest

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

iv. Insurance Claim

Claims with insurance companies are accounted on accrual basis to the extent, no significant uncertainty exists and these are measurable and ultimate collection is reasonably certain.

v. Compensation Received

Keeping in view the certainty factor about the payment to be received, company has decided to consider the same as income on receipt basis.

vi. Duty Drawback income is recognised on accrual basis post export sales

vii. Commission income is recognised on accrual basis.

2.4 INVENTORIES

a) Basis of valuation:

- i. Inventories other than scrap materials are valued at lower of cost and net realizable value after providing cost of obsolescence, if any. The comparison of cost and net realizable value is made on an item-by-item basis.
- ii. Inventory of scrap materials have been valued at net realizable value.

b) Method of Valuation:

- i. Cost of raw materials has been determined by using First in First out (FIFO) method comprising of all costs of purchase, duties, taxes (other than those subsequently recoverable from tax authorities) and all other costs incurred in bringing the inventories to their present location and condition.
- ii. Stores and spares are valued at lower of historical cost or net realizable value. However, materials & other items held for use in the production of inventories are not written below cost if the finished products in which they will be incorporated are expected to be sold at or above cost.
- iii. Work in progress is valued at raw material cost plus conversion cost depending upon the stage of completion.
- iv. Finished goods are valued at lower of historical cost or net realizable value. Cost of inventories comprises of cost of purchase, cost of conversion and other costs incurred in bringing them to their respective present location and condition. By products are valued at net realizable value.
- v. Cost of traded goods has been determined by using First In First Out (FIFO) method and comprises all costs of purchase, duties, taxes (other than those subsequently recoverable from tax authorities) and all other costs incurred in bringing the inventories to their present location and condition.

2.5 FINANCIAL INSTRUMENTS

- i. A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.
- ii. The Company classifies its financial assets in the following measurement categories:
 - Those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss)
 - Those measured at amortised cost
- iii. Initial recognition and measurement

On initial recognition, all the financial assets and liabilities are recognized at their fair value plus or minus transaction costs that are directly attributable to the acquisition or issue of the financial asset or financial liability except financial asset or financial liability measured at fair value through profit or loss account. Transaction costs of financial asset and liabilities carried at fair value through profit and loss are immediately recognized in the Statement of Profit or Loss.

- iv. Subsequent Measurement (Non Derivative Financial Instrument)

(A) Current versus Non-Current Classification

The Company presents assets and liabilities in the balance sheet based on current/non-current classification.

An asset is treated as current when it is:

- Expected to be realised or intended to be sold or consumed in normal operating cycle;
- Held primarily for the purpose of trading;
- Expected to be realised within twelve months after the reporting period, or
- Cash or Cash Equivalent unless restricted from being exchanged or used to settle liability for at least twelve months after the reporting period.
- All other assets are classified as non-current.

A liability is treated as current when:

- It is expected to be settled in normal operating cycle;
- It is held primarily for the purpose of trading;
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.
- All other liabilities are classified as non-current.

Deferred Tax Assets and Liabilities are classified as non-current assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The Company has identified **twelve months** as its operating cycle.

(B) Fair Value Measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest. A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data is available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

Fair value measurements are categorized into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices in active markets for identical assets or liabilities that entity can access at measurement date;
- Level 2 inputs are inputs, other than quoted prices included in Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

(C) Foreign Currency

(i) Functional and Presentation Currency

The financial statements of the Company are presented using Indian Rupee (Rs.), which is also our functional currency i.e. currency of the primary economic environment in which the company operates.

(ii) Transactions and Balances

Foreign currency transactions are translated into the respective functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are recognised in profit or loss.

2.6 Use of Estimates and Judgments

In preparing the standalone financial statements, the Management has to make certain assumptions and estimates that may substantially impact the presentation of the Company's financial position and/ or results of operations.

The estimates and judgments used in the preparation of the standalone financial statements are continuously evaluated by the Company and are based on historical experience and various other assumptions and factors (including expectations of future events) that the Company believes to be reasonable under the existing circumstances. Although the Company

regularly assesses these estimates, actual results may differ from these estimates. Changes in estimates are recorded in the periods in which they become known.

2.7 Summary of Material accounting policies

(a) Property, Plant & Equipment

Measurement at recognition:

An item of property, plant and equipment that qualifies as an asset is measured on initial recognition at cost. Following initial recognition, items of property, plant and equipment are carried at its cost less accumulated depreciation and accumulated impairment losses.

The cost of an item of property, plant and equipment comprises of its purchase price including import duties and other non-refundable purchase taxes or levies, directly attributable cost of bringing the asset to its working condition for its intended use and the initial estimate of decommissioning, restoration and similar liabilities, if any. Any trade discounts and rebates are deducted in arriving at the purchase price. Cost includes cost of replacing a part of a plant and equipment if the recognition criteria are met. Expenses directly attributable to new manufacturing facility during its construction period are capitalized if the recognition criteria are met. Expenditure related to plans, designs and drawings of buildings or plant and machinery is capitalized under relevant heads of property, plant and equipment if the recognition criteria are met.

Costs in nature of repairs and maintenance are recognized in the Statement of Profit and Loss as and when incurred

Capital work in progress and Capital advances:

Cost of assets not ready for intended use, as on the balance sheet date, is shown as capital work in progress. Advances given towards acquisition of fixed assets outstanding at each balance sheet date are disclosed as Other Non-Current Assets.

Transition to Ind AS

On transition to Ind AS, the Company has elected to consider the carrying value of all its property, plant and equipment appearing in the financial statements prepared in accordance with Accounting Standards notified under Section 133 of the Act, read together with Rule 7 of the Companies (Accounts) Rules, 2014, and used the same as deemed cost in the Opening Ind AS Balance Sheet as at 1st April 2022.

Depreciation and Amortisation

Depreciation on each part of an item of property, plant and equipment is provided using the SLM Method based on the useful life of the assets as prescribed in Schedule II to the Act after reducing 5% salvage value. Property Plant and Equipment

The Estimated useful lives of the assets are as follows:

Asset Class	Useful Life (in Years)
Building	30
Building (Tubewell)	5
Furniture & Fixtures	10
Intangible Assets (Software)	6
Machinery	15
Machinery (Electric Fitting)	10
Machinery (Computer)	3
Motor Vehicles (Scooter, cycle)	10
Motor Vehicles	8
Office Equipment	5
The estimated useful life, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.	

Derecognition:

The carrying amount of an item of property, plant and equipment is derecognized on disposal or when no future economic benefits are expected from its use or disposal. The gain or loss arising from the Derecognition of an item of property, plant and equipment is measured as the difference between the net disposal proceeds and the carrying amount of the item and is recognized in the Statement of Profit and Loss when the item is derecognized

(b) Investment property

Properties held to earn rentals and/or capital appreciation are classified as investment property and are measured and reported at cost, including transaction costs and borrowing costs capitalised for qualifying assets. Policies with respect to depreciation, useful life and derecognition are followed on the same basis as stated for PPE above.

(c) Intangible Assets**Measurement at recognition:**

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less accumulated amortisation and accumulated impairment loss, if any.

The Company had elected to consider the carrying value of all its intangible assets appearing in the financial statements prepare in accordance with Accounting Standards notified under the section 133 of the Act, read together with Rule 7 of the Companies (Accounts) Rules, 2014 and used the same as deemed cost in the opening Ind AS Balance sheet prepared on 1st April, 2022.

Amortisation:

Intangible Assets with finite lives are amortised on a written down value basis over the estimated useful economic life. The amortisation expense on intangible assets with finite lives is recognized in the Statement of Profit and Loss.

The amortisation period and the amortisation method for an intangible asset with finite useful life is reviewed at the end of each financial year. If any of these expectations differ from previous estimates, such change is accounted for as a change in an accounting estimate.

Derecognition:

The carrying amount of an intangible asset is derecognized on disposal or when no future economic benefits are expected from its use or disposal. The gain or loss arising from the Derecognition of an intangible asset is measured as the difference between the net disposal proceeds and the carrying amount of the intangible asset and is recognized in the Statement of Profit and Loss when the asset is derecognized

2.8 Impairment of assets**i) Financial Assets**

The company recognizes loss allowances using the expected credit loss (ECL) model for the financial assets which are not fair valued through profit or loss.

Loss allowance for trade receivables with no significant financing component is measured at an amount equal to lifetime ECL. For all other financial assets expected credit losses are measured at an amount equal to the 12 month ECL unless there has been a significant increase in credit risk from initial recognition in which case those are measured at lifetime ECL. The amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognised is recognized as an impairment gain or loss in statement of profit or loss.

ii) Non-Financial Assets

Intangible assets and property, plant and equipment

Intangible assets and property, plant and equipment are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for cash generating unit to which the asset belongs.

If such assets are considered to be impaired, the impairment to be recognized in the statement of profit and loss is measured by the amount by which the carrying value of the assets exceeds the estimated recoverable amount of the asset. An impairment loss is reversed in the statement of profit and loss if there has been a change in the estimates used to determine the recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net off any accumulated amortization or depreciation) had no impairment loss been recognized for the asset in prior year.

2.9 Foreign exchange transactions/translation

a) Initial recognition

Foreign currency transactions are recorded in the reporting currency, by applying to the foreign currency amount the exchange rate between the reporting currency and the foreign currency at the date of the transaction.

b) Conversion

Foreign currency monetary items are reported using the closing rate. Non-monetary items which are carried in terms of historical cost denominated in a foreign currency are reported using the exchange rate at the date of the transaction; and non-monetary items which are carried at fair value or other similar valuation denominated in a foreign currency are reported using the exchange rates that existed when the values were determined.

c) Forward exchange contracts not intended for trading or speculation purposes

The premium or discount arising at the inception of forward exchange contracts is amortized as expense or income over the life of the contract. Exchange differences on such contracts are recognized in the statement of profit and loss in the year in which the exchange rates change. Any profit or loss arising on cancellation or renewal of forward exchange contract is recognized as income or as expense for the year.

2.10 Employee benefits

i. Short Term Employee Benefits

Short Term Employee Benefits are recognized as an expense on an undiscounted basis in the statement of Profit and loss of the year in which the related service is rendered.

ii. Post Employee Benefits

a) Defined Contribution Plans

i) Provident Fund & ESI

The company makes contribution to Statutory Provident Fund and Employee State Insurance in accordance with Employees Provident Fund and Miscellaneous Provisions Act, 1952 and Employee State Insurance Act, 1948 which is a defined contribution plan and contribution paid or payable is recognized as an expense in the period in which services are rendered by the employee.

b) Defined Benefit Plans

Gratuity

The company provides for gratuity, a defined benefit retirement plan ("The Gratuity Plan") covering eligible employees of the company. The gratuity plan provides a lump-sum payment to vested employees at retirement,

death, incapacitation or termination of employment, of an amount based on the respective employee's salary and the tenure of employment with the company.

For defined benefit retirement benefit plans, the cost of providing benefits is determined using the projected unit credit method, with actuarial valuations being carried out at the end of each annual reporting period. Remeasurement, comprising actuarial gains and losses, the effect of the changes to the asset ceiling (if applicable) and the return on plan assets (excluding net interest), is reflected immediately in the balance sheet with a charge or credit recognised in other comprehensive income in the period in which they occur. Remeasurement recognised in other comprehensive income is reflected immediately in retained earnings and is not reclassified to profit or loss. Past service cost is recognised in profit or loss in the period of a plan amendment. Net interest is calculated by applying the discount rate at the beginning of the period to the net defined benefit liability or asset. Defined benefit costs are categorised as follows:

- service cost (including current service cost, past service cost, as well as gains and losses on curtailments and settlements);
- net interest expense or income; and
- Remeasurement

The Company presents the first two components of defined benefit costs in profit or loss in the line item 'Employee benefits expense'. Curtailment gains and losses are accounted for as past service costs.

The retirement benefit obligation recognised in the balance sheet represents the actual deficit or surplus in the Company's defined benefit plans. Any surplus resulting from this calculation is limited to the present value of any economic benefits available in the form of refunds from the plans or reductions in future contributions to the plans. A liability for a termination benefit is recognised at the earlier of when the entity can no longer withdraw the offer of the termination benefit and when the entity recognises any related restructuring costs.

2.11 Taxes on income

Income tax expense comprises current tax and deferred tax. Income tax expense is recognized in net profit in the Statement of Profit and Loss except to the extent that it relates to items recognized directly in equity or other comprehensive income, in which case, it is also recognized in equity or other comprehensive income respectively.

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. It is measured using tax rates enacted or substantively enacted at the reporting date.

Deferred tax is recognized in respect of temporary differences arising between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes (including those arising from consolidation adjustments such as unrealized profit on inventory etc.). Deferred tax assets are recognized for unused tax losses, unused tax credits and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be used. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized; such reductions are reversed when the probability of future taxable profits improves.

Unrecognized deferred tax assets are reassessed at each reporting date and recognized to the extent that it has become probable that future taxable profits will be available against which they can be used.

2.12 Borrowing cost

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective asset. All other borrowing costs are expensed in the period they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

Interest income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

2.13 Provisions, contingent liabilities and contingent assets

A provision is recognized when there is a present obligation as a result of a past event and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of obligation. A contingent liability is recognized for:

- i. a present obligation that arises from past events but is not recognized as a provision because either the possibility that an outflow of resources embodying economic benefits will be required to settle the obligation is remote or a reliable estimate of the amount of the obligation cannot be made; and
- ii. a possible obligation that arises from past events and the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the company. Contingent assets are neither accounted for nor disclosed in the financial statements. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

2.14 Earnings per share

Basic earnings per share are calculated by dividing the net profit for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. For the purpose of calculating diluted earnings per share, the net profit for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

2.15 Cash and cash equivalents

Cash and cash equivalents comprises cash at bank and in hand

2.16 Disclosure as required by Indian Accounting Standard (Ind AS '101) first time adoption of Indian Accounting Standards

These are Company's first financial statements prepared in accordance with Ind AS. The accounting policies set out in Note 2 have been applied in preparing the financial statements for the year ended March 31, 2024, the comparative information presented in these financial statements for the year ended March 31, 2023 and in the preparation of an opening Ind AS balance sheet as at April 1, 2022 the Company's date of transition).

In preparing its opening Ind AS balance sheet, the Company has adjusted the amounts reported previously in financial statements prepared in accordance with accounting standards notified under Companies (Accounting Standards) Rules, 2006 (as amended and other relevant provisions of the Act (previous GMP or Indian GAAP). An explanation of how the transition from previous GAAP to Ind AS has affected the Company's financial position, financial performance and cash flows is set out in the following tables and notes.

A. Exemptions and exceptions availed

1. Deemed cost

Ind AS 101 permits a first time adopter to elect to fair value of its property, plant and equipment as recognized in financial statements as at the date of transition to Ind AS, measured as per previous GAAP and use that as its deemed cost as at the date of transition or apply principles of Ind AS retrospectively. Ind AS 101 also permits the first time adopter to elect to continue with the carrying valued for all of its property, plant and equipment as recognized in the financial statements as at the date of transition to Ind AS. This exemption can be also used for intangible assets covered by Ind AS 38. The Company has elected to consider fair value of its property, plant and equipment as its deemed cost on the date of transition to Ind AS.

2. Ind AS mandatory exceptions

- i. Estimates - An entity estimates in accordance with Ind AS at the date of transition to Ind AS shall be consistent with estimates made for the same date in accordance with previous GAAP (after adjustments to reflect any difference in accounting policies), unless there is objective evidence that those estimates were in error. Ind AS estimates at April 1, 2022 are consistent with the estimates as at the same date made in conformity with previous GAAP.
- ii. Derecognition of financial assets and financial liabilities Ind AS 101 requires a first time adopter to apply the derecognition provisions of Ind AS 109 prospectively for transactions occurring on or after the date of transition to

- Ind AS. Accordingly, the Company has applied the derecognition requirement for financial assets and financial liabilities in Ind AS 109 prospectively for transactions occurring on or after date of transition to Ind AS.
- iii. Derecognition of financial assets and financial liabilities Ind AS 101 requires an entity to assess classification and measurement of financial assets on the basis of facts and circumstances that exist on the date of transaction to Ind AS. Accordingly, the Company has applied the above requirement prospectively.
 - iv. Derecognition of financial assets and financial liabilities Ind AS 101 requires an entity to assess and determine the impairment allowance on financial assets as per Ind AS 109 using the reasonable and supportable information that is available without undue cost or effort to determine the credit risk at the date that financial instruments which were initially recognized and compare that to the credit risk at the date of transition to Ind AS. The Company has applied this exception prospectively

2.17 Events after reporting date

Where events occurring after the balance sheet date provide evidence of conditions that existed at the end of the reporting period, the impact of such events is adjusted within the financial statements. Otherwise, events after the balance sheet date of material size or nature are only disclosed.

2.18 Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the Balance Sheet, if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

2.19 Use of Critical Estimates, Judgments And Assumptions

The preparation of the Company's financial statements requires the management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

2.20 Recent Accounting Pronouncements

Ministry of Corporate Affairs ("MCA") notifies new standard or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. For the financial year beginning from 1 April 2025, MCA has not notified any new standards or amendments to the existing standards applicable to the Company.

There has been no drop in sales for the year 2023-24. We sold 14,763.967 M. Tons of goods this year, which is significantly higher than the 11158.19 M. Tons sold in 2022-23. This reflects an increase in sale quantity of 32.31%, or 3605.77 M. Tons (from 11158.19 to 14763.96). In the year 2022-23, our average selling price was Rs.1.40 lakhs per M. Ton, whereas the average selling price for year 2023-24 is Rs.1.06 lakhs per M.Ton. Therefore there is a loss of Rs. 0.34 lakhs per m. Ton leading to loss of Rs. 5,019.75 lakhs of revenue.

Other Income

Our total other income increased by ₹ 63.89 lakhs from ₹ 105.48 lakhs for the financial Year ended on March 31, 2023, to ₹ 169.37 lakhs for the financial Year ended on March 31, 2024, representing an increase of 60.57% mainly because company have obtained a settlement of Rs. 50.00 Lakh from Mr. Ajay Sahni, the proprietor of Krishna Petrochem, through an out-of-court agreement based on mutual consent. We also received a late delivery charge penalty refund of Rs. 51.82 Lakh from the Government of India, which had been deducted in previous years. Apart from these our other Income has decreased by ₹ 38.79 lakhs.

Expenses

Our Total Expenses was ₹ 15,580.82 lakhs for the year ended March 31, 2024 as compared to ₹ 15,876.82 Lakhs for the financial year March 31, 2023, representing decrease of 1.86% due to the factors described below:

Cost of Raw Material Consumed

Our Cost of Materials Consumed is increased by ₹ 3,406.83 lakhs, from ₹ 9,634.24 lakhs for the financial Year ended on March 31, 2023, to ₹ 13,041.07 lakhs for the financial Year ended on March 31, 2024. This is mainly attributable to increase in material purchases and other direct expenses.

During the Financial year 2023-24, Company has manufactured 12316 M. Tons whereas in the year 2022-23, against 9085 M. Tons. There is increase in manufacturing of 3231/- M. Tons as compared to 2022-23. Higher purchase during FY 2024 leads to an increase in closing inventory for FY 2024.

Changes in Inventories

As of March 31, 2024, the inventories of finished goods and work in progress stood at ₹ 3170.00 Lakhs, reflecting a considerable increase of 59.54% from March 31, 2023. This rise was mainly attributed to a greater volume of Finished Goods and Work in Progress that remained unsold and was held by the company during FY 23.

Employee Benefits Expenses

Our Employee Benefit Expenses rose by ₹ 43.07 lakhs, increasing from ₹ 890.59 lakhs for the fiscal year ending March 31, 2023, to ₹ 933.65 lakhs for the fiscal year ending March 31, 2024, which reflects a growth of 4.84% attributed to salary hikes for employees. The rise in employee benefits expenses is directly associated with the increase in production and annual salary increments.

Finance Costs

Our finance costs decreased by ₹13.35 lakhs, totalling ₹459.05 lakhs for the year ended March 31, 2024, compared to ₹472.40 lakhs for the financial year ending March 31, 2023. This reduction is attributed to the optimal utilization of our working capital facility and repayment of loans.

Depreciation and Amortization Expense

Our Depreciation and Amortization Expenses decreased by ₹ 29.19 lakhs, from ₹ 305.63 lakhs for the financial Year ended on March 31, 2023, to ₹ 276.44 lakhs for the financial Year ended on March 31, 2024, representing an decrease of 9.55% due to normal wear and tear during FY 23-24.

Other Expenses

Our Other Expenses have seen a significant reduction of ₹1,210.18 lakhs, decreasing from ₹3,263.77 lakhs for the financial year ending March 31, 2023, to ₹2,053.59 lakhs for the financial year ending March 31, 2024. This decline of 14.62% highlights our commitment to cost efficiency, with these expenses representing 20.25% of total revenue in FY 2023 and dropping to 12.71% in FY 2024. This reduction can be attributed to several key factors that demonstrate our proactive management strategies. Notably, customs duty has decreased significantly, falling from ₹804.67 lakhs in FY 2023 to ₹460.65 lakhs in FY 2024. Furthermore, our sea freight outward costs have been effectively cut from ₹1,294.69 lakhs in FY 2023 to ₹469.94 lakhs in FY 2024.

Profit Before Tax

Our Profit/(Loss) before Tax increased by ₹ 336.13 lakhs, from ₹ 241.13 lakhs for the financial Year ended on March 31, 2023, to ₹ 577.26 lakhs for the financial Year ended on March 31, 2024, representing a growth of 139.40% due to decrease in other expenses like custom duty and & Sea freight outward.

Total Tax Expenses

Our Tax expenses increased by ₹ 93.93 lakhs, from ₹ 44.41 lakhs for the financial Year ended on March 31, 2023, to ₹ 138.34 lakhs for the financial Year ended on March 31, 2024, on account of increase in profitability.

This represents a growth of 85.83%, primarily due to consultancy income of ₹7.75 lakhs and profit on sale of plant and machinery of ₹67.01 lakhs.

Expenses

Our Total Expenses increased by ₹ 3,484.81 lakhs from ₹ 12,392.02 lakhs for the financial Year ended on March 31, 2022, to ₹ 15,876.82 lakhs for the financial Year ended on March 31, 2023, representing a growth of 28.12% due to the factors described below:

Cost of Materials Consumed

Our Cost of Materials Consumed increased by ₹ 597.02 lakhs from ₹ 9,037.22 lakhs for the financial Year ended on March 31, 2022 to ₹ 9,634.24 lakhs for the financial Year ended on March 31, 2023, representing a growth of 6.61% due to increase in material purchases and other direct expenses.

Changes in Inventories

Our Change in Inventories of Finished Goods decreased by ₹ 1,583.28 lakhs rising from a deficit of ₹ (273.09) lakhs for the financial Year ended on March 31, 2022, to ₹ 1,310.20 lakhs for the financial Year ended on March 31, 2023. This decrease in closing inventory is attributed to the higher volume of finished goods sold compared to the goods manufactured during the fiscal year 2022-23.

Employee Benefits Expenses

Our Employee Benefit Expenses decreased by ₹ 41.84 lakhs from ₹ 932.43 lakhs for the financial Year ended on March 31, 2022 to ₹ 890.59 lakhs for the financial Year ended on March 31, 2023 representing a decline of 4.49% due to decrease in salary, director remuneration, contribution to funds and staff welfare expenses reflecting optimum utilization of workforce and production capability.

Our other expenses experienced a significant increase of ₹1,435.45 lakhs climbing from ₹1,828.32 lakhs for the financial Year ended on March 31, 2022, to ₹3,263.77 lakhs for the financial Year ended on March 31, 2023. This remarkable growth of 78.51% underscores our strategic expansion efforts and reflects our commitment to capturing new market opportunities. A substantial driver behind this increase was a rise in customs duty, which escalated by ₹640 lakhs. This surge is primarily linked to our successful exports to USA, incurring an inverted duty during 2022-23. In contrast, our exports for the previous financial year amounted to only ₹1,949.11 lakhs. In addition to customs duties, we faced an increase in freight costs amounting to ₹458.26 lakhs relative to the prior year. To further drive sales and enhance customer relationships, we provided strategic discounts totalling ₹168 lakhs during 2022-23, an increase from ₹17.64 lakhs in the previous year.

Moreover, our commitment to customer engagement is evident, as we dispatched new product samples costing ₹23.49 lakhs in 2022-23, a significant jump from just ₹0.27 lakhs the previous year which was free of cost. Other essential investments included an increase in maintenance costs of ₹50 lakhs, software expenses rising by ₹15 lakhs, and foreign travel expenses growing by ₹20 lakhs. These expenditures are part of our ongoing commitment to enhancing operational efficiency and fostering international relationships, positioning us for continued success in the future.

Any slowdown in the growth of Indian economy or future volatility in global commodity prices, could affect the business including the future financial performance, shareholders' funds and ability to implement strategy and the price of the Equity Shares.

c. Known trends or uncertainties that have had or are expected to have a material adverse impact on sales, revenue or income from continuing operations

Other than as disclosed in the chapter titled "**Risk Factors**" beginning on page 35 of this Draft Red Herring Prospectus to our knowledge, there are no known trends or uncertainties that have or had or are expected to have a material adverse impact on revenues or income of our Company from continuing operations.

d. Future changes in relationship between costs and revenues in case of events such as future increase in labour or material cost or prices that will cause material change

According to our knowledge, there are no future relationship between cost and income that would be expected to have a material adverse impact on our operations and revenues. However, increase in the cost of the goods in which the Company deals, will affect the profitability of the Company. Further, the Company may not be able to pass on the increase in prices of the services to the customers in full and this can be offset through cost reduction.

e. The extent to which material increases in net sales or revenue are due to increased sales volume, introduction of new products or services or increased prices

The increase in revenue is by and large linked to increase in volume of all the activities carried out by the Company.

f. Total turnover of each major industry segment in which the Issuer Company operates

Our Company is primarily engaged in manufacturing forged and cast products.

Relevant industry data, as available, has been included in the chapter titled "**Industry Overview**" beginning on page 118 of this Draft Red Herring Prospectus.

g. Status of any Publicly Announced New Business Segments

Except as disclosed elsewhere in the Draft Red Herring Prospectus, we have not announced and do not expect to announce in the near future any new business segments.

h. Seasonality of the Business

The business of our company is not seasonal, hence there is no impact of seasonality on our turnover and operations. However, one of the industries that we cater to, i.e., construction industry slows down its operations typically during monsoon due to unfavorable weather conditions.

i. Any significant dependence on a single or few suppliers or customers

We depend on external suppliers for all the raw materials required and typically purchase raw materials on a purchase order basis and place such orders with them in advance based on our projected requirements. As a result, the success of our business is significantly dependent on maintaining good relationships with our suppliers. The absence of long-term supply contracts subjects us to risks such as price volatility caused by various factors viz. commodity market fluctuations, currency fluctuations, climatic and environmental conditions, transportation cost, changes in domestic regulatory changes and trade sanctions. If we cannot fully offset the increase in raw material prices with an increase in the prices for our products, we will experience lower profit margins, which in turn may have a material adverse effect on our results of

operations, and financial condition and ultimately lead to a liquidity crunch. In the absence of such contracts, we are also exposed to the risk of unavailability of raw materials in desired quantities and qualities, in a timely manner.

j. Competitive Conditions

We face competition from existing and potential organized and unorganized competitors, which is common for any business. We have, over a period, developed certain competitive strengths which have been discussed in section titled ***“Our Business”*** beginning on page 151 of this Draft Red Herring Prospectus.

In case the minimum number of prospective Allottees is less than 200 (Two Hundred), no Allotment will be made pursuant to this Offer and the monies blocked by the SCSBs shall be unblocked within 2 Working Days of closure of Offer.

JOINT HOLDERS

Where 2 (two) or more persons are registered as the holders of any Equity Shares, they will be deemed to hold such Equity Shares as joint holders with benefits of survivorship.

NOMINATION FACILITY TO INVESTOR

In accordance with Section 72 of the Companies Act, 2013, the First / Sole Applicant, along with other joint Applicant, may nominate any one person in whom, in the event of the death of Sole Applicant or in case of joint Applicant, death of all the Applicants, as the case may be, the Equity Shares Allotted, if any, shall vest. A person, being a nominee, entitled to the Equity Shares by reason of the death of the original holder(s), shall in accordance with Section 72 of the Companies Act, 2013, be entitled to the same advantages to which he or she would be entitled if he or she were the registered holder of the Equity Share(s). Where the nominee is a minor, the holder(s) may make a nomination to appoint, in the prescribed manner, any person to become entitled to Equity Share(s) in the event of his or her death during the minority. A nomination shall stand rescinded upon a sale of Equity Share(s) by the person nominating. A buyer will be entitled to make a fresh nomination in the manner prescribed. Fresh nomination can be made only on the prescribed form available on request at the Registered Office of our Company or to the Registrar and Transfer Agents of our Company.

In accordance with Section 72 of the Companies Act, 2013, any Person who becomes a nominee by virtue of this section shall upon the production of such evidence as may be required by the Board of Directors, elect either:

- to register himself or herself as the holder of the Equity Shares; or
- to make such transfer of the Equity Shares, as the deceased holder could have made.

Further, our Board of Directors may at any time give notice requiring any nominee to choose either to be registered himself or herself or to transfer the Equity Shares, and if the notice is not complied with within a period of 90 days, the Board of Directors may thereafter withhold payment of all dividends, bonuses or other moneys payable in respect of the Equity Shares, until the requirements of the notice have been complied with.

Since the Allotment of Equity Shares in the Offer will be made only in dematerialized form, there is no need to make a separate nomination with our Company. Nominations registered with the respective Depository Participant of the applicant would prevail. If the Applicants require changing the nomination, they are requested to inform their respective Depository Participant.

WITHDRAWAL OF THE OFFER

In accordance with the SEBI (ICDR) Regulations, our Company and Selling Shareholder, in consultation with Book Running Lead Manager, reserves the right not to proceed with this issue at any time after the Offer Opening Date, but before our Board meeting for Allotment without assigning reasons thereof.

If our Company withdraws the Issue after the Offer Closing Date, we will give reason thereof within two days by way of a public notice which shall be published in the same newspapers where the pre-issue advertisements were published.

Further, the Stock Exchanges shall be informed promptly in this regard and the Book Running Lead Manager, through the Registrar to the Issue, shall notify the SCSBs to unblock the Bank Accounts of the ASBA Applicants within one Working Day from the date of receipt of such notification.

In case our Company withdraws the Issue after the Offer Closing Date and subsequently decides to undertake a public offering of Equity Shares, our Company will file a fresh Offer Document with the Stock Exchange where the Equity Shares may be proposed to be listed.

Notwithstanding the foregoing, the Offer is also subject to obtaining the final Listing and Trading Approval of the Stock Exchange, which the Company shall apply for after Allotment. In terms of the SEBI Regulations, Non-Retail Applicants shall not be allowed to withdraw their Application after the Offer Closing Date.

SEBI vide circular SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023 has reduced the post offer timeline for IPOs. The revised timeline of T+3 days has been made applicable in two phases, i.e., voluntary for all public issues opening on or after September 1, 2023 and mandatory on or after December 1, 2023. Accordingly, the Offer has been made under UPI Phase III, subject to the timing of the Offer and any circulars, clarification or notification issued by the SEBI from time to time, including with respect to SEBI circular SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023.

The SEBI is in the process of streamlining and reducing the post Offer timeline for initial public offerings. Any circulars or notifications from the SEBI after the date of the Draft Red Herring Prospectus may result in changes to the abovementioned timelines. Further, the Offer procedure is subject to change to any revised circulars issued by the SEBI to this effect.

The Book Running Lead Manager will be required to submit reports of compliance with listing timelines and activities, identifying non-adherence to timelines and processes and an analysis of entities responsible for the delay and the reasons associated with it.

Due to the limitation of time available for uploading the Bid-Cum-Application Forms on the Bid / Offer Closing Date, Applicants are advised to submit their applications 1(one) day prior to the Offer Closing Date and, in any case, not later than 3:00 p.m. (IST) on the Bid / Offer Closing Date. Any time mentioned in this Draft Red Herring Prospectus is IST. Applicants are cautioned that, in the event a large number of Bid-Cum-Application Forms are received on the Offer Closing Date, as is typically experienced in public offer, some Bid-Cum-Application Forms may not get uploaded due to

the lack of sufficient time. Such Bid-Cum-Application Forms that cannot be uploaded will not be considered for allocation under this Offer. Bid-Cum-Applications will be accepted only on Working Days, i.e., Monday to Friday (excluding any public holidays). Neither our Company nor the Book Running Lead Manager is liable for any failure in uploading the Bid-Cum-Application Forms due to faults in any software / hardware system or otherwise.

In accordance with ICDR Regulations, QIBs and Non-Institutional Applicants are not allowed to withdraw or lower the size of their application (in terms of the quantity of the Equity Shares or the Application Amount) at any stage. Retail Individual Investors can revise or withdraw their Application Forms prior to the Offer Closing Date. Allocation to Retail Individual Investors, in this Offer will be on a proportionate basis.

In case of discrepancy in the data entered in the electronic book vis-à-vis the data contained in the physical Application Form, for a particular Applicant, the details as per the file received from EMERGE platform of National Stock Exchange of India Limited may be taken as the final data for the purpose of Allotment. In case of discrepancy in the data entered in the electronic book vis-à-vis the data contained in the physical or electronic Application Form, for a particular ASBA Applicant, the Registrar to the Offer shall ask the relevant SCSBs / RTAs / DPs / stock brokers, as the case may be, for the rectified data.

Our Company, Selling Shareholder in consultation with the Book Running Lead Manager, reserves the right to revise the Price Band during the Bid / Offer Period. The revision in the Price Band shall not exceed 20% on either side, i.e. the Floor Price can move up or down to the extent of 20% of the Floor Price and the Cap Price will be revised accordingly. The Floor Price shall not be less than the face value of the Equity Shares.

In case of any revision to the Price Band, the Bid / Offer Period will be extended by at least three additional Working Days following such revision of the Price Band, subject to the Bid / Offer Period not exceeding a total of 10 Working Days. In cases of force majeure, banking strike or similar circumstances, our Company in consultation with the Book Running Lead Manager, for reasons to be recorded in writing, extend the Bid / Offer Period for a minimum of three Working Days, subject to the Bid / Offer Period not exceeding 10 Working Days. Any revision in the Price Band and the revised Bid / Offer Period, if applicable, will be widely disseminated by notification to the Stock Exchange, by issuing a public notice, and also by indicating the change on the respective websites of the Book Running Lead Manager and the terminals of the Syndicate Members, if any and by intimation to SCSBs, other Designated Intermediaries and the Sponsor Bank, as applicable. In case of revision of Price Band, the Bid Lot shall remain the same.

MINIMUM SUBSCRIPTION

In accordance with Regulation 260 (1) of ICDR Regulations, this Offer is 100% underwritten, so this Offer is not restricted to any minimum subscription level.

As per section 39 of the new Companies Act, if the “stated minimum amount” has not been subscribed and the sum payable on Application is not received within a period of 30 days from the date of Red Herring Prospectus, the Application Amount has to be returned within such period as may be prescribed.

If our Company does not receive the subscription of 100% of the Offer through this Offer document including devolvement of Underwriters, our Company shall forthwith unblock the entire subscription amount received.

In terms of Regulation 272(2) of SEBI ICDR Regulations, in case the Company fails to obtain listing or trading permission from the stock exchanges where the specified securities are proposed to be listed, it shall refund through verifiable means the entire monies received within four days of receipt of intimation from stock exchange(s) rejecting the application for listing of specified securities, and if any such money is not repaid within four days after the issuer becomes liable to repay it, the issuer and every director of the company who is an officer in default shall, on and from the expiry of the fourth day, be jointly and severally liable to repay that money with interest at the rate of fifteen per cent per annum.

In accordance with Regulation 260 (1) of the SEBI ICDR Regulations, our Offer shall be hundred percent underwritten. Thus, the underwriting obligations shall be for the entire hundred percent of the Offer through the Draft Red Herring Prospectus and shall not be restricted to the minimum subscription level. Further, in accordance with Regulation 267 (2) of the SEBI ICDR Regulations, our Company shall ensure that the minimum application size shall not be less than ₹1.00 Lakhs (Rupees One Lakhs) per application.

The Equity Shares have not been and will not be registered, listed or otherwise qualified in any other jurisdiction outside India and may not be issued or sold, and Applications may not be made by persons in any such jurisdiction, except in compliance with the applicable laws of such jurisdiction.

ARRANGEMENTS FOR DISPOSAL OF ODD LOTS

In accordance with Regulation 267 (2) of the SEBI ICDR Regulations, our Company shall ensure that the minimum application size shall be two lots per application provided that minimum application size shall be above ₹2 lakhs.

The trading of the Equity Shares will happen in the minimum contract size of [●] Equity Shares in terms of the SEBI Circular No. CIR/MRD/DSA/06/2012 dated February 21, 2012. However, in terms of Regulation 261 (5) of the ICDR Regulations, the Market Maker shall buy the entire shareholding of a shareholder in one lot, where value of such shareholding is less than the minimum contract size allowed for trading on the EMERGE platform of National Stock Exchange of India Limited.

APPLICATION BY ELIGIBLE NRIS, FPIS / FIIS REGISTERED WITH SEBI, VCFS REGISTERED WITH SEBI AND ELIGIBLE QFIS

It is to be understood that there is no reservation for Eligible NRIs or FPIs / FIIs registered with SEBI or VCFs or Eligible QFIs. Such Eligible NRIs, Eligible QFIs, FIIs registered with SEBI will be treated on the same basis with other categories for the purpose of allocation.

NRIs, FPIs / FIIs and foreign venture capital investors registered with SEBI are permitted to purchase shares of an Indian company in a public offer without the prior approval of the RBI, so long as the price of the Equity Shares to be issued is not less than the price at which the Equity Shares are issued to residents. The transfer of shares between an Indian resident and a non-resident does not require the prior approval of the FIPB or the RBI, provided that (i) the activities of the investee company are under the automatic route under the foreign direct investment ("FDI") Policy and the non-resident shareholding is within the sectoral limits under the FDI policy; and (ii) the pricing is in accordance with the guidelines prescribed by the SEBI / RBI.

The current provisions of the Foreign Exchange Management (Transfer or Issue of Security by a Person Resident outside India) Regulations, 2000, provides a general permission for the NRIs, FPIs and foreign venture capital investors registered with SEBI to invest in shares of Indian companies by way of subscription in an IPO. However, such investments would be subject to other investment restrictions under the Foreign Exchange Management (Transfer or Issue of Security by a Person Resident outside India) Regulations, 2000, RBI and / or SEBI regulations as may be applicable to such investors.

The Allotment of the Equity Shares to Non-Residents shall be subject to the conditions, if any, as may be prescribed by the Government of India / RBI while granting such approvals.

AS PER THE EXTANT POLICY OF THE GOVERNMENT OF INDIA, OCBs CANNOT PARTICIPATE IN THIS OFFER.

As per the existing regulations, OCBs are not eligible to participate in this Offer. The RBI has however clarified in its circular, A.P. (DIR Series) Circular No. 44, dated December 8, 2003 that OCBs which are incorporated and are not under the adverse notice of the RBI are permitted to undertake fresh investments as incorporated non-resident entities in terms of Regulation 5(1) of RBI Notification No. 20/2000-RB dated May 03, 2000 under FDI Scheme with the prior approval of Government if the investment is through Government Route and with the prior approval of RBI if the investment is through Automatic Route on case by case basis. OCBs may invest in this Offer provided it obtains a prior approval from the RBI. On submission of such approval along with the Application Form, the OCB shall be eligible to be considered for Equity Share allocation.

RESTRICTIONS ON TRANSFER AND TRANSMISSION OF SHARES OR DEBENTURES AND ON THEIR CONSOLIDATION OR SPLITTING

SEBI through its circular no. SEBI/HO/CFD/DIL2/CIR/P/2018/138 dated November 1, 2018 read with its circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/50 dated April 3, 2019 and circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/76 dated June 28, 2019, has introduced an alternate payment mechanism using Unified Payments Interface ("UPI") and consequent reduction in timelines for listing in a phased manner. From January 1, 2019, the UPI Mechanism for RIBs applying through Designated Intermediaries was made effective along with the existing process and existing timeline of T+6 days. ("UPI Phase I"). The UPI Phase I was effective till June 30, 2019.

Subsequently, for applications by Individual Investors through Designated Intermediaries, the process of physical movement of forms from Designated Intermediaries to SCSBs for blocking of funds has been discontinued and only the UPI Mechanism with existing timeline of T+6 days is applicable for a period of three months or launch of five main board public issues, whichever is later ("UPI Phase II"), with effect from July 1, 2019, by SEBI circular (SEBI/HO/CFD/DIL2/CIR/P/2019/76) dated June 28, 2019, read with circular (SEBI/HO/CFD/DIL2/CIR/P/2019/85) dated July 26, 2019. Further, as per the SEBI circular (SEBI/HO/CFD/DCR2/CIR/P/2019/133) dated November 8, 2019, the UPI Phase II had been extended until March 31, 2020. However, due to the outbreak of COVID-19 pandemic, UPI Phase II has been further extended by SEBI until further notice, by its circular (SEBI/HO/CFD/DIL2/CIR/P/2020/50) dated March 30, 2020. Thereafter final reduced timeline of T+3 days for the UPI Mechanism for applications by Individual Investors ("UPI Phase III"), as may be prescribed by SEBI. Further, SEBI, vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021, and circular no. SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021, has introduced certain additional measures for streamlining the process of initial public offers and redressing investor grievances. This circular is effective for initial public offers opening on / or after May 1, 2021, except as amended pursuant to SEBI circular SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021, and SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2022/51 dated April 20, 2022, and the provisions of this circular are deemed to form part of this Draft Red Herring Prospectus. Furthermore, pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/P/2022/45 dated April 5, 2022, all individual Investors in initial public offerings (opening on or after May 1, 2022) whose application sizes are up to ₹500,000 shall use the UPI Mechanism.

Furthermore, SEBI vide press release bearing number 12/2023 has approved the proposal for reducing the time period for listing of shares in public Offer from existing 6 working days to 3 working days from the date of the closure of the Offer. The revised timeline of T+3 days shall be made applicable in two phases i.e. voluntary for all public issues opening on or after September 1, 2023, and mandatory on or after December 1, 2023. Further, SEBI has vide its circular no. SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023 reduced the time taken for listing of specified securities after the closure of a public Offer to three Working Days. Accordingly, the Offer will be made under UPI Phase III on a mandatory basis, subject to any circulars, clarification or notification issued by the SEBI from time to time.

The list of Banks that have been notified by SEBI as Issuer Banks for UPI are provided on <https://www.sebi.gov.in/sebiweb/other/OtherAction.do?doRecognisedFpi=yes&intmId=40>. The list of Stockbrokers, Depository Participants (DP), Registrar to an Issue and Share Transfer Agent (RTA) that have been notified by SME Platform of National Stock Exchange of India Limited ("NSE Emerge") to act as intermediaries for submitting Application Forms are provided on www.nseindia.com/emerge. For details on their designated branches for submitting Application Forms, please see the above-mentioned website of Platform of National Stock Exchange of India Limited ("NSE Emerge").

Applicants are advised to make their independent investigations and ensure that their application are submitted in accordance with applicable laws and do not exceed the investment limits or maximum number of Equity Shares that can be held by them under applicable law or as specified in this Draft Red Herring Prospectus and the Red Herring Prospectus.

Further, the Company and the Book Running Lead Manager are not liable for any adverse occurrence's consequent to the implementation of the UPI Mechanism for application in this Offer.

PHASED IMPLEMENTATION OF UPI FOR BIDS BY INDIVIDUAL BIDDERS, WHO APPLIES FOR MINIMUM APPLICATION SIZE, AS PER THE UPI CIRCULAR

SEBI has issued circular bearing number SEBI/HO/CFD/DIL2/CIR/P/2018/138 dated November 1, 2018, circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/50 dated April 3, 2019, circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/76 dated June 28, 2019, circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/85 dated July 26, 2019, circular no. SEBI/HO/CFD/DCR2/CIR/P/2019/133 dated November 08, 2019 and circular SEBI/HO/CFD/DIL2/CIR/P/2020/50 dated March 30, 2020 (collectively the "UPI Circulars") in relation to streamlining the process of public Offer of equity shares and convertibles. Pursuant to the UPI Circulars, the UPI Mechanism has been introduced in a phased manner as a payment mechanism (in addition to mechanism of blocking funds in the account maintained with SCSBs under the ASBA) for applications by RIBs through intermediaries with the objective to reduce the time duration from public Offer closure to listing from six working days to up to three working days. Considering the time required for making necessary changes to the systems and to ensure complete and smooth transition to the UPI payment mechanism, the UPI Circular proposes to introduce and implement the UPI payment mechanism in three phases in the following manner:

Phase I: This phase was applicable from January 1, 2019 until March 31, 2019, or floating of five main board public issues, whichever is later. Subsequently, the timeline for implementation of Phase I was extended till June 30, 2019. Under this phase, a Individual Investor had the option to submit the Application Form with any of the Designated Intermediary and use his / her UPI ID for the purpose of blocking of funds. The time duration from public Offer closure to listing continued to be six working days.

Phase II: This phase has become applicable from July 1, 2019 and was to initially continued for a period of three months or floating of five main board public issues, whichever is later. Subsequently, it was decided to extend the timeline for implementation of Phase II until March 31, 2020. Further, as per SEBI circular SEBI/HO/CFD/DIL2/CIR/P/2020/50 dated March 30, 2020, the current Phase II of Unified Payments Interface with Application Supported by Blocked Amount is continued till further notice. Under this phase, submission of the ASBA Form by RIBs through Designated Intermediaries (other than SCSBs) to SCSBs for blocking of funds will be discontinued and will be replaced by the UPI payment mechanism. However, the time duration from public Offer closure to listing continues to be six working days during this phase.

Phase III: This phase has become applicable on a voluntary basis for all issues opening on or after September 1, 2023, and on a mandatory basis for all issues opening on or after December 1, 2023, vide SEBI circular bearing number SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023 ("T+3 Notification"). In this phase, the time duration from public Offer closure to listing has been reduced to three Working Days. The Offer shall be undertaken pursuant to the processes and procedures as notified in the T+3 Notification as applicable, subject to any circulars, clarification or notification issued by the SEBI from time to time, including any circular, clarification or notification which may be issued by SEBI.

The Offer is being made under Phase III of the UPI (on a mandatory basis).

All SCSBs offering facility of making application in public issues shall also provide facility to make application using the UPI Mechanism. The Issuers will be required to appoint one of the SCSBs as a sponsor bank to act as a conduit between the Stock Exchanges and NPCI in order to facilitate collection of requests and / or payment instructions of the Individual Applicants into the UPI payment mechanism.

For further details, refer to the General Information Document available on the websites of the Stock Exchanges and the Book Running Lead Manager.

Pursuant to the SEBI UPI Circular, SEBI has set out specific requirements for redressal of investor grievances for applications that have been made through the UPI Mechanism. The requirements of the SEBI UPI Circular include, appointment of a nodal officer by the SCSB and submission of their details to SEBI, the requirement for SCSBs to send

SMS alerts for the blocking and unblocking of UPI mandates, the requirement for the Registrar to submit details of cancelled, withdrawn or deleted applications, and the requirement for the bank accounts of unsuccessful Bidders to be unblocked not later than one day from the date on which the Basis of Allotment is finalised. Failure to unblock the accounts within the timeline would result in the SCSBs being penalised under the relevant securities law. Additionally, if there is any delay in the redressal of investors' complaints in this regard, the relevant SCSB as well as the post – Offer Book Running Lead Manager will be required to compensate the concerned investor.

All SCSBs offering facility of making application in public issues shall also provide facility to make application using the UPI Mechanism. The Issuers will be required to appoint one of the SCSBs as a sponsor bank to act as a conduit between the Stock Exchanges and NPCI in order to facilitate collection of requests and / or payment instructions of the Individual Applicants into the UPI payment mechanism.

The processing fees for applications made by UPI Bidders using the UPI Mechanism may be released to the remitter banks (SCSBs) only after such banks make an application as prescribed in Annexure I of SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2022/51 dated April 20, 2022 and provide a written confirmation on compliance with SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021 read with SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021.

The list of Banks that have been notified by SEBI as Issuer Banks for UPI are provided on <https://www.sebi.gov.in/sebiweb/other/OtherAction.do?doRecognisedFpi=yes&intmId=40>.

Further, pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2022/45 dated April 5, 2022, all UPI Bidders applying in public Offers where the application amount is up to ₹5,00,000 shall use the UPI Mechanism and shall also provide their UPI ID in the Bid cum Application Form submitted with any of the entities mentioned herein below:

- a syndicate member
- a stock broker registered with a recognized stock exchange (and whose name is mentioned on the website of the stock exchange as eligible for this activity) (“broker”)
- a depository participant (“DP”) (whose name is mentioned on the website of the stock exchange as eligible for this activity)
- a registrar to the Offer and shares transfer agent (“RTA”) (whose name is mentioned on the website of the stock exchange as eligible for this activity)

For further details, refer to the General Information Document to be available on the website of the Stock Exchange and the Book Running Lead Manager's.

BOOK BUILDING PROCEDURE

In case of revision in Applications, the Non-Institutional Bidders, who are individuals, have to ensure that the Application not less than 2 lots per application provided that the minimum application size shall be above ₹ 2,00,000 for being considered for allocation in the Non-Institutional Portion.

Bidders are advised to ensure that any single Application from them does not exceed the investment limits or maximum number of Equity Shares that can be held by them under applicable law or regulation or as specified in this Draft Red Herring Prospectus.

The above information is given for the benefit of the Bidders. The Company and the Book Running Lead Managers are not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of this Draft Red Herring Prospectus. Bidders are advised to make their independent investigations and ensure that the number of Equity Shares applied for do not exceed the applicable limits under laws or regulations.

METHOD OF BIDDING PROCESS

Our Company, Selling Shareholder in consultation with the Book Running Lead Manager will decide the Price Band and the minimum Bid lot size for the Issue and the same shall be advertised in English national newspaper edition of [●] (a widely circulated English National Daily Newspaper), Hindi national newspaper edition of [●] (a widely circulated Hindi National Daily Newspaper) and regional newspaper Ludhiana edition of [●] (Punjabi being the regional language of Ludhiana) where our registered office is located, each with wide circulation at least two Working Days prior to the Bid / Offer Opening Date. The Book Running Lead Manager and the SCSBs shall accept Bids from the Bidders during the Bid / Offer Period.

- a) The Bid / Offer Period shall be for a minimum of three Working Days and shall not exceed 10 Working Days. The Bid / Offer Period maybe extended, if required, by an additional three Working Days, subject to the total Bid / Offer Period not exceeding 10 Working Days. Any revision in the Price Band and the revised Bid / Offer Period, if applicable, will be published in English national newspaper edition of [●] (a widely circulated English National Daily Newspaper), Hindi national newspaper edition of [●] (a widely circulated Hindi National Daily Newspaper) and regional newspaper Ludhiana edition of [●] (Punjabi being the regional language of Ludhiana) where our registered office is located, each with wide circulation and also by indicating the change on the websites of the Book Running Lead Manager.

- b) During the Bid / Offer Period, Individual Bidders, who applies for minimum application size,, should approach the Book Running Lead Manager or their authorized agents to register their Bids. The Book Running Lead Manager shall accept Bids from Anchor Investors and ASBA Bidders in Specified Cities and it shall have the right to vet the Bids during the Bid / Offer Period in accordance with the terms of the Red Herring Prospectus. ASBA Bidders should approach the Designated Branches or the Book Running Lead Manager (for the Bids to be submitted in the Specified Cities) to register their Bids.
- c) Each Bid cum Application Form will give the Bidder the choice to Bid for up to three optional prices (for details refer to the paragraph titled “Bids at Different Price Levels and Revision of Bids” below) within the Price Band and specify the demand (i.e., the number of Equity Shares Bid for) in each option. The price and demand options submitted by the Bidder in the Bid cum Application Form will be treated as optional demands from the Bidder and will not be cumulated. After determination of the Offer Price, the maximum number of Equity Shares Bid for by a Bidder / Applicant at or above the Offer Price will be considered for allocation / Allotment and the rest of the Bid(s), irrespective of the Bid Amount, will become automatically invalid.
- d) The Bidder / Applicant cannot Bid through another Bid cum Application Form after Bids through one Bid cum Application Form have been submitted to a Book Running Lead Manager or the SCSBs. Submission of a second Bid cum Application Form to either the same or to another Book Running Lead Manager or SCSB will be treated as multiple Bid and is liable to be rejected either before entering the Bid into the electronic bidding system, or at any point of time prior to the allocation or Allotment of Equity Shares in this Offer. However, the Bidder can revise the Bid through the Revision Form, the procedure for which is detailed under the paragraph **“Build-up of the Book and Revision of Bids”**.
- e) Except in relation to the Bids received from the Anchor Investors, the Book Running Lead Manager / the SCSBs will enter each Bid option into the electronic bidding system as a separate Bid and generate a Transaction Registration Slip, (“TRS”), for each price and demand option and give the same to the Bidder. Therefore, a Bidder can receive up to three TRSs for each Bid cum Application Form.
- f) The Book Running Lead Manager shall accept the Bids from the Anchor Investors during the Anchor Investor Bid / Offer Period i.e., one working day prior to the Bid / Offer Opening Date. Bids by QIBs under the Anchor Investor Portion and the QIB Portion shall not be considered as multiple Bids.
- g) Along with the Bid cum Application Form, Anchor Investors will make payment in the manner described in “Escrow Mechanism - Terms of payment and payment into the Escrow Accounts” in the section **“Offer Procedure”** beginning on page 314 of this Draft Red Herring Prospectus.
- h) Upon receipt of the Bid cum Application Form, submitted whether in physical or electronic mode, the Designated Branch of the SCSB shall verify if sufficient funds equal to the Bid Amount are available in the ASBA Account, as mentioned in the Bid cum Application Form, prior to uploading such Bids with the Stock Exchange.
- i) If sufficient funds are not available in the ASBA Account, the Designated Branch of the SCSB shall reject such Bids and shall not upload such Bids with the Stock Exchange.
- j) If sufficient funds are available in the ASBA Account, the SCSB shall block an amount equivalent to the Bid Amount mentioned in the Bid cum Application Form and will enter each Bid option into the electronic bidding system as a separate Bid and generate a TRS for each price and demand option. The TRS shall be furnished to the ASBA Bidder on request.
- k) The Bid Amount shall remain blocked in the aforesaid ASBA Account until finalisation of the Basis of Allotment and consequent transfer of the Bid Amount against the Allotted Equity Shares to the Public Issue Account, or until withdrawal / failure of the Offer or until withdrawal / rejection of the Bid cum Application Form, as the case may be. Once the Basis of Allotment is finalized, the Registrar to the Offer shall send an appropriate request to the SCSB for unblocking the relevant ASBA Accounts and for transferring the amount allocable to the successful Bidders to the Public Issue Account. In case of withdrawal / failure of the Issue, the blocked amount shall be unblocked on receipt of such information from the Registrar to the Issue.

BIDS AT DIFFERENT PRICE LEVELS AND REVISION OF BIDS

- a) Our Company in consultation with the Book Running Lead Manager , and without the prior approval of, or intimation, to the Bidders, reserves the right to revise the Price Band during the Bid / Offer Period, in accordance

with the SEBI ICDR Regulations, provided that (i) the Cap Price shall be less than or equal to 120% of the Floor Price, (ii) the Cap Price will be at least 105% of the Floor Price, and (iii) the Floor Price shall not be less than the face value of the Equity Shares. The revision in Price Band shall not exceed 20% on the either side i.e., the floor price can move up or down to the extent of 20% of the floor price disclosed. If the revised price band decided, falls within two different price bands than the minimum application lot size shall be decided based on the price band in which the higher price falls into.

- b) Our Company in consultation with the Book Running Lead Manager, will finalize the Offer Price within the Price Band, without the prior approval of, or intimation, to the Bidders.
- c) The Bidders can Bid at any price within the Price Band. The Bidder has to Bid for the desired number of Equity Shares at a specific price. Individual Bidders, who applies for minimum application size, may Bid at the Cut-off Price. However, bidding at the Cut-off Price is prohibited for QIB and Non-Institutional Bidders and such Bids from QIB and Non-Institutional Bidders shall be rejected.
- d) Individual Bidders, who applies for minimum application size, who Bid at Cut-off Price agree that they shall purchase the Equity Shares at any price within the Price Band. Individual Bidders, who applies for minimum application size, shall submit the Bid cum Application Form along with a cheque / demand draft for the Bid Amount based on the Cap Price with the Syndicate. In case of ASBA Bidders (excluding Non-Institutional Bidders and QIB Bidders) bidding at Cut-off Price, the ASBA Bidders shall instruct the SCSBs to block an amount based on the Cap Price.
- e) The price of the specified securities offered to an anchor investor shall not be lower than the price offered to other applicants.

PARTICIPATION BY ASSOCIATES / AFFILIATES OF BOOK RUNNING LEAD MANAGER AND THE SYNDICATE MEMBERS

- c) With respect to Bids made by provident funds with a minimum corpus of ₹2500 Lakhs (subject to applicable law) and pension funds with a minimum corpus of ₹2500 Lakhs, a certified copy of a certificate from a chartered accountant certifying the corpus of the provident fund / pension fund must be lodged along with the Bid cum Application Form.
- d) With respect to Bids made by limited liability partnerships registered under the Limited Liability Partnership Act, 2008, a certified copy of certificate of registration issued under the Limited Liability Partnership Act, 2008, must be attached to the Bid cum Application Form.
- e) Our Company, Selling Shareholder in consultation with the Book Running Lead Manager in their absolute discretion, reserves the right to relax the above condition of simultaneous lodging of the power of attorney along with the Bid cum Application form, subject to such terms and conditions that our Company and the Book Running Lead Manager may deem fit.

The above information is given for the benefit of the Bidders. Our Company, Selling Shareholder, the Book Running Lead Manager and the Syndicate Members are not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of the Draft Red Herring Prospectus. Bidders are advised to make their independent investigations and Bidders are advised to ensure that any single Bid from them does not exceed the applicable investment limits or maximum number of Equity Shares that can be held by them under applicable law or regulation or as specified in the Draft Red Herring Prospectus.

BIDS BY PROVIDENT FUNDS / PENSION FUNDS

In case of Bids made by provident funds with minimum corpus of ₹25.00 Crore (subject to applicable law) and pension funds with minimum corpus of ₹25.00 Crore, a certified copy of certificate from a chartered accountant certifying the corpus of the provident fund / pension fund must be lodged along with the Bid cum Application Form. Failing this, the Company, Selling Shareholder reserves the right to accept or reject any bid in whole or in part, in either case, without assigning any reason thereof.

BIDS BY BANKING COMPANY

In case of Bids made by banking companies registered with RBI, certified copies of: (i) the certificate of registration issued by RBI, and (ii) the approval of such banking company's investment committee are required to be attached to the Bid cum Application Form, failing which our Company, Selling Shareholder reserves the right to reject any Bid by a banking company without assigning any reason.

The investment limit for banking companies in non-financial services companies as per the Banking Regulation Act, 1949, as amended (the "Banking Regulation Act"), and the Reserve Bank of India (Financial Services provided by Banks) Directions, 2016, is 10% of the paid-up share capital of the investee company not being its subsidiary engaged in non-financial services or 10% of the banks' own paid-up share capital and reserves, whichever is lower. However, a banking company would be permitted to invest in excess of 10% but not exceeding 30% of the paid-up share capital of such investee company if (i) the investee company is engaged in non-financial activities permitted for banks in terms of Section 6(1) of the Banking Regulation Act, or (ii) the additional acquisition is through restructuring of debt / corporate debt restructuring / strategic debt restructuring, or to protect the banks' interest on loans / investments made to a company. The bank is required to submit a time bound action plan for disposal of such shares within a specified period to RBI. A banking company would require a prior approval of RBI to make (i) investment in a subsidiary and a financial services company that is not a subsidiary (with certain exception prescribed), and (ii) investment in a nonfinancial services company in excess of 10% of such investee company's paid-up share capital as stated in 5(a)(v)(c)(i) of the Reserve Bank of India (Financial Services provided by Banks) Directions, 2016.

BIDS BY SCSB'S

SCSBs participating in the Offer are required to comply with the terms of the SEBI circulars dated September 13, 2012 and January 2, 2013. Such SCSBs are required to ensure that for making Bid cum Applications on their own account using ASBA, they should have a separate account in their own name with any other SEBI registered SCSBs. Further, such account shall be used solely for the purpose of making Bid cum application in public issues and clear demarcated funds should be available in such account for such Bid cum applications.

ISSUANCE OF A CONFIRMATION NOTE ("CAN") AND ALLOTMENT IN THE ISSUE

1. Upon approval of the basis of allotment by the Designated Stock Exchange, the Book Running Lead Manager or Registrar to the Offer shall send to the SCSBs a list of their Bidders who have been allocated Equity Shares in the Offer.
2. The Registrar will then dispatch a CAN to their Bidders who have been allocated Equity Shares in the Offer. The dispatch of a CAN shall be deemed a valid, binding and irrevocable contract for the Bidder.

OFFER PROCEDURE FOR APPLICATION SUPPORTED BY BLOCKED ACCOUNT (ASBA) BIDDERS

In accordance with the SEBI Circular No. CIR/CFD/POLICYCELL/11/2015 dated November 10, 2015, all the Bidders have to compulsorily apply through the ASBA Process. Our Company and the Book Running Lead Manager are not liable for any amendments, modifications, or changes in applicable laws or regulations, which may occur after the date of this Draft Red Herring Prospectus. ASBA Bidders are advised to make their independent investigations and to ensure that the ASBA Bid Cum Application Form is correctly filled up, as described in this section.

The lists of banks that have been notified by SEBI to act as SCSB (Self Certified Syndicate Banks) for the ASBA Process are provided on <https://www.sebi.gov.in/sebiweb/other/OtherAction.do?doRecognised=yes> . For details on designated branches of SCSB collecting the Bid Cum Application Form, please refer the above-mentioned SEBI link.

TERMS OF PAYMENT

The entire Offer price of ₹ [●] per share is payable on application. In case of allotment of lesser number of Equity Shares than the number applied, the Registrar shall instruct the SCSBs to unblock the excess amount paid on Application to the Bidders.

SCSBs will transfer the amount as per the instruction of the Registrar to the Public Issue Account, the balance amount after transfer will be unblocked by the SCSBs.

The Bidders should note that the arrangement with Bankers to the Offer or the Registrar is not prescribed by SEBI and has been established as an arrangement between our Company, Selling Shareholder, Banker to the Offer and the Registrar to the Offer to facilitate collections from the Bidders.

PAYMENT MECHANISM

The Bidders shall specify the bank account number in their Bid Cum Application Form and the SCSBs shall block an amount equivalent to the Application Amount in the bank account specified in the Bid Cum Application Form. The SCSB shall keep the Application Amount in the relevant bank account blocked until withdrawal / rejection of the Application or receipt of instructions from the Registrar to unblock the Application Amount. However, Non-Retail Bidders shall neither withdraw nor lower the size of their applications at any stage. In the event of withdrawal or rejection of the Bid Cum Application Form or for unsuccessful Bid Cum Application Forms, the Registrar to the Offer shall give instructions to the SCSBs to unblock the application money in the relevant bank account within one day of receipt of such instruction. The Application Amount shall remain blocked in the ASBA Account until finalization of the Basis of Allotment in the Offer and consequent transfer of the Application Amount to the Public Issue Account, or until withdrawal / failure of the Offer or until rejection of the Application by the ASBA Bidder, as the case may be.

Please note that, in terms of SEBI Circular No. CIR/CFD/POLICYCELL/11/2015 dated November 10, 2015 and the SEBI (Issue of Capital and Disclosure Requirements) Regulations, 2018, all the investors applying in a public offer shall use only Application Supported by Blocked Amount (ASBA) process for application providing details of the bank account which will be blocked by the Self-Certified Syndicate Banks (SCSBs) for the same. Further, pursuant to SEBI Circular No. SEBI/HO/CFD/DIL2/CIR/P/2018/138 dated November 01, 2018, Individual Investors applying in public offer have to use UPI as a payment mechanism with Application Supported by Blocked Amount for making application.

PAYMENT INTO ESCROW ACCOUNT FOR ANCHOR INVESTORS

All the investors other than Anchor Investors are required to bid through ASBA Mode. Anchor Investors are requested to note the following:

Our Company, Selling Shareholder in consultation with the Book Running Lead Manager, in its absolute discretion, will decide the list of Anchor Investors to whom the CAN will be sent, pursuant to which the details of the Equity Shares allocated to them in their respective names will be notified to such Anchor Investors. For Anchor Investors, the payment instruments for payment into the Escrow Account should be drawn in favour of:

- a) In case of resident Anchor Investors: — “[●]”
- b) In case of Non-Resident Anchor Investors: — “[●]”
- c) Bidders should note that the escrow mechanism is not prescribed by SEBI and has been established as an arrangement between our Company, the Syndicate, the Escrow Collection Bank and the Registrar to the Offer to facilitate collections from the Anchor Investors.

- The Registrar to the Offer shall give instruction to the SCSB for unblocking the ASBA Account on the Designated Date. QIBs and NIIs can neither withdraw nor lower the size of their Bids at any stage.

PRICE DISCOVERY AND ALLOCATION

- Based on the demand generated at various price levels, our Company, Selling Shareholder in consultation with the Book Running Lead Manager, shall finalise the Offer Price and the Anchor Investor Offer Price.
- The SEBI ICDR Regulations, 2018 specify the allocation or Allotment that may be made to various categories of Bidders in an Offer depending on compliance with the eligibility conditions. Certain details pertaining to the percentage of Offer size available for allocation to each category is disclosed overleaf of the Bid cum Application Form and in the Red Herring Prospectus. For details in relation to allocation, the Bidder may refer to the Red Herring Prospectus.
- Under-subscription in any category (except QIB Category) is allowed to be met with spill over from any other category or combination of categories at the discretion of the Issuer and the in consultation with the Book Running Lead Manager and the Designated Stock Exchange and in accordance with the SEBI ICDR Regulations. Unsubscribed portion in QIB Category is not available for subscription to other categories.
- In case of under subscription in the Offer, spill-over to the extent of such under-subscription may be permitted from the Reserved Portion to the Offer. For allocation in the event of an undersubscription applicable to the Issuer, Bidders may refer to the Red Herring Prospectus.
- In case if the Individual Investor category is entitled to more than the allocated portion on proportionate basis, the category shall be allotted that higher percentage.
- Allocation to Anchor Investors shall be at the discretion of our Company, Selling Shareholder and in consultation with the Book Running Lead Manager, subject to compliance with the SEBI Regulations.

Illustration of the Book Building and Price Discovery Process: Bidders should note that this example is solely for illustrative purposes and is not specific to the Offer; it also excludes Bidding by Anchor Investors. Bidders can bid at any price within the Price Band. For instance, assume a Price Band of ₹20 to ₹24 per share, offer size of 3,000 Equity Shares and receipt of five Bids from Bidders, details of which are shown in the table below. The illustrative book given below shows the demand for the Equity Shares of the Issuer at various prices and is collated from Bids received from various investors.

Bid Quantity	Bid Amount (₹)	Cumulative Quantity	Subscription
500	24	500	16.67%
1,000	23	1,500	50.00%
1,500	22	3,000	100.00%
2,000	21	5,000	166.67%
2,500	20	7,500	250.00%

The price discovery is a function of demand at various prices. The highest price at which the Issuer is able to Offer the desired number of Equity Shares is the price at which the book cuts off, i.e., ₹22.00 in the above example. The Issuer, in consultation with the Book Running Lead Manager, may finalise the Offer Price at or below such Cut-Off Price, i.e., at or below ₹22.00. All Bids at or above this Offer Price and cut-off Bids are valid Bids and are considered for allocation in the respective categories.

BASIS OF ALLOCATION

- The SEBI (ICDR) Regulations specify the allocation or Allotment that may be made to various categories of Bidders in an Offer depending on compliance with the eligibility conditions. Certain details pertaining to the percentage of Offer size available for allocation to each category is disclosed overleaf of the Bid cum Application Form and in the Draft Red Herring Prospectus. For details in relation to allocation, the Bidder may refer to the Red Herring Prospectus.

- Under-subscription in any category (except QIB Category) is allowed to be met with spill over from any other category or combination of categories at the discretion of the Issuer and in consultation with the Book Running Lead Manager and the Designated Stock Exchange and in accordance with the SEBI (ICDR) Regulations, Unsubscribed portion in QIB Category is not available for subscription to other categories.
- In case of under subscription in the Offer, spill-over to the extent of such under- subscription may be permitted from the Reserved Portion to the Offer. For allocation in the event of an under-subscription applicable to the Issuer, Bidders may refer to the Red Herring Prospectus.

ALLOTMENT PROCEDURE

The Allotment of Equity Shares to Bidders other than Individual Investors and Anchor Investors may be on proportionate basis. For Basis of Allotment to Anchor Investors, Bidders may refer to Red Herring Prospectus. No Individual Investor will be Allotted less than the minimum Bid Lot subject to availability of shares in Individual Investor Category and the remaining available shares, if any will be Allotted on a proportionate basis. The Issuer is required to receive a minimum subscription of 90% of the Offer. However, in case the Offer is in the nature of Offer for Sale only, then minimum subscription may not be applicable

Flow of Events from the closure of bidding period (T DAY) Till Allotment:

1. On T Day, RTA to validate the electronic bid details with the depository records and also reconcile the final certificates received from the Sponsor Bank for UPI process and the SCSBs for ASBA and Syndicate ASBA process with the electronic bid details.
2. RTA identifies cases with mismatch of account number as per bid file / Final Certificate and as per applicant's bank account linked to depository demat account and seek clarification from SCSB to identify the applications with third party account for rejection.
3. Third party confirmation of applications to be completed by SCSBs on T+1 day.
4. RTA prepares the list of final rejections and circulate the rejections list with Book Running Lead Manager (s)/ Company for their review/ comments.
5. Post rejection, the RTA submits the basis of allotment with the Designated Stock Exchange (DSE).
6. The Designated Stock Exchange (DSE), post verification approves the basis and generates drawal of lots wherever applicable, through a random number generation software.
7. The RTA uploads the drawal numbers in their system and generates the final list of allottees as per process mentioned below:

Process for generating list of allottees: -

- a) Instruction is given by RTA in their Software System to reverse category wise all the application numbers in the ascending order and generate the bucket /batch as per the allotment ratio. For example, if the application number is 78654321 then system reverses it to 12345687 and if the ratio of allottees to applicants in a category is 2:7 then the system will create lots of 7. If the drawal of lots provided by Designated Stock Exchange (DSE) is 3 and 5 then the system will pick every 3rd and 5th application in each of the lot of the category and these applications will be allotted the shares in that category.
- b) In categories where there is proportionate allotment, the Registrar will prepare the proportionate working based on the oversubscription times.
- c) In categories where there is undersubscription, the Registrar will do full allotment for all valid applications.
- d) On the basis of the above, the RTA will work out the allottees, partial allottees and non- allottees, prepare the fund transfer letters and advice the SCSBs to debit or unblock the respective accounts.

BASIS OF ALLOTMENT

Allotment will be made in consultation with the National Stock Exchange of India Limited. In the event of oversubscription, the allotment will be made on a proportionate basis in marketable lots as set forth here:

1. The total number of Shares to be allocated to each category as a whole shall be arrived at on a proportionate basis i.e. the total number of Shares applied for in that category multiplied by the inverse of the over subscription ratio (number of applicants in the category X number of Shares applied for).
2. The number of Shares to be allocated to the successful applicants will be arrived at on a proportionate basis in marketable lots (i.e. Total number of Shares applied for into the inverse of the over subscription ratio).
 - a) For applications where the proportionate allotment works out to less than [●] equity shares the allotment will be made as follows:
 1. Each successful applicant shall be allotted [●] equity shares; and
 2. The successful applicants out of the total applicants for that category shall be determined by the drawl of lots in such a manner that the total number of Shares allotted in that category is equal to the number of Shares worked out as per (2) above.
 - b) If the proportionate allotment to an applicant works out to a number that is not a multiple of [●] equity shares, the applicant would be allotted Shares by rounding off to the nearest multiple of [●] equity shares subject to a minimum allotment of [●] equity shares.
 - c) If the Shares allotted on a proportionate basis to any category is more than the Shares allotted to the applicants in that category, the balance available Shares for allocation shall be first adjusted against any category, where the allotted Shares are not sufficient for proportionate allotment to the successful applicants in that category, the balance Shares, if any, remaining after such adjustment will be added to the category comprising of applicants applying for the minimum number of Shares. If as a result of the process of rounding off to the nearest multiple of [●] equity shares, results in the actual allotment being higher than the shares offered, the final allotment may be higher at the sole discretion of the Board of Directors, up to 110% of the size of the offer specified under the Capital Structure mentioned on page 72 Draft Red Herring Prospectus.
 - d) The above proportionate allotment of shares in an Offer that is oversubscribed shall be subject to the reservation for small individual applicants as described below:
 1. As the Individual Investor category is entitled to more than fifty percent on proportionate basis, the Individual Investors shall be allocated that higher percentage.
 2. The balance net offer of shares to the public shall be made available for allotment to
 - a. Individual applicants other than retails individual investors and
 - b. Other investors, including Corporate Bodies/ Institutions irrespective of number of shares applied for.
 3. The unsubscribed portion of the net offer to any one of the categories specified in a) or b) shall/may be made available for allocation to applicants in the other category, if so required.

Individual Investor' means an investor who applies for shares of value of not less than ₹ 2,00,000.00. Investors may note that in case of over subscription allotment shall be on proportionate basis and will be finalized in consultation with National Stock Exchange of India Limited.

RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991 of the Government of India and Foreign Exchange Management Act, 1999 ("FEMA"). While the Industrial Policy, 1991 prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. Under the Industrial Policy, unless specifically restricted, foreign investment is freely permitted in all sectors of Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. The government bodies responsible for granting foreign investment approvals are the Reserve Bank of India ("RBI") and Department of Industrial Policy and Promotion, Ministry of Commerce and Industry, Government of India ("DIPP").

The Government of India has from time to time made policy pronouncements on FDI through press notes and press releases. The DPIIT issued the Consolidated Foreign Direct Investment Policy notified by the DPIIT File No. 5(2) / 2020-FDI Policy dated October 15, 2020, with effect from October 15, 2020 (the "FDI Policy"), which consolidates and supersedes all previous press notes, press releases and clarifications on FDI issued by the DPIIT or the DPIIT that were in force and effect prior to October 15, 2020. The Government of India proposes to update the consolidated circular on FDI Policy once every year and therefore, the FDI Policy will be valid until the DPIIT issues an updated circular.

The RBI also issues Master Circular on Foreign Investment in India every year. Presently, FDI in India is being governed by Master Circular on Foreign Investment dated July 01, 2015, as updated from time to time by RBI and Master Direction– Foreign Investment in India (updated up to March 08, 2019). In terms of the Master Circular, an Indian company may issue fresh shares to people resident outside India (who is eligible to make investments in India, for which eligibility criteria are as prescribed). Such a fresh issue of shares shall be subject to inter-alia, the pricing guidelines prescribed under the Master Circular and Master Direction. The Indian company making such fresh issue of shares would be subject to the reporting requirements, inter-alia with respect to consideration for issue of shares and also subject to making certain filings including filing of Form FC-GPR.

In case of investment in sectors through Government Route, approval from competent authority as mentioned in Section 4 of the FDI Policy 2020 has to be obtained. The transfer of shares between an Indian resident to a non-resident does not require the prior approval of the RBI, subject to fulfilment of certain conditions as specified by DIPP / RBI, from time to time.

As per the existing policy of the Government of India, OCBs cannot participate in this Offer and in accordance with the extant FDI guidelines on sectoral caps, pricing guidelines etc. as amended by Reserve bank of India, from time to time. Investors are advised to confirm their eligibility under the relevant laws before investing and / or subsequent purchase or sale transaction in the Equity Shares of our Company. Investors will not offer, sell, pledge, or transfer the Equity Shares of our Company to any person who is not eligible under applicable laws, rules, regulations, guidelines. Our Company, the Underwriters and their respective directors, officers, agents, affiliates, and representatives, as applicable, accept no responsibility or liability for advising any investor on whether such investor is eligible to acquire Equity Shares of our Company.

In terms of the FEMA NDI Rules, a person resident outside India may make investments into India, subject to certain terms and conditions, and provided that an entity of a country, which shares land border with India or the beneficial owner of an investment into India who is situated in or is a citizen of any such country, shall invest only with government approval.

The transfer of shares between an Indian resident and a non-resident does not require the prior approval of the RBI, provided that

- (i) the activities of the investee company are under the automatic route under the foreign direct investment policy and transfer does not attract the provisions of the Takeover Regulations;
- (ii) the non-resident shareholding is within the sectoral limits under the FDI policy; and
- (iii) the pricing is in accordance with the guidelines prescribed by the SEBI / RBI.

Further, in accordance with Press Note No. 3 (2020 Series), dated April 17, 2020 issued by the DPIIT and the Foreign Exchange Management (Non-debt Instruments) Amendment Rules, 2020 which came into effect from April 22, 2020, any investment, subscription, purchase or sale of equity instruments by entities of a country which shares land border with India or where the beneficial owner of an investment into India is situated in or is a citizen of any such country ("Restricted Investors"), will require prior approval of the Government, as prescribed in the Consolidated FDI Policy and the FEMA Rules. Further, in the event of transfer of ownership of any existing or future foreign direct investment in an

entity in India, directly or indirectly, resulting in the beneficial ownership falling within the aforesaid restriction / purview, such subsequent change in the beneficial ownership will also require approval of the Government. Furthermore, on April 22, 2020, the Ministry of Finance, Government of India has also made a similar amendment to the FEMA Rules. Pursuant to the Foreign Exchange Management (Non-debt Instruments) (Fourth Amendment) Rules, 2020, a multilateral bank or fund, of which India is a member, shall not be treated as an entity of a particular country nor shall any country be treated as the beneficial owner of the investments of such bank or fund in India. Each Bidder should seek independent legal advice about its ability to participate in the Offer. In the event such prior approval of the Government of India is required, and such approval has been obtained, the Bidder shall intimate our Company and the Registrar to the Offer in writing about such approval along with a copy thereof within the Offer Period.

As per the existing policy of the Government of India, OCBs cannot participate in this Offer and in accordance with the extant FDI guidelines on sectoral caps, pricing guidelines etc. as amended by Reserve bank of India, from time to time. Investors are advised to confirm their eligibility under the relevant laws before investing and / or subsequent purchase or sale transaction in the Equity Shares of our Company. Investors will not offer, sell, pledge or transfer the Equity Shares of our Company to any person who is not eligible under applicable laws, rules, regulations, guidelines. Our Company, the Underwriters and their respective directors, officers, agents, affiliates and representatives, as applicable, accept no responsibility or liability for advising any investor on whether such investor is eligible to acquire Equity Shares of our Company.

INVESTMENT CONDITIONS / RESTRICTIONS FOR OVERSEAS ENTITIES

Under the current FDI Policy 2020, the maximum amount of Investment (sectoral cap) by foreign investor in an issuing entity is composite unless it is explicitly provided otherwise including all types of foreign investments, direct and indirect, regardless of whether it has been made for FDI, FPI, NRI / OCI, LLPs, FVCI, Investment Vehicles and DRs under Foreign Exchange Management. (Non-debt Instruments) Rules, 2019. Any equity holding by a person resident outside India resulting from conversion of any debt instrument under any arrangement shall be reckoned as foreign investment under the composite cap.

Portfolio Investment upto aggregate foreign investment level of 49% or sectoral / statutory cap, whichever is lower, will not be subject to either Government approval or compliance of sectoral conditions, if such investment does not result in transfer of ownership and / or control of Indian entities from resident Indian citizens to non-resident entities. Other foreign investments will be subject to conditions of Government approval and compliance of sectoral conditions as per FDI Policy. The total foreign investment, direct and indirect, in the issuing entity will not exceed the sectoral / statutory cap.

INVESTMENT BY FPIS UNDER PORTFOLIO INVESTMENT SCHEME (PIS)

With regards to purchase / sale of capital instruments of an Indian company by an FPI under PIS the total holding by each FPI or an investor group as referred in SEBI (FPI) Regulations, 2014 shall not exceed 10% of the total paid-up equity capital on a fully diluted basis or less than 10% of the paid-up value of each series of debentures or preference shares or share warrants issued by an Indian company and the total holdings of all FPIs put together shall not exceed 24% of paid-up equity capital on fully diluted basis or paid-up value of each series of debentures or preference shares or share warrants. The said limit of 10% and 24% will be called the individual and aggregate limit, respectively. However, this limit of 24% may be increased up to sectoral cap / statutory ceiling, as applicable, by the Indian company concerned by passing a resolution by its Board of Directors followed by passing of a special resolution to that effect by its general body.

INVESTMENT BY NRI OR OCI ON REPATRIATION BASIS

FORFEITURE OF SHARES		
47.	If a member fails to pay any call, or installment of a call or any money due in respect of any share, on the day appointed for payment thereof, the Board may, at any time thereafter during such time as any part of the call or installment remains unpaid or a judgment or decree in respect of thereof remains unsatisfied in whole or in part, serve a notice on him requiring payment of so much of the call or installment or other money as is unpaid, together with any interest which may have accrued and all expenses that may have been incurred by the Company by reason of such non payment.	<p>If Call or installment not paid notice must be given</p>
48.	<p>The notice aforesaid shall—</p> <p>(a) name a further day (not being earlier than the expiry of fourteen days from the date of service of the notice) on or before which the payment required by the notice is to be made; and</p> <p>(b) state that, in the event of non-payment on or before the day so named, the shares in respect of which the call was made shall be liable to be forfeited.</p>	<p>Form of Notice</p>
49.	If the requirements of any such notice as aforesaid are not complied with, any share in respect of which the notice has been given may, at any time thereafter, before the payment required by the notice has been made, be forfeited by a resolution of the Board to that effect. Such forfeiture shall include all dividends declared in respect of the forfeited share not actually paid before the forfeiture.	<p>In default of payment of shares to be forfeited</p>
50.	Neither the receipt by the Company for a portion of any money which may from time to time be due from any member in respect of his shares, nor any indulgence that may be granted by the Company in respect of payment of any such money, shall preclude the Company from thereafter proceeding to enforce a forfeiture in respect of such shares as herein provided. Such forfeiture shall include all dividends declared or any other moneys payable in respect of the forfeited shares and not actually paid before the forfeiture.	<p>Receipt of part amount or grant of indulgence not to affect forfeiture</p>
51.	Where any share shall have been so forfeited, notice of the forfeiture shall be given to	<p>Entry of forfeiture</p>
